The City of Boston, acting by and through the Boston Housing Authority, in accordance with the provisions of chapter 372 of the Massachusetts Acts of 1946, office, Room 1220, 10 Post Office square, Boston, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for bituminous surfacing and other work in Veterans' Housing Development, Franklin Field, Dorchester, Boston, Mass.

A bond will be required for doing the work of a surety company approved by the Boston Housing Authority in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 1220, 10 Post Office square, Boston. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Bituminous Surfacing and Other Work in Veterans' Housing Development, Franklin Field, Dorchester, Boston, Mass.," and left at Room 1220, 10 Post Office square, Boston, before 1 p. m. of July 9, 1947, with a certified check for 5 per cent of the amount of the proposal, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening of bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Boston Housing Authority to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Boston Housing Authority. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as it deems best.

FIRE DEPARTMENT.

INVITATION FOR PROPOSALS FOR THE ERECTION OF FIRE STATION, ENGINE 5, LADDER 24, 392 HANOVER STREET, AT CHARTER STREET, NORTH END, BOSTON.

The Fire Commissioner of the City of Boston, 60 Bristol street, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for the erection of a fire station, Engine 5, Ladder 24, at 392 Hanover street, at Charter street, North End, Boston.

Proposals will be received until 12 o'clock noon, Friday, July 11, at the office of the Awarding Authority, 60 Bristol street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston, in the sum of \$3,000, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 24, a schedule of which appears in the specifications.

The successful bidder will be required to provide for insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained at the office of the Awarding Authority, 60 Bristol street, Boston. A deposit of \$50 in cash or a certified check will be required for each set of plans and specifications, and this deposit will be returned to bidders, upon receipt of said plans and specifications in good condition, by the Awarding Authority.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All sub-bidders' proposals must be in the possession of the Awarding Authority, and delivered or mailed to the general bidder no later than 12 o'clock noon, Tuesday, July 8, 1947.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each sub-bidder, with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all sub-bids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 39

SATURDAY, JULY 5, 1947.

No. 27

BOSTON'S TAX RATE FOR 1947 ANNOUNCED AS \$46.50 PER THOUSAND BY BOARD OF ASSESSORS — IN STATEMENT THE BOARD CITES AS REASONS INCREASES GRANTED BY LEGISLATURE WITHOUT PROVIDING MEANS FOR RAISING REVENUE TO OFFSET SAME; INCREASE IN COST OF COMMODITIES, EQUIPMENT, ETC.; FEDERAL PROHIBITION OF HEAVY CONSTRUCTION; AND ASSESSMENT OMISSIONS — ASSESSED VALUATION FIXED AT \$1,558,610,900, ALL BUT \$148,571,800 OF WHICH IS ON REAL ESTATE — MAINTENANCE REQUIREMENTS, UP OVER FIGURES FOR 1946, AIDED IN INCREASE.

The Board of Assessors of Boston on June 30 announced that the tax rate for 1947 had been set at \$46.50 per each thousand dollars of valuation.

The chief reasons for the increase in the rate are:

1. Increases granted in salaries by the Legislature without provision for raising revenues to offset the same.
2. Increase in cost of commodities of every character, including replacement of equipment resulting from failure to make such replacement during the war years.
3. Federal prohibition of heavy construction, taxation upon which must be deferred until 1948.
4. Omission from the tax rolls of assessments upon wool, the taxable situs of which has long been disputed; the omission, likewise, of assessments on personal property of certain insurance companies declared by the courts to be exempt from taxation.

The assessed valuation of the city is \$1,558,610,900, of which \$1,410,039,100 is real estate and \$148,571,800 is personal estate. The number of persons assessed for poll tax is 260,487.

The increase in assessed valuation over the 1946 figure is \$22,225,300, of which \$20,863,900 is increase upon real estate and \$1,361,400 is increase upon personal estate.

For perhaps the first time in a generation, the Board of Assessors met with their field and supervising assessors and office supervisors in bimonthly gatherings during the early months of the year. Assessors were urged to observe and report more carefully than heretofore the matter of property valuations. They were urged to confer frequently with their supervisors to get the advantage of all possible experience. As a result, the continued strong nature of business and industrial properties not subject to restricted freezings of income has resulted in what the Board of Assessors earnestly feel is a completely sound and justified total property valuation increase of approximately \$22,200,000. This has decreased the possible rate approximately sixty cents.

Total Appropriations.

The total appropriations of the city were \$95,613,337. City maintenance requirements increased \$7,590,192.73 over the 1946 figure. Other increases were county maintenance requirements, \$421,899.92, school budget, \$2,003,557.39. The city debt requirements decreased \$510,114.41 below the 1946 figure. County debt decreased \$4,030. School debt decreased \$14,181.25. Pension accumulation fund decreased \$854,487. Appropriation factors, before consideration of revenue factors, indicated an increased tax rate of \$7.05 above the 1946 figure.

Revenue factors, however, provided receipts of \$6,130,643.14 over the 1946 revenue. Estimated city revenue was \$870,000 higher than the previous year. Other increased revenue included state income tax, \$1,829,267.74; corporation taxes, \$639,994.58; state-owned lands, \$51,197.36; motor vehicle tax, \$125,000.

By a practical application of the surplus in the books of the city, Charles J. Fox, City Auditor, secured approval of the Tax Commissioner for the use as a credit in the computation of the tax rate the sum of \$2,386,206.50 as an offset against overlay deficits for the years 1937-1945. The presence of this surplus in the city treasury enabled the city to refrain from emergency borrowing.

NO FURTHER SUPPLEMENTARY APPROPRIATIONS FOR DEPARTMENTAL NEEDS MAY BE MADE FOR THIS YEAR—JOHN B. HYNES, TEMPORARY MAYOR, WARNS DEPARTMENT HEADS OF HIS DETERMINATION TO HAVE THEM STAY WITHIN LIMITS ON WHICH TAX RATE FOR THIS YEAR HAS BEEN FIXED—FOR REMAINDER OF YEAR WORK PROGRAMS ARE TO BE CONDUCTED ON UNEXPENDED BALANCES NOW AVAILABLE—HAS CONFERENCE ON MATTER IN HIS OFFICE AND EXPLAINS NECESSITY COMPELLING HIS DECISION.

The following is the speech made by Temporary Mayor John B. Hynes at a meeting of the department heads in his office at 11 a. m. on July 2:

Among the most difficult and troublesome problems facing the head of the city is the handling of Personal Service recommendations submitted by department heads. The problem is complicated by the fact that the parties involved consider the recommendations from different points of view. The department head and the individual employee involved regard the recommendation merely in so far as it concerns their particular and individual interests, whereas the Mayor must consider each recommendation in the light of its relationship to and effect on the entire personnel of the city. Like the ever-expanding ripples which develop in a pond after a stone or missile is thrown therein, the repercussions developing from approval of Personal Service recommendations by the Mayor very often extend and reach far beyond the department and individual employee concerned.

In order that I may act intelligently and with justice on all recommendations of this character, it is my intention to rely to a major degree on the Budget Commissioner, who is the personnel officer of the city. I therefore suggest that all personnel matters arising in your various departments be taken up with the Budget Commissioner before any official action is taken. This means that all requisitions on Civil Service for the certification of names to fill vacancies must be routed through the Budget Department. I have made arrangements with the Civil Service Commissioner not to give any consideration to a requisition which lacks the signature of the Budget Commissioner. In setting up this year's budget, an appendix was added, showing for each department the various positions provided in the budget allowance for A-1, and it is my desire that these departmental schedules be strictly observed. All recommendations for salary increases must be cleared with the Budget Commissioner before they will receive my official consideration. It is my intention to rely fully on the Budget Commissioner's recommendations in all personnel matters, since his department has the information and the records on which intelligent and sound decisions may be based.

DEPARTMENTAL BUDGET APPROPRIATIONS.

With the declaration of the tax rate, no further supplementary appropriations for departmental needs may be made. This means that, for the remaining half of this fiscal year, departments must conduct their work programs on the unexpended budget balances now available. I want each department head to acquaint himself immediately with the condition of his departmental budget and plan his work for the balance of the year so as to assure living within the balances now available. In this respect, I feel it desirable to emphasize the necessity for strict compliance with the disbursement system of the city, under which no commitment should be entered into by any department until the purchase order or service order relating to such commit-

ment is approved in the Auditor's office as to availability of appropriation. I desire that confirming orders should be limited to emergency situations which require immediate action. I request, therefore, that every department head conform closely to the disbursement system of the city.

SECTION 30 OF THE CITY CHARTER.

Under this section department heads are required in connection with purchases or work involving the expenditure of over \$1,000 to invite proposals by advertisements in the *City Record*, unless the written approval of the Mayor is secured to dispense with such advertising. The Supreme Court of the Commonwealth has ruled on more than one occasion that the intent of this provision was to give the city the benefits which result from competitive bidding. I see no reason to question this ruling of the ultimate legal authority of the Commonwealth. I therefore desire that this provision of the City Charter be strictly observed and that any requests to dispense with advertising on purchases or work in excess of \$1,000 be limited to strict and unquestionable emergencies. If any question exists in the mind of any department head as to the proper application of this Charter provision, I suggest that the opinion of the City Auditor be secured before any official action is taken.

DEPARTMENTAL EQUIPMENT.

The City Council, in considering the recommendation of Mayor Curley for a Departmental Equipment loan of \$2,000,000, finally approved an appropriation of \$1,420,000. In order to ascertain whether this amount will be sufficient to meet department requirements, I have requested the Budget Commissioner to make a survey of equipment needs and to present to me at the end of the survey a schedule indicating departmental allotments to be made. I will appreciate it, therefore, if you will immediately start a review of the needs of your individual departments in this respect and be prepared to submit, at the earliest possible moment, to the Budget

Commissioner an itemized schedule, showing items and approximate costs of the equipment which you desire to secure for your departments.

BUILDING LOAN.

In this year's budget, provision was made for the down payment required under existing statute to support the authorization of the construction of necessary departmental buildings. No loan recommendation of this character has as yet been submitted to the Council. In order to guide me in the preparation of a recommendation to the City Council, I suggest that all departments requiring additional building facilities prepare at once a report setting forth their needs in this respect and submit such report forthwith to the Budget Commissioner.

BOSTON'S MAYOR MAKES ARRANGEMENTS FOR SUPPLYING MILK THROUGHOUT THE CITY DURING SUNDAYS.

Mayor John B. Hynes, in cooperation with the Health Commissioner of the City of Boston, has made arrangements with a large group of wholesale milk distributors in order that milk may be made available on Sundays during the summer. It will now be possible for all the citizens of Boston, under existing facilities, to obtain an adequate supply of milk from their retail distributor with as little inconvenience as possible.

The following milk concerns have agreed to deliver milk to individuals and to wholesale customers at certain stations, on Sundays, as follows:

Martin S. Cosgrove, 82 Park street, Dorchester.

J. F. Cashin Company, 526 East Fifth street, South Boston.

Shawmut Dairy, Inc., 155 Addison street, East Boston.

McCarthy Brothers Milk Company, Inc., 72 Linden Park street, Roxbury.

H. P. Hood & Sons, Inc., 500 Rutherford avenue, Charlestown.

H. P. Hood will also open stations in Dorchester, Forest Hills, Brighton, and Orient Heights in order to make milk available at retail and for wholesale accounts on Sundays. The addresses of these stations will be announced later.

United Farmers of New England, Inc., 88 Cambridge street, Charlestown.

United Farmers will also open other stations, the addresses of which will be announced later.

In addition to these dealers agreeing to remain open for the sale of milk on a retail basis at their locations, the wholesalers have also made arrangements whereby they will notify all concerns, who are normally open on Sundays, that should their supply of milk become exhausted, they will furnish the retailer additional milk.

These facilities which have been made available through Mayor Hynes will be a source of convenience to many parents in the city who have the responsibility of furnishing children with an adequate supply of milk which at times in the past has been difficult to obtain.

NO RADICAL CHANGES BY MAYOR HYNES.

His Honor the Mayor, John B. Hynes on June 27, issued the following statement:

At the present time, I contemplate no immediate or radical changes in policy or official personnel.

As I view it, my authorization as Temporary Mayor charges me with the duty of keeping the wheels of the city government moving in the right direction, with as little friction and with as much efficiency as is possible.

I will meet each situation as it arises and endeavor to dispose of it to the best interests of the city.

POLICE DEPARTMENT ORDERS.

General Order No. 916.

The following Police Rule is quoted for the information of the department:

"Rule 6.

"The secretary shall perform such duties, keep such records, issue such notices and attest such papers and orders as the Commissioner shall direct."

All previous rules and orders, relating to duties of the secretary, are hereby revoked.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 917.

Acting under provisions of chapter 658, Acts of 1945 (State-Boston Retirement System), the Boston Retirement Board has approved for retirement on account of ordinary disability, the following-named police officer; effective at the close of business, Monday, June 30, 1947.

Wherefore, In view of this operation of law, after June 30, 1947, the said police officer shall no longer be an active member of this department, and it is hereby ordered that its records be so amended.

Patrolman John J. Buckley, Traffic Division.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

FIRE DEPARTMENT ORDERS.

General Order No. 45.

MAYOR'S CHARITY FIELD NIGHT.

His Honor John B. Hynes, Temporary Mayor, has requested that all city employees give their customary generous support to the Annual Charity Field Night for the Special Welfare Fund to be held at Braves Field on Thursday evening, July 24, 1947. Everyone who purchases tickets is contributing aid for various charitable purposes for which the city, under existing law, is unable to make direct contributions. A program of sports and vaudeville has been arranged for the evening. A 1947 model, 5-passenger automobile will be presented to the holder of the lucky ticket number. Other valuable prizes will also be awarded.

Tickets have been popularly priced at \$1.20, including 20 cents Federal tax, and the Temporary Mayor has given his hearty endorsement and support to the affair. In order that members of the department may give their assistance to the cause, tickets have been placed in the hands of every district chief and division head today, and they will interview each member of their commands as to his wishes in purchasing tickets. All returns must be made to Miss Eleanor J. Cuniff at the office of the Fire Commissioner on or before Friday, July 18, 1947. Delivery of money at Headquarters may be made on any week day, except Saturday, between the hours of 9 and 11 a. m.

Members purchasing tickets should fill out the stub attached to each ticket and give it to the district chief or division head who will see that all stubs are

returned to the Fire Commissioner's office not later than July 18, 1947. Thus, purchasers will participate in the drawing for the 1947 automobile.

It is hoped that all members of the Fire Department will support this most worthy endeavor. Additional tickets may be obtained at department Headquarters.

Inasmuch as the Field Day will probably be given publicity through the medium of radio and press, the public may desire to purchase tickets at fire stations. A few tickets should be kept on hand at each station for this purpose.

Reserved seats at \$1.50 and box seats at \$2.50 may be secured from the City Treasurer, City Hall.

By order of Acting Fire Commissioner
NAPEEN BOUTILIER.

WILLIAM F. QUIGLEY,
Acting Chief of Department.

By order of Acting Fire Commissioner
NAPEEN BOUTILIER.

LOUIS C. STICKEL,
Acting Chief of Department.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Keystone street and Wright road, West Roxbury district, with the name of Keystone street or some other distinctive name, from Glenhaven road, over a portion of North avenue, to Upland street, as a highway, bounded and described as follows:

A highway named Keystone street is hereby laid out, from Glenhaven road,

over a portion of North avenue and over Wright road, to Upland street, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northerly by Glenhaven road, forty-three and 46-100 feet; easterly by the easterly line of said Keystone street as hereby laid out, by five measurements, nine hundred forty-one and 9-100 feet, forty-six and 29-100 feet, two hundred feet on a curve of twelve hundred twenty-six and 14-100 feet radius, fifty-five and 32-100 feet, four hundred thirty-nine and 16-100 feet on a curve of seven hundred and twenty-nine feet radius, and twenty-three and 14-100 feet on a curve of twenty-five feet radius; southerly by Upland street, seventy-two and 8-100 feet on a curve of one hundred eighty-one and 50-100 feet radius; and westerly by the westerly line of said Keystone street as hereby laid out, by five measurements, twenty-one and 48-100 feet on a curve of twelve feet radius, four hundred forty-one and 4-100 feet on a curve of seven hundred and sixty-nine feet radius, two hundred forty-six and 99-100 feet on a curve of eleven hundred eighty-six and 14-100 feet radius, forty-six and 29-100 feet, and nine hundred fifty-eight and 10-100 feet.

Trees or structures standing upon or affixed to the aforescribed land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of Keystone street as laid out under this order, from Glenhaven road to Upland street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on the plan hereinbefore mentioned and on file in the office of said department.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Keystone street, West Roxbury district, as a highway, from Glenhaven road to Upland street, over Wright road, under the order of June 19, 1947, and awards no damages therefor.

NEW SOURCES OF MUNICIPAL REVENUE.

Philadelphia recently adopted three new city taxes: auctioneers are required to register and pay a tax of \$500 a year, bowling alleys \$20 for each alley, and coin-operated slot machines and other amusement devices \$20 a year each. Portsmouth, Ohio, has levied a license fee of \$25 a year on juke boxes, pin ball machines, and other coin-operated amusement devices. Santa Barbara, California, on February 23 adopted a local retail sales tax of one per cent on the recommendation of a citizens' tax committee. Sacramento, California, has adopted a new business license ordinance which will provide approximately \$110,000 a year revenue. In New York City Mayor La Guardia has proposed an additional one per cent sales tax to finance a three-year program of subway rehabilitation; the present one per cent sales tax raises about \$32,000,000 a year.

STATES AND CITIES TAKE ACTION ON EMERGENCY HOUSING.

Four states are taking steps toward meeting the housing shortage. In Massachusetts a state housing bill would authorize cities to (1) undertake repairs or remodeling of houses for veterans; (2) acquire land for sale to veterans or contractors who will sell or rent houses to veterans; (3) go into the housing business for themselves; and (4) secure homes from which veterans and their families have been evicted without fault. In Minnesota the Governor has appointed a state housing expediter to work with building supply industries and Federal agencies on materials distribution, to aid local communities in making use of unused buildings and to help cities benefit from the programs of Federal agencies having to do with housing. In Illinois the state has contributed \$4,300,000 to the Chicago Housing Authority for use in acquiring land for veterans' housing, and in California the Governor has called a special session of the Legislature to consider a bond issue of perhaps \$100,000,000 for loans to veterans for homes and farms.

CALL FOR SPECIAL MEETING.

The following was received:

City of Boston,
Office of the Mayor, June 23, 1947.
To the City Council.

Gentlemen,—You are hereby requested to assemble in the City Council Chamber, City Hall, on Wednesday, June 25, 1947, at one o'clock p. m., for the purpose of taking action on pending loan orders and to take action on such business now pending, or which may come before your Honorable Body.

Respectfully,

JAMES M. CURLEY, Mayor.

Placed on file.

Coun. SULLIVAN in the chair.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments:

David Nastop, 648 Massachusetts avenue, Boston, as Constable for term ending April 30, 1948, authorized to serve civil process upon filing of bond.

Severally referred to the Committee on Constables and Confirmations.

RENTING OF AUTO TRUCKS, RAPID TRANSIT FACILITIES.

The following was received:

City of Boston,
Office of the Mayor, June 6, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Transit Department relative to your order of May 12, 1947, concerning public bids pertaining to the renting of auto trucks, Rapid Transit Facilities, East Boston district, in order that this work might be given to veterans at the prevailing rates governing this work.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,
Transit Department, June 5, 1947.

Hon. James M. Curley,
Mayor of Boston.

Dear Mr. Mayor,—In reply to your recent communication for consideration and report of the City Council order requesting the Transit Department to suspend its public invitation for bids for the renting of auto trucks, Rapid Transit Facilities, East Boston district, you are respectfully advised that after careful consideration of the matter, the Transit Department found that the statutes which govern the work in question made it impracticable to arrange for the furnishing of the required trucks without inviting bids by public advertisement.

Respectfully yours,

MALCOLM E. NICHOLS, Chairman.

Placed on file.

CHAIN-LINK FENCE ON DORCHESTER PARK.

The following was received:

City of Boston,
Office of the Mayor, June 9, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Park Department relative to your order of May 26, 1947, concerning the erecting of a chain-link fence on the Dorchester Park property along Adams street.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, June 4, 1947.

J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of May 27, with inclosure, order from the City Council that the Park Commission be requested to erect a chain-link fence on the Dorchester Park property along Adams street.

An investigation will be made at once as to the necessity of erecting this fence. It would have to be erected on top of a stone wall, which to my knowledge has been there for over forty years.

I have never heard of an accident or of any child falling off there. I shall be very pleased to go into this matter very carefully.

Very truly yours,

WILLIAM P. LONG, Chairman.

Placed on file.

REMOVAL OF TREE, MAGNOLIA STREET.

The following was received:

City of Boston,

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, June 13, 1947.

J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of June 10, with inclosure, order from the City Council directing the Park Commissioner to remove the dangerous tree in the sidewalk on Magnolia street, Dorchester.

Please be assured, an investigation of this tree will be made at once, and if it is dangerous it will be removed.

Very truly yours,

WILLIAM P. LONG, Chairman.

Placed on file.

CLEANING UP OF SAVIN HILL BEACH.

The following was received:

City of Boston,
Office of the Mayor, June 16, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Park Commissioner relative to your order of June 9, 1947, relative to the cleaning up of Savin Hill Beach for the opening of the bathing season.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, June 12, 1947.

J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of June 10, with inclosure, order from the City Council to direct the Park Commissioner to clean up Savin Hill Beach for the opening of the bathing season.

Please be informed this beach is cleaned regularly and will be cleaned thoroughly before Sunday.

Very truly yours,

WILLIAM P. LONG, Chairman.

Placed on file.

CLEANING OF CHARLESTOWN STREETS.

The following was received:

City of Boston,
Office of the Mayor, June 12, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order dated June 2, 1947, concerning the cleaning up of the streets in Ward 2, Charlestown, in anticipation of the June 17th parade.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,
Public Works Department,
June 12, 1947.

J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir,—Receipt is acknowledged of order in Council, under date of June 2, 1947, as follows: "Ordered, That his Honor the Mayor be requested to order the Public Works Commissioner to proceed at once to the cleaning up of the streets in Ward 2, Charlestown, in anticipation of the June 17th parade."

You are hereby informed that this area will be thoroughly cleaned before June 17, 1947.

ROBERT P. CURLEY,

Commissioner of Public Works.

Placed on file.

APPROPRIATION FROM PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, June 23, 1947.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners requesting the appropriation of \$44,000 from the income of the George F. Parkman Fund, to be expended under the direction of the Board of Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

The 1947 budget estimates of the personal service requirements of the Park Department included an estimate of the total income of \$180,000 from the Parkman Fund. The budget allowances made provision for the appropriation of this income as it accrued for the purpose of defraying the cost of work actually performed on the Common and Parks in Existence on January 12, 1887.

I submit herewith an order appropriating the sum of \$44,000, the accrued income now available from the Parkman Fund, and respectfully recommend its immediate passage by your Honorable Body.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, June 10, 1947.

Hon. James M. Curley,

Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of \$44,000 which is now available, to be expended under the direction of the Board of Park Commissioners, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of.....\$44,000

When making up the budget estimates for the year 1947, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1947, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,

WILLIAM P. LONG, Chairman.

Ordered, That the sum of \$44,000 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of.....\$44,000

Referred to Committee on Parkman Fund.

LOAN FOR DEPARTMENTAL EQUIPMENT.

On motion of Councilor Scannell, the Council voted to take No. 3 from the Calendar, viz.:

3. Order for loan of \$1420,000 for Departmental Equipment. On June 9, 1947, the foregoing order was read once and passed, yeas 18, nays 1.

The order was given its second reading and passage, yeas 19, nays 1.

Yeas—Councilors Bayley, Cantwell, Carey, Coffey, Cook, Fish, Hannon, Hurley, Keenan, Kelly, Kinsella, Lane, Linehan, McCormack, Moriarty, Muchnick, Russo, Scannell, Sullivan—19.

Nays—Councilor Chase—1.

REPORT OF COMMITTEE ON LICENSES.

Coun. COFFEY, for the Committee on Licenses, submitted report on petition of Boston Stadium Corporation (referred June 2) for permit for laying out, use and location of land as race ground and track for midget auto racing and other racing, not including horse or dog racing, and for civic, athletic, sporting, patriotic and religious meets, events and celebrations as are now allowed by City Ordinances, on land bounded by Mt. Vernon street, land of Samuel Tomasello, land now or formerly of Boston Consolidated Gas Company, southerly by low water mark, and land now or formerly of E. B. Badger Company, by Old Colony Parkway and junction of Mt. Vernon street and Old Colony Parkway—recommending that petition be granted.

Councilor Hannon raised the point of order that the report was not complete, in the absence of an order to be acted upon, and the Chair ruled that the point of order was well taken. Councilor Coffey moved that the Council grant the permit.

Coun. COFFEY offered the following:
Ordered, That the Mayor and City Council of the City of Boston hereby consent to the laying out, use and location of a track for midget auto racing and other racing, not including horse or dog racing, in that part of Boston known as the Dorchester district, bounded by Mt. Vernon street, land of Samuel Tomasello, land of Boston Consolidated Gas Company, southerly by low water mark, land of E. B. Badger Company, and Old Colony Parkway, said bounds being more correctly and more specifically described in a petition of the Boston Stadium Corporation, filed with the City Clerk of the said City of Boston on June 2, 1947.

Councilor Coffey asked suspension of the rules and passage of the order.

Councilor Linehan moved that action be postponed for two weeks. Councilor Hannon raised the point of order that the order had never been before the committee, and the Chair ruled the point of order well taken. Councilor Coffey moved that the matter be referred to the Committee on Licenses, but the Chair ruled that a vote must first be taken on the suspension of the rules. The vote on suspension of rules was taken by a show of hands, and suspension of rules did not prevail. Councilor Coffey moved that it be referred back to the Committee on Licenses. Councilor Muchnick moved to amend by adding "with instructions to hold a public hearing within two weeks." The amendment was declared lost. Councilor Muchnick doubted the vote and asked for a roll call. The amendment was adopted, yeas 10, nays 8.

Yeas—Councilors Bayley, Cantwell, Carey, Cook, Hannon, Keenan, Lane, Linehan, McCormack, Muchnick—10.

Nays—Councilors Coffey, Fish, Hurley, Kinsella, Moriarty, Russo, Scannell, Sullivan—8.

The question then came on reference back to the committee with instructions to hold a public hearing within two weeks, and it was so ordered.

COAL DUST NUISANCE, WARD 7.

Coun. LINEHAN offered the following:

Ordered, That his Honor the Mayor request the Public Health Commissioner to take necessary methods to abolish the coal dust nuisance that has been and is being created as a result of trucks hauling coal without adequate covering or wetting down in the vicinity of the Old Colony Housing Development in Ward 7. This coal dust nuisance is a menace to the health of the many thousands of children in the development and also damaging the house furnishings in the different apartments in that vicinity.

Passed under suspension of the rules.

BACKSTOP ON AMERENA PLAYGROUND.

Coun. COFFEY offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to erect a backstop on the Porter street side of the Amerena Playground for the protection of the children.

Passed under suspension of the rules.

NAMING OF JUNCTION FOR WILLIAM J. GREEN.

Coun. RUSSO offered the following:
Ordered, That the Committee on Naming Squares be requested through his Honor the Mayor, to consider the naming of the junction of Hanover and Commercial streets after William J. Green, a soldier who was killed in action on July 9, 1944.

Passed under suspension of the rules.

MOTION TO TAKE NO. 5 FROM THE TABLE.

Councilor Muchnick moved that No. 5 on the Calendar be taken from the table, but it was not taken from the table as there were not 15 members present.

On motion of Councilor Bayley, the Council voted to adjourn at 2:15 p. m., to meet on Monday, June 30, 1947, at 2 p. m.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

PROPOSALS FOR ROADS, UTILITIES AND GRADING WORK IN VETERANS' HOUSING DEVELOPMENT, RIVER STREET, MATAPAN, BOSTON, MASS.

The City of Boston, acting by and through the Boston Housing Authority, in accordance with the provisions of Chapter 372 of the Massachusetts Acts of 1946, as amended, office, Room 1220, 10 Post Office square, Boston, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States for roads, utilities and grading work in veterans' housing development, River street, Mattapan, Boston, Mass.

A bond will be required for doing the work of a surety company approved by the Boston Housing Authority in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 1220, 10 Post Office square, Boston, on Wednesday, July 9, 1947. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Roads, Utilities and Grading Work in Veterans' Housing Development, River Street, Mattapan, Boston, Mass.," and left at Room 1220, 10 Post Office square, Boston, before 1 p. m., Eastern Daylight Saving Time, on Tuesday, July 22, 1947, with a certified check for 5 per cent of the amount of the proposal, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Boston Housing Authority to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Boston Housing Authority. The successful bidder will be required to provide for insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as it deems best.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR LAYING WATER PIPES IN ASHLAND STREET, DORCHESTER, HAUTEVALE STREET, MANSFIELD STREET, AND PARAGON ROAD, WEST ROXBURY, AND SOLDIERS FIELD ROAD, BRIGHTON.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for laying water pipes in Ashland street, Dorchester, Hautevale street, Mansfield street, and Paragon road, West Roxbury, and Soldiers Field road, Brighton. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Laying Water Pipes in Ashland Street, Dorchester, Hautevale Street, Mansfield Street, and Paragon Road, West Roxbury, and Soldiers Field Road, Brighton," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Friday, July 11, 1947, with a certified check for three hundred and fifty dollars (\$350), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,
(July 5.) Commissioner of Public Works.

THOSE WHO DRAFTED DECLARATION OF INDEPENDENCE, JUDGE WILSON TELLS INDEPENDENCE DAY AUDIENCE, TOOK PAINS, CLEARLY AND UNANSWERABLY, TO JUSTIFY THEIR ACTION BEFORE THE WORLD AND POSTERITY IN THE DOCUMENT, SO THAT AIMS AND PURPOSES MIGHT NOT BE MISUNDERSTOOD AND MIGHT SERVE AS INSPIRATION TOWARD ACHIEVING THAT GREATNESS THAT HAS PLACED UNITED STATES IN THE FOREFRONT OF NATIONS AND HAS CAUSED CITIZENS TO PRESERVE THAT SAME ABIDING FAITH AND SOLEMN CONVICTION FOR THE PRESERVATION OF THE INALIENABLE RIGHTS OF MANKIND IN A MODERN WORLD.

The following is the address of Judge Robert Gardiner Wilson, Jr., at the Independence Day exercises in Faneuil Hall, July 4, 1947:

Once again, in this historic building, citizens of Boston meet as true Americans, with a feeling of deep solemnity, in patriotic recognition and remembrance of that July day 171 years ago, when the representatives of 13 colonies in a new world first proclaimed not only to the nations of their time and age, but to posterity, the causes, motives, and justification for the birth of a new and independent nation among the great powers of the earth.

The pen of Thomas Jefferson, a young Virginian of thirty-three, wrote the immortal document; but it contained the hopes and dreams and aspirations of a brave and fearless people. During the bitter controversy that had raged with King George III for over 12 years, Boston and Massachusetts had played a most conspicuous part. The Boston Massacre in 1770, the Boston Tea Party on December 16, 1773, the Battle of Lexington and Concord on April 19, 1775, the defense of Bunker Hill on June 17, 1775, and the evacuation of Boston by Lord Howe and his troops on March 17, 1776, had brought determination to the Second Continental Congress.

Times Try Men's Souls.

Six months before the momentous decision at Philadelphia, Thomas Paine, the great American patriot, in truly prophetic words had said: "These are the times that try men's souls. . . . There are three different ways by which an independency may be effected, and one of those three will, one day or other, be the fate of America — by a legal voice of the people in Congress; by a military power; or by a mob. . . . Should an independency be brought about by the first of these means, we have every opportunity and every encouragement before us, to form the noblest Constitution on the face of the earth. We have it in our power to begin the world over again. . . . The birthday of a new world is at hand. . . . 'Tis not the concern of a day, a year, or an age; posterity are virtually involved in it even to the end of time."

On June 7, 1776, Richard Henry Lee of Virginia offered in the Continental Congress a Resolution for Independence, which was to be prefaced by a preamble to clearly declare the causes which should impel its adoption by the representatives of the American people. The committee of five, to which the resolution was referred for the drafting of a more formal declaration, included Thomas Jefferson of Virginia and John Adams of Massachusetts, both of whom died exactly 50 years later, on one and the same day, July 4, 1826.

The draft of the famous document, as prepared by Jefferson, was reported by the committee to Congress on June 28. It was debated on July 2 and 3, and on the fourth of July, 1776, our Declaration of Independence was adopted by unanimous vote of the representatives of all the 13 colonies.

Then, as always, the people of the United States of America took pains, clearly and unanswerably, to justify their action before all mankind, and they placed their trust and reliance in Almighty God. Said the Declaration: "When in the Course of human events it becomes necessary for one people to dissolve the political bonds which have connected them with another, and to assume among the powers of the earth the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation." And they did so declare.

(Continued on page 845.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

BOSTON AND MASSACHUSETTS MAY WELL BE PROUD OF THEIR PART IN ADOPTION OF DECLARATION OF INDEPENDENCE BY CONTINENTAL CONGRESS, TEMPORARY MAYOR JOHN B. HYNES TELLS AUDIENCE IN OPENING JULY 4 EXERCISES IN FANEUIL HALL—POINTS TO FACT THAT, OF FIFTY-SIX SIGNERS, FIVE WERE DELEGATES FROM MASSACHUSETTS AND FOUR OTHERS, THOUGH DELEGATES FROM OTHER STATES, WERE BORN HERE—ENGLAND, IRELAND, SCOTLAND, AND WALES WERE BIRTHPLACES OF EIGHT OTHERS.

The following is the address of Temporary Mayor John B. Hynes at Independence Day exercises in Faneuil Hall, July 4, 1947:

In my capacity as Temporary Mayor of Boston, I bring to this meeting the official greetings of the City of Boston on this the 171st anniversary of the Declaration of Independence.

I shall not presume upon your good nature with a lengthy address, and it would be doubly presumptuous to do so because today we are honored by having a very able orator, who will carry on the great traditions of these exercises.

These exercises have a most important historic background. Originally they were started for the suitable observance of the Boston Massacre, which occurred on March 5, 1770. From 1771 to 1783, inclusive, March 5 was dedicated to this purpose.

Beginning on July 4, 1783, and continuing to this day, the anniversary of National Independence has been celebrated here, and appropriately so, for, after all, Faneuil Hall is recognized throughout the world as the Cradle of Liberty in America.

Boston and Massachusetts may well be proud of their part in the adoption of the Declaration of Independence by the Continental Congress. Of the fifty-six signers

of the Declaration, five were delegates from Massachusetts, and four others, though delegates from other states, were born here. It is also interesting to note that, among the signers, three were born in Ireland, two in Scotland, two in England, and one in Wales, a true cross-section of the patriots of their day, comprising lawyers, jurists, farmers, soldiers, merchants, doctors, an iron manufacturer, a college president, a brewer, and a printer.

They built better than they knew. They created the foundation of our government, which has remained unchallenged successfully throughout the years, the greatest democratic institution ever conceived by man.

We have passed through troublous times. We may be forced to experience them again. It is, therefore, imperative that we continue to fittingly observe this day in old Faneuil Hall, lest our patriotism become stagnant and the great principles of our country be too easily forgotten.

With faith in our people, our government, and above all in our God, we shall continue to preserve the rich heritage which is ours, and which Independence Day so truly represents.

March 5, 1770; Paul Revere, whose historic ride shall never be forgotten; Peter Faneuil, who built and gave to Boston Faneuil Hall, "The Cradle of Liberty"; John Phillips, who later became the first Mayor of Boston; and other notable patriots.

It is most fitting and proper that we pay homage to the memory of such illustrious heroes of the early days of our history as a free and democratic country. By so doing we are rededicating ourselves to the principles which they conceived, fought for, and brought into being, and thus made of us the greatest nation on earth.

Under God's guidance we shall carry the torch, without faltering, which they so nobly ignited to insure our freedom of today from tyranny and oppression. Let us carry on.

JOHN B. HYNES, TEMPORARY MAYOR, CALLS FOR SUPPORT OF FEDERAL ANTI-LYNCHING BILL.

The following statement was on July 3 issued by John B. Hynes, Temporary Mayor:

Tomorrow, July 4, has been designated as Antilynch Day, for the purpose of calling public attention to the Federal Antilynch Bill (H.R. 3488) now pending in Congress, and perhaps soon to be

voted upon. It merits the favorable consideration of all true Americans.

President Truman, speaking before the National Association for the Advancement of Colored People in Washington, enunciated the democratic creed that the rights and privileges guaranteed by the Constitution to Americans must be made real for all Americans.

The pending legislation is the American answer to the fact that, while 4,982 Americans, negro and white, have been lynched in the United States since 1882, in 99.2 per cent of these lynchings no punishment has been meted out to anyone connected with these inhuman acts. If the Federal Antilynch Bill can correct this horrible situation, let's have it, and let the public support it in every practical way.

TEMPORARY MAYOR COMMENDS AIRLINE FOR ENTERPRISE AND SERVICE.

The following statement was issued on July 1 by John B. Hynes, Temporary Mayor of Boston:

The American Airlines, Inc., has announced that on or about July 20, 1947, it will inaugurate nonstop service in both directions between Boston and Buffalo, which will not decrease the service to the intermediate points between the two cities.

I wish to commend the American Airlines publicly for providing Boston with this important additional transportation service. It is a further step in the building of our Logan Airport in East Boston into what will certainly become the greatest air terminal on the Atlantic Coast. I am sure the people of our city will show their appreciation.

TEMPORARY MAYOR JOHN B. HYNES APPEALS TO CITIZENS FOR CARE OF DOGS DURING SUMMER.

The following statement was issued on July 8 by Temporary Mayor John B. Hynes:

I have just received the following letter from Walter J. Dethloff, president of that humane organization incorporated almost half a century ago under the name of the Animal Rescue League of Boston:

"The Animal Rescue League of Boston, authorized to collect and dispose of unlicensed dogs in the City of Boston, herewith submits the following report:

"The number of dogs taken by us in the period from July 1, 1946, through June 30, 1947, was 6,507. This number

JOHN B. HYNES, TEMPORARY MAYOR, LEADS IN GRANARY BURYING GROUNDS CEREMONIES IN HONORING REVOLUTIONARY HEROES ON INDEPENDENCE DAY.

The following were the remarks of John B. Hynes, Temporary Mayor, at Old Granary Burying Ground, July 4, 1947:

LADIES AND GENTLEMEN,—We have gathered here this morning, on the 171st anniversary of the Declaration of Independence, to honor the memory of three of the signers of that great document, who are buried here in our historic Granary Burying Ground. They are John Hancock, Samuel Adams, and Robert Treat Paine, names that shall live in history for all time.

Here also lie the mortal remains of the parents of Benjamin Franklin, another signer of the Declaration of Independence, an illustrious native son of Boston, who was buried in Philadelphia, where the Declaration was adopted by the Continental Congress on July 4, 1776.

This hallowed spot among God's acres took its name from the old town granary, once located on the site of the present Park Street Church. It contains the graves of others who contributed vastly to the cause of American freedom—the victims of the Boston Massacre of

includes all dogs known by us to be unlicensed in the City of Boston.

"The number of dogs reclaimed by owners who took out licenses and thereby complied with the law was 561. These persons having complied with the provision of the law, no complaints have been entered against them."

When one realizes what these figures mean, it is important during this vacation season to call to the attention of pet owners that they have an obligation not only to license their dogs, but to exercise special care over them at this time, for if they are neglected and abandoned it means that the poor devoted animals must be exterminated.

Dr. Edwin F. Schroeder, chief of staff of the Angell Memorial Animal Hospital, in an appeal for the dogs, suggests that families planning vacations leave their pets at hospitals or kennels instead of subjecting them to experiences which are anything but pleasant, and possibly fatal for them. In any event do not abandon them. If the dog goes with you, remember that it is cruel in the extreme to lock your pet in hot and tightly sealed automobiles. It is also inhuman to oblige dogs to chase balls up and down beaches during the heat of the day.

When your vacation is over, don't forget to bring your pet back with you. Remember, the dog is man's best friend, the pal of all children. Be considerate, not merciless and cruel.

INDIVIDUAL DRIVERS BLAMED FOR EAST BOSTON TRAFFIC ISLAND ACCIDENTS.

John B. Hynes, Temporary Mayor, has received the following letter from Traffic Commissioner Leo F. Curley:

BOSTON, July 8, 1947.

JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—In reference to your inquiry as regards the article in the *Boston Globe*, dated July 7, please be advised that the following are the facts:

In the second week of April this particular condition was called to our attention by Mayor Curley, at which time the Traffic Department made a complete survey of this area. As a result of this survey the following facts were ascertained:

Bennington street is a 100-foot street, two 12-foot sidewalks, 76-foot roadway, with street car loading platforms built at intersecting streets, so that it is a 24-foot roadway either side of the loading platforms. Prior to the erection of the present island pedestrian accidents were extremely high. Since the erection of this island pedestrian injuries have been reduced to a minimum.

The Traffic Commission felt that 24-foot roadways in this particular street were more than ample to handle the traffic, and we were at a loss to understand why there should be any accidents at this particular juncture.

As a result, a study was made with the cooperation of the Police Department, the report of which is enclosed as to the time when these accidents occurred. From a casual study of the report it may be observed that most of these accidents happened after midnight, and, since the street at this juncture is well lighted, the only conclusion this department can come to is that, rather than being the fault of the obstruction of the particular island, it was the fault of the individual driver.

This department has been working for some time with the Department of Public

Works to develop some form of warning at this juncture, so that accidents such as have been reported in the paper will be avoided. As a result of these conferences the engineers in this department have devised a plan of modified concrete barrier, together with a flashing signal light, which we think may be of assistance in avoiding the accidents which have occurred late at night.

Details on this project have been completed, and work will be instituted within ten days.

Respectfully submitted,

LEO F. CURLEY,
Commissioner.

City of Boston,
Police Department, Division 7.
April 13, 1947.

Mr. William T. Doyle, *Secretary*,
Boston Traffic Commission.

DEAR MR. DOYLE,—In reply to your communication dated April 10, 1947, in reference to a request made by Traffic Commissioner Leo F. Curley for an enumeration of accidents that have occurred at the safety island located at Bennington street and Neptune road, East Boston, and the approximate time of each accident, the following list, dated from the year 1941 to the present date, has been compiled by this station and is submitted for your information and guidance:

January 13, 1941 — 8.50 p. m.
August 25, 1941 — 10.25 p. m.
January 18, 1942 — 6.18 p. m.
September 24, 1943 — 4.45 a. m.
April 24, 1945 — 1.40 a. m.
January 23, 1946 — 11.25 p. m.
June 4, 1946 — 10.50 p. m.
November 30, 1946 — 3.55 a. m.
December 4, 1946 — 2.45 a. m.
December 26, 1946 — 1.35 a. m.
January 18, 1947 — 9.50 p. m.
January 26, 1947 — 9.45 p. m.
February 26, 1947 — 1.50 a. m.
March 9, 1947 — 3.44 a. m.
March 16, 1947 — 11.35 p. m.
March 19, 1947 — 1.30 a. m.
March 20, 1947 — 1.35 a. m.
March 21, 1947 — 12.15 a. m.
April 1, 1947 — 12.25 a. m.
May 14, 1947 — 11.45 p. m.
May 20, 1947 — 1.30 a. m.
July 7, 1947 — 2 a. m.

This makes a total of 22 accidents during the period stated above.

Very truly yours,

WILLIAM H. BRITT, *Captain*,
Division 7.

CIRCULAR LETTER NO. 13.

CITY OF BOSTON,
MAYOR'S OFFICE, June 20, 1947.

To the Heads of All Departments.

GENTLEMEN,—You are hereby directed to grant leave of absence, without loss of pay, to employees in your department who are alternates or delegates of the Disabled American Veterans to attend the State Convention to be held on August 1, 2, and 3, 1947, at Boston, Massachusetts.

You are also hereby directed to grant leave of absence, without loss of pay, to employees in your department who are alternates or delegates of the Disabled American Veterans to attend the National Convention to be held on August 17, 18, 19, 20, 21, 22, and 23, 1947, at Las Vegas, Nevada.

Respectfully,

JAMES M. CURLEY, *Mayor*.

REPORT OF ROBERT C. SCHIMMEL, MASTER, DORCHESTER HIGH SCHOOL FOR BOYS, ASSIGNED TO DEPARTMENT OF VISUAL AND RADIO EDUCATION, ON ATTENDANCE AT SEVENTEENTH ANNUAL INSTITUTE FOR RADIO IN EDUCATION, COLUMBUS, MAY 2 TO 5, 1947.

BOSTON, May 20, 1947.

DR. ARTHUR L. GOULD,

Superintendent of Schools.

DEAR DR. GOULD.—The Seventeenth Annual Institute for Radio in Education, held in Columbus, Ohio, May 2-5, 1947, which you kindly allowed me to attend, was to me distinctly worth while. From it I carried away two impelling ideas for building our own radio programs.

The first idea concerns our present method of presenting programs. We have been in the habit of allowing each school involved to present its own program. In the instance of the panel type discussion, this method is used throughout the United States. But conferences with such educational executives as James McAndrew of Station WNYE (New York's own educational station) and Dr. William Levenson of WBOE (Cleveland's own educational station) have convinced me that, if we are to go ahead with the dramatic type of presentation, we should have: (1) a central workshop; (2) a casting system whereby only the best talent in each school is used; (3) scripts written by a central authority and not parceled out to various authors (teachers in our case). The severe competition for a listening audience has proved to most large educational systems that, where dramatic material is concerned, only the highest grade of presentation should be delivered. Mr. William Bachman, Director of Radio at Baylor University in Texas, told me that in his study of various school systems this practice is followed with effective listening results. Of course, it must be admitted that, in every instance of large cities using this system, at least ten people are assigned to the work, and of course each educational system has material for testing voices. This material we should have in the near future.

The second idea with which I was impressed after attending some of the conferences was the necessity to do our part from the Boston area in the field of promoting world peace. Most of the conferences highlighted the need for a concerted effort in this direction. Such projected series may emphasize the brotherhood of man through music, emotion, one-world closeness, or in any way which will focus attention on the fact that we have to live together, so we might as well live peaceably. I came away from these Columbus meetings firm in the idea we should have such a UNESCO series next year.

Further talks with such men as Gordon Hawkins, Educational Adviser of Westinghouse Stations, proved to me that, although other large cities suffer vandalism, none has approached the combating of it through radio. My belief is that our series next fall will be the first of its kind.

The various conferences proved to me, along with a Saturday afternoon devoted to listening to programs aired by other systems, that we have gone far here in Boston. How much farther we go depends very much on an increased budget.

Yours respectfully,

ROBERT C. SCHIMMEL.

ADDRESS OF JUDGE ROBERT GARDINER WILSON, JR., AT THE INDEPENDENCE DAY EXERCISES AT FANEUIL HALL, JULY 4, 1947.

(Continued from page 841.)

CERTAIN RIGHTS.

Most important, they declared that to secure to mankind certain self-evident and inalienable rights, "Governments are instituted among Men, deriving their just powers from the consent of the governed." And then the representatives of the new United States of America, in general Congress assembled, on that fourth day of July, 1776, appealed to "the Supreme Judge of the World" for the rectitude of their intentions. Such was the firm and solemn basis on which this nation was founded.

That same abiding faith and solemn conviction placed us in World War II on the side of those we hoped were fighting to preserve those same self-evident and inalienable rights of mankind in a modern world.

John Adams said, in July of 1776, only a day after the Resolution was adopted: "I am not transported with enthusiasm. I am well aware of the toil, the treasure, and the blood it will cost, to maintain this Declaration, to support and defend these States." Those were prophetic words! But little could John Adams, or Thomas Jefferson, or any of the founders of our nation, realize that this Declaration of Independence signaled not only the birth of a new nation among the great nations of the earth, but the creation of a world power which would one day stand almost alone as the last hope of mankind for the preservation of the great principle of popular governments, with powers derived only from the consent of the governed and a civilization based on faith and reliance in Almighty God.

Today, on this 171st anniversary of the adoption of the American Declaration of Independence, every free people remaining on the face of the earth, with prayers for America, might well repeat the poet's lines:

"Thou, too, sail on, O Ship of State!
Sail on, O Union, strong and great!
Humanity with all its fears,
With all the hopes of future years,
Is hanging breathless on thy fate!"

Our hearts, our hopes, are all with thee,
Our hearts, our hopes, our prayers,
our tears,
Our faith triumphant o'er our fears,
Are all with thee — are all with thee!"

CIRCULAR LETTER NO. 14.

CITY OF BOSTON,
MAYOR'S OFFICE, July 3, 1947.

To All Department Heads.

GENTLEMEN,—July 24th has been designated as the day for the Mayor's Charity Field Day. For the continued success of this feature, it is essential that all employees of the city be permitted to attend this most worthy event. The proceeds of the Field Day will be used, as usual, for the purchase of artificial limbs and eyes, hearing aids and other very necessary personal requirements.

The fund raised will also cover contributions to certain particular charities which also meet these personal needs.

This year's event will be held at

Braves Field on Thursday night, July 24, under the bright-as-day lights. A full evening of enjoyable entertainment will be provided between the hours of 6 p. m. and midnight.

In order that every person in the employ of the city be accorded opportunity to attend, you are hereby authorized to grant permission to dispense with the services of all employees who can be spared from 3 p. m. on Thursday, July 24, 1947.

Respectfully,

JOHN B. HYNES.
Temporary Mayor.

NO CARNIVALS ON PARK PROPERTY.

On July 9 the following was issued from the Mayor's office:

No permits for carnivals on Park property will be approved by Temporary Mayor John B. Hynes as this is in direct violation of all laws governing the use of Park lands.

CONTRACTS AWARDED.

Permission to award contracts for work, materials, and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon June 23 the Mayor approved a contract with M. S. Kelliher Company for alterations at the John Marshall School. Bids, opened Friday, June 13, were as follows:

M. S. Kelliher Company, \$94,400; M. Solimando, \$94,420; J. A. Singarella Company, \$94,700; P. J. Cantwell & Son, \$96,893; Peabody Construction Company, \$102,135; Federal Contracting Company, Inc., \$104,344; A. Piotti Company, \$105,699; M. Spinelli & Sons Company, Inc., \$107,411.

Upon June 23 the Mayor approved a contract with P. J. Cantwell & Son for alterations at the Theodore Roosevelt School. Bids, opened Thursday, June 5, were as follows:

P. J. Cantwell & Son, \$16,238; M. Solimando, \$16,424; Rossano Construction Company, Inc., \$16,757; Michael Racioppi, \$17,542; Peabody Construction Company, \$17,735; John Rugo, \$18,000; M. H. Bennett, \$18,379; James S. Kelliher, \$18,400; Federal Contracting Company, Inc., \$19,894.

Upon June 23 the Mayor approved a contract with Ricciardelli Company for installing horizontal return tubular boilers

in the Oliver Wendell Holmes School. Bids, opened Thursday, June 5, were as follows:

Ricciardelli Company, \$9,550; J. W. Praught Company, \$10,803; James P. Sullivan Company, \$10,950; Joseph F. Dwyer, \$11,610.

Upon June 23 the Mayor approved a contract with W. A. Shephard Company for installing horizontal return tubular boilers in the Thomas Gardner School. Bids, opened Thursday, June 5, were as follows:

W. A. Shephard Company, \$8,929; James P. Sullivan Company, \$9,249; Ricciardelli Company, \$9,600; Joseph F. Dwyer, \$9,881.

Upon June 23 the Mayor approved a contract with the Washington Contracting Company, Inc., for regrading and laying asphalt surface, site of Hugh O'Brien School. Bids, opened Wednesday, June 11, were as follows:

Washington Contracting Company, Inc., \$3,462; John McCourt Company, \$3,587; Hervey F. Armington, Inc., \$3,995; Liberty Asphalt Construction Company, \$5,075; S. J. Tomasello Corporation, \$5,470; Charles Callahan Company, \$5,500.

Upon June 23 the Mayor approved a contract with Richard Moore Company for roofing and metal work at the Longfellow School. Bids, opened Wednesday, June 18, were as follows:

Richard Moore Company, \$7,592; Atlantic Roofing and Skylight Works, \$8,442; John J. Hourihan, \$9,933; A. Belanger & Sons, Inc., \$9,595; Bacon Roofing Company, \$9,998; Burgess & Blacher Company, \$10,994.

Upon June 23 the Mayor approved a contract with Ricciardelli Company for installing horizontal return tubular boilers in the William Bradford School. Bids, opened Friday, June 13, were as follows:

Ricciardelli Company, \$7,777; W. A. Shephard Company, \$7,787; J. W. Praught Company, \$8,113; Joseph F. Dwyer, \$8,359; James P. Sullivan Company, \$8,495.

Upon June 23 the Mayor approved a contract with the Liberty Asphalt Construction Company for regrading and laying asphalt surface, site of the Rochambeau School. Bids, opened Wednesday, June 18, were as follows:

Liberty Asphalt Construction Company, \$1,890; Washington Contracting Company, Inc., \$1,938; John McCourt Company, \$2,267; Hervey F. Armington, Inc., \$2,295; S. J. Tomasello Corporation, \$2,600; Adams Asphalt Company, \$2,868.

SUPPLY DEPARTMENT.

Upon May 22 the Mayor approved a contract with Automatic Distributors, Inc., in accord with the request contained in the following letter:

BOSTON, May 9, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR.—This office is in receipt of a requisition from the Fire Department for 25 only, 36 by 5 single flange non-skid solid cushion tires. Requests for prices were mailed to various concerns and the following quotations were received:

Automotive Distributors, Inc., \$1,481.25; Stretton & Cheyne, Inc., \$1,489.25; Goodyear Tire Service, \$1,638.75; Thomas E. Hogan, Inc., \$1,750.50; Goodrich Tire Service, unable to furnish; General Tire Company, unable to fill; Sears Roebuck Company, unable to supply; Norwalk Tire Company, not manufacturer; Quirk Tire Company, no bid received; Firestone Tire and Rubber Company, no bid received.

It is respectfully requested that I be granted permission to award an order to Automotive Distributors, Inc., who submitted the lowest price. The total amount of the order will be \$1,481.25 with a 2 per cent cash discount for payment within 10 days.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

Upon June 2 the Mayor approved a contract with lowest bidders as indicated in the following letter:

BOSTON, May 29, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR.—On May 20, 1947, bids were publicly opened and read in this office on proposals for furnishing anthracite and bituminous coal for city departments for the period from June 1 to December 31, 1947, with the privilege of purchasing on the same terms and conditions through April 30, 1948.

For the best interests of the city, permission is respectfully requested to award contracts to the lowest responsive bidders as indicated below. The awards will be as follows:

White Fuel Corporation: Run of mine, bituminous coal, 10,000 net tons into bins of Public Buildings at \$10.39 per ton, \$103,900; nut and slack, bituminous coal, 1,500 net tons into bins of Public Buildings at \$10.19 per ton, \$15,285; total, \$119,185.

Staples Coal Company, doing business as City Fuel Company: Run of mine, bituminous coal, 3,000 net tons into bins at Long Island, including cost of stevedoring, at \$10.35 per ton, \$31,050; 3,000 net tons into bins of Public Works Department ferryboats at East Boston at \$9.79 per ton, \$29,370; 750 net tons into bins of fire boats at \$10.79 per ton, \$8,092.50; stoker coal, bituminous, 600

net tons into bins of Public Buildings at \$10.79 per ton, \$6,474; total, \$74,986.50.

Snider Fuel Corporation: Anthracite coal, 300 net tons egg coal into bins of Public Buildings at \$15.75 per ton, \$4,725; 2,000 net tons stove coal into bins of Public Buildings at \$15.75 per ton, \$31,500; total \$36,225.

In the best interests of the city, permission is also respectfully requested to award to the Boston Ice Company, the second lowest bidder, the following item:

Boston Ice Company: Anthracite coal, 1,500 net tons, buckwheat coal, into bins of Public Buildings at \$11.90 per ton, \$17,850.

Total amounts of contracts are as follows:

White Fuel Corporation, \$119,185; Staples Coal Company, doing business as City Fuel Company, \$74,986.50; Snider Fuel Corporation, \$36,225; Boston Ice Company, \$17,850; total, \$248,246.50.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved the requests of heads of departments for the awarding of contracts for labor, supplies, etc. Communications from the heads of the departments interested were as follows:

DEPARTMENT OF SCHOOL BUILDINGS.

BOSTON, June 18, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR.—I respectfully request your Honor's approval to award a contract, without advertising, to Samuel J. Hingston, 326 Medford street, Charlestown, to repair and refinish pupils' furniture in the English High School.

This work includes repairs to practically all pupils' furniture throughout the building and the refinishing of approximately 2,200 sets of pupils' furniture in accordance with the department standard specification for such work.

Although it is practically impossible to determine the exact amount of work required, it is estimated, based on two surveys conducted at the building, that the cost will not exceed \$3,200. A resident inspector will be assigned to this work; he will be required to keep a force account of the operation. The contractor shall submit an itemized bill covering all phases of the work and approval of this account shall be in the customary manner.

It is my opinion that in this particular instance the best interests of the City of Boston are being preserved by awarding a contract, without advertising, and I respectfully request your permission so to do.

As many weeks will be required to perform this work and as it must be completed not later than September 4, it is imperative that the contract be awarded without delay.

Respectfully,

JAMES H. MOONEY,
Superintendent of Construction.

INSTITUTIONS DEPARTMENT.

BOSTON, April 12, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR.—Your permission is respectfully requested to permit the Institutions Department to amend the contract of the Quincy Dry Dock and

Yacht Corporation, Quincy, for repairs to the steamship "Stephen O'Meara." The amount of the accompanying amendment is for four thousand two hundred and sixty-eight dollars (\$4,268), to be added to \$14,941, the amount of the original contract approved by your Honor.

Certain work not contemplated at the time of the original contract became necessary. While the steamship "O'Meara" was on the shipways it was discovered that the lead sleeve for the shaft was leaking badly, whereupon the Coast Guard Inspectors demanded that a new sleeve be installed. In order to do this the rudder and the propeller had to be removed, the shaft pulled out of the vessel, the shaft coupling machined, and the stern bearing gland reduced in length. A new sleeve was then ordered and made to order in New York.

The ship being on the ways, the Quincy Dry Dock and Yacht Corporation ready to proceed with the work, and the price of the work in my estimation being fair, no advantage could be gained by the city in public advertising.

Respectfully yours,

G. FRANK McDONALD,
Commissioner.

LIBRARY DEPARTMENT.

BOSTON, June 10, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR.—Your approval is respectfully requested for the placing of an order, without public advertising, with the Recordak Corporation, 147 Summer street, Boston, for the purchase of four Model C library film readers in the amount of \$1,820. Since these machines can be obtained only from the Recordak Corporation, the sole manufacturer, it is not possible to obtain competitive bidding by public advertising.

The three microfilm reading machines, which the library has at the present time, have been in continuous operation for over a period of ten years and all three machines are in very poor condition, constantly requiring major repairs. In 1942, as a contribution to the war effort, the library sold its fourth Recordak microfilm reader to the office of Strategic Services in Washington, D. C. It is our desire to replace all of these machines at this time with four new modern microfilm reading machines.

Inasmuch as the total cost of these machines will exceed \$1,000, beyond which there must be public advertising for bids, it is necessary to request your permission to place this order without publicly advertising for bids.

Your approval of this award is respectfully requested.

Respectfully,

FRANCIS B. MASTERSON,
President.

PUBLIC WORKS DEPARTMENT.

BOSTON, June 13, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR.—So as to provide fire protection for houses on Chestnut road, West Roxbury, it will be necessary for this department to lay an 8-inch water pipe.

Invitation bids for doing the work were solicited and on June 11 five bids were received, the lowest being that of Appel & O'Toole, who agreed to do the work for \$1,627.50.

In my opinion, no advantage would be gained by advertising, and in order that

this work could be done immediately I considered it best to invite proposals. I respectfully request the authority of your Honor to dispense with advertising and to award this work to Appel & O'Toole, the low bidder, in the sum of \$1,627.50.

The following bids were received by invitation:

Appel & O'Toole, \$1,627.50; Hancock Construction Company, \$1,665; Falmouth Construction Company, \$1,730.63; Joseph Botti & Sons, \$2,515.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

BOSTON, June 3, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—This department is in receipt of a requisition from the Water Division of the Public Works Department calling for 70 lengths 6-inch east-iron pipe (16-foot lengths), Federal Specifications Class 250 cement lined, tar dipped. Prices were received over the telephone from the following companies.

Warren Pipe Company of Massachusetts, \$1.57 per foot with a delivery within thirty days.

U. S. Cast Iron Pipe and Foundry, \$1.45 per foot with no delivery for eleven months. Both these prices are quoted with an escalator clause.

The Division Engineer of the Water Division states that this pipe is needed for the temporary housing for veterans and at this time has immediate use for the above amount. It is therefore respectfully requested that permission be granted me to award an order to the Warren Pipe Company of Massachusetts as they can promise delivery of the material within thirty days.

The total amount of the order will be \$1,758.40.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, June 5, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—This department is in receipt of a requisition from the Park Department for one (1) Worthington Standard Golf Chief Tractor with dual rear tires, size 750 x 16, front wheel tires, size 600 x 16, and a 6-cylinder motor.

Requests for prices were mailed to the various companies dealing in this type of equipment and only two bids were received: One from Worthington Mower Company of Allston with a price of \$1,375, and the other from Clark-Wilcox Company (Allis Chalmers) with a price of \$820.

Although Worthington Mower Company submitted a higher price, their bid was based on the specifications submitted by the Park Department. This company can also promise immediate delivery of the tractor as compared with a six months' delivery date of Clark-Wilcox Company.

It is therefore respectfully requested that permission be granted me to award an order to the Worthington Mower Company, 281 Cambridge street, Allston, in the amount of \$1,375, with a cash discount of one-half of 1 per cent for payment within 10 days.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, June 5, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—This department is in receipt of a requisition from the Park Department for tulip bulbs. For the past three years these flowers have been purchased from the Van't Hof & Blokker, Inc., of Limmen, Holland. Request for prices was mailed to this company and they submitted their quotation amounting to \$1,432.

In the past, these tulip bulbs have proved most satisfactory and in my opinion no advantage would be gained by public advertisement for bids. It is therefore respectfully requested that permission be granted me to award an order to Van't Hof & Blokker, Inc., of Limmen, Holland, in the amount of \$1,432, with a 2 per cent discount for payment within 10 days.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, June 6, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—This department is in receipt of a requisition from the Water Division of the Public Works Department for three (3) only, 6-inch detector meters for the John Hancock Building.

The Hersey Manufacturing Company have quoted us a price of \$640 each, net. In my opinion, no advantage would be gained by publicly advertising for bids. It is therefore respectfully requested that permission be granted me to award an order to the Hersey Manufacturing Company in the amount of \$1,920.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

EXTENSION OF CONTRACTS.

HOSPITAL DEPARTMENT.

It is agreed that the words "December 15, 1946" as appearing in Article II of the contract for painting at the Sanatorium Division of the Boston City Hospital, between the City of Boston and John T. Bradley, dated March 14, 1947, be stricken out and the words "July 31, 1947" be substituted in their place. The contract above referred to was previously extended on February 7, 1947.

PARK DEPARTMENT.

M. S. Kelliher Company has been granted an extension of time until July 1, 1947, for the completion of the contract for new field house, Ross Playground, Hyde Park.

John Rugo has been granted an extension of time until October 15, 1947, for the completion of the contract for alterations and repairs to Columbus Park field house, opposite Preble street, South Boston.

PUBLIC WORKS DEPARTMENT.

C. Russo, Incorporated, has been granted an extension of the time of completion of the contract for laying water pipes in Furbush road, Hackensack Circle, Hart street, etc., West Roxbury district, approved on April 11, 1947, and expiring on June 30, 1947, to August 30, 1947.

This extension is requested for the reason that sewer work in Hackensack Circle, West Roxbury, one of several streets under contract opened May 28, 1947, has not started and water pipe laying cannot proceed until sewer work has been completed.

Bethlehem Steel Company has been granted an extension of the time of completion of the contract for repairing hull, etc., of ferryboat "Ralph J. Palumbo," to June 30, 1947.

This extension is requested for the reason that the contractor had difficulty in obtaining castings for main hull plates.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to raze the following buildings as fire menaces or nuisances:

To enter the building or other structure, or the abutting land or buildings, at 68 and 70 St. Germain street (30 and 32 Dalton street), Ward 4, with such assistance as required, and make safe, vacate forthwith, or remove said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

To enter the building or other structure, or the abutting land or buildings, at 45 Schuyler street, Ward 12, with such assistance as required, and vacate forthwith said unsafe or dangerous building.

TRANSFERS OF APPROPRIATIONS.

The Mayor has approved the following requests for transfers of appropriations in accordance with the provisions of Section 3B of the amended City Charter and for the reasons as below explained:

AUDITING DEPARTMENT.

From A-1, Personal Service, Permanent Employees, \$150, to B-39, Contractual Services, General Repairs, \$150.

To provide for additional repairs not contemplated at time of preparation of original budget estimates.

AUDITING DEPARTMENT (County, Miscellaneous Expenses).

From A-1, Personal Service, Permanent Employees, \$150, to A-3, Personal Service, Overtime, \$150.

To cover payments for services rendered by office staff after regular working hours.

BOSTON TRAFFIC COMMISSION.

From B-39, \$2,650, to B-37, \$150; E-13, \$2,500.

The principal expenditures for materials in this department is for paint for traffic signs and safety traffic lines in the roadways. The latter activity is one of the important services. Necessary purchases of paint have reduced the balance in item E-13. At present, an order for 1,200 gallons of roadway paint is being held in suspense in the Auditor's office because of insufficient funds. The approval of this requested transfer will permit the procurement of this urgently needed material and provide for the purchase of a limited amount of other critical material. It is anticipated, however, that it may be necessary to further strengthen this item during the year. The cost of paint has risen to a greater

extent than we expected when we submitted our original request for \$31,000 in this item. \$18,000 was allowed. The purposed use of the amount requested in B-37 is to pay for photographs of traffic bottle-neck areas which this department brought to the attention of his Honor the Mayor. Most of the funds in B-39 had been earmarked for the reinstallation of traffic officer spotlight poles. This program must be curtailed for this transfer.

LIBRARY DEPARTMENT.

From E-1, Building, \$100, to B-29, Stenographic and Copying, \$100.

From E-1, Building, \$200, to C-13, Tools and Instruments, \$200.

From E-1, Building, \$300, to D-8, Laundry, Cleaning, Toilet, \$300.

B-29. The original appropriation is insufficient to meet the requirements of an agreement entered into with the International Business Machines Corporation for the preparation of various statistical reports of book purchase and expenditures.

C-13. This additional sum is needed to provide tools such as ladders, sponges, wrenches, paint brushes, etc., which were unavailable during the war years, but which are now available at greatly increased costs. These tools are needed to properly maintain the library system by our own workers.

D-8. Due to increased costs the original amount appropriated is insufficient to provide.

From E-1, Building Materials, \$500, to B-4, Transportation of Persons, \$500.

To provide grants of \$100 each to five full-time members of the professional library staff toward the expense of attendance at the annual conference of the American Library Association in San Francisco from June 30 to July 5, 1947. These grants have been made to individuals who will bring benefit to the library and its work by attendance at the conference.

PUBLIC WORKS DEPARTMENT.

Ferry Service.

From A-1, Permanent Employees, \$1,643.98, to F-7, Pensions and Annuities, \$1,643.98.

Permanent employees have been pensioned as follows:

Jeremiah Casey pensioned March 19, 1947 (amount due balance of year), \$877.59; Theodore Panopoulos pensioned May 28, 1947 (amount due balance of year), \$766.39. Transfer requested, \$1,643.98.

From D-1, Office Supplies, \$10, to C-9, Office Equipment, \$10.

This transfer is necessary to cover invoice received on an article which was charged to Office Supplies but which correctly should have been charged to Office Equipment, C-9. Due to the fact that the Ferry Service budget does not contain this particular item number in the C group it is necessary to set up such an account to cover payment of this bill.

Summer Traffic Tunnel.

From A-1, Permanent Employees, \$1,236.89, to F-7, Pensions, \$1,236.89.

From B-39, General Repairs, \$4,500, to C-4, Motor Vehicles, \$4,500.

From F-11, Workmen's Compensation, \$54.38, to D-5, Medical, \$20.28; F-2, Damages, \$34.10.

The transfer to the F-7 item is necessary to provide for the pension payments of Edward C. Merchant, \$671.64, and

Anthony Alioto, \$565.25, to December 31, 1947. Existing vacancies in A-1 will allow for this transfer.

The purchase of a street sweeper for keeping roadway and plazas of tunnel free from accumulations of dirt and debris necessitates the transfer of funds to the C-4 item.

Additional medical supplies are necessary to properly equip the first-aid facilities at the tunnel.

Unforeseen damages for which claims for payment have been approved have caused a deficit in the F-2 item. No expenditure has been made to date from the F-11 item.

SUFFOLK COUNTY.

SUPERIOR COURT (Civil Business).

From B-35, in the Superior Court General Expense budget, twenty-four and 50/100 dollars (\$24.50), to B-12 of that budget to cover outstanding expenditures.

PROBATE COURT.

From C-10, Library, \$22.50, to C-16, Wearing Apparel, \$22.50.

June 5, 1947, I requested a transfer of \$55 from C-10, Library, to C-16, Wearing Apparel, for the purpose of purchasing a uniform for a third court officer. In the 1947 budget \$110 was appropriated for two uniforms at \$55 each, which sum has not yet been expended. I find that the price of uniforms has been increased from \$55 to \$62.50. It is therefore necessary that the additional sum of \$22.50 be transferred from C-10 to C-16 to make up the increase of \$7.50 for each uniform. Said transfer of \$55 was approved by the Auditor on June 10, 1947, and by the Mayor on June 12, 1947.

MEDICAL EXAMINER (Southern District).

From B-14, \$39, to C-15, \$39.

To meet the cost of tires for car registration 290.

From B-14, \$6.95, to C-13, \$6.95.

To meet the cost of bumper jack for car registration 290.

From B-14, \$1.65, to C-17, \$1.65.

To meet the cost of flashlight for car registration 290.

CLAIMS ALLOWED.

The Mayor, upon recommendation of the Corporation Counsel, has approved the following claims:

Carl Krasnoo, 16 McLellan street, Roxbury, in the sum of \$68.05, as compensation for damages to automobile on March 16, 1947, caused by driving into a hole in the street on Blue Hill avenue, near Seaver street.

Joseph Needel, 2231 Washington street, Roxbury, in the sum of \$100, as compensation for damage to property caused by broken water pipe March 9, 1946.

The U. S. Army, Army Base, in the sum of \$17, as refund on unused ferry tickets returned to the Public Works Department.

The U. S. Army, Camp Edwards, in the sum of \$2.80, as refund on unused tunnel tickets returned to the Public Works Department.

John F. Donovan, 15 Pond street, Dorchester, an employee of the Maintenance Division of the Boston Fire Department, to be reimbursed in the sum of \$216.14, as the result of accident on December 14, 1946, on Albany street, Roxbury, near Northampton street. While driving apparatus of the Fire Department he collided with the automobile of Leo S. Swartz, causing damage thereto.

James W. Robinson, 728 West Roxbury Parkway, Roslindale, to be reimbursed in the sum of \$20, for damages paid to Frank A. Giorgio as the result of accident on February 8, 1947, between police car driven by the petitioner and the automobile owned by Frank A. Giorgio.

Pasquale Napolitano, 292 Chelsea street, East Boston, an employee of the Sanitary Division of the Public Works Department, in the sum of \$5, as the result of accident November 15, 1946. While in the performance of his duty he was driving an automobile of the department and was in collision with the automobile of Sampson Coleman, Inc., causing damage thereto.

John J. Shea, 41 Atkins street, Brighton, to be reimbursed in the sum of \$182.35, for damages paid to Thornton Brothers taxi, as the result of accident January 30, 1947. While in the performance of his duty as a chauffeur in the Sewer Division of the Public Works Department he collided with the taxi of Thornton Brothers on Washington street, Brighton, near Lake street, causing damages thereto.

Francis X. McCormick, 47 East Lenox street, Boston, to be reimbursed in the sum of \$375, for damages paid to Harry Simon as the result of his acts as an employee of the Fire Department on January 17, 1947. While in the performance of his duty he was operating a fire truck on Hanover street when he was in collision with an automobile owned by said Harry Simon, causing damage thereto.

Angelo Spina, 134 Havre street, East Boston, to be reimbursed in the sum of \$37.25, as compensation for damages to automobile of W. H. Ellis, sustained on December 30, 1946. While the operator of a truck of the Sanitary Division, Public Works Department of the City of Boston, he was in collision with the Ellis automobile, causing damage thereto.

Lida Cookson, of Pittsfield, Maine, in the sum of \$250, for personal injuries sustained on November 15, 1946, by stepping into a hole in the street crosswalk on Huntington avenue, Roxbury, near Fenwood road.

N. E. FOREIGN TRADE \$680,100,000 IN 1946.

The value of foreign trade flowing through the Customs Districts of New England amounted to \$680,100,000 in 1946, which was more than 4.6 per cent of the total for the U. S. and involved a movement of 7.7 million tons of commodities. Exports were valued at \$209,500,000, with weight of 1.2 million tons, whereas imports totaled \$470,600,000, weighing 6.5 million tons. Compared with the U. S. totals, New England had only 2.1 per cent of value and 1.2 per cent of weight of exports, but accounted for 9.5 per cent of value and 11.1 per cent of tonnage of imports. New England's share of U. S. exports and imports registered gains in both for the years 1945 and 1946, reflecting the resumption of private trade and the gradual availability of ocean shipping at New England ports.

Referred to the Committee on Constables and Confirmations.

PROPER EXITS IN THE REAR OF THE GRANDSTAND, FENWAY PARK.

The following was received:

City of Boston,
Office of the Mayor, June 26, 1947.

To the City Council.

Gentlemen,—I transmit herewith communication regarding your order of May 19, 1947, concerning the request of the Building Commissioner to direct the owners of the Boston American League Baseball Company to provide proper exits for the patrons in the rear of the grandstand.

I transmit also, reply of the State Building Inspector to whom the matter was referred by the Building Commissioner.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Building Department, June 20, 1947.

Mr. Frank Howland,

Secretary, Mayor's Office.

Dear Mr. Howland,—On May 19, 1947, the Boston City Council passed an order requesting the Building Commissioner to direct the Boston American League Baseball Company to "provide proper exits for the patrons in the rear of the grandstand." The order was transmitted by his Honor, the Mayor, to this office.

On May 28 I advised his Honor that the jurisdiction was vested in the Department of Public Safety of the Commonwealth, and I forwarded a copy of the order to Mr. John F. Stokes, commissioner of that department. You will find attached a copy of the report which Mr. Stokes has sent to this department relative to the recommendation.

Very truly yours,

JOHN J. MAHONEY,
Building Commissioner.

The Commonwealth of Massachusetts,
Department of Public Safety,
Division of Inspection,

1010 Commonwealth Avenue, Boston, Mass.
June 16, 1947.

To George C. Parsons, Chief of Inspections.

Subject: Additional Egress, Fenway Park, Boston.

1. In accordance with a memorandum received from John F. Stokes, Commissioner of Public Safety, relative to a letter received from Commissioner John J. Mahoney of the Boston Building Department and a copy of an order from the Boston City Council directing the Building Commissioner to secure additional egress for the patrons of Fenway Park, Boston, Mass., I visited Fenway Park and report as follows.

2. When the stand was erected it was approved by the City of Boston Building Department. Section 1204 of the Boston Building Code reads as follows:

"Exits.—(a) Reviewing stands, grandstands and similar structures shall be provided with exits not less than four feet wide nor less than one foot in width for each three hundred persons or fraction thereof served. Exits shall have not less than seven feet in clear height nor be more than sixty feet apart."

3. The covered portion of the main grandstand has 23,507 seats plus 2,232 box seats. The egress through gates to field vomitories and ramps leading to ground under stand totals 163 feet 6 inches.

4. At present Fenway Park is operating under a 90-day acknowledgment until specific regulations are made for structures of this nature. Emergency lights were provided with the new lighting system for night use.

5. Considered as an existing structure with due regard to its use, in my opinion there is sufficient egress properly located.

RICHARD S. BEYER,
State Building Inspector.

Placed on file.

RELEASE OF CERTAIN RIGHTS OVER A PRIVATE WAY, JAMAICA PLAIN.

The following was received:

City of Boston,

Office of the Mayor, June 27, 1947.

To the City Council.

Gentlemen,—I am in receipt of a communication from the Commissioner of Public Works, in which he recommends the release of certain rights over a private way in Jamaica Plain. It appears that these rights were given to the city in prospect of laying out and construction of this private way. It now develops, however, that no construction will take place.

Therefore, I concur on the recommendation of the Public Works Commissioner that these rights should be returned to the original owner.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Public Works Department,
June 12, 1947.

Hon. James M. Curley,

Mayor of Boston.

Dear Mr. Mayor,—On April 2, 1941, and on January 8, 1942, the City of Boston was granted the right to lay and maintain water pipes and appurtenances in Pondmere road, Jamaica Plain.

The owner at that time intended that Pondmere road should be laid out and used as a private way in the Jamaica Plain district of Boston. However, Pondmere road has never been laid as a private or public way. Further, such use as a private way is not within the present or future contemplation of the present owner. These rights to lay and maintain water pipes and appurtenances are not required by the city.

Inasmuch as the present owner of the fee wishes to obtain a release of the rights given to the city and at the request of this office, the Corporation Counsel has prepared the attached order for presentation to the City Council.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

City of Boston, in City Council.

Whereas, By two instruments in writing, one dated April 2, 1941, and recorded with Suffolk Registry of Deeds, Book 5914, page 34, and the other dated January 8, 1942, and recorded with Suffolk Registry of Deeds, Book 5967, page 402, the City of Boston was granted rights to lay and maintain water pipes and appurtenances in Pondmere road, so called, which was then intended to be laid out and used as a private way in the Jamaica Plain district of Boston, but in fact has never been laid out as either a private or a public way; and

Whereas, The fee to the two aforementioned parcels of land is now vested in a new owner who desires to keep the entire area in one parcel and who does not contemplate, either at present or in the future, laying out any private ways in the area set forth in the aforementioned instruments; and

Whereas, The Commissioner of Public Works has advised this Body that the rights to lay and maintain water pipes and appurtenances as set forth in the aforementioned instruments are no longer required for public purposes; now therefore it is hereby

Ordered, That his Honor the Mayor be, and he is hereby, authorized in the name and behalf of the City of Boston and in form satisfactory to the Law Department of said city in consideration of one dollar (\$1) to grant and release to Thomas J. McGreevy, Jr., and those claiming by, through or under him, all rights which the City of Boston obtained by virtue of the instruments in writing hereinbefore mentioned to lay and maintain water pipes and appurtenances in the parcels of land called Pondmere road, West Roxbury, from Pond street southeasterly about 250 feet nearby Burroughs street and from Burroughs street, northeasterly and easterly to the land now or formerly of Kenneson in Boston or however such rights and easements as set forth in the aforementioned instruments may be bounded or described; and it is hereby further

Ordered, That as an additional consideration for the release of said rights that the said owner of the above-described premises execute and deliver to the said City of Boston and its assigns a release of said city in form satisfactory to the Law Department from any and all damages caused by or in any way growing out of the grant and release by the City of Boston of its rights to lay and maintain water pipes and appurtenances in Pondmere road as set forth in the aforementioned instruments.

Referred to the Committee on Public Lands.

4a. ORDERED, That permanent employees of the School Committee serving in a non-teaching capacity shall receive additional compensation for the year 1947 at the rate of two hundred dollars (\$200) per annum.

4b. School Physicians shall receive additional compensation at the rate of one hundred twenty dollars (\$120) per annum.

5. ORDERED, That in addition to their regular salaries, all employees of the School Committee receiving Emergency Compensation Allotment other than those listed in Order No. 3 shall have said allotment established as part of their salaries as of June 1, 1947.

Mr. Ward: Speaking on the order, one thing I want to clarify, as a result of the other night's meeting here: I contend, and I think I rightly contend, that so far as the Mayor is concerned, the Mayor did not cut any money from our budget. Whatever money is cut from this budget was cut by the four members of this School Committee and agreed to in the Mayor's office. There were three conferences held with the Mayor previous to this budget in which four members of the committee, the Superintendent, the Business Manager, the Deputy Superintendent and Secretary were present. The Mayor listened, and the members of the School Committee made recommendations on certain cuts.

So far as \$369,000 is concerned, I believe, and I maintain my stand, that the garage at the Brighton High should be enlarged, and I so stated. I sustained my statement, by casting my vote to sustain the amount of money appropriated. All of these other items were suggested in a discussion regarding the item of custodians. On the discussion that came up so far as closing schools was concerned, the Superintendent at that time gave a list, I believe, of ten schools where ten custodians might be transferred from the schools. Because of the proposed transfer of custodians from the schools to be closed an appropriation for the appointment of fifteen additional custodians was taken out of the budget.

So far as the item on physical education goes, that item does not close the summer playgrounds. The concealed item that does not show on the reduction was \$63,000 taken from physical education for the purpose of making up the deficit of \$125,000 that the Legislature failed to put in when they agreed with the Teachers' Alliance to grant them the amount of money necessary for salary increases for nine months. At no time during the three meetings in the Mayor's office had there been any word raised by any member of this School Committee or by the Superintendent or Deputy Superintendent in opposition to any of these items.

In the press of this morning the Superintendent made a statement in which he said we are taking a backward step. The \$369,000 certainly is not a backward step because the Superintendent was not in favor of those items at the very inception of their being placed in the budget. As far as \$24,000 is concerned, that was agreed to by four members of the School Committee and not one voice was

raised in protest when the matter was submitted and suggested. So that I say if the thing is going to be reported correctly, let it be reported correctly and not let a false issue be spread around that the \$24,000 item means the closing of playgrounds. It does not. The \$63,000 item tends more to the closing of the playgrounds than the \$24,000 item. That is all I have to say.

Chairman: Are there any further questions?

Mr. White: I do want to say, Mr. Ward, I was not present.

Mr. Ward: You were absent at all meetings. I maintain this, we sat down to two luncheons, and the four members of the School Committee were there. That is where the matter came up. The only thing the Mayor could do at our suggestion—not his suggestion, but our suggestion—was to place a veto on these items and we would sustain his veto. That is the only question.

Mr. Norton: Well, now, Mr. Chairman, I do not know how many meetings I attended.

Mr. Ward: Three. One in the Mayor's office, one in the Hotel Bellevue and one in the Parker House.

Mr. Norton: I never was in the Hotel Bellevue for any meeting.

Mr. Ward: You were in the Parker House.

Mr. Norton: Just a moment. The stenographer can read the notes back. You said I was at a meeting, one of the three meetings. I may be wrong on the Bellevue Hotel. I may have misunderstood.

Mr. Ward: Were you at the meeting?

Mr. Norton: Did you make a statement I was at three meetings, and one of them was the Bellevue Hotel?

Mr. Ward: Yes. Let me ask the Secretary.

Dr. Foley: I do not believe that.

Mr. Norton: Just a moment now.

Mr. Ward: I take back that statement, you were not at the Bellevue Hotel. You were at the meetings in the Mayor's office and in the Parker House.

Mr. Norton: Let us go slowly. I was at two meetings as I remember. We might have agreed on the cut. That is an issue.

Mr. Ward: You suggested the cuts.

Mr. Norton: I believe we can cut a couple of million dollars eventually off this budget, but it has to be done in a regular way, in an orderly way. It has to be done through the Board of Superintendents and the Superintendent. Every suggestion I have made here has been with that provision, it has to be done in the orderly processes of the School Committee business. I believe not only one million can be cut, but two million dollars can be cut eventually from this budget. If the recommendations of the Strayer report were carried out,

it will cut \$2,000,000. It is the finest report ever issued.

I have asked at meeting after meeting that we take cognizance of it. That is the kind of reduction I want to see, an orderly reduction. When I spoke to the Mayor of Boston, I told the Mayor then and I say now publicly not one but two million dollars eventually can be cut off this budget. We can have a better school system than we have. It has to be done in an orderly manner through the regular process of the School Committee.

Now, whatever the discussion was in the Mayor's office, I always have this provision, it has to be cleared through here.

Mr. Ward: It does not.

Mr. Norton: Just a minute. You made a statement. I want to make a statement.

Mr. Ward: Go ahead.

Mr. Norton: You do not have to tell me. When I found money was going to be taken from the school lunches, the hot lunches, that was enough. I came in here and made the motion of penny milk and hot lunches and so far as I am concerned, they are never going to be interfered with. I have said to Rupert Carven, don't touch hot lunches for hungry children, don't touch hot lunches in our system. It is the finest thing we have. A child with malnutrition, poor and not getting proper food in the sub-standard areas of Boston—that is the child who will suffer. No, I am not going to vote to take a penny from a hot lunch or penny milk.

Mr. Ward: Neither is this Committee.

Mr. Norton: But that is what we have done.

Mr. Ward: Absolutely not.

Mr. Norton: Under the Mayor's plan.

Mr. Ward: You have not done that. Mr. Norton, you are the man who suggested it when the matter was brought up. You made the suggestion on that.

Mr. Norton: What?

Mr. Ward: You heard the discussion there.

Mr. Norton: What?

Mr. Ward: You certainly did.

Mr. Norton: I cannot disprove you, Mr. Ward, I made the suggestion to cut hot lunches. You made one statement here I can disprove. It is absolutely wrong. It was a statement that I was in the Hotel Bellevue for three meetings. I cannot prove you are wrong when you sit there categorically and say I did. I came up here and voted to uphold our own experts. The moment I saw it meant money taken from cafeterias, to me it meant hot lunches.

Mr. Ward: You never raised your voice down there, and I will take issue with you on that.

Mr. Norton: Just a moment. You are unfair with me.

Mr. Ward: I am not.

Mr. Norton: You voted for that. I did not.

Mr. Ward: I have never done so. I did not vote for that.

Mr. Norton: I cannot prove you wrong unless I have a stenographic copy of the evidence. I will say to the Superintendent, did you at any time hear me make a remark I favored cutting the cafeteria appropriation?

Superintendent: No, I did not.

Mr. Ward: Was this matter ever discussed down there at the Parker House when Mr. Norton was present?

Superintendent: It was discussed there.

Mr. Ward: Did Mr. Norton raise his voice and make an objection?

Mr. Norton: Just a moment. We were then considering ways and means. You made the statement I am the man who suggested the cut. You made the definite statement I am the man who suggested the cut.

Mr. Ward: Have you a record of the minutes of that meeting?

Mr. Norton: They have the records of making the cut at the last meeting. Where is that cut we had on the cafeteria appropriation?

Mr. Ward: Now, Mr. Smith, let me ask you, on the \$75,000, does that mean that the hot lunch program is taken out of our schools?

Business Manager: As I remember the discussion at the Parker House, it was suggested that if the hot plate were taken away, it would reduce the number of employees.

Mr. Ward: \$75,000 covered sixty additional employees we were going to put on from the civil service list. Is that right or wrong?

Business Manager: That is right.

Mr. Ward: What does hot lunches have to do with it?

Business Manager: Hot plate.

Mr. Ward: Sixty additional civil service employees were taking an examination.

Business Manager: That is right.

Mr. Ward: That \$75,000 was cut out, and the program was not to employ the additional sixty civil service employees. What has that to do with hot lunches?

Business Manager: The discussion was about the serving of a hot plate.

Mr. Norton: What is a hot plate and what is a hot lunch but the same thing?

Dr. Foley: We did not discuss any hot plate or cafeterias. I opened that discussion. We were looking for \$125,000. The Mayor called the Governor to find out why the bill passed by the Legislature was short that much. He found that in Ways and Means they had figured on a ten months' basis instead of twelve. Am I right on that?

Business Manager: I do not know. You are now talking about the meeting in the City Hall?

Dr. Foley: You were not there. Miss Kane was there. He came back and said the Ways and Means figured on a ten months' basis instead of twelve.

Dr. Foley: We were then looking for \$125,000 to give the teachers of Boston that extra four, five

and six hundred dollars. Therefore, the Mayor went in conference with Mr. Fox and Mr. Rupert Carven. When they came out, I suggested milk and sandwiches would suffice, and therefore we could probably cut from the cafeterias \$75,000 in order that the teachers of Boston could receive or would receive that \$125,000.

Now, let me take the blame for the cafeterias. After all, I really started that thought here among the School Committee members. I still feel that no administration costs are charged to our cafeterias. I still feel it is really not a true report. After all, we cannot get on a paying basis in the cafeterias because we are by and large overstocked, you might say. I always feel, and I still feel, a sandwich or two and a bottle of milk is plenty. In that way we can get rid of agencies that are not necessary, and still retain the salaries of the teachers of Boston. I have never cut any teacher's salary. I do not intend to. I still contend here as long as you have frills and fancies and agencies throughout your system, your budget is going to be ballooned, and that will depreciate so much money from your teachers' salaries. That is how we tried to find \$125,000 by taking off \$75,000 from the appropriation.

The others are only small items. They are not worth mentioning. After all, the big item was Mr. Mooney's department. We cut more than \$600,000 last year. We still have an overall picture of an unexplained balance of \$204,000. I still feel we can carry along nicely this year and do a good job and not hurt anybody. If there is any blame to be laid on cafeterias, I will assume it.

Where we have appropriated in your original budget \$752,000 for cafeterias, the Mayor's veto now makes this appropriation \$677,000. We do not know the overall picture of income. That is a huge, gigantic thing. It is three-quarters of a million dollars. It is big business. I do not think we necessarily should be in the lunch business. It would be fine. It is fine if we have plenty of money. If we had an overall population, if our pupil numbers were not diminishing, it would be grand to expand on your cafeterias. I still believe in the expansion of a program which is a program. It is necessary if you are expanding. Your pupil numbers should expand accordingly. Where you have diminishing pupils throughout your system, this fact should be considered. You have to consider what is the best interest for our teachers. That is the problem as I see it.

Mr. Norton: As I previously stated, we can cut down due to the diminishing numbers as the doctor suggests. Some of our schools are half empty. I have made that statement often. I want them cut in accordance with the best minds we can get in the school system, the Strayer report.

Dr. Foley: I have disagreed somewhat with Mr. Strayer, Mr. Norton. I do not say it is the end-all.

Mr. Norton: It is the best we have to date.

Mr. Ward: In the Strayer report, Strayer believes in the intermediate system of schools. Is that correct? Twenty years ago there was established here the intermediate school. Has it ever been completed? In Dorchester you have another system. Mr. Superintendent, is that correct, the eight and four, is that right?

Superintendent: In Dorchester, what do you mean?

Mr. Ward: You have the elementary eight grades. They graduate and go into high school and take four years of high school.

Superintendent: We have in certain schools throughout the city the eight grade system.

Mr. Ward: You have not got the intermediate system. It is only half finished as far as Boston is concerned.

Superintendent: I should say it is more than half finished.

Mr. Ward: You still have Dorchester and the South End.

Superintendent: We have in Dorchester the Oliver Wendell Holmes junior high, the Woodrow Wilson junior high, the Grover Cleveland junior high and the Frank V. Thompson junior high.

Mr. Ward: How many grades?

Superintendent: Seven, eight and nine. The Mather school is an eight grade school.

Mr. Ward: The South End.

Superintendent: We haven't the intermediate organization there. We haven't the buildings.

Mr. Ward: You took the Abraham Lincoln ninth grade and sent it to the English High School. That leaves that eight grade elementary.

Superintendent: That is correct.

Mr. Ward: You have not completed the system?

Superintendent: No.

Mr. Ward: Does anybody know the cost of keeping the intermediate system? Has anybody given it a thought after it was once brought in years ago?

Mr. Norton: Could we have a report say next fall on this, on the matter of the junior high schools?

Superintendent: Yes.

Mr. Norton: I have put in considerable time trying to study it. I do not know whether to say yes or no on it, there are so many conflicting reports.

Superintendent: We had a long-term plan for every section of the city; during the war there was no building. There were junior high schools planned for the entire city. Where the buildings were such that we could not afford to dispose of them, we were unable to carry out the city-wide plan. In the Abraham Lincoln school on the recommendation of the assistant superintendent, the ninth grade pupils were sent to the high schools.

Mr. Norton: Are you of the opinion it would be possible to eliminate it?

Superintendent: Throughout the country you will find the six-six plan. There are many possible combinations. Of them all I think six-three-three is the plan which is most used throughout the country.

Mr. Norton: Six-six-three?

Superintendent: Six-three-three.

Mr. Norton: Would we save money in your opinion if we went back to the eight and four?

Superintendent: If you do that, you place the ninth grades in high schools and pay the teachers high school salaries. At the time the intermediate schools were built, you had the choice of building intermediate schools or the choice of expanding the high school building program.

Mr. Norton: Could we save money?

Superintendent: I do not think so.

Mr. White: Is it the best type of education? That is the question.

Mr. Norton: That is what we are trying to hold on to, our Board of Education and our experts.

Superintendent: You will find experiments on all types. I think the most common is the six-three-three plan. You will find the six and six plan in some cities. In every progressive city you will find some arrangement whereby you can offer a differentiated program for the youngsters as they approach the seventh, eighth and ninth grades. If you want to go back to the eight and four plan at the present time, you would have a substantial number of teachers in your intermediate schools who have been given maximum salaries of \$2400 or \$3024, depending on sex. You place them in a high school program—the pay for the women teachers would be \$3072 and the men teachers \$3888. There would not be any saving so far as teachers' salaries are concerned.

Mr. Norton: There is a press report tonight. The inference is we might be able to save money by going back to the eight and four system. That is disregarding educational welfare. I am talking about welfare.

Superintendent: I would like to see where the saving is.

Mr. Norton: In so far as you are concerned, Mr. Superintendent, if we went back to the eight and four system as some folks advocate, you cannot see right now where we would save a considerable sum of money or any amount of money?

Superintendent: We could not do that and give the children the same educational opportunities we offer them now.

Mr. Norton: You feel if we went to eight and four, we would be diminishing the educational opportunities we now give the youngsters in Boston?

Superintendent: In the intermediate school they have a broader and wider opportunity for education.

Mr. Norton: You have given this study for a number of years?

Superintendent: I think so. I think every member of the Board feels the same way I do.

Mr. Norton: There is a unanimity of opinion?

Superintendent: I think so.

Mr. Norton: It is unusual.

Mr. White: To my knowledge, Mr. Chairman and Mr. Norton, from my memory of ten years' service on the Board, no superintendent or assistant superintendent ever to my knowledge made that recommendation to us, changing from the junior high school system.

Mr. Ward: When Mr. Campbell was superintendent, did he favor the eight and four or the six-three-three plan?

Superintendent: I think originally he might have favored the eight and four plan. Afterwards he favored the six-three-three plan.

Mr. Ward: Didn't he make a public statement if he had been superintendent the six-three-three system never would be placed in the Boston schools?

Superintendent: I never heard of such a thing.

Mr. Norton: You would likely hear of it?

Superintendent: I think so. I made a study over a period of ten years in which we took the teachers' estimate of the pupils as they went in to high school in the tenth grade. That is where the groups are merged. You have those with ninth grade junior high instruction, and those who had ninth and tenth years in high school. It was without reference whatsoever as to where the pupils had received ninth-grade training of the teachers' estimates of the marks the children received while in grade X.

Then having received the marks from the teachers in the high schools, we differentiated them according to their place of preparation, whether ninth grade, junior high school, or ninth grade high school. At the first, as has been suggested, there was objection to junior high ninth grade pupils by the high schools particularly. That study was broken down into all major subjects of the high school. The results were submitted to the headmasters' association, and that association came to the conclusion that the preparation of children in the intermediate schools was as good as in the high school. That was a study based on the high school teachers' estimates of the grading of their pupils as they received them in the tenth grade, and covered a period of ten years. The high school association of principals recommended the discontinuance of the study.

Mr. Norton: Why in your opinion in the light of what you see are there folks who feel you would save money by changing back to the old system?

Superintendent: It is easy enough to make the statement. I would have to see it verified.

Mr. Norton: You would have to see definite figures?

Mr. Ward: If the system of eight and four is not educationally sound, why in Newton, Brookline, Cambridge and the parochial schools do we have the eight and four system? Don't you think they are big cities? They are in the metropolitan area.

Superintendent: Why do the largest cities in the country have the junior high school system?

Mr. Ward: Didn't the junior high system come out of Rochester, New York?

Superintendent: They had junior high schools there.

Mr. Ward: Is that the original?

Superintendent: I do not think so, no.

Mr. Ward: I would like to get opinions from educational groups throughout the country on it.

I move the previous question.

Chairman: The question comes on accepting the five salary orders as presented by the Superintendent.

Mr. Ward: Mr. Chairman, on the permanent force, the \$200, is there any commitment other than the custodians on that?

Mr. Norton: We would all like to give the custodians \$400, those that did not get \$200.

Dr. Foley: I spoke to some one yesterday in regard to raising the maximum to be \$3024 instead of \$2880. I would like the Superintendent to place upon the record the answer that he gave to me in regard to the maximum of the intermediate teachers, men, which is \$3024 and how Mr. Smith and the Superintendent arrived at the \$2880.

Superintendent: \$3024 is the maximum salary for men teachers, junior high school. The question proposed by Dr. Foley was why weren't they included in the other group rather than the \$400 group.

Mr. Ward: That is right.

Superintendent: If you take \$3024 and add \$500 to it, you get \$3524. Then add \$200 E. C. A., you obtain \$3724, which is more than the vice-principals or the women teachers in the high schools who now get \$3072 as a maximum would receive. In these groups if you add \$400 and \$200 E. C. A. to the \$3072 you would find these groups getting \$3672. Therefore, you would have the men teachers in the junior high schools getting a substantial salary above that of the high school teachers where they now get only \$3024 as compared with \$3072. They would also be getting more money than the vice principals of the school in which they worked.

Dr. Foley: Do you think the orders have a tendency to arrive at a single salary schedule?

Superintendent: The step we have taken is an attempt to do that.

Chairman. I will ask the Secretary to call the roll on the acceptance of the five salary orders.

On roll call, the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Norton, Ward, and White—5.

NAYS—0.

The Chairman declared the five salary orders passed unanimously.

COMMENDATION ON PREPARATION OF BUDGET

Mr. Norton: I want to congratulate everybody who has had anything to do with the preparation of this budget. This has been an extraordinarily difficult and complex task. I want to congratulate Mr. Downey, our able deputy superintendent, for the manner in which he co-operated and also our business manager.

I am very much encouraged by the manner in which this matter has been handled this year. Let me say to the Business Manager that I understand that his office is going along splendidly. These are the reports I get from a hundred different sources. I want to say to the Business Manager, who has only been on the job a few months, that I think the manner in which this budget, a complicated matter, was handled by him and Mr. Downey was very satisfactory. I want to thank him and everyone.

Mr. White: I think you are expressing the opinion of the entire School Committee.

The Committee adjourned.

Attest:

LOUISE KANE,
Secretary.

May 13, 1947.

A meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 6 o'clock p. m., the Chairman presiding.

Present: Messrs. Foley, McDevitt, Norton, Ward, and White.

APPROVAL OF MINUTES

The reading of the minutes of the special meeting of April 30, 1947, was omitted, the Committee approving them as printed.

ACCEPTANCE OF ACT REGULATING RETIREMENT OF SCHOOL TEACHERS

The following communication was received:

CITY OF BOSTON
IN CITY COUNCIL

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Goethe street, West Roxbury district, as a highway, from Schiller road southeasterly, bounded and described as follows:

A highway named Goethe street is hereby laid out, from Schiller road to the boundary line between Boston and Dedham, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northwesterly by Schiller road, forty and 13-100 feet; northeasterly by the northeasterly line of said Goethe street as hereby laid out, eight hundred two and 72-100 feet; southeasterly by the southeasterly line of said Goethe street as hereby laid out, forty and 34-100 feet; and southwesterly by the southwesterly line of said Goethe street as hereby laid out, seven hundred ninety-four and 27-100 feet.

Trees or structures standing upon or affixed to the aforesaid land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of Goethe street as laid out under this order, southeasterly from Schiller road to the boundary line between Boston and Dedham, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on the plan hereinafter referred to and on file in the office of said department.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out and construction of Goethe street, West Roxbury district, as a highway, under the order of the Board of June 19, 1947, and awards no damages therefor.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

A parcel of land, owners unknown, being the private way known as Jacqueline road, bounded:

Northwesterly by Ashland avenue, thirty-five and 55-100 feet; northeasterly by the northeasterly line of Jacqueline road, two hundred forty-three and 4-100 feet; southeasterly by the southeasterly line of Jacqueline road, thirty-five and 53-100 feet; and southwesterly by the southwesterly line of Jacqueline road, two hundred forty-two and 92-100 feet, containing eighty-five hundred and four square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Ashland avenue, bounded:

Southeasterly by Jacqueline road, thirty-five and 55-100 feet; southwesterly by another part of Ashland avenue, five and 55-100 feet; northwesterly by sewer

easement taken by the City of Boston March 22, 1924, thirty-five and 59-100 feet; and northeasterly by another part of Ashland avenue, five and 80-100 feet, containing one hundred and ninety-nine square feet, more or less.

The sewerage works to be constructed are as follows: 250 linear feet of 10-inch pipe sanitary sewer and 243 linear feet of 10-inch pipe surface drain, in the above-described premises, being the private way known as Jacqueline road and part of the private way known as Ashland avenue.

Assessments will be made for the making of the aforesaid improvement.

Ordered. That this Board estimates that the abutting lots of land on the northeasterly and southwesterly sides of Jacqueline road will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on the plan hereinbefore referred to, and on file in the office of this department.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SHEET ASPHALT PAVEMENT IN WIDENING AT JUNCTION OF MAPLE STREET AND PINE STREET, WARD 18, HYDE PARK.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in widening at junction of Maple street and Pine street, Ward 18, Hyde Park. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Widening at Junction of Maple Street and Pine Street, Ward 18, Hyde Park," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Thursday, July 24, 1947, with a certified check for one hundred fifty (\$150) dollars, payable to and to become the property of the city, if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called), to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

PROPOSALS FOR SEWERAGE WORKS IN PIERCE AVENUE EXTENSION IN PRIVATE LAND, ROCKWELL STREET, SAWYER AVENUE, AND RICHFIELD PARK, DORCHESTER.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest is owned by a citizen or citizens of the United States, for sewerage works in Pierce avenue extension in private land, Rockwell street, Sawyer avenue, and Richfield park, Dorchester. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Pierce Avenue Extension in Private Land, Rockwell Street, Sawyer Avenue, and Richfield Park, Dorchester," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Thursday, July 24, 1947, with a certified check for three hundred fifty (\$350) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,
(July 12.) Commissioner of Public Works.

HOSPITAL DEPARTMENT.

INVITATION FOR PROPOSALS FOR ALTERATIONS TO KITCHEN IN SOUTH DEPARTMENT OF BOSTON CITY HOSPITAL, 818 HARRISON AVENUE, BOSTON, MASS.

The Trustees of the Boston City Hospital, hereinafter referred to as the Awarding Authority, invite sealed proposals for alterations to kitchen in South Department of Boston City Hospital, 818 Harrison avenue, Boston, Mass.

Proposals will be received until Friday, July 18, 1947, at 12 o'clock noon, Eastern Daylight Saving Time, at the office of the Superintendent of the Boston City Hospital, 818 Harrison avenue, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the architect, the John M. Gray Company, 175 High street, Boston, Mass. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Superintendent of the Boston City Hospital, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the bidder and a surety company in the amount of 5 per cent of the base proposal shall be submitted with each bid, filed with the Superintendent of the Boston City Hospital.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, laborers, etc., in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, a copy of which schedule is attached to the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract.

Plans and specifications may be obtained at the office of the architect, the John M. Gray Company, 175 High street, Boston, Mass. A deposit of \$50 in cash or a certified check will be required for each set of plans and specifications, and this deposit will be returned to the bidders upon receipt of said plans and specifications in good condition by the architect.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form obtainable from the architect.

All sub-bidders' proposals must be in the possession of the Trustees of the Boston City Hospital and delivered or mailed to the general bidder no later than 12 o'clock noon, Eastern Daylight Saving Time, Tuesday, July 15, 1947.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the sub-bidder and a surety company shall be submitted by sub-bidders listed under Item 2 of the General Contractor's bid form in not less than 5 per cent of the sub-bidder's bid price, and shall be submitted with each sub-bid.

Sub-bids will be taken on the following portions of the work:

(a) Kitchen Equipment. (b) Plumbing. (c) Heating and Ventilating. (d) Electrical.

A performance bond, issued by a surety company satisfactory to the Awarding Authority in the full amount of the contract, will be required of the successful General Contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it be in the public interest to do so. The City of Boston also reserves the right to reject all bids of the sub-bidders on any item or items and to waive any informalities in the bidding, if such rejection or waiver be in conformance with section 44C of chapter 149 of the General Laws.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Awarding Authority,

and no bid of a sub-bidder shall be withdrawn prior to thirty (30) days from the opening of bids, without the consent of the Awarding Authority.

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 39

SATURDAY, JULY 19, 1947.

No. 29

"FRANCE SHALL NEVER DIE, AND WE OF THE UNITED STATES SHALL ALWAYS BE AT HER SIDE, FIGHTING FOR THE CAUSE OF FREEDOM, LIBERTY, AND JUSTICE AMONG MEN AND NATIONS," TEMPORARY MAYOR JOHN B. HYNES TELLS OBSERVERS OF "FETE NATIONALE" ON BASTILLE DAY, DURING CELEBRATION OF 158TH ANNIVERSARY OF REVOLUTION THAT DESTROYED "ONE OF WORLD'S WORST SYMBOLS OF DESPOTISM" — EXPRESSES GRATITUDE FOR AID GIVEN BY FRENCH NATION IN AMERICA'S OWN COLONIAL STRUGGLES TO BE FREED OF TYRANT'S YOKE.

The following were the remarks of John B. Hynes, Temporary Mayor of Boston, at the "Fete Nationale," French Consulate, 178 Beacon street, on Bastille Day, July 14:

Hon. Louis de Cabrol, Representative in Boston of the Great Republic of France, and Distinguished Guests:

It has been a happy privilege for me to have had the opportunity to join in the observance of your "Fete Nationale" on this Bastille Day — the 158th anniversary of the destruction of one of the world's worst symbols of despotism, which had existed for almost five centuries.

The celebration of the destruction of the Bastille on July 14, 1789, began in the United States on the first anniversary of the event. It has since been observed, in one form or another, each year. America will continue to observe the day so long as we retain our liberty and freedom.

The United States had come into being as a free nation only a short time before, and had received the greatest of assistance from French patriots, who helped in crushing the tyranny and oppression under which our Colonists had long suffered.

Sympathy for French.

Therefore, the American people were in entire sympathy with the efforts of the French to obtain relief from the oppression of monarchical government. They hailed the destruction of the Bastille, and the successful revolution which followed, with unconcealed joy.

This morning there was an impressive Mass at the Church of Notre-Dame-des-Victoires in memory of the French heroes who lost their lives in the 1914-18 and 1939-45 wars. My memory went back to Bastille Day in 1918, when the American people, through the Pennsylvania Council of National Defense, sent a spirited message to the people of France. This message declared:

"France stands erect today, unconquered and unconquerable. America stands beside her — our boys in khaki shoulder to shoulder with the horizon blue of France's brave men. . . . Today we ask for France nothing but the privilege of repaying the debt we owe. We, too, celebrate the fall of the Bastille, the first stronghold of absolutism to go down before the rising power of free men. We shall stand beside her till the last stronghold of autocracy falls in ruins about the Hohenzollern dynasty."

Since that day we have witnessed the destruction of the Hohenzollern dynasty, only to have it followed a few years later by another dynasty of ruthless, cruel madmen, who engulfed the world in the worst and bloodiest struggle of all time. Thank God that dynasty, too, has been destroyed, and Nazism and all that it stands for has been crushed forever.

France shall never die, and we of the United States shall always be at her side, fighting, if necessary, for the cause of freedom and liberty and justice among men and among nations. I salute you. Vive la belle France!

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by

NATHAN HASKELL DOLE.

TEMPORARY MAYOR JOHN B. HYNES WELCOMES ANNUAL CONVENTION OF RAILROAD AND UTILITIES COMMISSIONERS—EXTENDS TO VISITORS HOSPITALITY OF CITY'S RESIDENTS AND BIDS THEM VISIT HISTORIC SHRINES SO AS TO TAKE AWAY WITH THEM REALIZATION OF WHAT BOSTON MEANS TO REST OF UNITED STATES AND COMPREHENSION OF SOME OF PROBLEMS CONFRONTING THOSE WHO LIVE HERE AND KEEP ALIVE TRADITIONS THAT HAVE MADE CITY WORLD KNOWN.

The following were the remarks of Temporary Mayor John B. Hynes at opening session of Annual Convention of Railroad and Utilities Commissioners, in the Georgian Room of the Statler, on July 14:

Mr. Chairman, Invited Guests, Delegates to the National Association of Railroad and Utilities Commissioners.

In the name of the City of Boston, its officials, and its citizens, I welcome to our historic community this convention of railroad and utilities officials.

As Mayor of the City of Boston, serving in a temporary capacity, and not especially interested in what direction the political winds are drifting, I avoid, whenever possible, the public appearances which can be a burden more often than a joy and pleasure.

However, when I received the invitation by Mr. Carroll Meins to open this convention, I made haste to accept that invitation forthwith.

You know, in Massachusetts, an invitation from Mr. Meins is not simply an invitation which one can accept or reject with impunity. Not at all. In this state, an invitation from Mr. Meins is a peremptory order, and woe betide the thoughtless, careless soul who ignores such an invitation. Whether he be Republican or Democrat, he will live to learn that Mr. Carroll Meins is a figure of power, whose velvet glove can hide a hand of iron.

Seriously, ladies and gentlemen, we are happy you are here. Your official problems, whatever they may be, are not much different in essence than ours, except that we are an old city, and with our age has come all the trials and tribulations that follow when the arteries lose their flexibility.

We like to think of Boston as the Athens of America—the Hub of the Universe—the Center of Culture. We may be all of these things or we may be none of them, but we are old, and we have many old and many new and serious problems—problems of housing, of traffic, of transportation—all related, and all so much a part of the everyday happiness and well-being of our citizens.

We are struggling to solve those problems, and only a few weeks ago, after a contentious period of 30 years, we finally made the plunge and took over for public ownership and operation our metropolitan transit system.

Welcome to our city. We are glad and honored to have you here. We hope you will go back to your home cities and states and say Boston is the greatest convention city in our great and favored land.

MAYORS OF BOSTON, ENGLAND, AND BOSTON, MASSACHUSETTS, EXCHANGE GREETINGS.

The following statement was issued on July 14 by John B. Hynes, Temporary Mayor, City of Boston:

On Sunday next, July 20, "Seamen's Sunday," the good people of Boston, Lincolnshire, England, are to celebrate what they term "Two Bostons' Day." They are to pay homage, in this celebration, to the citizens of Boston, Massachusetts, U. S. A.

As Temporary Mayor of Boston, Massachusetts, I wish to thank the people of Boston, England, for their graciousness. I am sending to them, through their Mayor, the Honorable F. M. Moffatt, our deep appreciation for this remembrance and our heartiest congratulations.

Mayor Moffatt, in a letter by air mail just received, explains the day as follows:

"On Sunday week, the 20th July, we shall again be celebrating, in conjunction with the traditional observance of Seamen's Sunday, Two Bostons' Day, and I therefore take this opportunity of sending you, on behalf of my Council and all my fellow citizens, greetings and good wishes.

"The guest of honour on this occasion will be Captain J. M. Bachulus (M. C.), U. S. N., whom we had the honour of welcoming for the first time last year. Captain Bachulus will therefore represent not only the Ambassador but all those other countless Americans for whom an equally cordial welcome is waiting in this ancient borough as soon as travel and other restrictions are eased.

"May I assure you, as I know my predecessors have, of the good will which we all feel towards your great city, and extend to you my best wishes for the successful celebration of the day which means so much for us both.

"Believe me,

Yours sincerely,
F. M. MOFFATT, Mayor."

PLANS FOR MAYOR'S CHARITY FIELD NIGHT.

Col. Maxwell B. Grossman, Penal Institutions Commissioner of the City of Boston, who is serving as chairman of the annual Mayor's Charity Field Night, on July 14 announced that the plans for this annual event were rapidly nearing completion. The program, as planned up to the present time, includes a military pageant of several bands, bugle and drum corps, outstanding baseball games, a vaudeville show, which will present many of the leading acts that will be appearing in Boston during the week that the Field Night is held, and a fireworks display.

The Field Night this year will be held on Thursday, July 24, at Braves Field, starting at 6 p. m. and running till midnight.

To the holders of lucky tickets will be awarded a 1947 Ford sedan, a Frigidaire, a washing machine, and many other valuable prizes.

Temporary Mayor John B. Hynes is honorary chairman of the committee, and also serving with Colonel Grossman are: Henry P. Brennan, City Treasurer, who is also treasurer of the committee; William Mullins, Patrick Ryan, Louis Brems, and Fred Hurley, of the Park Department; Frank B. Howland, Executive Secretary to the Mayor; George James Curley, Director of Public Celebrations; Miss Regina Kopp; Peter J. Cioherty, Acting Director of Public Celebrations; Charles J. Fox, City Auditor; Fire Commissioner Russell S. Codman, Jr.; Public Works Commissioner Robert P. Curley; Joseph Brennan; Martin Fulton; and Edgar Grossman.

MAYOR CURLEY'S SALARY CHECKS TO BE GIVEN TO CHARITIES DESIGNATED BY TEMPORARY MAYOR HYNES.

Temporary Mayor John B. Hynes on July 15 issued the following statement:

I was visited this morning by William E. Leahy, Esq., attorney for Mayor James M. Curley.

Mr. Leahy informed me that he visited Mayor Curley at Danbury on Monday, and was requested by the Mayor to instruct Leo Curley, the Mayor's son, to endorse, under a power of attorney possessed by Leo Curley, all salary checks due and payable to Mayor Curley to Temporary Mayor John B. Hynes.

I was further informed by Mr. Leahy that Mayor Curley desired that the disposition of this money would be decided by me and that any appropriate charity I chose would be agreeable to Mayor Curley.

It will be my purpose, therefore, as each check is endorsed by Leo Curley and turned over to me, to use the proceeds of that check for worthy charities, such as the Mayor's Field Day, special nurses at the City Hospital, and other charitable endeavors connected with civic activities.

CLAIMS DISAPPROVED.

The following claims have been disapproved by the Law Department:

Fire Department, 15 claims; Police Department, 17 claims; Hospital Department, 8 claims; Public Works Department, 58 claims; School Committee, 4 claims; Street Commissioners, 2 claims.

REPORT OF FREDERICK J. GILLIS, ASSISTANT SUPERINTENDENT, ON ATTENDANCE AT PRESIDENT'S CONFERENCE ON FIRE PREVENTION, HELD IN WASHINGTON, D. C., MAY 6-8.

The following is the report of Frederick J. Gillis, Assistant Superintendent, on attendance at the President's Conference on Fire Prevention, held in Washington, D. C., May 6-8:

The President's Conference on Fire Prevention was held in Washington, D. C., on May 6, 7, 8, 1947.

The purpose of the conference was well stated by President Harry S. Truman in his address to the First General Session:

"In working out a plan which will reduce the fire menace and cut down the toll of death and destruction, you will be making a most valuable contribution to the welfare of our nation."

The conference was presided over by Major General Philip B. Fleming and was addressed by such outstanding speakers as President Harry S. Truman; Honorable Robert E. Dineen, President, National Association of Insurance Commissioners; George J. Richardson, Secretary and Treasurer, International Association of Fire-Fighters; W. E. Mallalieu, General Manager, the National Board of Fire Underwriters.

After the First General Session, the 2,200 delegates divided into six groups:

Building Construction, Operation and Protection. To study and recommend action relative to (a) building codes and the regulation of building operations, including such safety devices as seem warranted in places of public assembly, abode, or employment; (b) administration of fire safety regulations; and (c) the financing of necessary structural improvements by owners and managers of properties.

Fire Prevention Education. To explore ways and means of (a) intensifying and enlarging educational aids for elementary and secondary schools, colleges, and universities, including extension courses and teacher education institutions, and to develop wider uses of such educational aids; (b) stimulating students' interest in the work of local officials in the field of fire prevention and fire protection; and (c) increasing the sense of responsibility of local officials for safety to life in institutions under their control.

The Fire-Fighting Services. To analyze the present situation as to the adequacy of fire-fighting facilities and personnel, and to make recommendations for needed improvement.

Laws and Law Enforcement. To explore (a) the question of state laws that will provide minimum standards of regulations for fire safety and will provide for the adoption of municipal ordinances that will augment such minimum standards; and (b) the legality of retroactive features of laws and ordinances pertaining to fire safety and to present appropriate recommendations.

Organized Public Support. To recommend a plan which will effectuate the conclusion of the conference with specific steps, both immediate and long-range, that may be taken to intensify public approval and support of the recommendations of the conference.

Research. To emphasize the importance of continuous research in the field of scientific development and in human behavior with respect to fire and safety

to life, thus providing information for modernization of laws, ordinances, and regulations.

The fire loss for 1946 was \$561,487,000, and it appears that the fire loss in 1947 will exceed that of 1946, the greatest in our recent history.

The greatest cause of destructive fire is carelessness; only people can be careless, and only people can be educated. School fires occur at the rate of more than five a day in the United States and Canada. The average yearly death toll due to fire is placed at approximately 10,000 persons, and on the average, in one year, fire takes the lives of 1,673 children under five years of age, while 591 children between the ages of five and nine die in the same way. Destructive fire can be prevented through the use of superior knowledge, skills, and desirable attitudes. Fire prevention education contributes directly to child growth in that practically all experiences are secured in wholesome, efficient, and happy living.

It was recommended by the Committee on Fire Prevention Education that:

1. Each state department of education take the lead in its jurisdiction in developing fire-safe school properties and designate responsibility for its successful completion.

2. The school administrator seek the advice of fire protection authorities and obtain as much authoritative literature as possible, so as to develop an alertness to fire hazards.

3. Vital records of the school be properly safeguarded in a fireproof safe or vault and a designated member of the faculty be assigned the responsibility for their proper storage.

4. The school administrator take every action necessary to insure that safe escape, in event of a fire, is a virtual certainty.

- a. This entails the treatment of the following features in accordance with current recognized codes:

1. Elimination of unprotected vertical openings, with special attention to open stairways.

2. Provision of smokeproof escape towers.

3. Adequate exit doors equipped with panic hardware.

4. Effective exit drills carefully planned with provisions for shutting down hazardous operations and obtaining an accurate roll call.

5. The school administrator should organize and develop the local program of school plant and fire protection.

- a. A committee is suggested, with a broad representation of the faculty, which will study and list all existing hazards with the aid of local fire inspection authorities.

- b. Particular attention should be devoted to the following features:

1. Heating Systems.

A prolific source of fire, particularly in old buildings.

2. Electrical Systems.
Thorough inspection and elimination of overfusing.

3. Storage Arrangements.
Elimination of unnecessary storage wherever possible. Particular attention should be given to the removal of unused or damaged equipment, and all storage beneath stairways or in stair shafts should be prohibited — remainder confined to incombustible areas.

4. Shops.
High temperature devices and flammable liquids require special handling.

5. Home Economics and Laboratories.

Good housekeeping and proper storage equipment are of paramount importance.

6. Cafeteria and Kitchen.
Grease accumulation and isolation of eating areas from kitchen are key points.

7. Auditorium.
Flameproofing of curtains and scenery and adequate exit facilities are major factors.

My attention was devoted principally to the subcommittee meetings on fire prevention education.

TEMPORARY MAYOR HYNES JOINS VETERANS IN PLACING WREATH TO HONOR BOSTON'S HERO DEAD.

On Friday afternoon, July 18, Temporary Mayor John B. Hynes and a group representing the State Department of the American Legion placed a wreath on the monument commemorating the Boston war hero dead on Boston Common. Mayor Hynes is a member of the Old Dorchester Post No. 65, American Legion. The ceremonies were in charge of Frank T. Pedonti, Supervisor of Veterans' Graves Registration for the City of Boston.

FIRE DEPARTMENT PROMOTIONS APPROVED.

His Honor the Temporary Mayor on July 15 approved the following:

BOSTON, July 10, 1947.

JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR, —Subject to your Honor's approval, I will promote the following-named captains to the grade of District Chief in this department with an increase in salary from \$3,300 to \$4,400 a year, to become effective at 8 a. m., Wednesday, July 16, 1947:

Capt. John A. Morrissey, Engine Company 8, 207 Bunker Hill street, Charlestown.

Capt. Roger T. White, Engine Company 15, 722 La Grange street, West Roxbury.

These promotions are necessary in order to fill two vacancies in the rank of District Chief caused by the promotion of District Chief Patrick E. Collins to Deputy Chief on February 5, 1947, and the retirement of District Chief Joseph W. Shea on the same date.

Both of these men have been certified for promotion by the Department of Civil Service. Theirs are the first two names on the eligible list.

Respectfully,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

HEALTH PREVENTS BABE RUTH FROM ATTENDING MAYOR'S FIELD NIGHT.

NEW YORK, July 14, 1947.

JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MR. MAYOR,—Thank you for your nice letter of July 2 and your kind invitation to attend the Mayor's annual sports show, to be held at Braves Field, Thursday evening, July 24.

I have just returned from a week's visit to Dallas, Texas, and my doctors have forbidden me to accept any further engagements until August or September. It is with regret that I decline your fine invitation, and I trust you will understand that I have to take these orders from my doctors.

I am feeling better and hope to get up to Boston very soon. Give my very best to Brother Gilbert and all the members of your committee.

With kind personal regards, believe me, I am,

Sincerely,

BABE RUTH.

TRAFFIC SURVEY AT SULLIVAN SQUARE.

Traffic Commissioner Leo F. Curley announced on July 11 that on Monday, July 14, 1947, the Boston Traffic Commission would conduct a survey in Sullivan square, Charlestown, in co-operation with the Boston Police Department and Public Works Department, between the hours of 8 a. m.—10 a. m. and 4 p. m.—6 p. m.

The purpose of the survey is to determine what streets the vehicles use in entering and leaving the square. When this data is obtained it will be used as a guide by the city engineers to assist them in determining whether the construction of an underpass will remove the bulk of the traffic from the square, or if an enlarged rotary circle would be sufficient to take care of the demand, or if it will be necessary to have a combination of both underpass and circle.

In order to obtain this data a unique procedure has been devised by the Boston Traffic Commission engineers. Five men and a police officer will be stationed in each of the five streets that enter into Sullivan square. The duty of the police officer will be to slow down the traffic approaching the square. Two men will attach a colored card to the door handle of each vehicle after it is slowed down by the police officer.

A different colored card will be used for each of the five streets entering the square. One of the five men stationed in each street will record the color of the attached card on the vehicle as it passes him on leaving the circle. By this method the movements of the various vehicles can be traced from the street by which they enter the square to the street where they exit from the square. The other two men stationed in the street will record the total number of vehicles moving in both directions of the street.

By this method a complete record can be compiled of all the turning movements in the square.

Operators of vehicles entering Sullivan square during these hours are requested to cooperate with the Traffic Commission by leaving the cards on the vehicles until they have left the square.

BOSTON HONORS COLONEL THOMAS CASS'S MEMORY WITH A WREATH.

On Saturday, July 12, 1947, at 12 o'clock, the City of Boston paid its annual tribute to Col. Thomas Cass by the placing of a wreath at the statue, by his Honor, on the Boylston Street side of the Public Garden.

Colonel Cass commanded the Ninth Massachusetts Regiment of Volunteers, which was organized on May 3, 1861, to fight during the Civil War.

The statue was erected by the City of Boston in memory of the officers and men of the regiment. Colonel Cass was killed at Malvern Hill on July 1, 1862. The present statue was dedicated in 1899 by Mrs. C. G. Squibb, the colonel's daughter, in the presence of his son Charles and many of the survivors of the Ninth Regiment, including the Reverend Father Lee, Chaplain.

Mayor Quincy of Boston, at the time of the dedication of the statue, stated that it commended "the deeds of heroism which his gallant regiment achieved while battling for three years on southern soil for the preservation of the Union of the States."

MAYOR HONORS BASTILLE DAY.

In honor of the French Bastille Day, Temporary Mayor John B. Hynes, representing the City of Boston, placed a wreath on the La Fayette Mall on Boston Common, on Monday, July 14, 1947, in conjunction with the exercises being sponsored by the office of the French Consul in Boston. At the same time the Croix de Guerre was presented to Colonel Sigourney and Mrs. Elliott, for her son who was killed on French soil. Following the exercises at the La Fayette Mall, the Mayor and Mrs. Hynes attended "Fête Nationale" at the office of the French Consulate.

MERIDIAN STREET BRIDGE CLOSED.

It was announced on July 11, by Public Works Commissioner Robert P. Curley, that Meridian Street Bridge, across the Chelsea River, between East Boston and Chelsea, would be closed to street car and vehicular traffic from 8 a. m. Saturday, July 12, to 5 p. m. Sunday, July 13.

Closing this bridge during this period was, the commissioner stated, necessary to enable the Public Works Department forces and the forces of the Boston Elevated Railway to work together in making roadway and other essential repairs which have been necessary for some time.

The Boston Elevated Railway operated shuttle service for street car passengers, and detours were provided for the vehicular traffic ordinarily using the bridge.

PARK DEPARTMENT.

Upon June 23 the Mayor approved a contract with John McCourt Company for asphalt tennis court surfacing on tennis courts at Fallon Field and Mary Draper Playground, West Roxbury. Bids, opened Thursday, June 12, were as follows:

John McCourt Company, \$6,259; Adams Asphalt Company, \$7,265; S. J. Tomasello Corporation, \$7,860; Warren Brothers Roads Company, \$8,120.

PUBLIC BUILDINGS DEPARTMENT.

Upon June 23 the Mayor approved a contract with H. Piken, for painting at the Hyde Park Municipal Building. Bids, opened Thursday, June 5, were as follows:

H. Piken, \$5,900; C. Dale Garbutt, \$5,930; N. Bello, \$5,975; John D. Ahern, \$6,196; M. L. McDonald, \$6,285; Joseph O. Gazzola, \$6,600; P. J. Sullivan, \$8,500; John T. Bradley, \$9,328.

PUBLIC WORKS DEPARTMENT.

Upon June 23 the Mayor approved a contract with Dooley Brothers, Inc., the lowest bidder, for removal and disposal of surplus material at 1567 Columbus avenue, at an estimated cost of \$19,400. The work to be done under this contract is to be completed on or before July 30, 1947. The following bids were received:

Dooley Brothers, Inc., \$19,400; John Deveney Company, \$27,400; Baker & Co., Inc., \$29,994; Coleman Brothers Corporation, \$33,930; C & R Construction Company, \$34,444.

Upon June 23 the Mayor approved a contract with John F. Shea Company, Inc., the lowest bidder, for renewing high curbs on the Charlestown Bridge, at an estimated cost of \$4,675. The work is to be commenced on a date to be specified in a written order from the commissioner and shall be fully completed within two months from that date. The following bids were received June 18:

John F. Shea Company, Inc., \$4,675; Marinucci Brothers & Co., \$5,150; S. Volpe & Co., \$5,162.50; Baker & Co., Inc., \$5,377.50; R. A. Buccella & Sons, \$5,422.50; M. J. Kelly Company, Inc., \$5,945; Caruso & Barone, Inc., \$6,325; Charles Callahan Company, \$7,309.

Upon June 23 the Mayor approved a contract with Anthony D'Alessandro, the lowest bidder, for sewerage works in Richardson street, Emery road and Rugg road, Brighton, at an estimated cost of \$4,361.75, including clay pipe. The work contemplated in the contract is to be completed within sixty days after approval by the Mayor. The following bids were received May 15:

Clay Pipe.—Anthony D'Alessandro & Co., \$4,361.75; F. Susi & DeSantis Company, \$4,760; J. D'Amico, \$5,633.50; Joseph Civitarese & Co., \$5,986.

Concrete Pipe.—Anthony D'Alessandro & Co., \$4,361.75; F. Susi & DeSantis Company, \$4,704.50; J. D'Amico, \$5,652; Joseph Civitarese & Co., \$5,949.

TRANSIT DEPARTMENT.

Upon June 23 the Mayor approved a contract with Bethlehem Steel Company for structural steel beams, Rapid Transit Facilities, East Boston district. There was but one bid, opened June 4, as follows: Bethlehem Steel Company, \$24,980.68.

ADDITION TO CONTRACT.

FIRE DEPARTMENT.

Approval has been given for the following addition to the contract of Construction Units for alterations and additions to Fire Station, Engine 46, Peabody square, Dorchester:

Addition No. 8.—Furnish labor and material for the installation of new radiation consisting of new supply piping, valves, etc., in officers' toilet on second floor; relocating radiators in officers' bedroom, locker room, and chief's room on second floor, \$698.50. Original contract, \$26,893. Total contract with foregoing addition, deduction and addition of December 24, 1946, addition of February 14, 1947, addition of February 28, 1947, addition of April 2, 1947, and additions and deduction of April 10, 1947, \$32,493.97. Because of changes made in partitions and also in overhead system to allow for overhead doors, and changes in risers and runouts necessary because of installation of column footings, the foregoing work had to be done. Although the foregoing is in addition to the work contemplated in the original contract, it is incidental thereto.

EXTENSION OF CONTRACTS.

FIRE DEPARTMENT.

Construction Units have been granted a further extension of time for the performance of their contract in connection with additions and alterations to Fire Station, Engine 46. The contract, dated November 12, 1946, was to have been completed within sixty days after approval, November 21, 1946. The date of completion in accordance with the provisions of the contract was January 20 but this time has been extended to May 12, 1947. Owing to difficulties experienced by the contractor in obtaining overhead doors it has not been possible to complete the work. Delivery of this equipment was promised on April 23 and May 1, but because of strikes and other holdups the doors were not shipped until June 2, 1947. Therefore, request is hereby made for a further extension of time for performance of the work under the contract until July 15, 1947.

PUBLIC WORKS DEPARTMENT.

Murray Engineering Company has been granted an extension of time for completion of the contract for building a public boat landing at Warren Bridge, to June 30, 1947. This extension is requested for the reason that the contractor has been delayed on account of inclement weather.

Stearns, Perry & Smith have been granted an extension of time for completion of the contract for repairing electric pier and navigation lights at various bridges, to October 1, 1947. This extension is requested for the reason that the contractor states that materials to be used in connection with this work cannot be delivered until September, 1947.

George J. Bartley Company has been granted an extension of time for completion of the contract for miscellaneous alterations, painting, etc., in the ventilation buildings of the Summer Tunnel, to August 1, 1947. This extension is requested for the reason that the steel required by the City of Boston was not available and is now being fabricated.

Edward M. Matz, Inc., has been granted an extension of time for comple-

tion of the contract for laying sheet asphalt pavement in Coleman, Kimball, Sunnyside and West Selden streets, from July 1, 1947, to September 30, 1947. This extension is requested for the reason that unfavorable weather conditions has prevented the contractor from carrying on the work as rapidly as anticipated.

J. D'Amico has been granted an extension of time for completion of the contract for building sewerage works in Lewiston street, Taunton avenue, Tacoma street and Farrar avenue, Rosebery road and Navarre street, Hyde Park, from July 1, 1947, to August 15, 1947. This extension is requested because of the unusual amount of rainfall during construction period.

TRANSFERS OF APPROPRIATIONS.

The Temporary Mayor has approved the following requests for transfers of appropriations in accordance with the provisions of Section 3B of the amended City Charter and for the reasons as below explained:

CITY COUNCIL.

From C-17, Miscellaneous, \$85, to C-9, Equipment, \$85.

To purchase new typewriter for Mr. O'Neil's office.

FIRE DEPARTMENT.

(Electrical Inspection Division.)

From A-1, Personal Service, \$720, to F-7, Pensions, \$720.

This request is made necessary by the retirement of James T. Hennessey, interior wire inspector, at \$1,550 a year, June 30, 1947. (Veteran.)

HOSPITAL DEPARTMENT.

From C-2, Machinery, \$500, to C-15, Tires, Tubes and Accessories, \$500.

The above transfer is needed to strengthen the C-15 item to buy tires, tubes, chains and accessories for ambulances as needed. The original appropriation is practically exhausted. C-2 is being used because it is the only item in the C-group that can be used at this particular time as a source of transfer.

From C-2, Machinery, \$1,000, to C-16, Wearing Apparel, \$1,000.

From C-2, Machinery, \$1,000, to E-13, General Plant, \$1,000.

The above transfer is needed to meet any emergency purchases against C-16 which covers patients' bedgowns, night dresses and various items of wearing apparel.

The transfer to E-13 is needed to meet the cost of routine and emergency purchases for laundry padding and miscellaneous items chargeable to this budget item used in the kitchen, Plant Department, Pathological Laboratory and Housekeeping Department.

C-2 appears to be the only item in the C-group that can be used as a source of transfer at this time.

INSTITUTIONS DEPARTMENT.

From Child Welfare Division, B-17, Care of Persons, \$160, to Child Welfare Division, A-2, Temporary, \$160.

From Child Welfare Division, B-17, Care of Persons, \$160, to Central Office, A-2, Temporary, \$160.

To provide for payment of substitute chauffeur at \$40 a week for four weeks in place of John Considine in Child Wel-

fare Division and Dennis Regan in Central Office, during vacation period. Saving has been effected under Child Welfare, B-17, due to finding positions for older children.

From Steamer "O'Meara," D-3, Fuel, \$1,000, to Steamer "O'Meara," B-39, General Repairs, \$1,000.

To cover necessary repairs for the remainder of the year. It is impossible to anticipate in advance just what items will become necessary.

From Long Island Hospital, B-39, General Repairs, \$5,000, to Long Island Hospital, E-1, Building, \$5,000.

To provide for purchase of paint and materials for repairs for the remainder of the year. More work is being done by our own men than in recent years. For this reason we anticipate there will be a balance on B-39 from which transfer is being requested. A number of orders are already being held by the Auditor on account of insufficient funds.

LIBRARY DEPARTMENT.

From E-1, Building, \$200, to B-1, Printing and Binding, \$200.

B-1. The original appropriation is insufficient to provide funds for the engraving of bookplates which are to be placed in the Library's special book collections.

OVERSEERS OF PUBLIC WELFARE.

From Central office, D-1, Office, \$2,096.35, to B-14, Motor Vehicle Repair, \$250; C-3, Electrical Equipment, \$60; C-7, Furniture and Furnishings, \$400; C-9, Office, \$200; C-10, Library, \$85; C-12, Medical, etc., \$1.60; C-13, Tools and Instruments, \$210; C-17, Miscellaneous, \$65; D-10, Agricultural, \$9.75; D-16, Miscellaneous, \$600; E-1, Building, \$15; E-13, Miscellaneous, \$200.

B-14. Emergency repairs to department car.

C-3. For the purchase of electric clocks.

C-7. For the purchase of first-aid equipment, including cots, blankets and pillows; also for the purchase of pails, ash barrels, etc., for department offices.

C-9. For the purchase of desks.

C-10. For the purchase of city directories for verification purposes.

C-12. For the purchase of a clinical thermometer for rest room.

C-13. For the purchase of cleaning equipment.

C-17. For the purchase of identification plates for members of the Board and other signs.

D-10. For the purchase of grass seed for department building premises.

D-16. For the purchase of photostat paper used in making copies of records for departmental procedure.

E-1. For the purchase of miscellaneous hardware.

E-13. For the purchase of typewriter parts and other parts for repairs being made by department personnel.

The funds in D-1, Office, will be available due to increase in Federal grants for administration.

PARK DEPARTMENT.

From E-13, General Plant, \$1,500, to D-10, Agricultural, \$1,500.

This transfer needed to pay for tulips to be planted in the fall on the Public Garden. Covered by requisition No. 653.

PENAL INSTITUTIONS DEPARTMENT.

From Central Office, D-11, Gasoline, \$20, to C-15, Tires, Tubes and Accessories \$20.

New slip covers are required for the department car. The original covers are extremely soiled and worn from constant use in transporting inmates.

From House of Correction, B-39, Repairs, \$2,080, to B-42, Miscellaneous Services, \$2,080.

Provisions were made in this year's budget to have officers' overcoats made from goods on hand at the House of Correction under Item B-39. Auditor's office informs us that this expenditure should be from B-42, hence the request for this transfer.

SUFFOLK COUNTY.

MEDICAL EXAMINER (Northern Division).

From A-1, Personal Service, \$25, to F-11, Workmen's Compensation, \$25.

This transfer is for payment for hospital services furnished to an employee who was injured in the course of his employment February 15, 1947.

From C-13, Tools and Instruments, \$4.50, to C-15, Tires & Accessories, \$4.50.

This transfer is for purchase of auto tube needed in emergency for ambulance.

CONSTRUCTION WORK.

The Temporary Mayor has approved the request of the Public Works Department for the following construction work:

A surface drain of 24-inch pipe, two catch-basins, and two special manholes in Prospect street, between Baker street and 160 feet southwesterly (to private land), in the West Roxbury district, at an estimated cost of \$5,600.

A sanitary sewer of 10-inch pipe in Hart street, between Baker street and Prospect street, in the West Roxbury district, at an estimated cost of \$3,200.

\$25,000,000 IN CANS.

Returns to Florida citrus growers from grapefruit for canning during the 1945-46 season approximated \$25,000,000, according to W. C. Stolk, vice-president of American Can Company. During that season, the amount of grapefruit that went into cans, 22,000,000 boxes, was more than three times the total output of the state's groves in 1925.

Boston Business.

BOSTON MUTUAL LIFE REACHES NEW HEIGHTS.

Insurance in force in the Boston Mutual Life Insurance Company stood at the all-time high of \$152,598,387 at the end of 1946, according to the annual report of President Jay R. Benton. Insurance in force increased during the year by \$14,955-914 for the largest gain in the history of the company. Ordinary insurance accounted for \$8,236,401 of this gain and ran 157 per cent ahead of 1945.

Assets also reached a new high total of \$27,788,878 and represented an increase of 11 per cent over the \$24,990,590 reported last year. Liabilities were \$25,381,397, including statutory policy reserves of \$23,884,161 accumulated by the company for the fulfillment of policy guarantees.

The number of policies in force with the company increased to 401,291 and new life insurance aggregated \$27,492,776, an increase of 50 per cent over the amount issued in 1945. Payments to policy holders and beneficiaries during 1946 were \$2,275,263.

POLICE DEPARTMENT ORDERS.*General Order No. 921.*

For the information of the department the following letter received from the Boston Retirement Board is quoted:

"CITY OF BOSTON,
BOSTON RETIREMENT BOARD,
ROOM 65, CITY HALL, BOSTON.
July 9, 1947.

COL. THOMAS F. SULLIVAN,
Police Commissioner:

DEAR SIR,—Referring to our letter of November 26, 1946, in the case of Patrolmen Michael J. Shea and Patrick J. Callinan of the City Prison at which time you were notified that they were retired at the close of business November 30, 1946, under the provisions of chapter 658 of the Acts of 1945, your records should be amended to show that their retirement is under the provisions of chapter 521 of the Acts of 1922 (Boston Retirement Act).

Very truly yours,

W. D. KENNEY,
Secretary and Executive Officer."

The department records shall be amended accordingly.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 922.

The following-named officers having requested retirement under the provisions of the Statutes of 1892, chapter 353, as amended, for the reason that they are incapacitated, it is hereby

Ordered, His Honor the Temporary Mayor having approved the same, that they be retired from active service in the Police Department, effective at 7.45 o'clock a. m. on dates stated:

Capt. Leonard E. J. O'Connell, Superintendent's Office, 27 years of service, July 10.

Capt. William Belle, Bureau of Criminal Investigation, 27 years of service, July 14.

Lieut. Cornelius J. Ring, Bureau of Criminal Investigation, 39 years of service, July 17.

Sergt. Eugene J. Sullivan, Traffic Division, 27 years of service, July 10.

Patrolman William J. Curley, Division 4, 27 years of service, July 10.

Patrolman Ernest F. Fanjoy, Division 6, 27 years of service, July 11.

FIRE DEPARTMENT ORDERS.*General Order No. 48.***I. LADDERMAN WILLIAM J. McKERNAN.**

It is with deep regret that the Fire Commissioner announces the death, on July 3, 1947, of Ladderman William J. McKernan of Ladder Company 15. Ladderman McKernan was appointed to the department February 1, 1918.

The funeral was held from his late home, 98 Vernon street, Roxbury, at 8.30 a. m., Monday, July 7, 1947, followed by services at St. Francis de Sales Church, Vernon street, at 9 a. m.

The chief of department made the customary detail to act as funeral escort and the members of Ladder Company 15 were excused from duty to attend the services.

II. TRANSFERS.

The following transfer, which became effective at 8 a. m., Wednesday, July 9, 1947, is hereby announced:

Interior Wire Inspector Walter W. Englert, from Electrical Inspection Division to Fire Prevention Division.

The following transfers will become effective at 8 a. m., Wednesday, July 16, 1947:

Ladderman Albert N. Potter, from Ladder 27 to Engine 46.

Hoseman Canice J. Fennelly, Jr., from Engine 26 to Rescue 1.

Hoseman Edward J. Higgins, from Engine 52 to Engine 16.

M. O. P. John F. Downey, from Engine 31 to Engine 26.

P. F. Alfred J. Cataldo, from Engine 26 to Engine 28.

P. F. John F. Nugent, from Engine 49 to Engine 26.

III. RESIGNATION.

The following resignation, which became effective at 8 a. m., Wednesday, July 9, 1947, is hereby announced:

Provisional Fireman Simon J. Connolly, Ladder Company 19.

IV. BOSTON AUTOMATIC ASSIGNMENTS.

The following signal numbers are to be added to running cards of the Boston Automatic Fire Alarm Company in this department:

Signal 144, building, 443 Albany street, first section. (Sprinkler.)

Signal 145, building, 443 Albany street, second section. (Sprinkler.)

Signal 146, building, 443 Albany street, sheds in rear. (Sprinkler.)

Apparatus to respond: Engine 3, Ladder 3, District Chief 7. Nearest box is 1645.

V. FOG NOZZLES.

Company commanders shall submit to the Chief of Department's office, as soon as possible, a report stating the amount, type and size of fog nozzles and applicators in their companies.

VI. ATTENTION — RULES 350-374.

Company commanders shall spend an hour each day instructing new members on rules and regulations, particularly on Leave of Absences — Rules 350 to 374, inclusive.

VII. HIGH COMMENDATIONS.

At about 1.51 p. m., June 29, 1947, the department responded on a still alarm to the rear of 426 East First street, South Boston, where a boy was reported to have disappeared from sight while swimming in the waters of the harbor.

Hoseman Frank Marr of Rescue Company 1 donned the Scott Air-Pak Mask and, with a life line attached to his body, entered the water which was approximately 15 feet deep and made a 10-minute search for the boy until he became exhausted. Man on Probation Francis M. Keane of Rescue Company 1 then donned the mask and entered the water and after a search recovered the body of the boy. Attempts at resuscitation proved futile and the boy was pronounced dead by a doctor on the scene.

Because of the risk to which these two men exposed themselves in recovering the body of the boy, the commissioner is pleased to commend them highly and their cases are referred to the Board of Merit for further consideration.

VIII. COMMENDATION.

Ladderman John J. Hernon of Ladder Company 8 is hereby commended for responding to and working at fire, Box 1256, on July 1, 1947, while off duty.

By order of Fire Commissioner RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

Report on appointment of David Nastop, 648 Massachusetts avenue, Boston, Mass., to position of Constable for the term ending April 30, 1948, authorized to serve civil process upon filing of bonds—that same be approved.

The reports were accepted, and the question came on confirmation. The President appointed Councilors Cook and Moriarty a committee to receive, sort and count the ballots. Whole number of ballots 15; yeas 15, nays 0, and the appointments were confirmed.

LOAN FOR HOUSING.

Coun. McCORMACK, for the Committee on Finance, submitted the following:

Report on message of Mayor and order (referred June 9) for loan of \$8,000,000 for veterans' multi-family housing—that same ought to pass.

The report was accepted, and the order was given its first reading and passage, yeas 16, nays 0:

Yeas—Councilors Bayley, Bryan, Cantwell, Chase, Cook, Hannon, Hurley, Keenan, Kelly, Kinsella, Linehan, Madden, McCormack, Moriarty, Russo, Sullivan—16.

Nays—0.
The order will take its second reading and passage in not less than 14 days.

40-HOUR WEEK FOR CERTAIN CITIES AND TOWNS.

Coun. LINEHAN offered the following: Ordered, That chapter 649 of the Acts of 1947, entitled "An Act Authorizing a Forty-Hour Work Week for Employees of Certain Cities and Towns" be, and hereby is, accepted.

Passed under suspension of rules.

OPPOSITION TO WALCOTT BILL (HOUSING).

Coun. LINEHAN offered the following: Whereas, The chaotic housing conditions still exist in the City of Boston and also due to the fact that there are many tenants in the Old Colony Housing Development who are unable to secure living quarters other than where they are living at the present time; and

Whereas, Congress at this time is considering the Walcott Bill relative to disposition of War Housing such as the Old Colony Project; therefore be it

Resolved, That the Boston City Council in meeting assembled do hereby go on record as being opposed to any action on this bill at this time until housing is more available

than it is at present, and that copies of this resolution be forwarded to our Senators in Congress.

Passed under suspension of rules.

EXPENDITURES OF VETERANS' HOUSING LOAN.

Coun. LINEHAN offered the following:

Whereas, Many months have passed since the City of Boston's \$10,000,000 loan order for construction of one-and two-family houses for veterans of World War 2 was accepted and up to date very little action has been taken relative to actual construction of one-and two-family houses under this program; therefore be it

Ordered, That the order given to the Boston Housing Authority relative to keeping back \$5,000,000 of the \$10,000,000 veterans' housing be rescinded and immediate work proceed on the continuance of construction of said one-and two-family houses.

Passed under suspension of rules.

LEVERETT STREET A ONE-WAY STREET.

Coun. RUSSO offered the following:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to consider the advisability of making Leverett street one way, from Nashua and Charles streets, to Green street, Ward 3.

Passed under suspension of rules.

INSPECTION OF HOUSE OF CORREC- TION, DEER ISLAND.

Coun. RUSSO announced that there would be an inspection of House of Correction, Deer Island, Thursday, July 10, at 10 o'clock, leaving from Harbor Police Station on Commercial street, to which all members of Boston City Council are invited.

"STOP, CHILDREN PLAYING." SIGN.

Coun. RUSSO offered the following:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install a warning sign to motorists at North square and North street, Ward 3, which shall read "Stop, Children Playing."

Passed under suspension of rules.

BANDSTANDS FOR PUBLIC CELEBRA- TIONS.

Coun. KEENAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to make up four bandstands to be used for public celebrations throughout the city, the expense of same to be charged to the appropriation for Public Celebrations.

Passed under suspension of rules.

IMMIGRATION OF DISPLACED PERSONS.

Coun. CANTWELL and LINEHAN offered the following:

Whereas, In Europe today, there are thousands of persons, innocent victims of the holocaust which has enveloped their country and swept the world, who cannot return to the country of their origin; and

Whereas, These displaced persons are fugitives from religious and political persecutions, and in certain cases, subjected to indirect coercive methods of repatriation; and

Whereas, The United States has endorsed the principle that compulsion should not be used on homeless persons, victims of war and power politics; and

Whereas, House Bill 2910 is designed to use immigration quotas not exhausted during the war for the purpose of admitting persons in accordance with the usual safeguard of immigration requirements; and

Whereas, These people, many of them of Polish origin, are thoroughly imbued with democratic ideals and are opposed to totalitarianism, and would make good law-abiding citizens; therefore be it

Resolved, That the Polish American Congress, Eastern Massachusetts Districts, recommends the passage of House Bill 2910; and be it

Resolved, That we pledge our fullest cooperation in this great task not only for ourselves but for the great number of Americans of Polish descent whom we have the honor to represent; and be it

Resolved, That a copy of these Resolutions passed by the members of the Boston City

Council in meeting assembled be transmitted to the Massachusetts members of Congress, to the Chairman of the House Subcommittee on Immigration, and to the Chairman of the House Judiciary Committee.

Referred to the Committee on Rules.

INVESTIGATION OF BUILDING AT 141 MILK STREET, BOSTON.

Coun. HURLEY offered the following:

Ordered, That the Building Commissioner and the Fire Commissioner be requested, through his Honor the Mayor, to immediately investigate conditions, both structural and general, in the building located at 141 Milk street, Boston, now occupied by the Department of Internal Revenue.

Passed under suspension of rules.

PROTECTION OF RETIREMENT RIGHTS OF EMPLOYEES OF BOSTON ELE- VATED RAILWAY.

Coun. BRYAN and HANNON offered the following:

Ordered, That his Honor the Mayor direct the Corporation Counsel to confer with the Attorney General relative to immediate steps to be taken to protect the retirement rights of the employees of the Boston Elevated Railway in the interim between their service under the Social Security Act and their transfer to a retirement system.

Councilor Bryan requested that a copy of the above be sent to the 14 cities and towns serviced by the Boston Elevated Railway.

Passed under suspension of rules.

MOTION TO GO IN EXECUTIVE SESSION.

Coun. CANTWELL moved the matter referred to Committee on Rules (*re* Displaced Persons) be taken out of committee and acted on today. The Chair ruled it would have to stay in Rules Committee.

BUDGET OF MAYOR'S OFFICE.

Coun. MADDEN offered the following:

Ordered, That his Honor the Mayor be requested to include a substantial increase in his budget for spot lights, decorum, etc., for the Commissioner of Public Celebrations.

Referred to Committee on Rules.

MEETING OF BUILDING CONTRACTORS TO EXPEDITE HOUSING.

Coun. MADDEN offered the following:

Ordered, That his Honor the Mayor be requested to call a meeting of building contractors at the earliest possible moment to expedite the housing program.

Passed under suspension of rules.

MAYOR CURLEY'S SALARY.

Coun. CHASE offered the following:

Ordered, That the City Auditor be requested to appear before the Executive Committee of the City Council for the purpose of explaining his intentions on the certification of Mayor Curley's salary during the period that the Mayor is confined in jail.

Referred to Executive Committee.

REPORT OF COMMITTEE ON CLAIMS.

Coun. LINEHAN for the Committee on Claims, submitted the following:

Report on petition of Roger A. Clegg, Jr. (referred June 23), to be reimbursed for amount of execution issued against him on account of his acts as operator of motor apparatus belonging to the Boston Fire Department—recommending passage of accompanying order.

Ordered, That the sum of forty-seven dollars (\$47) be allowed and paid Roger A. Clegg, Jr., in reimbursement for amount of execution issued against him on account of his acts as operator of motor apparatus belonging to the Fire Department, said sum to be charged to the Contingent Fund.

Report on petition of Timothy D. Donahue (referred June 9) to be reimbursed for amount of execution issued against him on account of his acts as operator of motor apparatus belonging to the Boston Fire Department—recommending passage of accompanying order.

Ordered, That the sum of seven hundred and twenty-five (\$725) be allowed and paid to Timothy D. Donahue in reimbursement for amount of execution issued against him on account of his acts as operator of motor apparatus belonging to the Boston Fire Department, said sum to be charged to the contingent fund.

Report on petition of John W. Campbell (referred June 2) to be reimbursed for amount of execution issued against him on account of his acts as operator of motor apparatus belonging to the Water Division, Public Works Department—recommending passage of the accompanying order.

Ordered, That the sum of thirty dollars (\$30) be allowed and paid John W. Campbell in reimbursement for amount of execution issued against him on account of his acts as operator of motor apparatus belonging to the Water Division, Public Works Department, said sum to be charged to the Contingent Fund.

Reports accepted; said orders severally passed.

ON ADJOURNMENT.

On motion of Councilor Sullivan to adjourn, Councilor Muchnick raised the point of information that if certain items had been referred to Executive Committee wasn't it customary to go into Executive before adjournment. The Chair ruled not if there was a motion to adjourn. Councilor Sullivan pressed his motion, and on a voice vote, the motion was carried.

Coun. Muchnick doubted the vote and asked for a roll call. The roll was called on the motion and there being less than a quorum present, the Council was adjourned, yeas 4, nays 5:

Yeas—Kelly, Moriarty, Russo, Sullivan—4.
Nays—Bayley, Chase, Keenan, Madden, Muchnick—5.

Voting present, Cook.

The Council adjourned at 4.23 p. m., to meet on Monday, July 14, 1947, at 2 p. m.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

(Stenographic copy of such debate on file in office of City Clerk.)

N. E. FOREIGN TRADE \$680,100,000 IN 1946.

The value of foreign trade flowing through the Customs Districts of New England amounted to \$680,100,000 in 1946, which was more than 4.6 per cent of the total for the U. S. and involved a movement of 7.7 million tons of commodities. Exports were valued at \$209,500,000, with weight of 1.2 million tons, whereas imports totaled \$470,600,000, weighing 6.5 million tons. Compared with the U. S. totals, New England had only 2.1 per cent of value and 1.2 per cent of weight of exports, but accounted for 9.5 per cent of value and 11.1 per cent of tonnage of imports. New England's share of U. S. exports and imports registered gains in both for the years 1945 and 1946, reflecting the resumption of private trade and the gradual availability of ocean shipping at New England ports.

Boston Business.

Fifty-seven new manufacturing firms are recorded for the Metropolitan Boston area for the first four months of 1947, furnishing employment to an estimated 460 persons, according to the Department of Commercial and Industrial Affairs of the Boston Chamber of Commerce. Experience has shown that many of the new manufacturers continue to grow, so the early reports are not to be considered as giving their potential employment strength.

The Department recorded eight new manufacturing firms for April, with expansions of plants of three other concerns.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS IN SYMPHONY ROAD FROM 200 FEET WEST OF ST. STEPHEN STREET TO A POINT ABOUT 232 FEET WESTERLY, ROXBURY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Symphony Road from 200 feet west of St. Stephen street to a point about 232 feet westerly, Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Symphony Road from 200 Feet West of St. Stephen Street to a Point about 232 Feet Westerly, Roxbury," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Friday, July 25, 1947, with a certified check for three hundred and fifty (350) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for making alterations to the Lowell School, Centre street, Jamaica Plain, Mass.

Proposals will be received until 12 o'clock noon, Thursday, July 31, 1947, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$1,000, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained at the office of the Awarding Authority.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All sub-bidders' proposals must be in the possession of the Awarding Authority, and delivered or mailed to the general bidder no later than 12 o'clock noon, Monday, July 28, 1947.

A bid deposit in the form of cash or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each sub-bidder with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject with the provisions of chapter 480 of the Acts of 1939.

All the above subject to approval of the Office of Housing Expediter.

CREATES ARBITRATION BOARD TO SETTLE INDUSTRIAL LABOR DISPUTES.

The city council of Toledo, Ohio, recently approved an "industrial relations charter" which creates a labor-management citizens' committee of 18 appointed by the Mayor. The charter is recommended by the Toledo City Council for adoption by representatives of industry and labor in the city. The preamble states: "Industrial harmony means more than the elimination of strikes, slow-downs and lock-outs. It means a practical, common-sense recognition of the rights of both employers and employees, the mutuality of their interests, and the importance of their joint responsibility to the citizens as a whole, whose interests transcend the presumed rights of any group."

AIRCRAFT MATERIAL PRODUCTION 41 PER CENT OF TOTAL AUTOMOTIVE WAR JOB.

Behind current attempts to knock Germany out of the war by means of airpower, stands the teamwork of the automotive industry, which has done much to get bombers in the air over Hitler's domain.

The motor industry, starting as a scrub team in the aircraft field a year before Pearl Harbor has since attained major league stature.

In the two years since December 7, 1941, the industry's output of bombers and fighters has constantly soared. Measured in dollar volume, it rose from \$400,000,000 annual rate of production on the day of the Jap's assault to \$4,300,000,000 on the second anniversary of that "day of infamy."

The same upward spiral took place in deliveries of all forms of war materials by automotive plants. When Pearl Harbor news struck, they had reached an annual production rate of \$1,777,000,000 for all forms of military requirements: aircraft, military vehicles, tanks, guns, ammunition, marine engines and other equipment. Today the annual production rate tops the \$10,000,000,000 mark.

LAND-TAKING IN WEST ROXBURY.

The Temporary Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury, and are bounded as follows:

A parcel of land, owners unknown, being the private way known as DeStefano road, bounded:

Westerly by Hyde Park avenue, forty-six and 56-100 feet; northeasterly by the northeasterly line of DeStefano road, by two measurements, two hundred thirty and 51-100 feet and two hundred forty-eight and 28-100 feet; southeasterly by the southeasterly line of DeStefano road, eighteen and 95-100 feet; southerly by the southerly line of DeStefano road, eighty-three and 75-100 feet on a curve of thirty-five feet radius; and westerly by the westerly line of DeStefano road, by three measurements, twelve and 95-100 feet on a curve of fifteen feet radius, one hundred seventy-four and 86-100 feet and one hundred ninety-eight and 98-100 feet, containing sixteen thousand nine hundred and thirty-five square feet, more or less.

The sewerage works to be constructed are as follows: 300 linear feet of 10-inch pipe sanitary sewer and 320 linear feet of 10-inch pipe surface drain.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of DeStefano road, excluding the lot at the easterly corner of Hyde Park avenue, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 1304. Sewerage Works, DeStefano Road, West Roxbury, June 11, 1947, Thomas F.

McGovern, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

Lot.	Amount.
2. William and Jeanie Rennie	\$110 00
3. Raffaele DeStefano	204 00
4. Charles A. and Victoria DeStefano	200 00
5. Raffaele and Victoria DeStefano	360 00
6. Patsy and Grace Sanson	200 00
7. Raffaele and Victoria DeStefano	700 00
Total	\$1,774 00

Voted, That this Board determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes and the construction of sewerage works in DeStefano road, West Roxbury district, under the order of the Board of July 1, 1947, and awards no damages therefor.

Owners unknown (DeStefano road), 16,935 square feet, nothing.

546 NEW INDUSTRIES ON NYC SYSTEM.

A record number of new industries located in a single year on the lines of the New York Central System, of which the Boston & Albany Railroad is a part, was established during 1946.

The 1946 record totals 546 new industries, and it is estimated that they will produce annually an approximate volume of 204,900 carloads of freight traffic, or the equivalent of that produced by a major city.

The location of these new businesses in the territory served by the New York Central demonstrates the continuing growth of that great manufacturing section of the United States, extending through the north-central and northeastern states.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Pond street, Ward 19, from Arborway to Brookline line. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Pond Street, Ward 19, from Arborway to Brookline Line," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Friday, August 1, 1947, with a certified check for twenty-nine hundred (2,900) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

STATES AND CITIES TAKE ACTION ON EMERGENCY HOUSING.

Four states are taking steps toward meeting the housing shortage. In Massachusetts a state housing bill would authorize cities to (1) undertake repairs or remodeling of houses for veterans, (2) acquire land for sale to veterans or contractors who will sell or rent houses to veterans, (3) go into the housing business for themselves, and (4) seize homes from which veterans and their families have been evicted without fault. In Minnesota the Governor has appointed a state housing expediter to work with building supply industries and Federal agencies on materials distribution, to aid local communities in making use of unused buildings, and to help cities benefit from the programs of Federal agencies having to do with housing. In Illinois the state has contributed \$4,300,000 to the Chicago Housing Authority for use in acquiring land for veterans' housing, and in California the Governor has called a special session of the Legislature to consider a bond issue of perhaps \$100,000,000 for loans to veterans for homes and farms.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR PAINTING, POINTING, ETC., CONGRESS STREET BRIDGE, OVER FORT POINT CHANNEL.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for painting, pointing, etc., Congress Street Bridge, over Fort Point Channel. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Painting, Pointing, Etc., Congress Street Bridge, over Fort Point Channel," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Thursday, August 7, 1947, with a certified check for two thousand (2,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read; Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

(July 19.) ROBERT P. CURLEY,
Commissioner of Public Works.

DEPARTMENT OF SCHOOL BUILDINGS.

PAINTING CONTRACTORS.

INVITATION FOR PROPOSALS FOR INTERIOR AND EXTERIOR PAINTING AT THE GEORGE T. ANGELL SCHOOL, HUNNEMAN STREET, CORNER HARRISON AVENUE, ROXBURY, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for interior and exterior painting at the George T. Angell School, Hunne-man street, corner Harrison avenue, Roxbury, Mass.

Proposals will be received until 12 o'clock noon, Monday, July 28, 1947, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$150, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

TEMPORARY MAYOR JOHN B. HYNES IN RADIO INTERVIEW DISCUSSES MOST PRESSING PROBLEMS FACING BOSTON AND HIS PLANS FOR ATTEMPTING SOLUTION DURING HIS INTERIM TERM IN OFFICE—ON THE AIR THROUGH COURTESY OF STATION WLAW, WITH FRED P. LAFFEY AS MASTER OF CEREMONIES—OUTLINES PLANS FOR HOUSING AND TRAFFIC RELIEF, WITH DETAILS OF HIS HOPES FOR SUCCESSFUL ACHIEVEMENT, IN SO FAR AS IS POSSIBLE, DURING HIS OCCUPANCY OF MAYOR'S CHAIR—PRAISES EFFORTS OF POLICE FOR TRAFFIC CONTROL AND HOPES FOR MORE EFFECTIVE LAWS TO AID.

On Saturday, July 19, over Station WLAW, Temporary Mayor John B. Hynes was interviewed on the subject of Boston's municipal problems. The interview was conducted by Mr. Fred P. Laffey, of Station WLAW, who announced the program and queried Temporary Mayor Hynes. In prefacing the interview, Mr. Laffey had the following to say:

"When the Boston mayoralty crisis fell suddenly upon the capital city, Governor Bradford in a dramatic special message asked the Legislature for action. Some politicians demanded a commission government, others shouted for a special election, but out of the welter of confusion and legal difficulties came an emergency bill. Whipped through House and Senate on one sweltering day and evening, the Governor signed the bill which made City Clerk John B. Hynes the Interim Mayor of Boston, with an increase in pay and with life tenure as City Clerk. Close to midnight the same hot day John B. Hynes, surrounded by a mob of milling Boston and State House politicians, raised his right hand in the Governor's office and was sworn in as Mayor. Even the diehard Republicans from the hinterlands agreed with the unanimous opinion that Temporary Mayor Hynes was capable and above reproach.

Up from Ranks.

"While Mayor James M. Curley is away, the city is being run as it has been for three weeks now by Temporary Mayor John Hynes. Boston voters are growing familiar with this quiet, bespectacled man of ruddy complexion and medium height, whose youthful appearance belies his nearly fifty years of age. His story is straight out of Horatio Alger. Roxbury-born, at fourteen he went to work as an office boy for the Telephone Company, but completed his education in the evening, slowly but steadily, through high school, business college, law school. He passed the bar in 1927. A city employee almost since he returned from World War I, in which he had been an Army Air Corps corporal, he has steadily climbed through the Health, Auditing, and Budget Departments to Assistant City Clerk in 1929, City Clerk in 1945, Mayor in 1947. In the second world conflict he was a major in the American Military Government Force. He and Mrs. Hynes, the former Marion Barry of Quincy, have five children.

"Sitting beside me to report on his position, the plans, and the possibilities is Temporary Mayor John B. Hynes of Boston."

Mr. Laffey as master of ceremonies began the interview with: "Good evening, Mayor Hynes, and welcome to Station WLAW."

MAYOR—Thank you, Mr. Laffey.

M. C.—Now that you served your apprenticeship as Mayor of Boston, perhaps you can tell us a few things about running the capital city of New England as its Mayor.

MAYOR—First let me say that I am the Temporary or Interim Mayor of Boston while Mayor James M. Curley is unable to perform his duties. I am using the title Temporary Mayor rather than Mayor. I have been running the city for just a little over three weeks, and I consider that I am merely filling in for an emergency period—pinch-hitting as it were.

BOARD OF ASSESSORS AGAIN REFUTES CHARGES OF FINANCE COMMISSION ON MATTERS PERTAINING TO BOSTON'S 1947 TAX RATE AND METHODS USED IN ARRIVING AT FIGURES—CHAIRMAN PETER ALLEN ADDRESSES COMMUNICATION TO TEMPORARY MAYOR JOHN B. HYNES POINTING OUT FALLACIES IN COMMISSION'S REASONING AND DENYING USE OF ANY "BAG OF TRICKS" RELATIVE TO ABATEMENTS—ALSO POINTS TO RISE IN ASSESSED VALUATIONS AS LOGICAL AND IN KEEPING WITH GENERAL TREND.

His Honor the Temporary Mayor on July 21 received the following letter from the Board of Assessors:

BOSTON, July 21, 1947.

JOHN B. HYNES, Temporary Mayor,
City Hall, Boston.

DEAR MR. MAYOR,—The gist of the 18-page letter addressed on July 16, 1947, to your Honor by the Finance Commission of the City of Boston is contained in four paragraphs beginning on page 17. The remainder of the letter consists of seven pages of charts, furnished to your Honor by the Board of Assessors as part of its notice of the declaration of the tax rate, and numerous pages of attempted rationalization of the prejudiced position assumed by the Commission in previous letters on the subject of assessed valuations.

On page 17 the Commission summarizes its lengthy statement that "the Mayor and Council have, for the second year in succession, now authorized borrowing to meet a substantial part of what was formerly regarded as a tax item, the purchase of equipment used in municipal service maintenance." This is a subject over which the Board of Assessors has absolutely no control; hence, no comment is made upon it.

EXCEPTIONS NOTED.

Also on page 17 the Commission summarizes its statements on pages 2, 3, and 11 that the assessed valuations have been raised "again to a higher level than the original 1946 total." The summarized statement is correct, but the statements of the Commission, first, on page 2, to the effect that "boosting valuations temporarily to hold the tax rate down has been resorted to again" in 1947; and, on page 3, that "the obvious unfairness of this policy (increasing valuation of commercial and industrial property) . . . makes business for the State Appellate Tax Board. It gives rise to speculation as to the real intent . . . Usually somebody who knows the ropes has to be hired to take up with the Assessors the question as to whether the original valuation stands"; and, finally, the statement on page 11 that "the only recourse was to lift again to a higher level the assessable valuations"—these statements constitute an unwarranted and improper expression of the Commission's repeated efforts to make it appear that the Board of Assessors fixes a tax rate and then raises valuations to achieve the rate. The truth of the matter, as stated by this Board on many occasions, is the absolute converse of the Commission's contentions.

In the year 1947 every single assessed valuation which was higher than the 1946 figure for the same parcel of real estate was recommended to a principal assessor by the first assistant assessor in the particular district. A summation of the individual values was made by the chief clerk in this department, and the total assessed valuation thus arrived at by him was the figure used by the Board of Assessors as the basis of its computations of the tax rate.

The criticism by the Finance Commission of increased valuations for the years

1946 and 1947 has been recited in various letters written by the Commission in the past year. The increase in the assessed valuations for these two years averages less than 3 per cent of the total annual valuation. The increase in the City of Washington, D. C., is 20 per cent; the increase in the City of Cleveland is 11.3 per cent; the increase in the City of Philadelphia was 12.8 per cent; the increase in Los Angeles (dates not stated) is 27.8 per cent; in Oklahoma County, Oklahoma, the increase was 18 per cent; the increase in Dallas, Texas, was 23.1 per cent.

VALUATIONS HIGHER.

These increases support the well-known fact that real estate valuation in 1946 and 1947 is substantially higher than in 1945. Mr. J. M. Lummus, tax assessor of Miami, Florida, very aptly describes the assessors' position. He says: "I cannot ignore the increased value of property which has accrued as a result of increased cost of construction, together with increased sales price of land. It will be necessary to make increases on the assessments of all property in the county. The value of real estate will be enhanced at least 20 per cent on the current tax roll." May we respectfully report to your Honor that it appears to us that the Finance Commission are the only persons in the entire country unaware of the fact that value of real estate has increased since 1945. Miami has already given increases in 1945 of 17.83 per cent over 1944 and promises 20 per cent more in 1947.

The second item in the Commission's summary which we feel called upon to discuss is the statement that the "assessors have finally been forced to use surplus revenue to reduce the portion of the city's 1947 obligations which would normally be levied." In the body of the letter the Finance Commission states that previous Boards of Assessors refused to

yield to the Commission's recommendation to use such surplus revenue in order to reduce the rate. It would seem, therefore, that the action of this Board of Assessors in complying with the Commission's recommendations was a praiseworthy deed. Even when this Board performs an act that the Commission recommends, the Commission, in its prejudice, refers to such act as "reaching into the bag of tricks."

The third item in the summary of interest to the Assessors is the charge by the Commission that "in order to accomplish a rate of \$46.50 the Assessors have reduced the percentage for overlay from 3.5 per cent to 3.3 per cent in face of a greater need than ever in the overlay account." When, in 1946, the present Board of Assessors faced the task of computing the tax rate, it was found from a study of previous tax rates that the provision for overlay was 3 per cent. An examination of the overlay deficit inherited by this Board from previous administrations indicated that a larger overlay was necessary in order to avoid future deficits. Accordingly, this Board made provision for an increase in the overlay to 3.5 per cent. Because of abatements made by the Appellate Tax Board in respect to taxes as far back as 1937, years over which this Board had no control, it developed that a 3.5 per cent overlay proved insufficient.

ABATEMENT DEMANDS LESS.

The demands for abatement in 1947 should prove substantially less than the amount represented by the difference between a 3.3 per cent overlay used in 1947 and the 3.5 per cent overlay used in 1946. The decision to use this lesser figure was made by the full Board of Assessors after analysis of the tax roll for 1947. The Board did not include in its 1947 tax roll the assessment upon wool,

decided to have been exempt from taxation. The error of previous Boards of Assessors in levying an assessment upon this property, which should have been exempt from taxation, resulted in the presence on the Collector's books of an uncollectible item in an amount in excess of \$3,500,000. It was necessary for the present Board to record an abatement of this uncollectible item. This Board has not included this wool in the 1947 list of taxable property, and therefore will not be forced to make any abatement thereon.

A second consideration in the determination of the 3.3 per cent overlay arose from the situation in respect to the real estate of the Boston Elevated Railway Company. A decision of the Appellate Tax Board required the Board of Assessors to make an abatement of the real estate taxes of the Boston Elevated, in an amount of approximately \$41,000,000, for 1946. Through a bill filed by the City Law Department at the request of Mayor James M. Curley, the Legislature of the Commonwealth enacted a statute whereby this property of the Elevated became taxable in 1947. This exemption will not be granted, therefore, in 1947.

Other nonrecurring abatements included that of the New York, New Haven & Hartford Railroad Company, those of the Christian Science Publishing Society for the years 1934 to 1946, and those of the foreign insurance companies decided to be exempt by the Supreme Court of the Commonwealth. In view of the fact that these abatements will not reoccur in 1947, the Board of Assessors is of the firm opinion that a 3.3 per cent overlay was a proper decision—as was the Commissioner of Corporations and Taxation, Henry F. Long.

NO "BAG OF TRICKS."

During the past year the Finance Commission has written several letters denouncing what it suspects are the practices of this office. This Board has filed reports with the Honorable James M. Curley in reply to the Commission's letters. We have patiently explained the conduct of this office and our compliances with the statute which clearly defines our duties. We are well acquainted with the requirements of the law and we are anxious to perform our duties to the best interests of the city.

We have no "bag of tricks" into which to reach; we are not acquainted with "any small coterie of solicitors for abatements." Those who practice before this Board are either the owners of property or their counsel. If the Finance Commission is acquainted with any lawyers who "know the ropes" and who constitute a "small coterie of solicitors for abatement," it should feel in duty bound to report such activity to the Bar Association or to the District Attorney. We readily answer the question of "what could have been the motive" in making abatements. Our motive is to secure for the city every penny of revenue to which it is entitled by law. We consider it a strange activity that an investigating body such as the Finance Commission should utter any criticism of this Board's continuous effort to prevent any raid upon the city treasury.

We are confident of our ability to operate this office in a competent and efficient manner. It is our firm intention to achieve this result by a continuation of our present policy.

Respectfully,

BOARD OF ASSESSORS,
PETER J. ALLEN, Chairman.

TEMPORARY MAYOR GETS COPY OF MAGAZINE CONTAINING ARTICLE DESCRIBING BOSTON.

The Temporary Mayor on July 17 was presented a copy of *Holiday Magazine*, published by the Curtis Publishing Company. The feature article in this issue is a salute to historical and modern Boston.

In accepting the magazine, Temporary Mayor Hynes remarked: "On behalf of the citizens of Boston I want to thank the publishers of *Holiday* for their article on Boston. We have had a lot of articles in some of the intelligentsia magazines, which I like to refer to as smart-alec articles, depicting Boston in its poorest light, and I am grateful to the Curtis Publishing Company for having done such a fine job for our city and its citizens.

While I am here I am going to make a surprise presentation. This gentleman would be delighted to receive a similar copy of *Holiday*, to the one presented to me, and I am very happy to present this to the president of the Chamber of Commerce, Michael T. Kelleher."

After receiving a copy of the magazine, Mr. Kelleher said that the remarks made by Mayor Hynes were correct, and that he was proud of the fact that this magazine had done such a wonderful job for Boston.

TEMPORARY MAYOR EXTENDS GREETINGS OF CITY TO AMERICAN LEGION CONVENTION DELEGATES.

The following is the address of Temporary Mayor Hynes to the opening session of the State Department Convention, American Legion, Symphony Hall, July 17, 1947:

As Mayor of Boston, temporarily entrusted with the performance of the duties of that office for what may be a more or less brief period, I will experience, I am certain, no greater personal satisfaction than I experience at this moment when I welcome, in the name of the City of Boston and its citizens, this convention of the State Department of the American Legion.

You know, being made Mayor of Boston suddenly and overnight is somewhat like the doughface who has been in the ranks for 25 years and, because of unexpected circumstances, finds himself wearing a lot of brass and not knowing exactly what to do about it. He keeps thinking it is some other guy sporting a fancy pair of pinks.

However that may be, I like to think of myself at this moment as an insignificant cog in what I believe is the greatest organization in our land, and I am, consequently, officially and personally proud to bring to this convention the greetings of the capital city of our Commonwealth.

When I state that I am an insignificant cog in an organization which is the most powerful influence in the preservation of the principles of free government, I do not—most certainly not—imply that my own Legion Post is an insignificant one. Quite the contrary. There are those who will admit and concede—and I am one of them—that the Old Dorchester Post, No. 65, of the American Legion, is the most forward-looking, the most enterprising, the most progressive, and the best-looking Legion Post in the state. No? Well, at least our band is the best-looking band of all the Legion bands in the state.

Seriously, for a moment, let me offer this brief observation—the American Legion is a great organization. Its power and its potentialities are unlimited. Its duty to be unbending and faithful to its principles is a never-ending one.

As you meet here today, many of your former comrades are missing. Never again will they smell the sweet perfume of the rose, see the beauty of the setting sun, or hear the bright song of the birds. Many of your comrades are unable to be present because the ravages of war have sapped their strength, have deprived them of the full use of their faculties, have taken from them some vital part of the most perfect mechanism ever devised—the human body. To them, to our great nation, and to ourselves we owe a responsibility, a duty, an obligation, which can only be met by constant, uncompromising, eternal vigilance.

Let us never lose sight of the fact that the eyes of America are always upon us. Let us never lose sight of the fact that from no other organization in our nation is there expected such a high conception and such a high degree of understanding of what is real and what is right. In the almost three decades of its existence this organization has demonstrated, time and again, its loyalty and devotion to the principles of free government. Let us continue to do that. As America today is the very backbone which keeps the anatomy of the world together, we may well say to ourselves, we, the American Legion, are the backbone which keeps America together.

Welcome once again. Make this the greatest and most successful of all department conventions.

TEMPORARY MAYOR VETOES SUTCLIFFE COMPANY BUS LICENSE GRANTED BY CITY COUNCIL.

The Temporary Mayor on July 18 sent the following communication to the Boston City Council:

GENTLEMEN,—I return herewith, without my signature and disapproved, the vote of your Honorable Body of July 14, 1947, granting a license to the Sutcliffe Transportation Company to operate motor vehicles from the airport over certain additional streets in the City of Boston.

The ordinance of the city regulating licenses of this description requires that the route, stopping places, rate of fare, and type of vehicle be set out in the license.

The petitioner made an application in 1945 for a license between the airport and the Hotel Statler which complied with the specifications of the ordinance, and the petition was granted. In direct contrast the petition now pending before me specifies only the routes and the termini, and furnishes no stipulation as to stopping places, rate of fare, or type of vehicle. In addition, the petition, if approved, would license the operation of an unlimited number of motor vehicles which might be of any type.

It is my opinion, therefore, that any petition for license to operate what may prove to be a virtual monopoly in this class of transportation, over many of our most heavily traveled downtown streets, should not be granted in the absence of all necessary and possible information, regardless of the fact that the Department of Public Utilities may subsequently regulate the licensee.

No doubt every effort to improve the transportation to and from the airport should be encouraged, but, before agreeing to a license ostensibly for that purpose, the city is entitled to be informed exactly what kind of transportation is to be furnished, in order to determine its necessity and to consider whether its operation would result in an improvement in or a detriment to efficient transportation.

For the specified objections the license is disapproved.

TEMPORARY MAYOR JOHN B. HYNES DISCUSSES BOSTON'S PROBLEMS OVER STATION WLAW WITH FRED P. LAFFEY AS MASTER OF CEREMONIES.

(Continued from page 893.)

MAIN PROBLEMS OUTLINED.

M. C.—Perhaps you could tell us a little about the main problems confronting you at the present time. Just what do you consider Boston's principal problems at this time?

MAYOR—The matters to which I have been devoting a major part of my attention and energy are housing and traffic, in that order. There are many, many other problems connected with running a city such as Boston, but those two I would place at the top of the list. I don't expect we will be able to solve either of them completely during my service as Temporary Mayor, but I do anticipate that we will make some headway in meeting them and that both the housing and parking situations will be somewhat improved when I leave the office of Mayor.

M. C.—When you say the housing problem, just what do you mean?

MAYOR—I mean that there are not enough dwellings in Boston for all the people who want to live in our city. Many families are forced to double up with other families and live in cramped and crowded quarters. It is a bad and unhealthy situation, and we are trying to do what we can to improve it.

M. C.—That's really a problem for private industry, isn't it? The city isn't in the real estate business, is it?

MAYOR—Well, to a certain extent you might say that temporarily it is going into the real estate business, with the Boston Housing Authority as its agent. We can't just stand by and wait for time to improve and correct this situation. It means too much to too many people and to the city itself. Private industry hasn't been able to provide all the homes that are needed, and I feel the city should do what it can to help supply them. It should lead the way, I believe, in meeting this problem.

M. C.—Will the city to some extent be in competition with private property owners?

NOT IN COMPETITION.

MAYOR—No, I don't believe so. When this housing situation becomes normal, the city will sell the homes it builds to veterans at cost. The city isn't entering this field to give anybody competition or to do anything but to put up some dwellings that are desperately needed, and there won't be enough of them to offer any serious competition for private builders.

M. C.—Just what is the city doing?

MAYOR—For one thing, we have a \$10,000,000 program for the erection of two-family houses for the families of

veterans. Some of those houses are now under construction. We hope that several hundred will be ready for occupancy before the cold weather comes again. I don't know whether we will be able to realize our goal, but we are going to try very hard to do it.

M. C.—When these two-family houses are built, what will you do with them?

MAYOR—We will rent them at the most moderate rentals possible to the families of veterans who are now housed in inadequate living quarters, giving preference to those who are doubled up with other families or in-laws and living under conditions that are not normal.

M. C.—And will the city be the landlord and collect the rents?

MAYOR—No, that will be done by the Boston Housing Authority. At the end of a five-year period, or earlier if the Legislature so decides, we will sell those dwellings to veterans, probably to those who are occupying them. That will put the houses on a tax-yielding basis, and we hope the city will get its original investment with little, if any, loss.

M. C.—Are you putting up any apartment buildings?

MAYOR—Yes, we do intend to build some apartment houses, although all details concerning those plans are not yet worked out. And we intend to go ahead with plans for the construction of a low-rent housing project near the Cathedral of the Holy Cross in the South End. The buildings and homes on that area were demolished several years ago to make way for such a project, to be financed by the federal government, but it was stopped by the war, and since the war by government restrictions limiting the amount of money that can be spent per dwelling unit on federal projects. We still hope we will be able to get the government to go ahead with that project, but if we can't we will do it with city funds, and we have a \$8,000,000 loan order pending before the City Council at the present time.

BOSTON'S TRAFFIC PROBLEM.

M. C.—Well, you certainly are doing what you can to provide some homes. Now about the traffic problem. By the way, I read in the newspapers that you think some of our parking violators get off too easily.

MAYOR—I assume that didn't make much of a hit with some of our motorists, but I do feel that is so.

M. C.—Would you explain your views on that?

MAYOR—Well, we are spending a great deal of money to improve our traffic situation, and the State in time will also spend a tremendous amount to speed up the flow of travel through our city. But much of the work that is done can be undone by motorists who disregard parking regulations and park their cars in places where they slow up traffic, cause congestion, and to some extent create bottlenecks. I would like to stress that we don't want to keep anyone out of downtown Boston. We want everyone to come to our city. We want all the business we can get. We welcome them. Many persons will find it more convenient to park their automobiles at one of the Elevated stations and finish the trip in town by the El. Those who choose to drive into the heart of the city are, of course, perfectly welcome to do so. All that we ask is that they do not park their cars on streets where parking is prohibited.

M. C.—Do most people ignore the traffic regulations?

MAYOR—No. The vast majority of automobile owners observe our regulations and either leave their cars on streets where parking is allowed or in garages or outdoor parking spaces. But a small percentage of motorists disregard our rules, park their cars where they please, and in so doing create a critical traffic problem.

M. C.—Don't the police tag their cars?

MAYOR—Yes, the police do everything within their power to meet the situation. But if an automobile is illegally parked so that it is slowing up traffic on a heavily traveled street, all a police officer can do is place a tag on it. If it is a first or second offense, the penalty is so light that many motorists just laugh it off and don't give it a second thought. They don't think they have been punished severely. They consider they've paid a small fee for the privilege of violating the law. That's my point. We say, in effect, to these motorists: "Don't park on this street." Perhaps it's a narrow street where the entire roadway is needed for the flow of traffic. And after telling the motorist it's against the law to park on that street, we say to him: "If you do violate the law, we won't punish you the first time, but the second time we'll fine you \$1 and the third time \$2." Some motorists will shrug and say: "So what? It's worth \$1 or \$2 to park there." That's my point. I'm not criticizing the police. They don't make the laws. They merely enforce the laws that are on our books. If we want to discourage illegal parking, we have got to start by providing a real penalty for violating the law.

OFF-STREET PARKING PROGRAM.

M. C.—Are you doing anything about that situation?

MAYOR—Yes, we have plans under way for a \$5,000,000 off-street parking program. We intend to provide more places in downtown Boston where people can park their cars, and before the fall we hope to have work started on the construction of frame garages at vital locations in downtown Boston.

M. C.—Is there anything else you would like to tell our radio listeners, Mayor Hynes?

MAYOR—Yes, there is. I would like to tell them something about the Charity Field Day we are having at Braves Field next Thursday night—something about the great show we are going to put on there and the worthy causes for which the funds that are realized are going to be used. We are going to have a fireworks display, a vaudeville show, a baseball game, a race between some star runners, and awards of a 1947 Ford sedan, a refrigerator, and many other valuable prizes. I hope that many of my listeners will come out to Braves Field next Thursday night. They'll see a great show for their money, and they'll have the satisfaction of knowing the money they spend for a ticket will go to help the needy and the underprivileged.

POLICE DEPARTMENT ORDERS.

General Order No. 923.

Walter J. Kenney is hereby reinstated in this department as a patrolman in the Superintendent's Office; effective Friday, July 18, 1947, at 7:45 o'clock a. m.

The Superintendent of Police will promulgate this order.

SEEKS CONSTRUCTION OF
STREETS.

The Temporary Mayor has addressed the following letter to the State Commissioner of Public Works:

BOSTON, July 1, 1947.

MR. WILLIAM H. BURACKER, *Commissioner of Public Works*, Commonwealth of Massachusetts, 100 Nashua Street, Boston, Mass.

DEAR MR. BURACKER,— Under date of January 28, 1947, his Honor the Mayor was advised by the Commissioner of Public Works, Commonwealth of Massachusetts, that \$100,000 had been tentatively allotted under chapter 90 to the City of Boston for the year 1947.

The City of Boston bond issue for reconstruction of streets has just now become available and I desire to have the chapter 90 allotment used for the reconstruction of the following-named streets:

River street, Hyde Park, from Business street to the Dedham Line.

North Beacon street, Brighton, from Cambridge street to the Watertown Line.

I would appreciate it very much if your department could make arrangements to proceed with the reconstruction of these two streets, both of which are main arteries and carry heavy traffic between Boston and adjoining cities and towns.

With kind personal regards,

Very truly yours,

J. B. HYNES,
Temporary Mayor.

WEIGHING MACHINE LICENSE.

The Temporary Mayor has approved the following request of the Park Department:

BOSTON, June 2, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,— A license given by this department to Mr. Edward E. Adams, of the Mills Automatic Merchandising Corporation, 130 Broad street, Boston, for the operation of weighing machines in some of the buildings of this department, expires on June 30, 1947. This license has been held by Mr. Adams for many, many years, and he pays for this privilege the annual fee of \$350. These machines are owned by this company and are not the property of this department.

Our business relations with this firm have been very satisfactory over a period of years and, as it would be difficult to find another concern that would have the necessary machines, the Board of Park Commissioners believes that nothing would be gained by advertising for bids and respectfully requests your approval to the award of a license, without advertising, to Mr. Adams for one more year, from July 1, 1947, to June 30, 1948, for the sum of \$350.

Respectfully yours,

WILLIAM P. LONG, *Chairman.*

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of the city employees have been made:

ASSESSING DEPARTMENT.

* Contract awarded.

Upon July 2 the Temporary Mayor approved a contract with lowest bidders as indicated for furnishing hay, grain and feed to the various city departments for the months of June and July. On Item 5, Louis E. Page, the lowest bidder, inadvertently placed the price per hundredweight in the ton column making the bid read \$1.76 per ton instead of \$1.76 per hundredweight. Permission is requested to award Item 5, without further advertising, to Louis E. Page, at a price of \$1.76 per hundredweight.

The total amounts of the awards were as follows:

Thomas F. Culkeen, \$2,546.22; Louis E. Page, \$352; Curley Grain and Fuel, \$112.56. Total, \$3,010.78.

* Contract awarded.

Upon July 2 the Temporary Mayor approved a contract with the Eastern Salt Company and the Atlantic Salt Company for furnishing approximately 2,600 tons of rock salt to the Public Works Department. The bid submitted by The Chemical Corporation was irregular in that no bid was filed at the Auditor's office. The total amount of the awards was as follows:

Eastern Salt Company, \$14,040; Atlantic Salt Company, \$14,040. Total, \$28,080.

Bids, opened June 24, were as follows:

1,000 Tons Rock Salt for Paving Division.—The Chemical Corporation, \$10.80 per ton; Eastern Salt Company, \$10.80 per ton*; Atlantic Salt Company, \$10.80 per ton.*

Eastern Salt Company.—Delivered price is based on salt \$6 per ton, f.o.b. Retsof, N. Y., plus present freight rate to Boston of \$4.80 per ton.

Atlantic Salt Company.—Delivered price is based on the current freight rate from New York State of \$4.80 per ton.

Remarks.—The Chemical Corporation, bid irregular, no bid was filed at Auditor's office; delivered price subject to rise or decline of rail rates for buyer's account; Eastern Salt Company, any change in present minimum carload weights (80,000 pounds) or freight rates will be for buyer's account; City of Boston exempt on paying 3 per cent excise tax on transportation; we are not responsible for any delay in shipments due to strikes, con-

tingencies of transportation, or other causes beyond our control; Atlantic Salt Company, any changes prescribed by the Interstate Commerce Commission as regards capacity of cars, or increases or decreases in freight rates will be for the account of the City of Boston; this price is free of all taxes Federal, State or Municipal.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Temporary Mayor approved the requests of the several department heads indicated for permission to award contracts without advertising, for furnishing supplies, labor, etc. Communications from the heads of the departments interested were as follows:

LIBRARY DEPARTMENT.

BOSTON, June 27, 1947.

JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MR. MAYOR,—Your approval is respectfully requested for entering into a contract with Ames, Child and Graves, 50 Beacon street, Boston, for architectural services in the year 1947. The cost for such services during 1947 probably will be in excess of \$2,000, because of the large amount of extra work which will be required of the architects this year in connection with certain reallocations of departmental space which will be made in the Central Library building for the purpose of improving library service to the public. The architects' professional services consist of necessary conferences; preparation of preliminary studies, working drawings, specifications, large scale and full size detail drawings; drafting of forms of proposals and contracts; and the general administration of the business and supervision of the work which will be required by the Trustees.

In view of the fact that Ames, Child and Graves have been the architects for the Library for the past seven years and that their work has been satisfactory to the Trustees in every respect, the Trustees of the Public Library have voted "that there be entered into a contract with Messrs. Ames, Child and Graves, 50 Beacon street, Boston, for architectural services in the year 1947, in accordance with the standard provisions of the American Institute of Architects, the total fee thus charged not to exceed ten (10) per cent of the total cost of the work."

The expected expenditure for architectural services in the year 1947 will probably exceed \$2,000. This is the sum above which there must ordinarily be public advertising for competitive bids. However, since this is a case in which there would be no useful purpose served by such public advertising, your permission to dispense with such public advertising is hereby requested.

Respectfully,

FRANCIS B. MASTERSON,
President.

SUPPLY DEPARTMENT.

BOSTON, June 30, 1947.

JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—This office is in receipt of two requisitions, one from the Fire Department and the other from the Treasury Department, for Addressograph machines.

Permission is respectfully requested to award a contract, without public advertisement, to the Addressograph-Multigraph Corporation, 569 Boylston street, Boston, for furnishing these machines to the above-mentioned departments.

Since the Addressograph-Multigraph Corporation are the manufacturers of this equipment, no advantage would result in a public advertisement for bids.

Total amount of contract will be \$2,524. Excise tax is not included in prices quoted.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, July 2, 1947.

JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Since February 24, 1942, with the approval of his Honor the Mayor, this department has dispensed with advertising and public opening and reading of bids in the purchase of automobile tires and tubes.

The condition which necessitated this departure from customary departmental procedure is still prevalent in that the tire and tube market continues to be in an unsettled condition, which results in hesitancy on the part of automotive concerns to enter into formal contracts for substantial quantities or covering a specified period.

Since dispensing with public opening of bids, awards have been made on the basis of informal quotations obtained at frequent intervals, and this procedure has proved most satisfactory under the circumstances.

In my opinion the best interests of the city will be served by continuing this method of obtaining bids, and your permission is, therefore, respectfully requested to dispense with advertising in the purchase of automobile tires and tubes for the period from June 30, 1947, to December 31, 1947.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, June 1, 1947.

JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without public advertisement, to the Henley Kimball Company, 1299 Boylston street, Boston, for furnishing one (1) Hudson Commodore 8-4D sedan at a price of \$2,149.30, less a trade-in of one (1) 1942 Hudson sedan, \$850; net delivered price, \$1,299.30.

Delivery of this car is to be made to the Medical Examiner, Suffolk County, 784 Massachusetts avenue, Boston. Since the Medical Examiner is desirous of securing a Hudson sedan, no advantage would accrue from a public advertisement, as the Henley Kimball Company are the direct agents of the manufacturer.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, June 30, 1947.

JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—On March 3, 1947, Hon. James M. Curley approved a contract with the Linde Air Products Company for furnishing medicinal gases to the various city departments. The amount of this contract, through an error, was

stated to be \$2,509.38. The correct amount of this contract is \$5,697.18.

In view of the foregoing, I would respectfully request your approval to award this contract to the Linde Air Products Company in the proper amount, namely, \$5,697.18. The above request is for the Auditor's records.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

TRANSIT DEPARTMENT.

BOSTON, July 3, 1947.

JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Your approval is respectfully requested to place an order, without public advertisement, with the Corcoran Motor Sales Company of Wellesley for furnishing one new 1947 Ford Deluxe Tudor, fully equipped, at a net cost of \$1,288.

This department, under a recent date, asked for invitation bids and the following bids were received:

Stilphen Motor Company, \$1,413, no time of delivery given.

Lalime & Partridge, Inc., \$1,289.68, 60 days' delivery.

Corcoran Motor Sales Company, Inc., \$1,288, two weeks' delivery.

This car is urgently needed in the department for the engineering force on account of the increase in the work.

The total amount of the order would be \$1,288.

We wish to award to the Corcoran Motor Sales Company, Inc., who is the lowest bidder with an early delivery date, and no advantage would be gained by advertisement.

For this reason I respectfully request that the permission asked for above be granted.

Respectfully yours,

MALCOLM E. NICHOLS,
Chairman.

SUFFOLK COUNTY.

COURT HOUSE COMMISSION.

BOSTON, June 7, 1947.

JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—The Suffolk County Court House Commission has been advised by Auditor Charles J. Fox to write you with reference to a contract entered into with the Morris-Ireland Safe Company, 80 Sudbury street, Boston, on September 24, 1942, which was approved by the then Mayor Tobin. This contract has never been completed because of War Production Administration restrictions, and, since the removal of war restrictions, the above-mentioned company has been unable to make delivery for the reason that the type of door called for in the specifications is not in production.

The original contract called for eight specially constructed fireproof vault doors to replace grill work in the Registry of Probate at a price of \$1,268. There remained five to be purchased at some later date. In view of the delay, the Court House Commission has, with the approval of the Register of Probate, approved a less expensive type of fireproof door with combination locks for thirteen doors at the price originally called for in providing eight, namely, \$1,268. This sum has been held in the Unliquidated Reserve since 1942 and is available at the present time.

The original contracting firm, Morris-Ireland Safe Company, has, in the

meantime, been taken over, together with its personnel, by Diebold, Inc., with an office at the same address, 80 Sudbury street.

The purchase of these fireproof doors is necessary for the reason that the present doors are open grill work and present a fire hazard to important records stored in the various vaults of the Registry of Probate.

The commission respectfully requests your honor's permission to purchase these thirteen doors from Diebold, Inc., successors to the original contractor.

Respectfully submitted,

ARNO I. DREW,
Chairman.

TRANSFERS OF APPROPRIATIONS.

The Temporary Mayor has approved the requests of the several departments interested for the transfers of appropriations as follows:

CITY PLANNING BOARD.

BOSTON, June 30, 1947.

JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—The approval of your Honor is requested for a transfer of \$1.23 from reserve of Departmental Equipment Loan.

The above request is necessary in order to cover an increase in cost of a Royal typewriter purchased on account of this department from the Royal Typewriter Company.

Very truly yours,

E. M. HERLIHY,
Member.

PARK DEPARTMENT.

BOSTON, May 23, 1947.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR SIR,—It is respectfully requested that you arrange for the following transfer within the Park Department 1946 Equipment Loan Account:

From Department Equipment Loan, Motor Vehicles, \$175, to Department Equipment Loan, Machinery, \$175.

This transfer is needed so that we may purchase two Singer sewing machines for our sewing room in East Boston. These machines are used for making towels for the bath houses, and the ones we have on hand are many years old and beyond repair.

Only a limited number of machines are being manufactured, but we have been assured of delivery. These machines will cost approximately \$400, and we have the balance of \$225 in the Machinery item.

Very truly yours,

WILLIAM P. LONG,
Chairman.

PUBLIC WORKS DEPARTMENT.

BOSTON, June 5, 1947.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR MR. MAYOR,—Approval is respectfully requested to amend the budgets of the Highway and Sanitary Divisions of this department as follows:

Increase Machine Operator-Chauffeur-Laborers at \$44.76-\$41.76-\$38.76 (Sanitary Division) from 32 to 36.

Decrease Machine Operator-Chauffeur-Laborers at \$44.76-\$41.76-\$38.76 (Highway Division) from 8 to 4.

This change is requested due to the fact that on April 1, 1947, the Brighton and Hyde Park street cleaning was transferred from the control of the Highway to the Sanitary Division and the four employees operating sweeping machines in these districts who are at the present time paid on the Highway Division pay roll should be placed under the proper supervision, namely, the Sanitary Division, and their salaries paid out of that budget.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

IX. COMMENDATIONS.

Provisional Firemen Louis C. Liberator, Julius C. Sutton and Edward J. Riley of Engine Company 40 are hereby commended for responding to and working at fire, Box 6135, two alarms, on July 7, 1947, while off duty.

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

LAND-TAKING IN WEST ROXBURY.

The Temporary Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly West Roxbury, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Atwill road, bounded:

Northeasterly by Richwood street, forty and 13-100 feet; southeasterly by the southeasterly line of said road, two hundred forty-one and 55-100 feet; southwesterly by the southwesterly line of said road, forty and 3-100 feet; and

northwesterly by the northwesterly line of said road, two hundred forty and 4-100 feet, containing ninety-six hundred and thirty-two square feet, more or less.

LAND-TAKING IN HYDE PARK.

The Temporary Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Braeburn road, Hyde Park district, as a highway, between Myopia road and Beaver street, bounded and described as follows:

A highway named Braeburn road is hereby laid out, between Myopia road and Beaver street, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northerly by Myopia road, one hundred forty-two and 94-100 feet on a curve of one hundred and thirty feet radius; southerly by the southerly line of said Braeburn road as hereby laid out, thirty-one and 91-100 feet on a curve of thirty feet radius; southeasterly by the southeasterly line of said Braeburn road as hereby laid out, five hundred fifty-two and 25-100 feet; southerly by Beaver street, sixty-five and 82-100 feet; northwesterly by the northwesterly line of said Braeburn road as hereby laid out, forty-nine and 70-100 feet on a curve of seventy-five feet radius and four hundred eleven and 31-100 feet; and westerly by the westerly line of said Braeburn road as hereby laid out, one hundred eighty-seven and 71-100 feet on a curve of one hundred ninety-one and 86-100 feet radius.

Trees or structures standing upon or affixed to the aforescribed land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered. That this Board estimates that the abutting lots of land on both sides of Braeburn road, between Myopia road and Beaver street, excluding the lot at the southerly corner of Myopia road and Braeburn road, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Braeburn Road, Hyde Park, Assessment Plan, April 3, 1945, Thomas F. McGovern, Chief Engineer, Street Laying-Out Department," and on file in the office of this department.

POLICE PENSIONS AND BENEFITS.

On December 1, 1944, there were 426 persons on the pension roll. During the year 24 died, viz.: 2 captains, 1 lieutenant, 2 lieutenant-inspectors, 4 sergeants, 13 patrolmen and 2 annuitants. Eighty-six were added, viz.: 3 lieutenants, 13 sergeants, 67 patrolmen and the widows of Patrolman Eugene F. Brady, Patrolman Frank B. Callahan, Patrolman Stephen X. Mahoney, who died from disability received in the performance of duty, leaving 488 on the roll at date, 440 pensioners and 48 annuitants.

The payments on account of pensions and annuities during the past year amounted to \$546,350.33, and it is estimated that \$845,094.23 will be required for pensions and annuities in 1946.

The invested fund of the Police Charitable Fund amounted to \$207,550. There are 43 beneficiaries of the fund at the present time, and there has been paid to them the sum of \$6,729.50 during the past year.

MASSACHUSETTS BAY COLONY.

The first chartered colony in New England, charter granted by Charles I on March 4, 1629. About a year before, a patent had been granted to six prominent men of Dorchester, west of England, among whom was Capt. John Endicott. He sailed in June, 1628, with a party of fifty or sixty persons, arriving in September and settling at Naumkeag, afterward named Salem. In the spring of 1629, the Bay Company fitted out three ships conveying about four hundred persons and arriving at Salem in June. Endicott sent a small party to effect a settlement on the Bay in Mishawum, afterward named by the settlers Charlestown, the first town in New England to assume the town policy, Plymouth and Salem being governed by a governor and council. Endicott was appointed in London as the first resident governor on April 30, 1629. The Massachusetts Bay Company was reorganized in London on October 20, 1629, when John Winthrop was chosen as governor. He arrived at Salem on June 12, 1630, soon proceeded to Charlestown with a large following and finding that place unsuitable, finally settled in Boston. Winthrop served thirteen years as governor in four different periods ending in 1649 and Endicott fifteen years at various times ending in 1665. Other governors were Thomas Dudley, Richard Bellingham, John Haynes, Henry Vane, John Leverett and Simon Bradstreet, the latter serving twelve years until 1692 when the Bay Colony and the Plymouth Colony were merged, becoming the Royal Province of Massachusetts Bay, which existed eighty-two years to 1774, the governors being appointed by the King.

The name, Massachusetts, is Indian and signifies "near the big hills."

NEW SOURCES OF MUNICIPAL REVENUE.

Philadelphia recently adopted three new city taxes: auctioneers are required to register and pay a tax of \$500 a year, bowling alleys \$20 for each alley, and coin-operated slot machines and other amusement devices \$20 a year each. Portsmouth, Ohio, has levied a license fee of \$25 a year on juke boxes, pin ball machines, and other coin-operated amusement devices. Santa Barbara, California, on February 23 adopted a local retail sales tax of one per cent on the recommendation of a citizens' tax committee. Sacramento, California, has adopted a new business license ordinance which will provide approximately \$110,000 a year revenue. In New York City Mayor La Guardia has proposed an additional one per cent sales tax to finance a three-year program of subway rehabilitation; the present one per cent sales tax raises about \$32,000,000 a year.

MUNICIPAL OFF-STREET PARKING FOR CLEVELAND.

According to reports, free parking will be offered at municipal parking ground to be established in Cleveland, to relieve overtaxed private lots and garages in the downtown area. This announcement was made recently as Mayor Burke met with traction authorities and requested servicing of the area with adequate day-long 5-cent transportation to the central business district.

Law Director Lee C. Howley is quoted to have said: "We'll offer these parking facilities at no cost to motorists and will run them into the downtown area for a nickel."

The Mayor, meeting with General Manager Walter J. McCarter and Traction Board Chairman William C. Reed, asked that the Loop bus line be revised to extend its services into the free lake-front parking space. As soon as the area is opened, the Mayor said, it will be staffed with attendants, protection provided for cars of parkers and a shelter house constructed if use of the lot warrants.

TACKLING THE PARKING PROBLEM.

In Hartford, Connecticut, the Mayor has appointed a development commission to study problems relating to the city's future, including traffic, parking, and industrial expansion. . . . A study of parking practices in Detroit indicates that the cost of parking is secondary to walking distance. Motorists paying a 10 to 15-cent parking fee walked an average distance of 820 feet according to the study, and those paying a 40-cent fee walked an average distance of 750 feet. . . . The Chicago City Council recently adopted a resolution requesting the State Legislature to permit Chicago to establish and operate municipal parking lots; and a plan for building an underground parking lot in Grant Park also is being considered.

AIDS PAID TO PUBLIC ELEMENTARY AND SECONDARY SCHOOLS FROM INCOME OF MASSACHUSETTS SCHOOL FUND.

State participation in the financing of education began with the establishment of the Massachusetts School Fund in 1834, the income from which was to be used "for the aid and encouragement of common schools," (chapter 169, Acts of 1834). The principal of this fund is now \$5,000,000. The income of the fund has been distributed in many different ways. In 1835, population and the amount raised by local taxation for school support were the determining factors. Many changes followed until the present complex provisions were enacted, mostly in 1919, with some modification in later years.

STATE-COLLECTED TAXES SHARED BY CITIES AND TOWNS.

Approximately \$5,000,000 is distributed each year among all cities and towns as reimbursement of a portion of the amounts expended locally for salaries of teachers in the public schools. This one distribution constitutes about 80 per cent of all fiscal aid paid by the Commonwealth to cities and towns to assist in financing public schools. As the amount paid to each city and town depends upon the number and educational preparation of teachers employed, it favors well-to-do towns which can afford to hire more and better qualified teachers, and penalizes towns which by reason of less favorable circumstances operate their schools with fewer teachers. The original objective of this distribution was to raise standards of teacher preparation and to encourage local governments to pay certain established minimum salaries. As a means toward these objectives this distribution has outlived its usefulness.

CIVIL SERVICE EXAMINATIONS. LABOR SERVICE.

PRACTICAL TEST FOR LIFE GUARDS.

Salary: \$5 to \$5.50 per day.

Vacancies: There are several vacancies to be filled for state service and in municipalities where lifeguards are employed.

Duties: To keep watch, maintain order, and safeguard lives at state or municipal beaches or swimming pools; to rescue bathers who are in danger, and prevent drownings and mishaps; to give first aid and to assist in the resuscitation of rescued bathers; and to perform related work as required.

Exceptional skill in swimming is necessary, as well as a thorough knowledge of approved methods of first aid and resuscitation.

Entrance Requirements: Persons who wish to apply for these positions must register by filing application at the Division of Civil Service, State House, Boston, or at the office of the Labor Registration Clerk in the city or town. Only citizens of the United States who have domiciled in the Commonwealth for one year next preceding the date of filing application have a right to apply. An applicant for city or town service must have domiciled in the city or town for which he is applying for six months next preceding the date of filing application. Persons already registered for the Labor Service need not file a new application, but should call at the office of the Division of Civil Service or at the office of the Labor Registration Clerk and add the rating of lifeguard if they have not already registered under this rating.

Practical Test: Two hundred-yard swim; cross chest carry and lift; hair carry; front strangle; back strangle; wrist grip; float victim; resuscitation.

Notice of the time and place of the practical test will be sent to those having applications on file.

Physical fitness to be determined by physical examination.

Applicants must have visual acuity of at least 20-50 in each eye separately, without correction.

Names of those who qualify in the practical test and who pass the physical examination will be registered in the order of the date of application on the eligible lists for these positions. Names of veterans will be placed on the eligible lists above the names of all other applicants.

Labor Registration Clerks: Carl O. Larson, Town Hall, Arlington; Thomas H. Scanlon, Health Department, City Hall, Beverly; Mary Connolly, City Hall, Brockton; Arthur A. O'Shea, 55 Prospect street, Brookline; Mildred G. Hayes, City Hall, Chelsea; Helen Tremblay, City Hall, Chicopee; Mrs. Florence L. Robertson, City Hall, Everett; Mrs. Mary V. Simmons, Town Hall, Easthampton; Lorenzo E. CIVIL SERVICE EXAMINATIONS. (STATE AND CITY SERVICE.)

NOTE.—Applicants are advised to file applications early. In event of a tie on the eligible list, the applicant who filed his application first will be given precedence.

STENOGRAPHIC SERVICE.

FOR STATE AND CITIES AND TOWNS OUTSIDE OF BOSTON AND VICINITY, OCTOBER 4, 1947.

FOR STATE, BOSTON, AND CITIES AND TOWNS IN THE VICINITY OF BOSTON, OCTOBER 18, 1947.

The last date for filing applications for both of the above examinations will be Monday, September 15, 1947, at 5 p. m.

Open to males and females.

This examination is held to fill entrance stenographic positions, which have the title of Junior Clerk and Stenographer in the State service, and various titles, such as Stenographer, Junior Stenographer, Junior Clerk and Stenographer, etc., in the cities and towns.

On October 4, 1947, the examination will be held in various centrally located cities. On October 18, 1947, the examination will be held in Boston and persons who reside within commuting distance will be notified for examination on this day. All persons must appear for examination at the place and time designated in the notices mailed to each applicant by the Division of Civil Service.

Persons qualifying in the examination may have their names placed on the State list, as well as on the list for the city or town in which they have domicile.

Salary: For the State service, the entrance salary is \$1,380 a year; the maximum salary is \$1,740 a year.

In the cities and towns, the salary varies.

Vacancies: From time to time.

Duties: Under immediate supervision, to take notes from dictation and transcribe them on the typewriter; to do miscellaneous typing and routine clerical work of ordinary difficulty; and to perform related work as required.

Entrance Requirement: Applicants who have not reached their sixteenth birthday on the date of examination will not be eligible.

Subjects and Weights: Training and experience, 1; clerical tests (including spelling, arithmetic, following written directions, filing, and word knowledge), 1; stenography, 3; total, 5.

The dictation will be given at the following rates of speed: 80, 100, and 120 words a minute, the dictation at each rate of speed consisting of a letter of about 300 words in length. Each applicant may select any one or two of the three speed tests for transcription. If an applicant transcribes two tests, both are marked and the applicant is

given the higher of the two marks. The transcription is marked for both speed of dictation and accuracy.

Passing Requirements: Applicants must obtain at least 70 per cent in accuracy of transcription of at least one dictation and in each subject in order to become eligible.

546 NEW INDUSTRIES ON NYC SYSTEM.

A record number of new industries located in a single year on the lines of the New York Central System, of which the Boston & Albany Railroad is a part, was established during 1946.

The 1946 record totals 546 new industries, and it is estimated that they will produce annually an approximate volume of 204,900 carloads of freight traffic, or the equivalent of that produced by a major city.

The location of these new businesses in the territory served by the New York Central demonstrates the continuing growth of that great manufacturing section of the United States, extending through the north-central and northeastern states.

HEAVY LIFT LIGHTER TO SERVE HUB PORT.

A new all-steel, diesel-powered, heavy lift lighter has been obtained by Charles L. Hazelton & Son Co. of East Boston. With a capacity to lift from 60 to 70 tons, it was built for the U. S. Army and completed just as the war came to an end, and features an elevated boom which makes it more adaptable for all around general port work. It can also be used for dredging by attaching a 5-ton grab bucket.

The lighter is 135 feet long, has a 50-foot beam, and was purchased recently from the Maritime Commission. According to its owners it has the heaviest lifting capacity of any equipment north of New York. It cost \$265,000.

N. E. FOREIGN TRADE \$680,100,000 IN 1946.

The value of foreign trade flowing through the Customs Districts of New England amounted to \$680,100,000 in 1946, which was more than 4.6 per cent of the total for the U. S. and involved a movement of 7.7 million tons of commodities. Exports were valued at \$209,500,000, with weight of 1.2 million tons, whereas imports totaled \$470,600,000, weighing 6.5 million tons. Compared with the U. S. totals, New England had only 2.1 per cent of value and 1.2 per cent of weight of exports, but accounted for 9.5 per cent of value and 11.1 per cent of tonnage of imports. New England's share of U. S. exports and imports registered gains in both for the years 1945 and 1946, reflecting the resumption of private trade and the gradual availability of ocean shipping at New England ports.

\$50,000,000 WATER-SUPPLY PROJECT IN CALIFORNIA.

The city of San Jose has entered into contract with the Water Properties Company, Ltd., of San Francisco, to provide the city water from the head waters of the American river in the vicinity of Lake Tahoe. The agreement is for thirty years, during which time the municipality will acquire title to the local distribution system and receive a proportionate share of the production and transmission systems.

STATES AND CITIES TAKE ACTION ON EMERGENCY HOUSING.

Four states are taking steps toward meeting the housing shortage. In Massachusetts a state housing bill would authorize cities to (1) undertake repairs or remodeling of houses for veterans, (2) acquire land for sale to veterans or contractors who will sell or rent houses to veterans, (3) go into the housing business for themselves, and (4) seize homes from which veterans and their families have been evicted without fault. In Minnesota the Governor has appointed a state housing expediter to work with building supply industries and Federal agencies on materials distribution, to aid local communities in making use of unused buildings, and to

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Bellevue street, Ward 15, from Hamilton street to Kane street; Bentham road, Ward 15, from Draper street to Mt. Ida road; Corwin street, Ward 15, from Westville street to Arcadia street; Mt. Ida road, Ward 15, from Robinson street to 182 feet north of Homes avenue; School street, Ward 17, from Washington street to 550 feet west of Washington street, and Westville street, Ward 15, from Draper street to Corwin street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Bellevue Street, Ward 15, from Hamilton Street to Kane Street; Bentham Road, Ward 15, from Draper Street to Mt. Ida Road; Corwin Street, Ward 15, from Westville Street to Arcadia Street; Mt. Ida Road, Ward 15, from Robinson Street to 182 Feet North of Homes Avenue; School Street, Ward 17, from Washington Street to 550 Feet West of Washington Street, and Westville Street, Ward 15, from Draper Street to Corwin Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of FRIDAY, AUGUST 8, 1947, with a certified check for FIFTEEN HUNDRED (1,500) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,
(July 26.) Commissioner of Public Works.

PUBLIC BUILDINGS DEPARTMENT.

INVITATION FOR PROPOSALS FOR ALTERATIONS TO ONE (1) PASSENGER ELEVATOR LOCATED AT SOUTH END MUNICIPAL BUILDING, 65 WEST BROOKLINE STREET, BOSTON, MASS.

The Superintendent of Public Buildings of the City of Boston, hereinafter referred to as the Awarding Authority, invites sealed proposals for alterations to one (1) passenger elevator located at South End Municipal Building, 65 West Brookline street, Boston, Mass.

Proposals will be received until 12 o'clock noon, Wednesday, August 6, 1947, at the office of the Awarding Authority, Room 1005, City Hall Annex, at which time and place they will be opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$400, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Specifications may be obtained on and after Monday, July 28, 1947, at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to reject any and all bids if it be in the public interest so to do.

Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained on and after July 28, 1947, at the office of the Awarding Authority upon deposit of a certified check in the sum of \$25. This deposit will be refunded upon the return of the plans and specifications in good condition within ten days after the opening of bids.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All sub-bidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, August 4, 1947.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each sub-bidder, with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company, satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The Awarding Authority reserves the right to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all sub-bids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

REPORT OF EDWARD J. WALL, SUPERVISOR OF HEALTH EDUCATION AND SAFETY EDUCATION, ON HIS ATTENDANCE AT THE PRESIDENT'S CONFERENCE ON FIRE PREVENTION, HELD IN WASHINGTON, MAY 6-8.

The following is the report of Edward J. Wall, Supervisor of Health Education and Safety Education, on attendance at President's Conference on Fire Prevention:

Over 2,000 safety officials, representing departments and agencies from every state in the union, attended the President's Conference on Fire Prevention in Washington, D. C., on May 6, 7, and 8, 1947.

Following registration on the morning of Tuesday, May 6, the opening session of the conference was called to order in the Departmental Auditorium. Major General Philip B. Fleming presided.

The feature of the morning session was an address by the President of the United States. The President expressed his deep concern over the serious loss of life and property resulting annually from fires, and emphasized the fact that such unnecessary destruction and waste can and must be reduced. It is for this reason that the conference was assembled, with an immediate action program planned.

Who can count the value of a human life destroyed by fire? Who can say what a fire costs when it destroys thousands of tons of food sorely needed here and abroad? What is the value of a house the burning of which makes a family homeless? Who can put a dollar value on a burning forest? Who can say what fire costs the nation when a single fire in one factory can result in lost jobs and lost wages for hundreds of workmen, reduced savings, and reduced volume of trade throughout a community? These were some of the questions raised by the President in addressing the conference. Pointing out that no dollar value can ever be placed on the irreplaceable things which fires destroy, President Truman stated, "We are now approaching the fire problem on a truly national basis." Delegates were then reminded that the Highway Safety Conference of 1946 had resulted in the saving of an estimated 6,000 lives. They were urged to strive during the coming year for a similar record in fire safety.

Deaths from Fires.

Major General Fleming then introduced chairmen of the major conference committees, each of whom spoke briefly. It was pointed out that during the last decade an estimated 10,000 deaths resulted from fires, that the fire toll has been rising steadily since 1934, and that in 1946 we experienced the most destructive year in our recent history, with a property loss of \$561,487,000, an increase of 23 per cent over 1945. This unnecessary wastage of life and property can be reduced by all-out nation-wide effort.

"I believe," said Major General Fleming, "that keys to the fire prevention problems are education, enforcement, and engineering. We need widespread education in methods of fire prevention and control, more adequate laws with rigid enforcement, and better engineering."

Tuesday afternoon was devoted to major committee meetings and to discussion of preliminary committee reports. The following committee meetings were held: Building Construction, Operation, and Protection; Fire-fighting Services; Fire Prevention Education; Laws and Law Enforcement; Organized Public Support; Research.

Because of my professional affiliations, I attended the section on Fire Prevention Education. This section was under the direction of Dr. Harry C. Byrd, President, University of Maryland. The consensus was that "we owe the 30,000,000 young people in our schools today the best instruction possible in fire safety," and that "basic fire prevention instruction should be intensified and expanded at all levels of education and in all types of schools."

INSTITUTIONS DEPARTMENT SUCCESSFULLY PROSECUTES CASE WHERE CHILDREN WHO WERE BOARDED OUT WERE ABUSED—INSTITUTIONS COMMISSIONER G. FRANK McDONALD INFORMS TEMPORARY MAYOR HYNES OF COURT VICTORY OVER COUPLE ACCUSED OF BEATING CHILD WARDS—FIRST PUBLIC AGENCY IN STATE TO BRING CHARGES OF SUCH CRUELITIES AND SECURE CONVICTION—CASE SERVES AS WARNING TO OTHER FOSTER HOMES.

His Honor the Temporary Mayor on July 24 received the following letter:

BOSTON, July 23, 1947.

JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MR. MAYOR,—On July 23 a trial was held in the Woburn District Court before Judge Albert Sartorelli on complaints made by me, as Commissioner, that Mr. and Mrs. Patrick Brady of Burlington committed assault and battery on child wards of the Child Welfare Division of this department, commencing on June 16, 1947.

After hearing evidence submitted by one of the children that he was cruelly beaten and then tied by the neck in the cellar of a barn for six days and fed bread and water once a day, later escaping by cutting his bonds with a piece of glass, the judge found Mr. and Mrs. Brady guilty on three counts of assault and battery and fined them \$250, with one year in jail for both. On the plea of their attorney that a jail sentence would endanger Mrs. Brady's health, the judge held a bench conference and suspended the jail sentence, providing no appeal was taken. No appeal was taken.

Upon our hearing of the assaults I determined to make an issue of them. Knowing full well that difficulty would

be had in having complaints issued in a local community like Woburn and, in the event of complaints being issued, their prosecution by a local police officer, I brought the matter in the beginning before the District Attorney of Middlesex County, explaining to him the importance of the matter to public agencies and the seriousness of our charges. He assigned Assistant, District Attorney Alan Gerson to prosecute in the Woburn Court.

I am certain that the department has won a great and lasting victory in this matter, and it cannot help serving as a warning to other homes. The City of Boston Institutions Department is the first public agency in Massachusetts to bring charges and obtain a conviction in a case of this character. Cruelty to children in foster homes has very often come to the attention of public agencies, but great hesitancy has been had in preferring charges. I believe we have made known in no uncertain terms that the City of Boston will not tolerate the abuse of its wards.

Respectfully yours,

G. FRANK McDONALD,
Commissioner.

REPORT OF EDWARD J. WALL, SUPERVISOR OF HEALTH EDUCATION AND SAFETY EDUCATION, ON HIS ATTENDANCE AT THE PRESIDENT'S CONFERENCE ON FIRE PREVENTION, HELD IN WASHINGTON, MAY 6 TO 8.

(Continued from page 913.)

RECOMMENDATIONS.

Specific recommendations were the following:

1. Each state department of education should encourage the development of fire-safe school properties and designate responsibility for its successful completion.

2. The school administrator must take every action necessary to insure that safe escape, in event of fire, is a virtual certainty.

3. Local and country elementary school systems can do much in the education of children in fire prevention by including it as an integral part of the curriculum.

4. Appropriate committees should be organized locally for the study and

revision of the curriculum in order that fire safety instruction will be up to date at all times.

5. The superintendent of schools should provide the leadership for developing and instituting a continuing program of education for fire prevention.

6. The development of a coordinated program of fire prevention education in the teachers' college curriculum requires that the curriculum include all educational materials and activities that will prepare and qualify teaching personnel to include this subject as an important part of their teaching responsibility.

7. Students and teachers should be encouraged to participate in community and home fire prevention activities, and school fire prevention activities should be closely related to community problems, thus developing fire safety habits.

8. At the college level, fire safety should be integrated with such courses as chemistry and physics. Greater attention should be given to this subject in appropriate courses in schools of business administration, and in insurance, economics, and transportation courses.

9. Existing courses for engineering and architectural students should include fundamentals of fire protection.

10. The use of visual educational material for instructional purposes should be extensively expanded.

11. Close liaison should be maintained between the educators and the fire services. The local fire departments can be of major assistance to the schools in implementing their fire programs. Such cooperation would include a fire college in each state under control of a leading college or university.

Both morning and afternoon sessions of Wednesday, May 7, were taken up with individual committee reports, discussions and recommendations.

TO INTENSIFY WORK.

The Thursday session was one of summarization, with an added presentation of the Conference Action Program by the chairman of the Coordinating Conference Committee. The obligation of delegates in conveying the message of the conference to local communities was stressed, and the recommendation made that as soon as possible a state-wide fire safety conference be called by the governor in each of the 48 states.

It may be appropriate at this time to indicate these major objectives of the President's Conference on Fire Prevention: to emphasize the ever-pressing menace of fire to human life and material resources; to intensify the work of fire prevention and control in every community in the United States. It may also be well to note as essential to the accomplishment of these objectives the universal acceptance by ranking federal, state, and local officials of their direct responsibilities in the matter of fire safety, and the need of public support in the enactment and enforcement of adequate legislation.

Regardless of the national approach, the fire hazard is essentially a local problem; it must be met and fought in the local community. While the government in Washington may guide and persuade, the real reduction in the nation's tragic fire losses must come from a determined, personal interest by millions of Americans in the safety of their own home town.

On invitation from the sponsors of the Third National Conference on Health in Colleges, held in New York during the week of May 6-10, 1947, I attended sessions of this National Health Conference on Friday and Saturday, May 9 and 10, prior to my return to Boston. In addition to reviewing the progress and status of health programs in colleges, this conference proposed the setting up of adaptable college programs to provide the optimum in health education, physical education, health services, and healthful environment for students, in preparation for individual and community responsibilities. I was assigned to the section on Health Education for Prospective Teachers, under the direction of Dr. Harold H. Walker of the University of Tennessee. Practically every major college and university in the country was represented.

The contribution which the deliberations of this outstanding group may make in the attainment of school and community health ideals cannot be over-emphasized. It is my hope that at a later date I may have the opportunity to report in detail the results of this impressive conference group.

COMMISSIONER GROSSMAN DECLARES CONDITIONS DEMAND CONTEMPLATED BUILDING REPAIRS AT DEER ISLAND FOR SAFETY OF PRISONERS UNTIL FUNDS FOR NEW STRUCTURE ARE AVAILABLE.

The following statement was issued on July 31 by Penal Institutions Commissioner Maxwell B. Grossman:

I am very pleased with the report of the Commissioner of Correction of the Commonwealth of Massachusetts, dated July 29, 1947, sent to the Temporary Mayor, John B. Hynes, of which I received a copy.

Regarding the paragraph "Old Prison Building" where some repair work is being done, the Commissioner of Correction is of the opinion that any money spent to renovate this structure is money wasted. I would like to invite the attention of the Commissioner of Correction to our main prison building, which can house three hundred and sixty (360) inmates, but we now have a count of over five hundred (500), with every indication that this count will increase steadily.

Until such time as we receive sufficient funds to build an additional prison building, and on account of the high population, we are compelled to house inmates in a dormitory which has been strongly disapproved of by the Fire and Building Departments as well as the health authorities of the City of Boston.

For the safety and protection of our inmates it is better to repair at least part of the old prison at an expense of approximately \$30,000 on bids to the lowest bidder and remove these inmates from the dormitory to this prison until such time as an appropriation of one-half million dollars can be obtained to build a new prison building.

TEMPORARY MAYOR SENDS CONDOLENCES TO PRESIDENT TRUMAN ON DEATH OF HIS MOTHER.

The following letter was, on July 28, sent to President Harry S. Truman:

HON. HARRY S. TRUMAN, *President of the United States*, White House, Washington, D. C.

DEAR MR. PRESIDENT,—All of the citizens of Boston and its metropolitan area, numbering more than 2,500,000 persons, join with me in extending deepest sympathy to you, to Mrs. Truman, and to your daughter, Margaret, upon the death of your beloved mother, Mrs. Martha Ellen Truman.

Your mother was truly a remarkable woman. In her simple greatness she was an outstanding example of real motherhood. Down through the years there has come a short anonymous poem, dedicated to mothers everywhere. It is still a source of comfort and solace:

"God sent the birds and sunshine
To gladden all the world;
He sent the foliage and flowers
In radiance unfurled;
He sent the June, the stars, the moon,
The pearly dewdrops sweet—
And then He sent You,
Mother dear,
To make it all complete."

She died a restful and happy death, for she had lived to see her son become

President of the United States, and her granddaughter established as an opera singer of note. She has gone now, to her Heavenly home, where with the angels, she shall have eternal life, tranquility and happiness.

Sincerely yours,

J. B. HYNES,
Temporary Mayor.

TEMPORARY MAYOR HYNES FELICITATES JUSTICE QUAIN ON ELEVATION TO SUPREME JUDICIAL COURT OF MASSACHUSETTS.

His Honor, the Temporary Mayor, on July 24, sent the following letter:

HON. STANLEY ELROY QUA, 141 Hollywood Avenue, Lowell, Mass.

DEAR JUSTICE QUA,—On behalf of the citizens of the City of Boston I wish to extend to you heartiest congratulations upon your elevation today to be Chief Justice of the Supreme Judicial Court of Massachusetts.

Having been a Justice of the Superior Court from 1921 to 1934, and an Associate Justice of the Supreme Court from 1934 to the present day, you are eminently qualified to serve with distinction in the highest judicial office of the Commonwealth, to which Governor Robert F. Bradford has appointed you.

We wish you a long and most successful administration. To you and yours we also wish the best of health and a full measure of happiness.

Sincerely yours,

J. B. HYNES,
Temporary Mayor.

TEMPORARY MAYOR HYNES ADDRESSES CHIEF JUSTICE FIELD ON HIS RETIREMENT.

His Honor, the Temporary Mayor, on July 24, sent the following letter:

FRED T. FIELD, *Chief Justice*, Supreme Judicial Court of Massachusetts, 36 Fairmount Avenue, Newton, Mass.

DEAR JUSTICE FIELD,—With scores of thousands of the citizens of Boston and of the Commonwealth, I wish to express my personal regrets upon your retirement as Chief Justice of the Supreme Judicial Court of Massachusetts. You have brought honor, dignity, profound legal knowledge, and eminent fairness to a distinguished institution for which we all have highest esteem.

Our Supreme Court, more often quoted than any other State Court in the nation, was, as you know, the successor to the Superior Court of Judicature of the Province of Massachusetts Bay, established in 1692. After the Revolution, in 1782, it became known as the Supreme Judicial Court of Massachusetts.

Your name will be recorded in history along with those of our eminent Chief Justices of the past, among them being William Cushing, Lemuel Shaw, Horace Gray and Oliver Wendell Holmes.

You have earned a deserved rest. May you and the members of your family have a full measure of health and happiness.

Sincerely yours,

JOHN B. HYNES,
Temporary Mayor.

Reilly, husband and wife, as tenants by the entirety, for the damages so sustained.

FIRE DEPARTMENT ORDERS.

General Order No. 50.

RESPONSES ON ALARMS OF FIRE.

The attention of all officers that may be in command of a fire is called to the first three paragraphs of Special Order 16, February 6, 1947, which reads as follows:

"In cases where a District Chief calls for a full assignment, Fire Alarm Office, in addition to dispatching the third and fourth due companies, shall also dispatch the first two engine companies on the second alarm response.

"The reason for this procedure is to make available additional manpower and apparatus which may be sufficient to cope with the situation and thus eliminate the moving of apparatus covering other companies.

"Of course, it is understood, that if a fire warrants the sounding of a multiple alarm, such action must be taken immediately."

Paragraph 4 shall be changed to read as follows:

"Deputy Chiefs shall respond to multiple alarms. Fire Alarm Office shall notify the Deputy Chief whenever there is a serious fire (single alarm) in progress. Deputy Chiefs, in addition to responding to all multiple alarms, shall respond to other alarms at their discretion."

A careful perusal of the above first two paragraphs should fully explain why this procedure is followed during the time of reduced assignments, as specified in section 3, of General Orders, No. 74, of December 10, 1947.

It must be understood that on request to the Fire Alarm Office for a FULL ASSIGNMENT, this means the balance of the first alarm companies, and in addition, two extra engine companies shall be sent to the fire.

When an officer in command of a fire realizes he has a good fire on his hands and does not desire a second alarm, he calls for a FULL ASSIGNMENT.

If the officer in command does not need the two additional companies, as specified in Special Order 16 of February 6, 1947, he shall order, through Fire Alarm Office, the number and kind of companies necessary.

Attention of all members is called to Emergency Code Signal for use in ordering a full assignment in the absence of a telegrapher as established in section 3, General Order 79, of December 24, 1946.

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

"Deputy Chiefs shall respond to multiple alarms. Fire Alarm Office shall notify the Deputy Chief whenever there is a serious fire (single alarm) in progress and the Deputy Chief shall respond to the scene of the fire."

It must be understood that on request to the Fire Alarm Office for a FULL ASSIGNMENT, this means the balance of the first alarm companies, and in addition, two extra engine companies shall be sent to the fire.

A careful perusal of the above first two paragraphs should fully explain why this procedure is followed during the time of reduced assignments, as specified in section 3 of General Orders, No. 74, of December 10, 1946.

Attention of all members is called to General Orders, No. 79, of December 24, 1946, and especially section 3 of this order. Note that section 2 of this order rescinding paragraphs on card "D" of instruction cards in the assignment card box, and also page 3, General Orders No. 1, of January 2, 1937, was again rescinded by Special Order 1 of January 2, 1947, and such paragraphs are in effect again just as though they had never been rescinded.

It is understood that when an officer in command of a fire realizes he has a good fire on his hands and does not desire a second alarm, he calls for a FULL ASSIGNMENT.

If the officer in command does not need the two additional companies, as specified in Special Order 16 of February 6, 1947, he shall order, through Fire Alarm Office, the number and kind of companies necessary. If the fire warrants a multiple alarm, such action must be taken immediately.

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

POLICE DEPARTMENT ORDERS.

General Order No. 924.

I am pleased to publish for the information of the Uniformed Force the following letter received from the American Legion, Department of Massachusetts:

"THE AMERICAN LEGION,
DEPARTMENT OF MASSACHUSETTS.

159 State House, Boston.

July 24, 1947.

THOMAS F. SULLIVAN, Commissioner,
Boston Police Department, 154 Berkeley Street, Boston, Mass.

DEAR COMMISSIONER SULLIVAN,—May I take this means of thanking you personally and in behalf of the American Legion, Department of Massachusetts, for the excellent job done by the police of the City of Boston during our convention on July 17-19, 1947.

The patience and cooperation shown by all the superior officers and patrol-

men on duty was outstanding and not one complaint was received by the committee.

Particularly do I want to commend them to you for the excellent work they did in policing the parade route. I marched the whole distance and I know from personal observation of the remarkable manner in which they handled the huge crowds.

I have received many fine compliments about the parade and about the way it moved according to schedule and you may be sure I know this could not have been accomplished without their fine work.

Very truly yours,

FREDERICK L. MELLIN,
Chairman, Convention Committee."

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 925.

The resignation of Patrolman John J. McAuliffe, Superintendent's Office (armed service roll), having been presented, it is hereby accepted, to take effect Monday, July 28, 1947, at 7.45 o'clock a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 926.

The following-named officer having requested retirement under the provisions of the Statutes of 1892, chapter 353, as amended, for the reason that he is incapacitated, it is hereby

Ordered, His Honor the Temporary Mayor having approved the same, that he be retired from active service in the Police Department; effective Wednesday, July 30, 1947, at 7.45 o'clock a. m.

Patrolman Walter J. Kenney, Superintendent's Office, 25 years of service.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Bourne road, West Roxbury district, as a highway, from Eastland road southeasterly and southerly to Eastland road, with the name of Wayburn road or some other distinctive name, bounded and described as follows:

A highway named Wayburn road is hereby laid out, from Eastland road southeasterly and southerly to Eastland road, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Westerly by Eastland road, sixty-six and 6-100 feet; northeasterly by the northeasterly line of said Wayburn road as hereby laid out, three hundred sixty-one and 4-100 feet; easterly by the easterly line of said road as hereby laid

out, one hundred twenty-nine and 49-100 feet on a curve of eighty-five feet radius; southeasterly by the southeasterly line of said road as hereby laid out, ninety-one and 15-100 feet; southwesterly by the southwesterly line of said road as hereby laid out (Eastland road) forty feet; northwesterly by the northwesterly line of said road as hereby laid out, ninety-one and 15-100 feet; westerly by the westerly line of said road as hereby laid out, sixty-eight and 55-100 feet on a curve of forty-five feet radius, and southwesterly by the southwesterly line of said road as hereby laid out, three hundred eight and 48-100 feet.

Trees or structures standing upon or affixed to the aforescribed land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on all sides of said Wayburn road, as laid out under this order, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on the plan hereinbefore mentioned, and on file in the office of this department.

TRIBUTE TO JOHN F. ROCHE

The following tribute was ordered spread upon the records:

The Board of Trustees of The Boston Public School Teachers' Retirement Fund

Boston, May 13, 1947.

The late John F. Roche, Head Master of Charlestown High

School, served as a member of the Board of Trustees of the Boston Public School Teachers' Retirement Fund Association for 16 years. For four years he was Chairman of the Finance Committee and for the last twelve years was President of the Board. In these capacities he invested and reinvested millions of dollars belonging to the teachers of Boston. Because of his conservatism, good judgment, and farsightedness, the fund is in excellent financial condition. In 1939 Mr. Roche, representing the Board of Trustees, advocated and secured the passage of the law which makes it permissive for the Board of Trustees to grant a death benefit to the estates of those who die in the service.

Because of his honesty, courage, and many years of work in behalf of the teachers of Boston, the late John F. Roche deserves the gratitude of all the teachers of the Public Schools of the City of Boston.

The Committee adjourned.

Attest:

LOUISE KANE,
Secretary.

June 25, 1947.

A meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 7.50 o'clock P. M., the Chairman presiding.

Present: Messrs. Foley, McDevitt, Norton and White.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Edwardson street, Ward 18, from Lewiston street to Wood avenue; Farrar avenue, Ward 18, from Tacoma street to Wood avenue; Milton avenue, Ward 18, from Summit street to Prospect street; Navarre street, Ward 18, from Ramsdell avenue to 573 feet southerly and Safford street, Ward 18, from Lewiston street to Wood avenue. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Edwardson Street, Ward 18, from Lewiston Street to Wood Avenue; Farrar Avenue, Ward 18, from Tacoma Street to Wood Avenue; Milton Avenue, Ward 18, from Summit Street to Prospect Street; Navarre Street, Ward 18, from Ramsdell Avenue to 573 Feet Southerly and Safford Street, Ward 18, from Lewiston Street to Wood Avenue," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of FRIDAY, AUGUST 15, 1947, with a certified check for FORTY SEVEN HUNDRED (4,700) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

DEPARTMENT OF SCHOOL BUILDINGS.

TO BOILER CONTRACTORS.

INVITATION FOR PROPOSALS FOR REPAIRING AND RETUBING BOILERS IN VARIOUS SCHOOLS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for repairing and retubing boilers in various schools.

Proposals will be received until 12 o'clock noon, Monday, August 11, 1947, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

TEMPORARY MAYOR HYNES WELCOMES DELEGATES TO THE 88TH ANNUAL SESSION OF THE AMERICAN DENTAL ASSOCIATION—RECOUNTS AND REVIEWS PROGRESS OF PROFESSION AND ACHIEVEMENTS IN RELIEVING SUFFERINGS FROM TOOTHACHE FROM TIME OF PAUL REVERE TO THE PRESENT—ALSO POINTS TO BOSTON'S LEADERSHIP IN VARIOUS BRANCHES OF PUBLIC HEALTH WORK—EXPRESSES APPRECIATION FOR WORK MEMBERS OF PROFESSION ARE DOING TO BENEFIT HUMANITY.

The following is the address of Temporary Mayor John B. Hynes before the delegates of the 88th Annual Session of the American Dental Association at the Hotel Statler on Tuesday, August 5:

As the Temporary Mayor of Boston, I am happy to extend to each of you a cordial welcome to our city on this, the 88th annual meeting of the American Dental Association. The fact that Boston was chosen by your association as the scene of the renewal of your annual meetings is something that should not go unnoticed, and in the name of the citizens of Boston I thank you for the honor you have paid our city.

Here in Boston we are inclined to boast, and perhaps a little too much, of the grandeurs of the past and the glories of yesteryear, when Boston was in all truth the focal point from which spread the beliefs, the ideals, and the principles which later found expression in that remarkable and imperishable document, the Declaration of Independence.

And when it comes to public health—and dentistry—we can also reach into the deep bag of the past and come out with some astounding examples of our leadership in these fields of endeavor.

First Public Health Act.

'Way back in 1797, the Great Public Health Act, empowering local governments to set up quarantine and sanitary regulations, was signed here in Boston. Two years later, in 1799, the first Board of Health was established here, with the talented and versatile Paul Revere as its chairman.

It seems that I have read somewhere or other that Paul Revere, among his other wide accomplishments, was the first dentist in Boston, and in that capacity is credited by some as the gentleman who constructed George Washington's artificial teeth. If that is so, dentistry in this city has certainly come a long way since the days of Paul Revere.

And, while I am speaking of dentists and antiquity, I feel that this might be an appropriate time and place to give an accounting of one of Boston's distinguished-looking dentists, whose name I do not recall, but who has probably long since gone to his just reward. This gentleman occupied an upstairs office in Scollay square here in Boston—a well-known part of our city to you gentlemen who have been in the Navy—and outside of his window, in large and convincing type, was a huge sign announcing to the world that in that very location and for the first time anywhere painless dentistry was practiced, and teeth were extracted without pain or suffering.

Painless Dentistry (?)

At the time I refer to, about 35 years ago, I was a trusting young boy receiving the munificent sum of \$4 a week as a combination errand and office boy. One morning I arrived at work with a swollen jaw and a toothache which had been pounding all night long. My good boss, noting my agony, advised me to go to the dentist and gave me 50 cents to take care of the cost. Immediately across my mind flashed the sign—painless dentistry and teeth extracted without pain—and, with the brave confidence of youth, I hurried up to Scollay square where the eminent painless dentist, a striking-looking gentleman with a beautiful Vandyke beard, was comfortably reading the morning paper.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

TEMPORARY MAYOR JOHN B. HYNES WELCOMES THE AMERICAN DENTAL ASSOCIATION TO BOSTON.

(Continued from page 941.)

We quickly made a deal. For the 50 cents, paid in advance, he agreed to take out the offending tooth. There were no other preliminaries. I sat in the chair. He said, "Open your mouth and let me see what goes on." When I did, he inserted a pair of pliers or some other infernal machine, got a firm hold on the tooth, stuck his knee in my stomach, and heaved. Out came the tooth. Up I jumped, howling with pain, and demanding a return of my 50 cents. I lost my temper, the striking-looking dentist lost his dignity, and I ended up at the bottom of the stairs, minus my 50 cents, minus my tooth, and in a few minutes minus my toothache.

MEMORY LINGERS.

Even today, when I go to that extremely able member of your profession, Dr. Stephen Mallet, or his successor in general dentistry, Dr. Trafidlo, and I hear those words—"Relax now; this won't hurt a bit"—my mind flashes back to that sunny morning, 35 years ago, when that gallant pioneer of painless dentistry initiated me into the wiles of your profession.

In all seriousness, we profoundly point out that here in Boston are many milestones on that never-ending road of public health. We were first in contagious disease control, in sanitary legislation, in pure food legislation, in inoculation against smallpox and in vaccination. And, more to the point, gentlemen, our dental health traditions are a source of much pride to us.

As you may well recall—I suppose dentists get to the movies once in awhile—it was here in Boston that Dr. W. T. C. Morton, a dentist, first administered ether as a general anesthetic in the Massachusetts General Hospital, the first great step in humanity's struggle against pain. It was here also, in 1844, that Dr. Horace Wells, a dentist, first administered nitrous oxide as an anesthesia for the extraction of teeth.

Here in Boston, in 1867, the Harvard Dental School became the first dental school affiliated with a university. In 1868 the Boston Dental College was established, which later, in 1900, became attached to the Tufts College Dental School.

Through the philanthropies of the Forsyth Brothers and George Robert White, we established here in Boston the first dental infirmary and the first dental clinics administering to the dental needs of our children.

I could go on at length and call your attention to the dental facilities available in our great hospitals—the Massachusetts General, the Boston City, the Children's, the Carney, St. Elizabeth's, the Peter Bent and the Robert Breck Brigham, the Boston Dispensary, and others—but, as proud as we are of our traditions and our wonderful present-day facilities and institutions, we are even prouder of the members of your great profession who have made it possible, and still make it possible, for us here in Boston to enjoy and to benefit from the fruits of their work and their wisdom.

To all of you who have dedicated your lives to this great profession, let me say, though you may occasionally strike a nerve and though we on the other side of

the chair may occasionally have a slight animus toward you, be assured that it is but a fleeting thing. We know of the great advances you have made and are still making. We know it would be a sorry world without you. May the Almighty continue to give you the strength, the vision, and the wisdom to keep on with the great work you are doing for humanity.

Welcome once again. May this be your best annual meeting. Thank you.

ARMY AIR CORPS ANNIVERSARY.

Temporary Mayor John B. Hynes on July 31 issued the following public statement:

Tomorrow, August 1, 1947, is the fortieth anniversary of the United States Army Air Corps. The infant service which came into being on this day in 1907 has become a mighty force in the world. It becomes us to pause for a moment and pay tribute to the pioneers of the early aviation days. Their ingenuity, their sacrifices, their sufferings and their deaths have made possible one of the greatest wartime weapons and peacetime aids to mankind which has been produced over the centuries.

I join with Brigadier General Louis E. Boutwell, commander of the Massachusetts Air National Guard, located at the Logan Airport in East Boston, with Crocker Snow, director of the Massachusetts Aeronautics Commission, and with the United States Army Air Corps Command in Bedford, Massachusetts, in calling attention to this important day.

Tomorrow, Saturday and Sunday, both at the Logan Airport and also at Bedford, open house is to be maintained for the public. The latest types of modern airplanes are to be on view. There are to be exhibition formation flights by the fighting squadron of P47 planes of the Massachusetts Air National Guard at East Boston and Army A26 planes at Bedford. The public will gladly be welcomed.

Hats off to our United States Army Air Corps on this anniversary, and to our own Massachusetts Air National Guard, which joins in its observance!

PLANS UNDER WAY FOR RECONSTRUCTION OF RECREATION CENTER IN EAST BOSTON TO REPLACE WOOD ISLAND PARK.

A conference was held in the office of the Temporary Mayor, on July 31, with Commissioner William H. Buracker of the State Public Works Department; General Richard K. Hale, and Engineer Fenton; Representatives Cappucci and Matera; City Councilor Coffey; and Mr. Pignato and others from the East Boston Board of Trade, representing the East Boston district, as was Senator LoPresti.

At the conference there was considerable discussion as to the program to be followed in East Boston by reason of the encroachment of the airport on the lands formerly used as playgrounds. This matter has been under discussion for two years and various proposals have been made from time to time as to the program which should be followed.

Under the law, if and when Wood Island Park is taken for airport development, the State Public Works Department is authorized to expend \$1,300,000, and this amount of money is to be spent

subsequently in accordance with a plan prepared by the State Planning Board. This plan envisages a recreational center at the Porter street airport approach section of East Boston in which would be a football field with bleachers, a field house, a wading pool for children, bocci courts, handball courts, two baseball diamonds, and other miscellaneous recreational facilities.

The other feature of the plan is a bathing beach in the Bennington street, Orient Heights section of East Boston, located at a point which is free of approaches to the airport.

At today's conference it was decided that the city would enter into an agreement with the state to transfer the Wood Island Park and Amerena Park to the state and that the state would then proceed on the construction of the two recreational facilities previously mentioned. In view of the fact, however, that it might be a period of five years, more or less, before the state will actually take the land at Wood Island Park, it was further agreed that during this period Wood Island Park would be maintained by the City of Boston, and all its various facilities would remain open to the people of East Boston.

It was also suggested by the Temporary Mayor that it might be possible to erect in East Boston a stadium seating about 7,500 persons at that point in East Boston near the Saratoga Street Rapid Transit Station when built, on land which will permit of ample parking facilities.

It would appear, as a result of this conference, that the long period of contention, concerning action on East Boston improvements, has come to an end, and from this time forward, the State Public Works Department can be expected to take vigorous steps on the construction of the program as outlined.

BOSTON RETIREMENT BOARD ANNOUNCEMENT.**IMPORTANT NOTICE.**

To All Employees of the City of Boston and of the County of Suffolk Whose Salaries Are Paid by the City of Boston.

Under chapter 520 of the Acts of the Legislature, effective June 11, 1947, the above-described employees are obligated to definitely and finally choose what retirement or pension system they intend to belong to.

As of the above date there are three classes of employees affected by this Act of the Legislature.

One class consists of those employees who became by force of law, on October 1, 1946, members of the State-Boston Retirement System and did not file a withdrawal blank on or before December 31, 1946. Those persons are still members of the State-Boston Retirement System and if they so desire may file with the Boston Retirement Board on an official prescribed form, a withdrawal notice, and thereupon their membership in the State-Boston Retirement System will cease and they will resume their rights and membership in the retirement or pension system to which they formerly belonged.

The second class consists of those employees who on or before December 31, 1946, filed a notice of withdrawal from the State-Boston Retirement System and thereby resumed their rights and membership in the Boston Retirement System. Those persons are still members of the Boston Retirement System, and again have an opportunity to become members of the State-Boston Retirement System by filing with the Boston Retirement Board on a prescribed form an application for membership in said State System.

The third class consists of those employees who on or before December 31, 1946, filed a notice of withdrawal from the State-Boston Retirement System and thereby resumed their rights under some free or non-contributory pension system. Those persons also have an opportunity to become members of the State-Boston Retirement System by filing with the Boston Retirement Board on a prescribed form an application for membership in said State System.

The limit of time in which to exercise these rights is for the first two classes, January 1, 1949, and for the third class, three years from June 11, 1947.

None of these opportunities apply to persons who became employees on or after October 1, 1946.

Once a choice has been made and a blank filed with the Retirement Board the decision is final and irrevocable and no further opportunity will be open to change from one system to another.

The Board urges the employees to make their choice under the above conditions at the earliest possible date. The longer the delay, the larger becomes the make-up payments, with interest, which must be paid.

WILLIAM D. KENNEY,
Secretary and Executive Officer.

CONTRACTS AWARDED.

(Continued from page 947.)

issue of June 7, 1947, the following list of bids for roofing and metal work at the Longfellow School were received and publicly opened and read on Wednesday, June 18, 1947:

Richard Moore Company, \$7,592; Atlantic Roofing and Skylight Works, \$8,442; John J. Hourihan, \$9,333; A. Belanger & Sons, Inc., \$9,595; Bacon Roofing Company, \$9,998; Burgess & Blacher Company, \$10,994.

On June 23, 1947, Mayor Curley approved the award of the contract to Richard Moore Company, the lowest bidder. However, Richard Moore Company has refused to execute the contract within the time set forth in the proposal form, claiming that he had made an error in his estimate. Accordingly, the bid deposit check in the sum of \$250, has become the property of the City of Boston, in accordance with the terms of the proposal form, as liquidated damages.

Subject to your Honor's approval, I am awarding a contract to Atlantic Roofing

and Skylight Works, 19 Howard street, Roxbury, in the amount of \$8,442.

Very truly yours,

JAMES H. MOONEY,
Superintendent of Construction.

Upon July 15 the Temporary Mayor approved a contract with M. Spinelli & Sons Company, Inc., for alterations at the John Greenleaf Whittier School. Bids, opened Thursday, July 10, were as follows:

Upon July 18 the Temporary Mayor approved a contract with H. Piken & Co. for interior and exterior painting at the James P. Timilty School. Bids, opened Tuesday, July 15, were as follows:

H. Piken & Co., \$2,290; Nicholas Bello, \$2,300; R. Tweed & Son, \$2,337; Joseph G. Gazzola, \$2,385; Albert A. Howlett Company, \$2,478; John S. Leonard,

\$2,880; Federal Painting and Decorating Company, \$3,150; John D. Ahern, \$3,229; C. Dale Garbutt, Inc., \$3,230.

Upon July 24 the Temporary Mayor approved a contract with bidders as indicated in the following letter:

BOSTON, July 23, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MR. MAYOR.—In response to an advertisement in the *City Record*, issue of July 12, 1947, the following list of bids for repairing boiler and incinerator masonry in various schools were received and publicly opened and read on Tuesday, July 22, 1947:

District 1.—Donato Antonellis, \$863*; M. Solimando, \$936; J. F. Stack & Co., \$920; J. B. Doyle, \$975.

District 2.—Donato Antonellis, \$2,188*; M. Solimando, \$2,370; J. F. Stack & Co., \$2,460; J. B. Doyle, \$2,665.

District 3.—Donato Antonellis, \$1,520*; M. Solimando, \$1,940; J. F. Stack & Co., \$1,763; J. B. Doyle, \$2,046.

District 4.—Donato Antonellis, \$3,320; M. Solimando, \$2,786*; J. F. Stack & Co., \$3,265; J. B. Doyle, \$3,160.

District 5.—Donato Antonellis, \$1,375*; M. Solimando, \$1,725; J. F. Stack & Co., \$1,645; J. B. Doyle, \$1,632.

District 6.—Donato Antonellis, \$2,850; M. Solimando, \$2,645; J. F. Stack & Co., \$2,470*; J. B. Doyle, \$2,715.

District 7.—Donato Antonellis, \$900; M. Solimando, \$960; J. F. Stack & Co., \$773*; J. B. Doyle, \$1,015.

To M. Solimando, 51 Ceylon street, Dorchester, District 4, for the sum of \$2,786.

To J. F. Stack & Co., 25 Huntington avenue, Boston, Districts 6, 7 and 8 for the sum of \$6,269.

Very truly yours,

JAMES H. MOONEY,
Superintendent of Construction.

FIRE DEPARTMENT.

Upon July 16 the Temporary Mayor approved a contract with Construction Units, Inc., for the erection of a new fire station, Engine 8, Ladder 24, at 392 Hanover street, at Charter street, North End, Boston. The following bids, opened Friday, July 11, were as follows:

Construction Units, Inc., \$172,000; J. A. Singarella Company, \$173,143; M. S. Kelliher Company, \$173,597; John Bowen Company, \$173,700; Peabody Construction Company, \$174,682; John Rugo, \$178,665; Poorvu Construction Company, Inc., \$204,396.

The new fire station will replace old Engine House 8 which is now located on narrow, congested Salem street in the North End and will also allow the transfer of a ladder company from the Bowdoin Square Fire Station in which two ladder companies are now quartered. Apparatus quartered in the new station will be able to respond more quickly than at present to alarms in the North End and Commercial street waterfront sections.

Total.—H. E. Jarvis Company, \$1,206; John J. Nyhan, \$238.50.

Cash Discount, Ten Days.—H. E. Jarvis Company, 1 per cent; John J. Nyhan, net.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Temporary Mayor has approved contracts with firms, commercial houses, contractors, etc., for furnishing labor, materials, etc. Communications from the heads of the several departments interested were as follows:

SUPPLY DEPARTMENT.

BOSTON, June 30, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—This office is in receipt of two requisitions, one from the Fire Department and the other from the Treasury Department, for Addressograph machines.

Permission is respectfully requested to award a contract, without public advertisement, to the Addressograph-Multigraph Corporation, 569 Boylston street, Boston, for furnishing these machines to the above-mentioned departments.

Since the Addressograph-Multigraph Corporation are the manufacturers of this equipment, no advantage would result in a public advertisement for bids.

Total amount of contract will be \$2,524. Excise tax is not included in prices quoted.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, July 1, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—The Fire Department has submitted a requisition for the following:

Fifty only No. 5205-E double row bearings; 50 only No. 5310-E double row bearing; 75 only No. 5312-E double row bearings; 100 only No. 5307-E double row bearings.

These bearings are manufactured by the Ahlberg Bearings Company, 1103 Commonwealth avenue, Boston. The manufacture of these bearings has been discontinued and cannot be secured from other firms or by publicly advertising.

In my opinion, it is for the best interests of the city to make this purchase now in order to avoid changing the transmission cases on many pieces of fire apparatus. Your approval is requested to award a contract to the above company in the amount of \$2,778.75.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, July 16, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—On January 14, 1947, bids were publicly opened and read in this office for furnishing automobile batteries to the various city departments. The Atlantic Battery Company was the only bidder.

Our original specifications called for batteries to be furnished for a period of one year from January 1, 1947, to December 31, 1947, but owing to the scarcity of lead and other materials going into the manufacture of batteries the contractor limited his period to a six months' period which expires July 31, 1947. The contract was awarded then on this basis.

Present indications show that the price of automobile batteries may increase because of the continued shortage of the basic materials going into their manufacture. The Atlantic Battery Company has agreed to accept the contract for the period from January 1 to December 31, 1947, on the same terms and prices as contained in their original proposal.

In view of this explanation, I would respectfully request that permission be granted me to award a contract, without further advertising, to the Atlantic Battery Company for furnishing batteries as per schedule to the various city departments until January 31, 1948. The total amount of the contract is approximately \$2,000.

Respectfully yours,

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

BOSTON, July 22, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—On July 14, 1947, your Honor approved the awarding of a contract to Lalime & Partridge, Inc., for cars and trucks in the amount of \$9,109.19.

On Item No. 8, calling for one (1) 1½-ton panel delivery truck, the prices quoted included extra equipment consisting of two (2) speed axles and oversize tires amounting to \$251.37. The Printing Department, which requisitioned this item, was contacted by this department and they stated that they did not desire this extra equipment, which would reduce the bid of Lalime & Partridge from \$2,575.60 to \$2,324.23.

Permission is therefore respectfully requested to award a contract to Lalime

& Partridge, Inc., in the amount of \$8,857.82 instead of original amount of \$9,109.19.

Respectfully yours,

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

EXTENSION OF CONTRACT.

HOSPITAL DEPARTMENT.
Sanatorium Division.

It is agreed that the words "December 15, 1946," as appearing in Article II of the contract between the City of Boston and Joseph H. Maguire Company, dated March 14, 1947, be stricken out and the words "August 31, 1947" be substituted in their place.

ADDITION TO CONTRACT.

PARK DEPARTMENT.

P. J. Cantwell & Son have been ordered to make the following addition to the contract for carpentry repairs and replacements at handball court and fences, L Street Beach, South Boston, signed June 12, 1947:

Install new 2-inch by 8-inch rafters to support the wire mesh covering over the tops of the three handball courts on the beach at L street. The new rafters are to be three rows of 2 inches by 8 inches in each bay between the carrying timbers. Furnish all necessary steel timber hangers and then securely fasten the wire mesh to the new rafters, as well as to the present carrying timbers.

For furnishing and installing complete, all the necessary 2-inch by 8-inch rafters at the top of these three handball courts, including all the necessary incidental work thereto, the sum of \$447 will be added to your contract price.

Contract price, \$4,843; addition as per this order, \$447; contract as standing, \$5,290.

PURCHASE APPROVED.

SUFFOLK COUNTY.

COURT HOUSE COMMISSION.

The Temporary Mayor has approved the request from Judge Connelly of the Juvenile Court for an electric refrigerator to be used in the children's room, at a price of \$100 for a box and \$25 for a D. C. motor.

BUILDINGS RAZED.

The Temporary Mayor has approved the request of the Building Commissioner to raze the following structures for reasons cited as follows:

To enter the building or other structure, or the abutting land or buildings, at 10 Mystic place, Ward 2, with such assistance as required, and remove said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

To enter the building or other structure, or the abutting land or buildings, at 13 Village street, Ward 5, with such assistance as required, remove said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

To enter the building or other structure, or the abutting land or buildings, at 14 Sharon street, Ward 8, with such assistance as required, and make safe said unsafe or dangerous building or other structure.

TRANSFERS OF APPROPRIATIONS.

The Temporary Mayor has approved the following requests for transfers of appropriations in accordance with the provisions of Section 3B of the amended City Charter and for the reasons as below explained:

AUDITING DEPARTMENT.

From A-1, Permanent Employees, \$10, to B-35, Fees, \$10.

From A-1, Permanent Employees, \$110, to C-10, Library, \$110.

This transfer is necessary to provide funds for the purchase of "Annotated Laws of Massachusetts."

DEPARTMENT OF VETERANS' SERVICES.

From B-13, Communications, \$50, to B-12, Bond and Insurance Premiums, \$50.

The funds appropriated for this item (\$205, B-12) have been expended. The bond for Thomas J. Sheehan as deputy director was not anticipated. This additional amount is necessary so that Joseph F. Daly, chief clerk, may be bonded. Colonel Daly has been recently discharged from military service and inasmuch as his signature will be required on checks and bills paid by this department, a bond is required.

FIRE DEPARTMENT.

From C-9, Office, \$100, to C-10, Library, \$100.

From C-17, Miscellaneous, \$100, to D-5, Medical, Surgical, Laboratory, \$100.

From C-13, Tools, Instruments, \$1,000, to D-8, Laundry, Cleaning, Toilet, \$1,000.

In order to thoroughly educate all members of the department in Red Cross first aid work, it has been necessary to supply them with Red Cross first aid manuals. Three hundred and fifty of these books were recently ordered and there isn't sufficient money in C-10 to pay for them.

Medical supplies for first aid kits carried on apparatus are practically empty and, as these kits are in constant use in giving first aid to firemen and citizens, the medical inventory should be replenished. At least \$300 is required to pay for medical supplies needed.

Four thousand dollars was requested in Item B-6 but only \$3,500 was allowed. It appears that in order to purchase sufficient cleaning agents for the entire department during the remainder of 1947, at least \$1,000 additional is required.

HEALTH DEPARTMENT.

From B-17, Care of Persons, \$200, to B-14, Motor Vehicle Repairs and Care, \$200.

From B-17, Care of Persons, \$700, to B-18, Cleaning, \$700.

From B-17, Care of Persons, \$150, to C-13, Tools and Instruments, \$150.

From B-17, Care of Persons, \$400, to D-8, Laundry, Cleaning, Toilet, \$400.

From B-17, Care of Persons, \$150, to E-10, Electrical, \$150.

From B-17, Care of Persons, \$200, to E-13, Miscellaneous Materials, \$200.

From B-17, Care of Persons, \$1,000, to F-11, Workmen's Compensation, \$1,000.

B-14. To provide for repairs to department cars for the remainder of the year.

B-18. To provide for encumbrance of towel, apron and gown contract to December 31, 1947.

C-13. To supplement this item for the purchase of cleaning tools.

D-8. Due to increased cost in cleaning supplies this amount is necessary.

E-10. To provide for electrical material for the rest of the year.

E-13. For purchase of cross chains for department cars, ordered in 1946, but delivery not made until 1947, and other materials for repairs.

F-11. To provide for employee on injured pay roll.

The money transferred from B-17 is not needed for encumbrance purposes at this time.

INSTITUTIONS DEPARTMENT.

From Steamer "O'Meara," D-3, Fuel, \$15, to Steamer "O'Meara," D-1, Office, \$15.

To provide for necessary printing and stationery for the remainder of the year. There will be sufficient balance under D-3 to provide for this transfer. Order No. 1650 is being held by the Auditor.

PARK DEPARTMENT.

From B-1, Printing and Binding, \$25; B-42, Miscellaneous Services, \$125, to B-29, Stenographic and Copying, \$150.

This transfer is needed so that we may pay for typing work done outside this department in connection with the preparation of specifications for our several contracts. The City Auditor has rules that all charges in connection with contracts, such as the preparation of specifications, must be charged to B-29. Previously we charged work of this kind to the same budget item to which the contract was to be charged.

From E-13, Miscellaneous Materials, \$1,500, to B-14, Motor Vehicle Repairs and Care, \$1,500.

This money is needed to pay for repairs to Park Department motor vehicles. We have several motor vehicles on order since last year, to be paid for under the Park Department Equipment Loan, which have not been delivered and the firms cannot give any indication when they may be able to deliver.

This has been an especially busy summer and we have had several breakdowns of trucks. We must have them repaired. Our allowance for motor vehicle repairs is less than 50 per cent of what we have formerly been allowed in the budget. Because of this fact and also the increase in costs, we are urgently in need of money to pay for repairs so that we may keep our motor vehicles on the road.

Cemetery Division.

From E-1, Building Materials, \$300, to E-13, Miscellaneous Materials, \$300.

We are in need of this additional money in the E-13 item of our budget for the purchase of cement and parts for our motor equipment (automobiles, motor mowers, etc.), both absolutely necessary to carry on the work at our cemeteries. The cement is used for the making of foundations on which monuments and memorials are placed in our cemeteries.

The money is available in the E-1 item inasmuch as the cement purchases are being charged to E-13 rather than E-1, as contemplated.

BOSTON, July 21, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—I respectfully request that you allow the following transfer:

From Departmental Equipment Loan, Revenue, \$6.15, to Departmental Equipment Loan, Machinery, Non-Revenue, \$6.15.

This transfer is needed to provide sufficient funds for the purchase of two sewing machines for use in our sewing room. The order for these machines

has been placed, but we lack \$6.15 of the required amount of money to pay for them.

Respectfully yours,

JOSEPH LEE,
Acting Chairman.

PRINTING DEPARTMENT.

From B-13, Miscellaneous, \$75, to F-11, Workmen's Compensation, \$75.

This transfer is necessary to provide funds for compensation to be paid to Helen M. Taylor.

PUBLIC WORKS DEPARTMENT.

Sanitary Service.

From B-6, Hire of Trucks, \$4.87, to B-5, Express Charges, \$4.87.

From B-6, Hire of Trucks, \$105, to B-28, Expert, \$105.

From B-6, Hire of Trucks, \$15.50, to B-16, Care of Animals, \$15.50.

From C-15, Tires, Tubes and Accessories, \$175, to C-3, Electrical, \$175.

From C-15, Tires, Tubes and Accessories, \$592.32, to C-13, Tools and Instruments, \$592.32.

From D-11, Gasoline, Oil and Grease, \$378.92, to D-16, Miscellaneous Supplies, \$378.92.

B-5. Freight deficit paid by garage superintendent, \$4.87.

B-28. Owed E. B. Rideout for January, February, March, \$30; for November, December, \$20. Owed Stewart Associates for oil and gas tests, \$55. Total, \$105.

B-16. Owed for care of animals for 1947, \$15.50.

C-3. Cost of D. C. motor, \$275; appropriation, \$100; balance, \$175.

C-13. Present deficit, \$292.32; estimated requirement to end of year, \$300; total, \$592.32.

D-16. Present deficit, \$78.92; estimated requirement to end of year, \$300; total, \$378.92.

Sewer Service.

From B-14, Auto Repairs, \$500, to E-5, Sewer and Water, \$500.

Funds are needed in E-5 to purchase brick, sand and cement. The 1947 allowance for E-5 was \$500 plus a transfer of \$200 from C-2, making a total of \$700. To date, \$690 has been expended.

This transfer in the amount of \$500 can be made from Item B-14 (Auto Repairs) because expenditures were lower than estimated. The unencumbered balance in B-14 is \$3,680, the 1947 allowance being \$5,500.

From B-18, Cleaning, \$1,400, to D-1, Office, \$500; C-13, Tools and Instruments, \$300; E-13, Miscellaneous Materials, \$600.

Funds are needed in D-1 to purchase tracing cloth, stamped envelopes, pencils, block paper, etc., for the balance of the year. The 1947 allowance for D-1 was \$1,000, and to date \$953 has been expended. The amount of the proposed transfer is \$500. The 1947 department estimate was \$1,000.

Funds are needed in C-13 to purchase fire hose, catch-basin cleaning cable, lanterns, etc. The 1947 allowance for C-13 was \$1,300, and to date \$1,205 has been expended. The amount of the proposed transfer is \$300. The 1947 department estimate was \$2,000.

Fund are needed in E-13 to purchase auto parts, packing, and wrought-iron pipe, etc., for pumping station. The 1947 allowance was \$3,000, to which was added \$1,000 transfer from B-39. The amount of the proposed transfer is \$600. The 1947 department estimate was \$4,300.

All the above transfers, in the sum of \$1,400, can be made from Item B-18 (sewer cleaning) because the bids for catch-basin cleaning were lower than estimated. The unencumbered balance in B-18 is \$17,929, about \$15,000 of which it is anticipated will be expended under advertised contract for sewer cleaning work.

Water Service.

From C-9, Office Equipment, \$250, to C-7, Furniture and Fittings, \$250.

C-7. Money needed for the purchase of heaters, oil cans and first aid cabinet.

C-9. There is sufficient money in this item to allow for the transfer of \$250.

SUFFOLK COUNTY.

PROBATE COURT.

From B-35, Fees, Service of Venires, etc., \$2,500, to D-1, Office Supplies, \$2,500.

This office uses approximately three hundred types of blank forms and under the law is required to furnish same free to the Bar and to the public. There has been a tremendous increase in the business of this court in recent years making the use of a larger number of said forms necessary. In addition, the cost of same and other office supplies has greatly increased. Large sums of money must be expended for them, thus leaving budget Item D-1 short.

AMENDED DAMAGES.

The Temporary Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of December 12, 1945, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Birchcroft road, be, and the same hereby is, amended, by adding to said order the amount \$60 as an award to Sarah E. George and Joseph E. George, as joint tenants and not as tenants in common; that the amount \$60 be, and the same hereby is, awarded to Sarah E. George and Joseph E. George, as joint tenants and not as tenants in common, for the damages so sustained.

FIRE DEPARTMENT ORDERS.

General Order No. 52.

SAFE DRIVING CAMPAIGN.

Due to many accidents involving Fire Department apparatus, a program of safe driving is hereby inaugurated. Lieuts. Cornelius F. Finnegan and Raymond W. Frazel are hereby designated as instructors of apparatus drivers.

Instructors Finnegan and Frazel shall call at the various fire stations in this department and instruct drivers in the matter of safe driving. Tillermen are included in this course of instructions. The apparatus shall be taken out of service and utilized for this purpose. Company officers shall accompany the drivers and the instructor.

It shall be the duty of the instructor to have the driver take the vehicle on a road test through traffic. The instructor shall submit a report to Headquarters concerning the driver's: (a) adeptness and ability to handle apparatus. (b) Reactions—slow, quick, exercise of judgment. (c) Knowledge of department rules and regulations and state rules and regulations pertaining to motor vehicles.

Pending the arrival of an instructor, company officers shall impart to and question drivers concerning the subject matter contained in department rules and regulations 136 to 165 and 178 to 189. (Rule 182—adjustment—hose wagon to precede the pumper).

Copies of State Registry of Motor Vehicles rules are being sent out to the department with this order. Company officers shall convey the subject matter contained on pages 96, 97, 98 and 99, which refers specifically to fire apparatus, and pages 137 to 148, to drivers in their command.

Company officers shall be held strictly accountable for the observance of all rules and regulations pertaining to the operation of fire apparatus on city streets. Drivers of all other department motor vehicles shall familiarize themselves with the rules outlined in this order and they shall be held ac-

countable for the safe operation of motor vehicles under their control.

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

LOUIS C. STICKEL,
Acting Chief of Department.

Company commanders shall delete signal 556 from page 20 on the A. D. T. running card.

V. COMMENDATION.

Ladderman George Devlin of Ladder Company 30 is hereby commended for extinguishing a fire, Box 3448, July 23, 1947, and for removing the occupant from the premises before the arrival of fire apparatus, while off duty.

VI. LETTER OF APPRECIATION.

The Fire Commissioner is pleased to publish the following letter, dated July 29, 1947, that was mailed to him:

"The assistance rendered by the City of Boston Fire Department at the fire which occurred on Saturday, July 26, 1947, in the U. S. Naval Drydocks, South Boston, is greatly appreciated. This is another manifestation of the splendid spirit of cooperation which I have found that the City of Boston Fire Department has always extended to the shipyard.

"I desire to take this opportunity to thank you and the four engine companies, the two ladder companies, the rescue company and the three fire chiefs who responded so promptly for their hearty cooperation. The assistance contributed by your personnel and equipment facilitated extinguishing this very stubborn fire in time to prevent serious damage to the steam plant and government property in the U. S. Naval Drydocks.

Very truly yours,

W. McL. HAGUE,
Captain, U. S. N., Commander."

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

LOUIS C. STICKEL,
Acting Chief of Department.

POLICE DEPARTMENT ORDERS.

General Order No. 927.

Patrolman John F. Brennan, attached to the Traffic Division, is commended for meritorious duty performed on July 25, 1947.

Patrolman Brennan, while on vacation at Carson Beach, fully clothed, swam to the assistance of a man who was in danger of drowning. He brought the victim to the beach where he applied the prone pressure method of resuscitation until the arrival of members of the Fire Department with an inhalator and a physician. He was removed to the City Hospital where he recovered.

The commissioner is pleased to record and commend Patrolman Brennan for the prompt, effective and courageous action he displayed on this occasion which probably prevented the loss of life.

In recognition of this highly commendable conduct, Patrolman Brennan is granted one week additional vacation.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 928.

I am pleased to publish for the information of the uniformed force the following letter received from Rudolph F. King, Registrar of Motor Vehicles:

"July 30, 1947.

HON. THOMAS F. SULLIVAN, *Police Commissioner*, City of Boston, Boston, Mass.

DEAR COMMISSIONER,—I am sure that our Fourth of July week-end records for this year, compared with 1941 and 1946, were as pleasing to you as they were to me. The comparative records are as follows:

JULY FOURTH WEEK-END FATALITIES.

July	1941.	
4	Friday	5
5	Saturday	2
6	Sunday	3
	Total	10

July	1946.	
4	Thursday	0
5	Friday	2
6	Saturday	0
7	Sunday	3
	Total	5

July	1947.	
4	Friday	1
5	Saturday	2
6	Sunday	0
	Total	3

While the Registry of Motor Vehicles made what was undoubtedly its greatest enforcement effort, cancelling practically all other activities for inspectors, and putting them out on the highways from June 30 to July 6, this reduction in fatalities could not have been accomplished without the splendid efforts of the police chiefs and the members of their departments. I wish to take this opportunity to thank you for the splendid cooperation which you extended to me, and to my men, in helping to give Massachusetts a Fourth of July week-end record which was equalled by only one other state.

With sincere thanks, I am

Very truly yours,

RUDOLPH F. KING,
Registrar."

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 929.

The resignation of Patrolman John E. Crowley, of the Superintendent's Office (armed service roll), having been presented, it is hereby accepted, to take effect Monday, August 4, 1947, at 7.45 o'clock a. m., seven days' notice waived.

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

HIGHWAY AID.

The Federal Works Agency has apportioned to the states the \$500,000,000 made available for this year under the Federal Highway Aid Act of 1944. This appropriation recognizes that the major traffic problems are in and adjacent to urban centers and is therefore to be spent in large part (\$125,000,000) for removing traffic bottlenecks and connecting principal cities with express highways. A total of \$100,000,000 is being made immediately available for planning, surveying, engineering, acquiring rights-of-way, and for construction.

SUPERVISION OF DAY NURSERIES.

During the past year the medical inspectors made 173 visits to day nurseries to make the facilities of the Health Department available to these nurseries. This includes physical examinations, immunization against diphtheria, vaccination against smallpox, and inspection for communicable diseases. The increasing employment of mothers in war industries added to the attendance in the day nurseries and other homes established to care for children during this period.

PROCEEDINGS OF CITY COUNCIL.

Monday, July 14, 1947.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 p. m., President KELLY in the chair. Absent, Councilor Carey.

The meeting was opened with the salute to the Flag.

40-HOUR WEEK FOR EMPLOYEES OF CERTAIN CITIES AND TOWNS.

The following was received:

City of Boston,
Office of the Mayor, July 8, 1947.
To the City Council.

Gentlemen,—I return herewith, without my signature and disapproved, the order of your Honorable Body purporting to accept chapter 649 of the Acts of 1947, authorizing a forty-hour week for employees of certain cities and towns.

It appears that this Act will not be in effect until September 26, 1947, and a prior acceptance is therefore invalid.

Respectfully yours,
J. B. HYNES,
Temporary Mayor.

"SLOW" SIGNS, PARK VALE AVENUE, WARD 21.

The following was received:

City of Boston,
Office of the Mayor, July 11, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Traffic Commissioner relative to your order of June 2, 1947, concerning the placing of "Slow" signs at each end of Park Vale avenue, Ward 21.

Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Traffic Commission, July 8, 1947.
Mr. J. Joseph Connors,
Chief Clerk, Mayor's Office.

Dear Sir,—In reply to Council order dated June 2, which reads as follows:

"Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to place 'Slow' signs at each end of Park Vale avenue, Ward 21."

The following is the report of our engineer:

"An investigation discloses that Park Vale avenue is a short street, about 900 feet long, with no intersecting streets, ending in a T intersection at either end. This street is used only by persons familiar with the area and our accident records show that there have been only two accidents in this street in the past ten years. Suggest that no action be taken."

I have gone over the reports of the investigator and concur in his findings.

Very truly yours,
LEO F. CURLEY, Commissioner.

RECONSTRUCTION AND REPAIR, HEAD HOUSE PIER BRIDGE.

The following was received:

City of Boston,
Office of the Mayor, July 9, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Park Commissioner relative to your order of June 30, concerning reconstruction and repairing of the Head House Pier Bridge in South Boston.

Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Park Department, July 8, 1947.
J. Joseph Connors,
Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of July 1, with enclosure, order from the City Council that the Park Department reconstruct and repair the Head House Pier Bridge in South Boston.

An estimate to make these repairs would be \$225,000. We had some money available two years ago, but the lowest bid we got was \$175,000. Since that time, wages, material and everything have jumped,—I am adding \$50,000 more to it, and I am also informing you I have no money available at the present time. If I can obtain this money, I will re-advertise it; we have the plans in readiness.

Very truly yours,
WILLIAM P. LONG, Chairman.

City of Boston,
Park Department, July 8, 1947.
J. Joseph Connors,
Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of July 1, with inclosure, order from the City Council to resand and clean out the glass and pebbles along the seashore extending from Carson Beach to L street.

Please be informed this area is cleaned practically every day and raked—with the change in tide there will be additional clam shells and pebbles come up. Be assured, this place is properly cleaned and cared for and we will continue to do so during the bathing season.

Very truly yours,
WILLIAM P. LONG, Chairman.

APPROPRIATION FOR TEMPORARY WAR MEMORIAL, BOSTON COMMON.

The following was received:

City of Boston,
Office of the Mayor, July 14, 1947.
To the City Council.

Gentlemen,—I am advised by the chairman of the Park Department that in order to properly maintain the temporary war memorial on Boston Common an additional appropriation of \$1,000 is required. This memorial was erected in commemoration of all the residents of the City of Boston who made the supreme sacrifice in World War II, and although temporary in nature, it should not be neglected due to lack of funds. Since the current appropriation is practically exhausted, I am submitting herewith an order for an additional appropriation of \$1,000, to be charged to the Contingent Fund, and respectfully recommend adoption of this order by your Honorable Body.

Respectfully,
J. B. HYNES,
Temporary Mayor.

Ordered, That an additional sum of one thousand dollars (\$1,000) be, and hereby is, appropriated, to be expended by the Park Department, for the maintenance of the temporary memorial erected on Boston Common in commemoration of all residents of the City of Boston who have made the supreme sacrifice while in the service of their country during World War II, said sum to be charged to the Contingent Fund.

Referred to Executive Committee.

ADDITIONAL APPROPRIATION FOR TRAFFIC SIGNALS.

The following was received:

City of Boston,
Office of the Mayor, July 14, 1947.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Traffic Commissioner for an additional appropriation of \$5,000 in order to complete the program of installing traffic signals at 19 intersections in various parts of the city.

In compliance with this request, I am forwarding herewith an order appropriating the

sum of \$5,000 from the Special Account, Sales of City Property, and recommend immediate passage by your Honorable Body.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Traffic Commission, July 10, 1947.
John B. Hynes,
Temporary Mayor.

Dear Sir,—This department is engaged in a program of installing traffic signals at nineteen (19) intersections in various sections of the city.

The cost of these signals is chargeable to the non-revenue appropriation "Automatic Traffic Control Signals in Various Sections of the City."

A survey of the status of this appropriation made on March 24, 1947, showed that the then unencumbered balance was insufficient for the completion of this project and that additional funds in the amount of \$8,195.97 would be required. This estimate was based on purchasing the necessary cable at a cost of \$7,620—at the then prevailing market prices, and on estimated costs submitted by the Boston Edison Company in the amount of \$19,291 for furnishing electrical service to eighteen (18) intersections and \$1,611 for the one (1) additional intersection—a total of \$20,902.

In a letter dated March 26, 1947, this department requested Mayor James M. Curley to strengthen this appropriation in the amount of \$10,000. A transfer of \$10,000 from "Special Account, Sales of City Property," to this appropriation was passed in City Council April 28, 1947, and was approved by the Mayor April 29, 1947.

Since that time the Supply Department has placed our order for cable at a total price of \$10,564, an increase of \$2,944 over our previous estimate. The Boston Edison Company has submitted new estimates for the nineteen (19) intersections in the amount of \$25,457, an increase of \$4,555 over their previous estimates.

A statement of the status of this appropriation as of June 25, 1947, is attached herewith. It shows that it is necessary to supplement this appropriation in the amount of \$5,000 in order to complete the program.

I respectfully request that \$5,000 be transferred to this appropriation from available sources.

Respectfully submitted,
LEO F. CURLEY, Commissioner.

Ordered, That under the provisions of section 63 of chapter 44 of the General Laws the sum of five thousand dollars (\$5,000) be, and the same hereby is, appropriated from the Special Account, Sales of City Property, to be expended under the direction of the Traffic Commissioner, as follows:

Automatic Traffic Control Signals in
Various Sections of the City.....\$5,000

Referred to Executive Committee.

TRANSFERS OF APPROPRIATIONS.

The following was received:

City of Boston,
Office of the Mayor, July 14, 1947.
To the City Council.

Gentlemen,—The inclosed requests for transfer of appropriations, together with the accompanying orders, are forwarded for consideration and adoption by your Honorable Body.

Respectfully,
J. B. HYNES,
Temporary Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Public Welfare Department, Central Office, D-1, Office, \$330, to the appropriation for Public Welfare Department, Temporary Home, B-4, Transportation of Persons, \$10; B-6, Hire of Teams and Auto Trucks, \$35; B-18, Cleaning, \$55; C-9, Office, \$55; D-8, Laundry, Cleaning, Toilet, \$175.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Public Welfare Department, Central Office, D-1, Office, \$275, to the appropriation for Public Welfare De-

partment, Wayfarers' Lodge, D-8, Laundry, Cleaning, Toilet, \$175; D-13, Chemicals and Disinfectants, \$100.

Referred to Executive Committee.

APPROVAL OF STATE BOARD OF HOUSING OF VETERANS' HOUSING IN BOSTON.

State Board of Housing.

Boston, July 9, 1947.

City Clerk, City Hall,
Boston, Mass.

Dear Sir,—We are attaching herewith a certified copy of an action of the Board at its regular meeting held July 7, 1947.

Very truly yours,

CHARLES P. NORTON,
Acting Executive Secretary.

A regular meeting of the State Board of Housing was duly called and held July 7, 1947, at 20 Somerset street, Boston, Mass., at which all members were present. The following resolution was unanimously adopted:

A resolution to approve the application of the City of Boston, Massachusetts, acting through the Boston Housing Authority, to take appropriate action under section 6 of chapter 372 of the Acts of 1946, as amended.

Whereas, There has been submitted to this Board the plans and layout together with the estimated cost and a detailed estimate of expenses and revenues for a proposed veterans' housing project in East Boston to be undertaken by the City of Boston, Massachusetts, acting through the Boston Housing Authority, pursuant to the provisions of section 6 of chapter 372 of the Acts of 1946, as amended; and

Whereas, On the thirteenth day of December, 1946, a public hearing was held in connection with the application of the City of Boston, Massachusetts, at which the in-

habitants of said city and other persons subject to taxation therein had a reasonable opportunity to present facts and arguments in favor or against the granting of said application; it is hereby resolved:

Section 1. That the State Board of Housing has determined that an acute shortage of housing exists in the City of Boston, Massachusetts; that veterans are unable to obtain shelter for themselves and their families regardless of their ability to pay for the same; that this shortage is not being relieved by the ordinary operations of private enterprise and that it is unlikely that it will be relieved within a reasonable period of time; and that for such reasons a condition of public exigency, emergency and distress exists in such city which can be relieved only by action of such city under section 6 of chapter 372 of the Acts of 1946, as amended, and therefore approves the application of the City of Boston, Massachusetts, acting through the Boston Housing Authority, to take appropriate action under section 6 of chapter 372 of the Acts of 1946, as amended.

Section 2. That the State Board of Housing approves said plans and layout of the construction to be undertaken by the City of Boston, Massachusetts, acting through the Boston Housing Authority, under clause (3) of section 6 of chapter 372 of the Acts of 1946, as amended, at an estimated cost of \$89,304, the method of financing to be the incurring of debt as authorized by section 10 of chapter 372 of the Acts of 1946, as amended, subject to the applicable provisions of chapter forty-four of the General Laws, and further, approves said detailed estimate of expenses and revenue.

Section 3. That this resolution take effect immediately.

I hereby certify that the above resolution was unanimously adopted at said meeting of the State Board of Housing; that said resolution is a true copy of the original resolution on file with the original records of said meeting and that said resolution has not been amended or repealed and is still in full force and effect and that I, Charles P. Norton, am the duly elected Acting Executive Secretary of the State Board of Housing of the Commonwealth of Massachusetts.

Witness my hand and the seal of the State Board of Housing this eighth day of July, 1947.

CHARLES P. NORTON,

Acting Executive Secretary, State Board of Housing.

TRANSFER OF OLD COLONY HOUSING PROJECT TO BOSTON HOUSING AUTHORITY.

Coun. LINEHAN offered the following:

Whereas, Under Section 304 of Title III of the Lanham Act, the Federal Public Housing Administrator is authorized to sell war housing projects for cash or credit, and Congress under Section 4 of Title I has directed that such housing be sold or disposed of as expeditiously as possible. It is further provided that unless specifically authorized by Congress war housing projects such as the Old Colony Project shall not be conveyed to any public or private agency organized for slum clearance or to provide subsidized housing for persons of low income; and

Whereas, The Federal Public Housing Administrator through its agent in Boston has informed the Boston Housing Authority that said Old Colony Project must be reserved before July 1, 1947, for low rent use or it will be placed on the list for sale as expeditiously as possible; therefore be it

Ordered, That his Honor the Mayor request the Boston Housing Authority to make application to the Federal Public Housing Administrator to reserve the Old Colony Housing Project to be used for housing low income families subject to an act of Congress confirming the transfer of said Old Colony Project to the Boston Housing Authority. Present tenants in the Old Colony Project would then be protected until final disposition by Congress of said project.

Passed under suspension of the rules.

HOUSING (HOUSE JOINT RESOLUTION 142 AND SENATE 1361).

Coun. LINEHAN offered the following:

Whereas, The City of Boston has made available to the Boston Housing Authority the sum of \$10,000,000 to provide one and two-family dwelling units for rental and sale to veterans; and

Whereas, There is a desperate need in Boston for multiple-dwelling units for additional families of low income; and

Whereas, The Federal Public Housing Authority, prior to December 31, 1946, entered into a contract with the Boston Housing Authority for the financing of approximately 1,480 housing units in South Boston and, relying on such contract, the Boston Housing Authority has acquired two sites for such units, one being known as "Cathedral Site" and the other being known as the "South Boston Site"; and

Whereas, Construction has not been commenced on either of said sites due to cost limitations contained in the United States Housing Act of 1937; and

Whereas, There has been introduced in Congress House Joint Resolution 142 which would permit the construction of such project by exempting it from the construction cost limitations of \$1,250 per room and \$5,000 per housing unit contained in subsection 5 of section 15 of the United States Housing Act of 1937, as amended; now therefore be it

Resolved, That the Mayor of the City of Boston be requested to communicate with the Senators and Congressmen from Massachusetts urging the early passage of House Joint Resolution 142 in order that such low rent project may be constructed at an early date and thus help alleviate the great distress and suffering of those who are so badly in need of low rent housing in the City of Boston; and

Whereas, The Senate has passed S. 1361 which, if enacted into law, would authorize the City of Boston to contribute a portion of the cost of the above housing units; and

Whereas, If such bill becomes a law, the City of Boston may be in a position to aid in the immediate construction of such units; now therefore be it further

Resolved, That the Mayor of the City of Boston be requested, in communication with the Congressmen from Massachusetts concerning House Joint Resolution 142, to urge that, if such joint resolution will not be enacted into law during this session, they actively support the passage by both houses of S. 1361 at this session of Congress; be it further

Resolved, That a copy of this resolution be sent to the two Senators and to each Congressman from Massachusetts.

Adopted under suspension of the rules.

INSTITUTIONS DEPARTMENT.

INVITATION FOR PROPOSALS FOR CONSTRUCTION OF BITUMINOUS CONCRETE ROADS AND DRAINAGE WORK AT LONG ISLAND HOSPITAL, LONG ISLAND, BOSTON HARBOR, MASS.

The Commissioner of Institutions of the City of Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for construction of bituminous concrete roads and drainage work at Long Island Hospital, Long Island, Boston Harbor, Mass.

Proposals will be received until 12 o'clock noon, Friday, August 15, 1947, at the office of the Awarding Authority, eleventh floor, 1109 City Hall Annex, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$9,000, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Specifications may be obtained at the office of the Awarding Authority.

A performance bond issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

G. FRANK McDONALD,
Commissioner of Institutions.
(Aug. 9.)

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

TANKERS DO DOUBLE DUTY.

American shipyards are now making it possible for our tankers to carry extra loads. A scaffold-type extra deck enables a modern tanker to carry a load of extra freight the equivalent of 10 per cent of its normal load capacity. Some tankers now carry, in addition to its load of gasoline, deck loads of ambulances, planes, jeeps and trucks.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS IN NEAREN ROW, BETWEEN FERRIN STREET AND TREMONT STREET, CHARLESTOWN.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Nearen row, between Ferrin street and Tremont street, Charlestown. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Nearen Row, between Ferrin Street and Tremont Street, Charlestown," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of FRIDAY, AUGUST 22, 1947, with a certified check for ONE HUNDRED AND FIFTY (150) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURELY,

(Aug. 9.) Commissioner of Public Works.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING THREE (3) PANEL DELIVERY TRUCKS.

The Supply Department of the City of Boston invites proposals for furnishing trucks for Department of Weights and Measures, as specified in proposals which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for \$100, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. Envelopes containing bids to be sealed and plainly marked "Proposal for Trucks." There will be a charge of twenty-five cents (\$.25) for each set of proposals. The bids will be publicly opened and read Tuesday, August 26, 1947, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

TEMPORARY MAYOR APPROVES SUTCLIFFE TRANSPORTATION LICENSE.

On August 8 the Temporary Mayor issued the following statement:

I have this day approved the vote of the City Council granting a license to the Sutcliffe Transportation Company to operate a limousine service from the East Boston airport to the North and South Stations.

In direct contrast to the former petition of this company, which I vetoed, this license contains the following specifications: Number of vehicles, 12; type of vehicles, limousine; rate of fare, 75 cents; and the stopping places, the North Station, South Station, and the bus terminal at Haymarket square.

This license presumably reaches a limited class of passengers to whom the ordinary and existing methods of transportation are neither attractive nor satisfactory. The present license is merely an extension of the service already furnished by the company between Park square and the airport. It does not permit the licensee to pick up, and transport passengers from one intermediate to another intermediate point on the route.

The airport in Boston is more quickly or easily reached than the airports in any other large city in the country, and as I am of the opinion that any reasonable proposition which may tend to make the airport more accessible, should not be discouraged, I am, therefore, approving the license.

TEMPORARY MAYOR HYNES CONGRATULATES GOVERNOR BRADFORD ON MOVE TO RELIEVE TRAFFIC CONGES- TION BY ORDERS FOR COM- PREHENSIVE PLANS.

His Honor the Temporary Mayor, on August 11, sent the following letter to Governor Robert F. Bradford, State House, Boston:

DEAR GOVERNOR BRADFORD,—I wish to congratulate you for your action in directing the State Planning Board, State Public Works Department, and the Metropolitan District Commission to make a report and recommendations by December 1st of this year concerning traffic improvements for Metropolitan Boston.

It is needless for me to state that the continuance and aggravation of the present intolerable traffic conditions in and around Boston can only result in further serious economic losses to our whole community.

Since long before the war, we have known that major measures for traffic relief have been imperative, but as yet, and despite the fact that the war has been over for two years, nothing of a constructive nature has been accomplished.

I thoroughly agree with you that a program should be ready for the consideration of the Legislature by February 1st of next year. It would seem an encouraging possibility that any such program recommended by the agencies you have designated will receive the approval of the General Court.

You are to be commended for the action you have taken. It might well result in a real beginning in the solution of the most acute local problem confronting Greater Boston. You may be assured

of the cooperation of the City of Boston in your efforts to bring order out of the present chaotic traffic situation.

May I also at this time express my gratification at the prompt and effective action taken by your State Department of Public Works with relation to the elimination of the bottleneck at Sullivan square, Charlestown. I have been informed by Commissioner Buracker that the Commonwealth will participate with the Federal Government and the City of Boston in the construction of a circle and underpass at this very tangled location. This is the first time, I believe, that a joint venture of this kind has been accepted for urban improvement.

I am extremely happy that your Public Works officials have given this matter such prompt and effective action.

Respectfully,

JOHN B. HYNES,
Temporary Mayor.

CHIEF CLERK APPROVED.

The Temporary Mayor has approved the following request:

BOSTON JUVENILE COURT.

Boston, July 11, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—The following is a request for your approval to amend the budget of the Boston Juvenile Court by canceling the position now classified as Principal Clerk for this Court and substituting therefore the classification of Chief Clerk. I believe this is necessary and the most equitable as well as possible way of maintaining the high caliber of the experienced personnel in this Court.

In evaluating the duties of our present Principal Clerk I find that the classification would more properly be that of Chief Clerk, as she is responsible for the following work: acts as secretary for the justice and special justices of the Court, supervises the work of the clerical staff, manages the office, sees that all records and accounts are properly kept, performs all bookkeeping and allied duties, makes decisions as to the method of doing this work, interviews callers and advises the public in reference to the procedure, rules, and practices of the Court, and, in addition, supervises the dictation of records and other matters allied to the performance of the probation officers' work, compiles reports and data, receives and records restitutions and other payments ordered by the Court.

It is very important that we have an experienced and well-qualified person handling these duties and that she be adequately compensated, so that the work of the Court may be most effectively carried out. The person now performing these various and exacting duties is especially qualified by experience in this Court for the past nine years, and prior thereto in the Boston Municipal Court.

May I have your approval of this request to become effective as of July 23, 1947:

I assure you that this change in classification will not require any additional appropriation, as there is sufficient money in the Boston Juvenile Court budget under salaries for the current year to make this change.

Sincerely yours,

JOHN J. CONNELLY,
Justice.

CIRCULAR LETTER NO. 15.

CITY OF BOSTON,

MAYOR'S OFFICE, August 5, 1947.

To the Heads of Departments.

GENTLEMEN,—You are hereby directed to grant leave of absence, without loss of pay, to employees in your department who are duly authorized delegates or alternates to the National Encampment of the United Spanish War Veterans, to be held in Kansas City, Missouri, August 24 to 28, inclusive.

Respectfully,

J. B. HYNES,
Temporary Mayor.

FIRE DEPARTMENT ORDERS.

CONTRACTS AWARDED.

(Continued from page 975.)

Upon July 2 the Temporary Mayor approved a contract as requested in the following letter:

BOSTON, July 1, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR.—On February 6, 1947, bids were publicly opened and read at this office for furnishing uniforms to the Fire Department. No award has been made on these bids for the reason that the appropriation in the Fire Department was not sufficient to cover the cost of the uniforms.

The Fire Department has now received an additional appropriation sufficient to cover the cost of these uniforms through action of the City Council, and in view of the fact that the Fire Department is in urgent need of these uniforms, I would respectfully request that permission be granted me to award a contract to Donohue & Riordan, the total lowest bidder, at the prices shown below. The total amount of the contract will be \$74,050.

Respectfully yours,

WILLIAM I. ROSE,

Superintendent of Supplies.

advertised the specification and it was bid with provisions for automatic gas heat. The Authority, after the opening of bids and the award of the contract, has been notified by the Boston Consolidated Gas Company that it will be unable to provide gas in this development and therefore withdraws from its commitment with the Authority in that respect. The Boston Consolidated Gas Company is withdrawing from any future commitments for gas heat in this particular area, because of the need for installation of larger mains which will not be provided until around the middle of 1948. Inasmuch as this contract provides for a completion date in 1947 it has become imperative to make alterations in the heating system.

Your approval is respectfully requested of the award of a contract to Matthew Cummings, Inc., to install oil heating units in these dwellings and provide certain other minor alterations in the plans in the amount of \$26,038.49, without public advertising.

No benefit is to be derived from advertising this work publicly as this contractor, Matthew Cummings, Inc., is already at work on the site and in the opinion of this Authority the amount for which it will do the work is much less than would be obtained by advertising for bids publicly.

Very truly yours,

JEREMIAH F. SULLIVAN,
Acting Executive Director.

DEPARTMENT OF SCHOOL BUILDINGS.

BOSTON, July 11, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR MR. MAYOR,—I respectfully request your Honor's approval to purchase one (1) Ozalid streamliner machine, without advertising, from Spaulding-Moss Company, 42 Franklin street, Boston, Mass., for the sum of thirteen hundred and ten (1,310) dollars. This price includes delivery to location within the Spencer Memorial Annex, Charlestown High School.

This machine has been specifically requested by the School Committee to be used for particular educational purposes and, so far as I can ascertain, there is no

equal manufactured. As Spaulding-Moss Company has the Boston agency for this particular machine, I feel that no advantage would be gained by advertising and that the best interests of the city will be maintained by making this purchase without advertising.

Very truly yours,

JAMES H. MOONEY,
Superintendent of Construction.

SUPPLY DEPARTMENT.

BOSTON, July 2, 1947.

HON. JOHN B. HYNES.

Temporary Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award an order, without public advertisement, to the Macalaster-Bicknell Company, Cambridge, for furnishing the following Fenwal equipment and supplies to the Boston City Hospital:

7 gross pear-shaped containers, 1,800 ml., W9957.

9,000 only paper identification tags, Acid Citrate Dextrose—1.

This equipment is used at the City Hospital in the operation of the Blood Bank.

As Macalaster-Bicknell Company is the sole agent for Fenwal equipment, no advantage would accrue from a public advertisement for bids. The total amount of the order will be \$1,870.95.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, July 8, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Your approval is requested to award an order to Moore Business Forms, Inc., Niagara Falls, New York, for one (1) Moore imprinter, 110-volt, D. C., with 11-inch cylinder (including cover), together with the following attachments:

Extra shaft and gear, extra rubber plate cylinder, two date holders (11 inches, 3 around), lock and cylinder cover, six date heads, set of signature plates (3), art work and cut for signatures.

The Moore Business Forms, Inc., are the only manufacturers of this machine,

and in my opinion no advantage would be gained from public advertisement.

Total amount of the award will be \$1,125.70.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, July 9, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR.—Your approval is requested to award a contract, without public advertisement, to the Maxim Motor Company, Middleboro, Mass., for eleven (11) Maxim motors.

We have experienced much difficulty in securing replacement motors suitable for the Fire Department equipment. A Hercules motor was purchased from the Maxim Company for experimental purposes which has proven very satisfactory. Attached is a copy of a letter received from the Superintendent of Maintenance in the Fire Department.

The Fire Commissioner concurs with me that for the best interests of the city a contract should be awarded to the Maxim Motor Company.

The total amount of contract is \$27,153.83 for motors and installation.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, July 10, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR.—This office is in receipt of a requisition from the City Hospital for the following:

5,000 ampules Berocca-C.

It is respectfully requested that permission be granted me to award an order to Hoffman LaRoche Company without public advertisement for bids.

The total amount of the order is \$1,010.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, July 10, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR.—For the past eight years his Honor the Mayor has approved the purchase of fruits and vegetables daily, and meats, poultry, butter, fish and eggs weekly, instead of on a monthly basis as was this department's practice prior to 1938.

This departure from customary departmental procedure was initiated only after thorough consideration of all factors involved and was the recommendation not only of city officials but of a committee of purchasing agents representing leading private concerns.

During the prewar years from 1938 to 1941 the more frequent purchasing in this line proved its worth in the savings effected and the higher quality of perishable foods delivered to city institutions. And, in the final analysis, its practicability has evidenced itself in its adaptability to present emergency conditions.

Your permission is requested, therefore, to continue the daily and weekly purchasing of the foods listed above for a period of six months from July 1, 1947, to December 31, 1947.

Respectfully,

WILLIAM I. ROSE,
Superintendent of Supplies.

TRANSFERS OF APPROPRIATIONS.

The Temporary Mayor has approved the following requests for transfers of appropriations in accordance with the provisions of section 3B of the amended City Charter and for the reasons as below explained:

BOSTON TRAFFIC COMMISSION.

From C-17, \$200, to E-1, \$200.

From C-17, \$30, to C-7, \$30.

An order for 500 pounds of red lead is being held in abeyance in the Auditor's office because the balance in Item E-1 is insufficient. This is an urgently needed paint ingredient.

No appropriation was set up in Item C-7 for this department. Two orders for miscellaneous items chargeable to C-7 are being held in the Auditor's office. The surplus in the appropriation for Item C-17 which permits the transfer of funds from it is occasioned by the fact that we have been unable to purchase the amount of steel equipment which we require and which was anticipated when the appropriation was requested.

DEPARTMENT OF VETERANS' SERVICES.

From B-13, Communication, \$10, to B-12, Bond and Insurance Premiums, \$10.

Due to the influx of applications for veterans' benefits, it has been necessary to transfer Albina R. Coppola, clerk-typist, from the Soldiers' Relief Division to the Disbursement Division. Inasmuch as she will be handling the relief funds of this department, it is necessary that a bond in the amount of \$2,000 be procured.

FIRE DEPARTMENT.

From D-11, Gasoline, Oil and Grease, \$62.90, to D-9, Educational and Recreational, \$62.90.

The foregoing transfer is necessary in order that we may pay for pool table supplies. No money was appropriated in Item D-9 for the 1947 Fire Department budget. We still have some pool tables in Fire Department houses which are used by the men. It appears that the foregoing amount will pay for all pool table supplies required this year. There is sufficient money in Item D-11 to allow for this transfer.

HOSPITAL DEPARTMENT.

From B-39, General Repairs, \$3,000, to C-16, Wearing Apparel, \$3,000.

The above transfer is needed to meet the cost of bed gowns, johnnies, night-gowns, etc., for patients. B-39 is the only source of transfer that can be used at this time for this amount.

INSTITUTIONS DEPARTMENT.

From Steamers "James Michael Curley" and "Michael J. Perkins," D-11, Gasoline, Oil and Grease, \$500, to Steamers "James Michael Curley" and "Michael J. Perkins," C-11, Marine, \$500.

To provide for purchase of necessary hawsers during remainder of year. It is estimated there will be sufficient balance under D-11 to provide for this transfer.

LIBRARY DEPARTMENT.

From B-39, General Repairs, \$200, to B-3, Advertising and Posting, \$200.

An accelerated program of long overdue repairs and improvements, together with increased needs for equipment and supplies, has resulted in extensive advertising

in the *City Record* for this year. The 1947 budget allocation of one hundred dollars (\$100) is insufficient to make payment on bills now on hand.

From B-39, General Repairs, \$3,500, to B-28, Expert Services, \$3,500.

The above sum is required in our Expert Service Account, to provide funds to pay the cost of architects' and engineers' fees, in connection with the program of long overdue repairs and improvements being carried out this year throughout the Library system.

OVERSEERS OF PUBLIC WELFARE.

From C-7, Furniture and Furnishings, \$17, to C-16, Miscellaneous, \$17.

To provide for the purchase of miscellaneous clothing for persons staying at the Temporary Home.

Temporary Home.

From B-3, Advertising and Posting, \$15, to B-4, Transportation, \$15.

From C-7, Furniture and Furnishings, \$65, to C-9, Office, \$25; C-13, Tools and Instruments, \$40.

From D-1, Office, \$20, to D-5, Medical, Surgical and Laboratory, \$20.

B-4. To provide for the payment of car fares, taxi fares, etc.

C-9. To provide for the payment of glass top for desk.

C-13. To provide for the purchase of mops, brooms, etc.

D-5. To provide for the purchase of medical supplies.

PARK DEPARTMENT.

From B-6, Hire of Trucks, Etc., \$100, to B-3, Advertising, \$100.

To pay for advertising in the *City Record* on contract work.

SUFFOLK COUNTY.

SUPERIOR COURT, CIVIL SESSION, GENERAL EXPENSES.

From B-34, Jurors, \$1,400, to B-29, Stenographic and Copying, \$1,400.

This transfer is requested to cover deficit in Item B-29, Stenographic and Copying, and funds are available at the present time in Item B-34.

MUNICIPAL COURT, CITY OF BOSTON.

From D-1, Office, \$275, to C-4, Motor Vehicles, \$200; D-16, Miscellaneous Supplies, \$75.

The cost of a new motor prison van, including a decalcomania transfer, will exceed the original estimate by the above amount, and it is requested that the above transfer be approved to cover the deficiency.

SUFFOLK COUNTY JAIL.

From B-39, \$50, to B-3, \$50.

From C-16, \$200, to C-13, \$200.

From D-2, \$500, to D-8, \$200; D-13, \$100; D-15, \$200.

From C-16, \$50, to C-17, \$50.

These reallocations are requested so that sufficient funds may be provided in the B-3, C-13, D-8, D-13 and D-15 items of the Jail budget.

The transfer to B-3 is required to pay for advertising of contracts relating to Jail improvements.

The other transfers are needed to strengthen the various items to pay for purchases in the future.

B-39, C-16 and D-2 are being used because they are the items in their respective groups that can be used at this particular time as a source of transfer.

SUPPLEMENTARY ALLOTMENT.

The Temporary Mayor has approved the request of the Fire Commissioner as contained in the following letter:

BOSTON, July 15, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—I respectfully request your Honor's approval of a supplementary allotment of \$2,243.38 within the Departmental Equipment Loan to cover the additional cost involved in delivery of 15 Ford sedans to this department.

Supply Department purchase order No. 17437 issued September 12, 1946, provided for the delivery of 15 Ford sedans at a net cost of \$20,147.05. This amount being chargeable to the Departmental Equipment Loan, an allotment covering this amount was made by the Budget Commissioner.

However, it appears that sometime after the allotment was made the price of the cars increased so that the amount owed for the Fords now totals \$22,390.43. During the month of May a draft in this amount was submitted to the City Auditor who has held up payment because of the absence of a supplementary allotment to cover the increase in price.

Respectfully yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

CONSTRUCTION WORK.

The Temporary Mayor has approved the request of the Public Works Department for the following construction work:

A surface drain of 4-foot 3-inch circular concrete, or a 54-inch reinforced concrete pipe, one drop inlet, and five minor drains in Lewiston street and private land (Sumner Brook), between Frazer street and Edwardson street, in the Hyde Park district, at an estimated cost of \$15,000.

To rebuild 12-inch pipe sanitary sewer in Symphony road, between 200 feet west of St. Stephen street and 232 feet westerly, in the Roxbury district, at an estimated cost of \$6,900.

BUILDINGS RAZED.

The Temporary Mayor has approved the request of the Building Commissioner to make for public safety by actions involving the following structures:

To enter the building or other structure, or the abutting land or buildings, at 110 Castle street, Ward 5, with such assistance as required, and make safe said unsafe or dangerous building or other structure.

To enter the building or other structure, or the abutting land or buildings, at 26 Washington street, Ward 2, with such assistance as required, remove said unsafe or dangerous building or other structure, and protect the public by a proper fence or otherwise as may be necessary.

To enter the building or other structure, or the abutting land or buildings, at 10 Mystic place, Ward 2, with such assistance as required, and remove said unsafe or dangerous building or other structure, and protect the public by a proper fence or otherwise as may be necessary.

To enter the building or other structure, or the abutting land or buildings, at 22 Seneca street, Ward 3, with such

assistance as required, and remove said unsafe or dangerous building or other structure, and protect the public by a proper fence or otherwise as may be necessary.

To enter the building or other structure, or the abutting land or buildings, at 20½ Seneca street, Ward 3, with such assistance as required, and remove said unsafe or dangerous building or other structure, and protect the public by a proper fence or otherwise as may be necessary.

To enter the building or other structure, or the abutting land or buildings, at 108 Castle street, Ward 5, with such assistance as required, and make safe said unsafe or dangerous building or other structure.

To enter the building or other structure, or the abutting land or buildings, at 855 East Fifth street, Ward 6, with such assistance as required, and make safe said unsafe or dangerous building or other structure.

To enter the building or other structure, or the abutting land or buildings, at 25 Windsor street, Ward 9, with such assistance as required, and make safe said unsafe or dangerous building or other structure.

TO CHAIN LINK FENCE CONTRACTORS.

INVITATION FOR PROPOSALS FOR ERECTING CHAIN LINK FENCE AT THE SITE OF THE WILLIAM MCKINLEY SCHOOL, MOUNTFORT STREET, BACK BAY, BOSTON, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for erecting chain link fence at the site of the William McKinley School, Mountfort street, Back Bay, Boston, Mass.

Proposals will be received until 12 o'clock noon, Wednesday, August 27, 1947, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SHEET ASPHALT PAVEMENT IN NEAREN ROW, WARD 2, FROM TREMONT STREET TO FERRIN STREET; THWING STREET, WARD 11, FROM HIGHLAND STREET TO MULVEY CIRCLE, AND WARREN STREET, WARD 2, FROM PARK STREET TO THOMPSON SQUARE.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Nearen row, Ward 2, from Tremont Street to Ferrin Street; Thwing street, Ward 11, from Highland street to Mulvey Circle, and Warren street, Ward 2, from Park street to Thompson square. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Nearen Row, Ward 2, from Tremont Street to Ferrin Street; Thwing Street, Ward 11, from Highland Street to Mulvey Circle, and Warren Street, Ward 2, from Park Street to Thompson Square," and left at room 508, fifth floor, City Hall Annex, before 12 m. of WEDNESDAY, AUGUST 27, 1947, with a certified check for SIXTEEN HUNDRED (1,600) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$3,000, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained at the office of the Awarding Authority, 60 Bristol street, Boston. A deposit of \$50 in cash or a certified check will be required for each set of plans and specifications, and this deposit will be returned to bidders, upon receipt of said plans and specifications in good condition, by the Awarding Authority.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All sub-bidders' proposals must be in the possession of the Awarding Authority, and delivered or mailed to the general bidder no later than 12 o'clock noon, Tuesday, August 19, 1947.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each sub-bidder, with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all sub-bids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 39

SATURDAY, AUGUST 23, 1947.

NO. 34

AMERICA MUST REDEDICATE HERSELF TO HIGH MORAL CODE IF COUNTRY IS TO SURVIVE THE ONSLAUGHTS OF THE GODLESS NOW TRYING TO UNDERMINE AND DESTROY THIS GOVERNMENT AND LAND, TEMPORARY MAYOR JOHN B. HYNES TELLS DELEGATES TO 65TH ANNUAL SUPREME CONVENTION OF THE KNIGHTS OF COLUMBUS — WELCOMES VISITORS TO CITY AND CALLS ATTENTION, IN ADDRESS, TO DANGERS THAT BESET US AND WORLD DESPITE EFFORTS AND DESIRES OF ALL FOR PEACE — CALLS FOR STRENGTH AND UNITY.

At the 65th Annual Supreme Convention of the Knights of Columbus banquet, Temporary Mayor John B. Hynes spoke as follows:

It is my privilege on this occasion to extend the official greetings of the City of Boston to this, the 65th Annual Convention of the Knights of Columbus.

Had your convention been held during the past week, the warmth of our welcome might have been even more apparent because of the record-breaking temperatures that prevailed for several days here in the capital city of the Commonwealth. However, let me assure you that in Boston the heat of the summer is frequently tempered by the cool east winds sweeping in from the broad Atlantic — just as the seriousness of your convention business is relieved by such pleasant affairs as this evening's banquet.

During your stay in Boston you will undoubtedly be visiting many of the famous spots that mark our city and its environs as one of the most historic localities in the United States. For that matter, your delegates and guests from distant parts have probably seen more of our historical places than nine out of ten of us native Bostonians.

Proud of Patriots.

But we of this community are rightfully proud of these numerous shrines — these enduring reminders of the personalities and achievements of such patriots as John Adams, Samuel Adams, John Hancock, Paul Revere, and others of that gallant band who did so much to make real a freedom-loving people's dream of independence.

Concord and Lexington, Faneuil Hall, Bunker Hill, Dorchester Heights — these are but a few of the nearby reminders of those stirring days when men of courage, of fortitude, and of character were striving, fighting, yes, and even dying, to create on this continent a nation in which every individual might enjoy his God-given rights to life, liberty, and the pursuit of happiness.

To all succeeding generations of Americans those founding fathers, sturdy advocates of freedom's holy cause — bequeathed a priceless heritage. To safeguard that heritage, the bravest of our nation's sons have never hesitated to offer their very lives whenever foreign foes have menaced our traditional institutions. Indeed, our memories of the most recent threat to our national security are all too vivid. I have no doubt that many of you delegates, as well as tens of thousands of your Brother Knights, served with honor and distinction in the global conflict — a conflict that we fervently hoped would once and for all rid the world of the curse of war and pave the way to permanent peace.

Destructive Elements Working.

Today, however, two years after the final echo of the guns has subsided, do we find ourselves happily united with other people in a cooperative endeavor to work out the proper destiny of mankind? On the contrary, we find ourselves apprehensively viewing a distressful state of affairs, in which the disciples of a godless, materialistic philosophy are doing their malicious best, or worst if you will, both at home and abroad, to create distrust, division, and destruction.

TEMPORARY MAYOR HYNES RESPONDS TO COMMUNICATION FROM FINANCE COMMISSION ON CONTRACTS LET FOR CONSTRUCTION OF HOMES FOR VETERANS BY REQUESTING BOSTON HOUSING AUTHORITY TO READJUST CONTRACTS SO THAT BASIS FOR CRITICISM MAY BE ELIMINATED—COMPLAINTS AS TO BONDING ARRANGEMENTS FOR BUILDERS CHIEF ITEMS EMPHASIZED IN LETTER TO MAYOR—HOUSING AUTHORITY TO ACT FOR SAFEGUARDING CITY'S INTEREST.

The following letter was on August 13 sent to Mr. John Carroll, Chairman of the Boston Housing Authority:

DEAR SIR,—While a general conference on housing was being held in my office this morning, a communication was received by me from the Boston Finance Commission relative to contracts awarded by your Authority to the Gil Wyner Company, the Construction Units, Inc., and the Allied Engineering Company.

In view of the fact that I read this communication aloud to the four members of your Authority present at the above-mentioned conference, I will not set forth in this letter the objections raised by the Finance Commission to the award of these contracts, except to state that the Finance Commission believes that there are three important requisites in the making of a contract by any public authority.

These requisites are as follows:

1. Ability to finance the job.
2. That the contractor is capable of performing the work.
3. That the contracting company's reputation is such as to warrant the confidence that he will perform reasonably well the requirements of the contract.

CONCLUSIONS REACHED.

After considering the communication of the Finance Commission, and discussing its substance with you and the other members of the Authority, I have reached these conclusions:

1. That either Gil Wyner Company or the Construction Units, Incorporated, be required to furnish a new bond from an entirely different source than the present bond. In view of the fact that the Gil Wyner Company has already started work, without full authority, it might be better if the Construction Units, Incorporated, were required to furnish a new surety. By so doing, we will eliminate the objection raised by the Finance Commission concerning the furnishing of bond by the same company to both the Wyner Company and the Construction Units, Incorporated.

2. That the permission to award a contract to the Allied Engineering Corporation in the amount of \$634,800 be recalled by your Authority and new bids be advertised for this particular work. This is recommended, among other reasons, because this contracting concern might be unable to perform the work within a reasonable time because of labor difficulties which, it is predicted, would occur and which would, therefore, defeat our purpose to expedite construction of homes.

3. I further recommend that in all future contracts of this nature, your Authority not only request a statement of financial condition from the low bidder, but also require such bidder to produce an experience sheet including all previous work performed by the bidder and all equipment owned or controlled by the bidder.

QUALIFIED TO PROCEED.

After my discussion with you, I am satisfied that the Gil Wyner Company

and the Construction Units, Incorporated, are qualified to proceed with the construction in question, provided a new surety is furnished, as above referred to. I trust your Board will take proper action in this matter in order that there shall be no further delay in this most important undertaking of the city. It is our duty to build homes for veterans with expedition and at the least possible cost to the taxpayers, and it is also our duty to see to it that these homes are built by concerns with some experience in this type of work, and with sufficient resources to insure satisfactory performance.

Respectfully yours,

JOHN B. HYNES,
Temporary Mayor.

ADDRESS OF TEMPORARY MAYOR JOHN B. HYNES AT THE ANNUAL CONVENTION OF THE KNIGHTS OF COLUMBUS.

(Continued from page 985.)

If men are honest in their thinking, they must inevitably conclude that the social and economic ills besetting our own and other peoples are caused primarily by the refusal of so many of mankind to heed the salutary admonition given by the Prince of Peace more than 1900 years ago as the answer to the problems of existence—the admonition to seek first the Kingdom of God and His Justice.

Too long have atheistic leaders sought instead the gratification of their satanic love of power. Too long have millions of men and women sought instead the selfish indulgence of illicit and transitory pleasure. Too prevalent, in brief, is the disquieting disregard of a simple, solemn truth so aptly voiced by the present earthly Vicar of Christ: "The forces that are to renew the face of the earth must spring from the hearts of men." From the hearts of men like the Knights of Columbus, men who are convinced that peoples and nations must regulate their conduct by the natural law implanted by the Creator, and must frame their national constitutions and international treaties according to the moral code promulgated by God Himself.

HIGH MORAL CODE NEEDED.

Such was the moral code that underlies the principles so nobly expounded in our Declaration of Independence and so practically exemplified in the Constitution of this Republic.

Such was the moral code that warranted for our nation the blessings of Divine Providence during the ensuing decades of our prospering existence as a free people. Such is the moral code to which the people of Boston have always been faithful, under the guidance of outstanding spiritual leaders like our own present dynamic Archbishop Richard J. Cushing.

Such is the moral code to which all Americans must rededicate themselves to day, if our beloved country is to be strong, wholesome and united, and if this nation, under God, is to prove the value of its ideals by exercising the most vigorous and effective influence for good will and cooperation, for liberty and justice, among all the nations of the world.

PARKING METERS FOR BOSTON.

The following letter was sent to Chairman Leo Curley of the Traffic Department by Temporary Mayor Hynes:

BOSTON, August 14, 1947.

DEAR SIR,—I think the question of installing parking meters at various locations in the City of Boston should be taken up by your Commission at a very early time. It would seem to me that there is little doubt of the wisdom of installing these meters, especially in view of the experiences in adjoining cities and towns.

I feel that such meters will have a decided effect on the problem of all-day parking which exists in some of the streets in the city. It would seem to me there should be no further delay in making plans for the installation of meters and I respectfully request that you take this matter up with your Commission at the next meeting.

Respectfully,

JOHN B. HYNES,
Temporary Mayor.

SUPPLY DEPARTMENT

Upon August 11 the Temporary Mayor approved a contract as indicated in the following letter:

Boston, August 7, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—On June 25, 1947, bids for furnishing cable to the Sumner Traffic Tunnel and Fire Alarm Division were publicly opened in this office. Following is tabulation of bids received.

It is respectfully requested that permission be granted me to award a contract to the Okonite Company for the reasons stated below:

Items 1, 2, 3—owing to the fact that Okonite Company is the lowest bidder.

Items 4, 6, 7—Superintendent O'Banion has notified this office that it is imperative, in order to maintain the Fire Alarm System in proper operating condition, to obtain the cable as soon as possible, therefore, it is recommended that these items be awarded to Okonite Company since they will furnish the cable within eight weeks from the date of order as compared to a delivery date of thirty-six weeks offered by the lowest bidder.

Item 5 will be eliminated from the contract due to the high cost at the present time and also owing to the fact that the Superintendent of Fire Alarm has sufficient supply on hand for the balance of the year. Items 4 and 6 were reduced from 5,000 feet, the amount in the original proposal, to 3,000 feet, and Item 7 from 5,000 feet to 2,000 feet, as the reduced amount will be adequate to maintain the work for the remainder of the year.

Total amount of contract will be \$7,066.40.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

† The above proposal is not subject to market changes on cancellation.

SUFFOLK COUNTY.

SHERIFF'S OFFICE.

Upon August 7 the Temporary Mayor approved a contract with J. D'Amico for laying water pipes at the Suffolk County Jail. Bids, opened Wednesday, July 30, were as follows:

J. D'Amico Company, \$4,775; Construction Units, Inc., \$5,150; Hancock Construction Company, \$5,290; Buccella & Sons, \$5,432; Appel & O'Toole Company, \$5,450.

EXTENSION OF CONTRACTS.

PUBLIC WORKS DEPARTMENT.

George J. Bartley Company has been granted an extension of time for completion of the contract for miscellaneous alterations, painting, etc., in the ventilation buildings of the Sumner Tunnel, to October 1, 1947. This extension is requested for the reason that there were unforeseen delays in the fabrication of the necessary steel work.

John Deveney Company has been granted an extension of time for completion of the contract for laying sheet asphalt pavement and sewerage works in Columbus avenue, Ward 11, from Centre street to Washington street, from August 1, 1947, to October 15, 1947. This extension is requested for the reason that the contractor was unable to start work, until this month, because the Boston Elevated Railway had not done its track work in the street.

TRANSFERS OF APPROPRIATIONS.

The Temporary Mayor has approved the following requests for transfers of appropriations in accordance with the provisions of section 3B of the amended City Charter and for the reasons as below explained:

COUNTY BUILDINGS.

From A-1, Permanent Employees, \$200, to A-3, Unassigned, \$200.

The above amount is required to take care of overtime assignments for the balance of the year.

LIBRARY DEPARTMENT.

From A-1, Personal Service, \$50, to F-11, Workmen's Compensation, \$50.

From B-18, Cleaning, \$50, to B-5, Cartage and Freight, \$50.

F-11. This transfer is necessary to provide additional funds for the payment of Workmen's Compensation to one of our employees who was injured in line of duty.

B-5. The present balance in our B-5 account is insufficient to take care of our requirements for the balance of the year.

PARK DEPARTMENT.

From E-13, Miscellaneous, \$1,000, to D-8, Laundry, \$1,000.

This transfer is needed at once so we may be able to pay for soap, soap powder and other laundry supplies needed in our laundry and on all the beaches, because of the unusual cost of soap we have not had sufficient funds within our budget, on D-8 item.

From E-2, Highway, \$200; E-13, Miscellaneous, \$200, to E-1, Building, \$400.

We have a requisition placed for a quantity of plumbing supplies—nipples, unions, tees, etc., badly needed for the

repairs to heating equipment in the Park Department and we would request this transfer in order to purchase them.

PENAL INSTITUTIONS DEPARTMENT.

House of Correction.

From B-15, Motorless Vehicles, Repairs, \$17, to B-3, Advertising and Posting, \$17.

From C-4, Motor Vehicles, \$302.96, to E-13, Miscellaneous Materials, \$302.96.

From C-5, Motorless Vehicles, \$375, to E-13, Miscellaneous Materials, \$375.

From D-10, Agricultural, \$276.65, to D-16, Miscellaneous Supplies, \$276.65.

B-3. To pay for advertising in *City Record* for sale of pigs.

E-13. For mattress filling urgently needed for making mattresses for new prison to be opened soon.

D-16. To get receipt of necessary orders for supplies now being held in suspense in Auditor's office.

PUBLIC BUILDINGS DEPARTMENT.

From F-6, Military, \$500, to D-8, Laundry, Cleaning, Toilet, \$500.

This request is necessitated by the unanticipated increase in the cost of toilet supplies.

PUBLIC WORKS DEPARTMENT.

Water Division.

From B-39, General Repairs, \$550, to B-3, Advertising and Posting, \$150; B-35, Fees, Service of Venires, \$400.

B-3. Transfer needed to pay *City Record* \$107 for advertising proposals and unencumbered balance is now insufficient.

B-35. Transfer needed to pay Suffolk Registry of Deeds \$2,561 for recording liens. In 1946 the cost was \$1,733 and transfer of money is required to pay increased amount.

B-39. Money is now available because original appropriation based on full year estimates.

TREASURY DEPARTMENT.

From A-1, Permanent Employees, \$200, to A-2, Temporary Employees, \$200.

This transfer is requested to provide funds for the emergency employment of a laborer who will be employed for a limited period in transferring old records of the department to a new vault assigned on the lower basement of City Hall. Funds are available in the A-item because of an existing vacancy that will not be filled for the rest of the year.

FIRE DEPARTMENT ORDERS.

General Order No. 55.

I. HOSEMAN EDMUND T. BOWLER.

It is with deep regret that the Fire Commissioner announces the death, on August 9, 1947, of Hoseman Edmund T. Bowler of Engine Company 48. Hoseman Bowler was appointed to the department April 5, 1918.

P. F. Francis R. Harmon, from Engine 50 to Engine 36.

P. F. John F. White, from Ladder 21 to Engine 11.

III. INSTALLATION OF NEW FIRE ALARM BOXES.

In the near future the following Fire Alarm boxes will be installed:

2249, Centre street, opposite New Heath street.

2427, Oakview terrace, opposite Belmore terrace.

Box 2249 will be connected in circuit No. 35; Box 2427 will be connected in circuit No. 52.

Box 2249 will take the same assignment as Box 2248; Box 2427 will take the same assignment as Box 2428.

Assignment cards for these boxes will be distributed at a later date.

IV. APPRECIATION.

The Fire Commissioner is pleased to publish the following Resolution received from Department Commander William F. Hallisey, Veterans of Foreign Wars:

"Whereas, The City of Boston has fully cooperated with this Encampment by the functions of its various departments and its contribution; therefore, be it hereby

Resolved, That the Department of Massachusetts, Veterans of Foreign Wars, thanks the City of Boston and its various employees who assisted to make this Encampment a success; and, be it further

Resolved, That the Police and Fire Commissioners be thanked individually for their support."

V. COMMENDATION.

Ladderman Daniel J. Flanagan, Jr., of Ladder Company 9, is hereby commended for rescuing a girl from drowning at Point Shirley, Winthrop, July 27, 1947, at 4 p. m. Ladderman Flanagan performed artificial respiration for fifteen minutes and succeeded in reviving the girl. Ladderman Flanagan was off duty at the time.

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

LOUIS C. STICKEL,
Acting Chief of Department.

POLICE DEPARTMENT ORDERS.

General Order No. 932.

The resignation of Patrolman James J. Kelly of the Superintendent's Office (armed service roll), having been presented, it is hereby accepted, to take effect on Tuesday, August 19, 1947, at 7.45 o'clock a. m., seven days' notice waived.

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner

VETO OF PETITION OF SUTCLIFFE TRANSPORTATION COMPANY.

The following was received:

City of Boston,
Office of the Mayor, July 18, 1947.
To the City Council.

Gentlemen,—I return herewith, without my signature and disapproved, the vote of your Honorable Body of July 14, 1947, granting a license to the Sutcliffe Transportation Company to operate motor vehicles from the airport over certain additional streets in the City of Boston.

The ordinance of the city regulating licenses of this description requires that the route, stopping places, rate of fare and type of vehicle be set out in the license.

The petitioner made an application in 1945 for a license between the airport and the Hotel Statler which complied with the specifications of the ordinance and the petition was granted. In direct contrast, the petition now pending before me specifies only the routes and termini, and furnishes no stipulation as to stopping places, rate of fare or type of vehicle. In addition, the petition, if approved, would license the operation of an unlimited number of motor vehicles which might be of any type.

It is my opinion, therefore, that any petition for license to operate what may prove to be a virtual monopoly in this class of transportation, over many of our most heavily traveled downtown streets, should not be granted in the absence of all necessary and possible information, regardless of the fact that the Department of Public Utilities may subsequently regulate the licensee.

No doubt every effort to improve the transportation to and from the airport should be encouraged, but before agreeing to a license ostensibly for that purpose the city is entitled to be informed exactly what kind of transportation is to be furnished in order to determine its necessity and to consider whether its operation would result in an improvement in or a detriment to efficient transportation.

For the specified objections the license is disapproved.

Respectfully,

J. B. HYNES,
Temporary Mayor.

Severally referred to the Committee on Constables and Confirmations.

UNNECESSARY WORK ON THE LORD'S DAY.

The following was received:

City of Boston,
Office of the Mayor, July 25, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Police Commissioner relative to your order of July 14, 1947, concerning the enforcement of section 9 of chapter 136 of the General Laws, relative to business establishments doing unnecessary work on the Lord's Day without a permit.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Police Department, July 23, 1947.
Hon. John B. Hynes,
Temporary Mayor of Boston.

Dear Mr. Mayor,—I return herewith order of the City Council dated July 14, 1947, and reading as follows:

"Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to enforce section 9 of chapter 136 of the General Laws relative to business establishments doing unnecessary work on the Lord's Day without a permit."

Please be advised that the Boston Police Department is complying with the statutes regarding working on the Lord's Day without a permit.

Respectfully yours,

T. F. SULLIVAN,
Police Commissioner.

INCREASE OF ASSESSMENTS ON DWELLING HOUSE UNITS.

The following was received:

City of Boston,
Office of the Mayor, July 29, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Board of Assessors relative to your order of July 14, 1947, concerning the advisability of increasing proportionately the assessments on all dwelling house units on which rentals have been and are being increased under the terms of the recent Federal legislation.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Assessing Department, July 23, 1947.
J. Joseph Connors,
Chief Clerk, Mayor's Office.

Dear Sir,—On July 22, 1947, you requested consideration and report upon the subject of the Council order of July 14, 1947, in which the Council requested the Board of Assessors to consider the advisability of increasing proportionately the assessments on all dwelling house units on which rentals have been and are being raised under the terms of the recent Federal legislation.

Such increase in rentals will properly be considered as one of the elements of fair cash value to be determined by the assessors as of January 1, 1948. Instructions relative to such consideration will be issued by the Board of Assessors to the first assistant assessors at the annual organization meeting to be held in December, 1947.

Very truly yours,

Board of Assessors,
PETER J. ALLEN, Chairman.

COAL DUST NUISANCE, WARD 7.

The following was received:

City of Boston,
Office of the Mayor, July 21, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Health Commissioner relative to your order of June 25, 1947, concerning the abolishing of the coal dust nuisance created as a result of trucks hauling coal without adequate covering or wetting down in the vicinity of the Old Colony Housing Development in Ward 7.

Respectfully,

J. B. HYNES,
Temporary Mayor.

July 16, 1947.
To Health Commissioner John H. Cauley, M. D.,
M. P. H.

From Housing and Sanitation Division.
Subject: Council order, June 25, 1947, requesting the Public Health Commissioner to take necessary methods to abolish the coal dust nuisance created as a result of trucks hauling coal without adequate covering or wetting down in the vicinity of the Old Colony Housing Development in Ward 7.

In accordance with the City Council order of June 25, 1947, the following report of Inspectors Joseph T. Ryan and John E. O'Neil is submitted: "On July 8, 1947, in company with Inspector O'Neil a survey was made in the vicinity of the Old Colony Housing Development and found evidence of coal dust on the sidewalks and streets in this locality.

There are several large coal companies located on East First street, South Boston, and many trucks are engaged in hauling coal from there to various points throughout the city.

The following coal dealers and users were visited and were informed that trucks should not be overloaded and loads should be thoroughly wet down before leaving for their destinations:

White Fuel Company, 900 East First street, Daniel Connors, head shipper.

C. H. Sprague Coal Company, 658 East First street, F. I. Heal, superintendent of yard.

Boston Elevated Railway Company, 696 East First street, John Kundert, chief engineer.

J. P. McCabe Company, 509 East First street, South Boston, Joseph McCabe, owner.

Stetson Coal Company, 496 East First street, R. E. Emerson, manager.

In each case full cooperation was promised and inspections will be made to see that matters of overloading and wetting down will be enforced.

In my opinion this is a police matter and Captain Lynch of Division 6, South Boston, has been notified of the condition complained of for his further action and consideration.

Reported the condition of the streets near the housing project to the Street Cleaning Division of the Public Works Department and on July 9, 1947, these streets were cleaned.

Talked with Councilor Linehan of Ward 7, the sponsor of this order, and informed him of the steps taken to eliminate the coal dust nuisance in the vicinity of the Old Colony Housing Development, Ward 7, South Boston.

Respectfully,

FRANCIS L. DONOVAN,
Chief Inspector.

INVESTIGATION OF BUILDING AT 141 MILK STREET, BOSTON.

The following was received:

City of Boston,
Office of the Mayor, July 15, 1947.

To the City Council.

Gentlemen,—I transmit herewith communication from the Fire Commissioner relative to your order of July 7, 1947, requesting an investigation of the condition of the building located at 141 Milk street, Boston, now occupied by the Department of Internal Revenue.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Fire Department, July 10, 1947.

Mr. J. Joseph Connors,
Secretary, Mayor's Office.

Dear Sir,—Acknowledgment is made of your communication dated July 8th in which you transmit an order from the City Council dated July 7th that the Building Commissioner and the Fire Commissioner be requested to investigate conditions, both structural and general, in the building located at 141 Milk street, Boston.

A report will be forwarded to his Honor Temporary Mayor John B. Hynes, in the near future, subsequent to investigation.

Very truly yours,
RUSSELL S. CODMAN, JR.,
Fire Commissioner.

VENTILATING FANS IN STREET CARS.

The following was received:

City of Boston,
Office of the Mayor, July 30, 1947.

To the City Council.

Gentlemen,—I transmit herewith communication from the Metropolitan Transit Authority relative to your order of July 14, 1947, concerning the installation of ventilating fans on all passenger cars under their control.

Respectfully,

J. B. HYNES,
Temporary Mayor.

Boston Elevated Railway Company,
July 29, 1947.

Mr. J. Joseph Connors,
Chief Clerk, Mayor's Office.

Dear Sir,—The Board of Trustees of the Metropolitan Transit Authority directed me to advise you as follows in reply to the City Council's order of July 14, 1947, relative to the installation of fans in all passenger cars:

The Elevated was one of the first railways to order new modern type surface cars equipped with ventilating fans which bring in fresh air, thus accomplishing a great improvement. The last 25 cars ordered, which are in operation in South Boston and on Tremont street, are equipped with fans, and all new cars, of course, will be so equipped. Other cities are following this practice when ordering new cars.

The question of what can be done with the other P. C. C. cars not equipped with fans is a problem which will be given careful consideration, but it would cost \$390,000 to make the installations.

Conditions are different in rapid transit cars because of the frequent opening of end doors and side doors which permits circulation of air through the cars. These cars are much older than the relatively new P. C. C. cars and when replaced will of course be provided with modern equipment, including proper ventilation. The expenditure of \$205,000 to install in old cars the type fans used in New York, which are purely agitating fans, could not be justified under existing conditions.

Very truly yours,

EDWARD DANA,
President and General Manager.

INSIGNIA FOR TAXICABS LICENSED IN BOSTON.

The following was received:

City of Boston,
Office of the Mayor, August 1, 1947.

To the City Council.

Gentlemen,—I transmit herewith communication from the Law Department relative to your order of July 14, 1947, concerning the matter of whether or not members of the Boston City Council may draw up an ordinance relative to making it necessary for taxicabs licensed in the City of Boston to show an insignia stating this fact, and also a sign showing whether the cab is empty or carrying passengers.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Law Department, July 31, 1947.

Hon. John B. Hynes,
Temporary Mayor.

Dear Sir,—On July 22, 1947, you sent to me for consideration and report the following order of the City Council:

"Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to inform the members of the Boston City Council whether or not an ordinance can be drawn relative to making it necessary for taxicabs, licensed in the City of Boston, to show an insignia stating this fact and also a sign showing whether the cab is empty or carrying passengers."

In my opinion the City Council has no power to pass an ordinance of the type described, in view of the following provisions of St. 1930, c. 392, s. 1:

" . . . The police commissioner of the city of Boston shall have exclusive authority to make rules and orders for the regulation of hackney carriages and hackney stands . . . within the limits of said city, with penalties for the violation thereof not exceeding twenty dollars for each offense . . ." (emphasis supplied).

The exclusive authority of the Police Commissioner in this field was recognized in *Burrell v. Checker Taxicab Company*, 287 Mass. 111, 113, and in *Hersch v. Police Commissioner of Boston*, 319 Mass. 428, 431.

Very truly yours,

JOSEPH A. SCOLPONETI,
Corporation Counsel.

COPPER BEECH TREES ON BOSTON COMMON.

The following was received:

City of Boston,
Office of the Mayor, August 4, 1947.

To the City Council.

Gentlemen,—I transmit herewith communication from Deputy Park Commissioner, Park Department, City of Boston, your order of July 14, 1947, relative to the preservation of copper beech trees on Boston Common.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Park Department, July 31, 1947.

J. Joseph Connors,
Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of July 22 with enclosure, order of the City Council, requesting his Honor the Mayor to direct the Park Commission to check on the condition of the copper beech trees on the Boston Common and to take all proper steps to preserve them in the best possible condition.

There are quite a number of purple beech trees on the Public Garden. The following are the variety and size: Four large purple, six medium purple, three large American, three medium American, and three weeping beech trees.

On inspection we find that all of them are in good condition and are being properly cared for.

\$2,000,000 LOAN, VETERANS' HOUSING.

The following was received:

City of Boston,
Office of the Mayor, July 30, 1947.

To the City Council.

Gentlemen,—Under the provisions of chapter 372 of the Acts of 1946 and amendments thereto, Boston is authorized to borrow approximately twenty-eight million dollars for providing housing for veterans of World War II. Under this legislation as originally enacted, construction was limited to single or two-family residences, but under the amendments adopted this year "multi-family" units may now also be constructed.

Late last year, your Honorable Body authorized the issuance of bonds totaling ten million dollars for single and two-family construction. There is now on your Calendar, awaiting a second and final reading, a loan order authorizing eight million dollars to be utilized in the construction of multi-family units. It is planned with this loan to complete the South End housing project and to erect in various locations throughout the city multiple units housing various numbers of families, depending upon the size and location of the available land. I am advised that in all probability ten million dollars will be required to carry out this proposed program. I am requesting your Honorable Body to approve an additional loan in the amount of \$2,000,000, and am submitting herewith the necessary appropriation order. With the approval of this order, the city can divide its efforts between single, two-family residences, and multi-family dwellings. It is my earnest intention to carry forward this \$20,000,000 housing program which, I believe, is the maximum that can be accomplished within the financial limitations of the city. I respectfully recommend adoption of the loan order submitted herewith.

Respectfully,

J. B. HYNES,
Temporary Mayor.

Ordered, That under the provisions of section 10 of chapter 372 of the Acts of 1946 as amended by section 6 of chapter 479 of the Acts of 1947, the sum of two million dollars be, and the same hereby is, appropriated to meet expenses necessary in providing housing for veterans of World War II, and that the City Treasurer be, and hereby is, authorized to issue, from time to time, upon request of the Mayor, bonds, notes or certificates of indebtedness of the City of Boston to said amount. Referred to Finance Committee.

SALE OF LAND ON THOMAS STREET, JAMAICA PLAIN.

The following was received:

City of Boston,
Office of the Mayor, July 23, 1947.

To the City Council.

Gentlemen,—I submit herewith a communication from the Superintendent of Public Buildings, in which he recommends the sale of the Old Thomas Street Schoolhouse, Thomas street, Jamaica Plain, for the sum of \$500.

This building is now occupied by the Jamaica Plain Post, Veterans of Foreign Wars, under a lease with the City of Boston.

In view of the fact that it is now a strict policy of the city to sell property of this kind at public auction, I recommend the adoption of the accompanying order which provides for the sale of land and building at public auction at an upset price of \$500.

Respectfully,

JOHN B. HYNES,
Temporary Mayor.

City of Boston,
Public Buildings Department,
January 27, 1947.

Hon. James M. Curley,
Mayor of Boston.

Dear Mr. Mayor,—I am in receipt of an offer from the Jamaica Plain Post 675, Veterans of Foreign Wars, to purchase the building known as "Old Thomas Street Schoolhouse," located in Ward 19, 9-15 Thomas street, Jamaica Plain, in the sum of five hundred dollars (\$500).

The Jamaica Plain Post now occupy the above quarters and pay the City of Boston \$1 a year as rental for its use, repair and upkeep. At the present time the building is in need of repairs and renovations.

I recommend the sale of this building to the Jamaica Plain Post 675, Veterans of Foreign Wars, for the sum of \$500 as offered. This sale will relieve the city from further responsibility for repairs to this building.

Respectfully,

JAMES E. SULLIVAN,
Superintendent of Public Buildings.

Whereas, The City of Boston owns in fee a certain parcel of land containing approximately ten thousand seven hundred fifty-four (10,754) square feet of land, together with the building thereon, situated on the northeasterly side of Thomas street in the West Roxbury district of the City of Boston; and

Whereas, The said parcel of property is no longer required for public purposes; now therefore it is hereby

Ordered, That the Superintendent, Public Buildings Department of the City of Boston, be, and he hereby is, authorized, in the name and behalf of the City of Boston, to sell at public auction at an upset price of five hundred dollars (\$500), all the City of Boston's right, title and interest in and to said parcel of property, hereinafter described; and it is hereby further

Ordered, That his Honor the Mayor of the City of Boston be, and he hereby is, authorized, in the name and behalf of the City of Boston, to execute and deliver to a purchaser at said public auction a written instrument satisfactory in form to the Law Department of the City of Boston conveying all the City of Boston's right, title and interest in and to said parcel of property hereinafter described. The said parcel of property is bounded and described as follows:

Southwesterly by Thomas street, one hundred fifty-five and 25-100 (155.25) feet; northwesterly by land now or formerly of Albert L. and Alice E. Pierce, sixty-nine and 91-100 (69.91) feet; northeasterly by land now or formerly of Edward J. Dolan, one hundred fifty-three and 46-100 (153.46) feet; southeasterly by land now or formerly of George and Violet Mawhinney, sixty-nine and 16-100 (69.16) feet, containing ten thousand, seven hundred fifty-four (10,754) square feet of land, more or less. Said parcel of land, the location of the building thereon, and all of said measurements are shown on a plan marked "City of Boston, Thomas Street, West Roxbury, April 1, 1947, Thomas F. McGovern, Chief Engineer, Street Laying-Out Department." The original of said plan is on file in the office of the Street Laying-Out Department, City Hall, Boston, Mass.

LOAN FOR DEPARTMENTAL EQUIPMENT.

The following was received:

City of Boston,
Office of the Mayor, July 30, 1947.

To the City Council.
Gentlemen,—I submit herewith a communication and report from the Budget Commissioner concerning departmental equipment needs. It appears from this report that an additional appropriation of \$380,000, supplementing the one million, four hundred and twenty thousand dollars appropriation already authorized by your Honorable Body, is necessary to meet departmental needs and requirements. I feel that it is desirable to provide this year for the full equipment needs of city departments since, in all probability, this is the last year in which a loan of this character will be proposed. Having utilized loans both last year and this to provide for equipment purchases necessarily deferred during the five war years, it would seem reasonable to assume that next year and in subsequent years departmental

equipment needs may be provided through the medium of budget appropriations. With the sole desire to provide for the estimated current departmental needs, I recommend adoption of the accompanying order by your Honorable Body.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Budget Department, August 4, 1947.

Hon. John B. Hynes,

Temporary Mayor of Boston.

Sir,—On April 28, 1947, there was submitted to the City Council a loan order in the amount of \$2,000,000 for the purchase of departmental equipment for various departments of the city. This amount was based on the requests for permanent equipment amounting to more than \$1,670,000, which were eliminated from the 1947 budget, and the balance to provide for the purchase of equipment for departments whose needs were not definitely known at the time the loan was submitted, and also to provide for possible price increases and other contingencies.

On June 9, 1947, this loan order was reduced to \$1,420,000 by the City Council and given its first reading. On June 25, 1947, it was given its second reading and passage.

As far as I am able to ascertain, the reduction voted by the Council was based largely on the fact that sufficient information was not available to substantiate the appropriation recommended. Because of this fact, and at your direction, a re-survey of departmental equipment needs was instituted. This survey resulted in requests totaling \$1,869,567.65. Subtracting from this sum the loan of \$1,420,000 already approved by the Council, and the down payment of \$154,100 provided in the budget, leaves a balance of \$295,467.65 to cover the over-all needs of departments. In view of the strong possibility of further price increases, and the fact that departmental estimates have been prepared on the basis of current prices, I feel it desirable to allow for a reserve of roughly 5 per cent, or \$84,532.35 for possible price increases and other contingencies. This will make a total additional requirement of \$380,000, and I recommend the submission of the necessary order to the City Council.

Enclosed herewith are two exhibits containing more detailed information. Exhibit A is a tabulation by departments setting forth (1) the total needs of the departments as a result of the re-survey; (2) the allocation of the \$1,574,100 already available, which figure includes the loan authorization of \$1,420,000 and the down payment of \$154,100 appropriated in the budget, and (3) the additional amounts necessary to meet the requirements. Exhibit B is a statement setting forth by departments the type of equipment to be purchased.

Respectfully,

JOHN A. SULLIVAN,
Budget Commissioner.

SALE OF LAND, CORNER OF CABOT AND WHITTIER STREETS.

The following was received:

City of Boston,
Office of the Mayor, July 17, 1947.

To the City Council.

Gentlemen,—I submit herewith an order for the sale of land and building, formerly occupied by Engine No. 13, situated on Cabot street, on the corner of Whittier street, in the Roxbury district. The order calls for the sale of this property at public auction at an upset price of five hundred dollars (\$500).

This property is no longer needed by the Fire Department for any public purpose, and in view of the fact that certain veterans' posts are desirous of obtaining this property for headquarters, and in view of the fact that the property is now in poor condition, I recommend that your Honorable Body give approval to the accompanying order.

Respectfully,

J. B. HYNES,
Temporary Mayor.

Whereas, The City of Boston owns in fee a certain parcel of land containing approximately four thousand eight hundred thirty-two (4,832) square feet of land, together with the buildings thereon, situated on the northwesterly side of Cabot street at the southwesterly corner of Whittier street in the Roxbury district of the City of Boston; and

Whereas, The said parcel of property is no longer required for public purposes; now therefore it is hereby

Ordered, That the Superintendent, Public Buildings Department of the City of Boston, be, and he hereby is, authorized, in the name and behalf of the City of Boston, to sell at public auction at an upset price of five hundred dollars (\$500), all the City of Boston's right, title and interest in and to said parcel of property, hereinafter described; and it is hereby further

Ordered, That his Honor the Mayor of the City of Boston be, and he hereby is, authorized, in the name and behalf of the City of Boston, to execute and deliver to a purchaser at said public auction a written instrument satisfactory in form to the Law Department of the City of Boston conveying all the City of Boston's right, title and interest in and to said parcel of property hereinafter described. The said parcel of property is bounded and described as follows:

Southeasterly by the northwesterly line of Cabot street, forty-eight and 25-100 (48.25) feet; southwesterly by land of the City of Boston, one hundred twenty-four and 70-100 (124.70) feet; northwesterly by the southeasterly line of Downing street, by two measurements, one and 9-100 (1.09) and forty-one and 69-100 (41.69) feet; northeasterly by the southwesterly line of Whittier street, one hundred two and 8-100 (102.08) feet; containing four thousand eight hundred thirty-two (4,832) square feet of land, more or less. Said parcel of land, together with the locations of the buildings thereon and all of said measurements, are shown on a plan marked "City of Boston, Cabot Street, Downing Street, Whittier Street, Roxbury, July 11, 1947, Thomas F. McGovern, Chief Engineer, Street Laying-Out Department." The original plan is on file in the office of the Street Laying-Out Department, City Hall, Boston, Mass.

TRANSFER OF LANDS TO GEORGE ROBERT WHITE FUND.

The following was received:

City of Boston,
Office of the Mayor, July 23, 1947.
To the City Council.

Gentlemen,—I submit herewith an order for the acceptance of chapter 542 of the Acts of 1947, entitled an act "Authorizing the Transfer of Lands of the City of Boston to the George Robert White Fund."

This act provides for the transfer for fair cash value of park and other lands owned by the city to the White Fund Trustees, and will permit of the use of such land by the trustees for purposes within the meaning of the White Fund Will.

The provisions of the act have already been accepted by a vote of the trustees of the George Robert White Fund. To be effective it now requires the acceptance by the City Council of the City of Boston, and I therefore respectfully request passage of the accompanying order by your Honorable Body.

Respectfully,
J. B. HYNES,
Temporary Mayor.

Ordered, That chapter 542 of the Acts of 1947, entitled an act "Authorizing the Transfer of Lands of the City of Boston to the George Robert White Fund," be, and the same hereby is, accepted.

Referred to Executive Committee.

PERMISSION TO BUILD STRUCTURE OVER SEWERAGE WORKS.

The following was received:

City of Boston,
Office of the Mayor, August 4, 1947.
To the Honorable City Council.

Gentlemen,—Alessandro Zanetti and Caterina Zanetti, the owners of a certain parcel of land situated on the westerly side of Bowman street, Dorchester, have petitioned the Temporary Mayor of the City of Boston for permission to build a cottage house on said land over sewerage works maintained and operated by the city.

In 1893 the City of Boston, by an order passed in Board of Aldermen and approved by the Mayor, took an easement in certain parcels of land in the Neponset district for the purpose of continuing and extending the improved sewerage system. At the time of this taking the Board of Survey of the City of Boston proposed that certain public streets should be laid out in this district and that the proposed sewerage works would be located and constructed in such streets; however, the proposals of the Board of Survey were abandoned, and the sewerage works were located and constructed and are today operated and maintained in part in private lands.

Mr. and Mrs. Zanetti at the present time live at 26 Bowman street, opposite the parcel of land on which they seek permission to build. An eviction notice has been served upon the Zanettis, and they are being compelled to vacate their present home. Mr. and Mrs. Zanetti have lived at this address for some years and would like to continue their residence in this neighborhood.

Plans of the proposed cottage type of house to be located and constructed in part over the easement for sewerage works of the City of Boston

have been filed in the Department of Public Works and approved by that department.

I would like to help, and I would like to have your assistance in helping Mr. and Mrs. Zanetti to locate and construct a house of their own at this time in the midst of our most difficult housing shortage.

I present to you herewith an order whereby your Honorable Body may authorize the Temporary Mayor of the City of Boston to grant to Alessandro Zanetti and Caterina Zanetti, husband and wife as tenants by the entirety, a license to locate, construct, and maintain in a manner satisfactory to the Commissioner of Public Works a cottage type of house over said sewerage works of the city in land now owned by them.

I urgently recommend your consideration and passage of the accompanying order.

Respectfully,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Law Department, July 31, 1947.
Hon. John B. Hynes,

Temporary Mayor of Boston.

Dear Mr. Mayor,—Recently you referred to me a petition of Mr. Alessandro Zanetti, 26 Bowman street, Dorchester, for permission to construct a cottage type house on land owned by Mr. and Mrs. Zanetti and situated on the westerly side of said Bowman street, said house to be constructed in part over a sewer easement of the City of Boston.

I have investigated the subject matter, and it is my opinion that in order for the petition of Mr. Zanetti to be granted it will be necessary for the Mayor and Council of the City of Boston to authorize the placing, construction, and maintenance of this structure over the City of Boston's sewerage works.

Enclosed please find order, together with letter of transmittal, which, if the same meet with your approval, may be forwarded by you to the City Council for their consideration and action.

Yours very truly,
JOHN J. TOBIN,
Assistant Corporation Counsel.

Whereas, By an order passed in Board of Aldermen of the City of Boston, January 23, 1893, and approved by the Mayor of the City of Boston, January 25, 1893, the City of Boston for the purpose of continuing and extending the improved sewerage system of the city did take an easement in certain lands situated on Bowman street in the Dorchester district, reserving to the owners of said lands the right to the use of the surface thereof for any of the ordinary uses of a way; and

Whereas, No way has been laid out or constructed over said lands, nor is it now proposed to lay out or construct any street or way over said lands; and

Whereas, Alessandro Zanetti and Caterina G. Zanetti are the owners of a parcel of said lands situated on the westerly side of Bowman street subject to said sewer easement, and desire to construct and maintain upon their land a structure to be located, constructed, and supported with reference to the rights of the City of Boston as shown on a plan filed in the Department of Public Works and approved as to such location and construction by the Commissioner of Public Works; now therefore it is hereby

Ordered, That his Honor the Temporary Mayor of the City of Boston be, and he hereby is, authorized in the name and behalf of the City of Boston to grant a license by an instrument in writing satisfactory in form to the Law Department of the City of Boston to Alessandro Zanetti and Caterina Zanetti, husband and wife as tenants by the entirety, their heirs and assigns, to locate, construct, and maintain in a manner satisfactory to the Commissioner of Public Works of the City of Boston a structure over said sewerage works of the City of Boston as is shown on a plan filed in the Department of Public Works and approved by the Commissioner of Public Works, reserving, however, to the City of Boston, its successors and assigns, the right to enter upon the premises of Alessandro Zanetti and Caterina Zanetti, their heirs and assigns, at all times for the purpose of constructing, operating, maintaining, repairing, and renewing said sewerage works or any municipal structure now in or which may hereinafter be placed in said land or premises of Alessandro Zanetti and Caterina Zanetti, their heirs and assigns.

Referred to Executive Committee.

REPORT OF FINANCE COMMISSION ON 1947 TAX RATE.

The following was received:

City of Boston,
Finance Commission, July 16, 1947.
To the Honorable the Mayor and City Council.

Gentlemen,—Following its usual custom, the Finance Commission submits herewith for the published record the elements which made up the computation by the Board of Assessors of the tax rate for 1947. This annual analysis is intended by the Commission to spread the publication of the figures used in the tax rate determination beyond the few and the initiated who normally receive them.

Year after year for the past several years the Boston tax rate has been steadily climbing. There has not been in several decades any significant trend in a lower direction. Once or twice there has been a slight reduction in the tax rate per thousand dollars of assessable valuation, but on these rare occasions it was plain to all familiar with the facts that it had been accomplished by a method of calculation the sole aim of which was to obtain a temporary advantage rather than to face the financial situation fairly. It is not surprising, therefore, that such reductions as have been developed lasted for not more than a short temporary period. Moreover, they—on each such occasion—actually served to make it impossible to avoid a new peak in the rate in the following

year; and, furthermore, in every year, whether the rate was increased or reduced, the number and volume of abatements which followed show clearly that those who determined the rate sacrificed fair valuation to a desire to avoid the full consequences of municipal largess in expenditures. The record of abatements of the past half-dozen years totaling approximately three-quarters of a billion dollars (in valuation figures), forced by determined taxpayers, is striking evidence of the use of "smart" devices to keep the rate down.

The 1947 rate is the highest of all time in Boston. Such as it is, it ranks at or near the top in all comparable municipalities. And boosting valuations temporarily to hold the tax rate down has been resorted to again. It is evident to those familiar with real estate development in Boston that there has been little new taxable valuation created since the establishment of the rate in 1946, or even in 1945. Any new figures of valuation developed in that time have, therefore, been for the most part higher valuation of old property. With labored and shallow arguments to justify it, in establishing a \$42 rate in 1946 the assessors reached a total valuation which was \$57,000,000 more than the total assessable valuation in 1945.

In the year which has now intervened since establishment of the 1946 rate, and despite the 1946 protestations of justification for those new high figures, approximately \$70,000,000 of that total assessable valuation has had to be abated. Nevertheless, in order to keep the rate in 1947 as low as \$46.50, the total assessable valuation has had to be boosted another \$22,000,000 above that original 1946 valuation. Had the assessors established the total of valuations for 1947 at the amount to which they have been forced to reduce practically the same valuations for 1946, the rate in 1947 would be approximately \$3 higher than the declared \$46.50.

Such review as has been possible to this writing of the valuations fixed by the assessors indicates that again it is the commercial and industrial property which has felt most the heavy increase in municipal expenditure. It is as if assessors' instructions were to avoid increase in valuation of residential property but increase valuation of all commercial and industrial property. The obvious unfairness of this policy results in great dissatisfaction with the decisions of the assessors and makes business for the State Appellate Tax Board. It gives rise to speculation as to the real intent because it does more than merely keep the rate down. It also creates extensive opportunity for a small coterie of solicitors for abatements. Great numbers of applications for abatements follow from it and usually somebody "who knows the ropes" has to be hired to take up with the assessors the question of whether the original valuation will stand. In instances where an abatement is granted and taxes already paid are refunded, the cost to the property owner is substantial. Refunds in the past year on 1946 assessments alone have run as high as \$42,000. In many instances valuations have, after tax rate declaration time, and as a result of negotiations with the Administration, been reduced from \$200,000 to \$1,000,000. In many, the abatement granted since June of 1946 has been the exact amount of the increase which was recorded in June, 1946. The question naturally, provoked is "What could have been the motive?"

A fortuitous circumstance in the 1947 computations was the discovery by the City Auditor of a "free cash" element in the item carried on his balance sheet as the "Surplus Revenue" account. This account is made up of the difference between the items known as "assets" and the "liabilities and reserves." To the extent that this difference registers a higher figure than the total uncollected levies of previous years, it is deemed to be "free cash." As "free cash" it was decided to use enough of it to offset the overlay deficit account to January 1, 1947. Actually, it was applied by the assessors against the requirements of planned outlay and served to relieve the taxpayers of 1947 in the amount of \$2,386,206.50. According to the assessors' release of statistics, it saved the taxpayers \$1.55 in this year's rate.

While the use of this sum in keeping the rate down was in the nature of "reaching into the bags of tricks" annually employed for this purpose, and is the first occasion when this device was used, the Finance Commission has no criticism to offer concerning it. Rather, the Commission desires to point out that eighteen years ago, the Commission organized a ten taxpayers' group who petitioned the Supreme Court to compel such use of "free cash." The court said, in effect, that it was discretionary with the assessors to so use this particular "free cash" or not, whereupon the assessors refused to yield to the recommendation of the Finance Commission that the current taxpayers be given the benefit of all such funds. It is significant of the present municipal strain on the taxpayers that the assessors resorted to this device this year after so many years of refusal. It is also to the credit of the City Auditor that finally the city has begun to use this account in this way rather than for the financing of some new expansion of activities.

In another particular, the assessors' way of arriving at the 1947 tax rate is worthy of mention. They reduced the percentage for overlay in the total levy from 3.50 per cent in 1946 to 3.30 per cent in 1947. This overlay is used mainly as a reserve from which to make refunds in instances of abatements. While such a reduction served to keep the rate lower than otherwise it would be in

1947, yet it is distinctly not facing the situation frankly. Overlay deficits result from such practices and they are increasing with the years. As an illustration, it is only necessary to point to the fact that the 3.50 per cent for overlay in 1946 set up a reserve of \$2,182,112.58 for refunds of abatements granted in 1946 assessments; yet, to May 1, 1947, this entire amount has been refunded, and the deficit in the account is now approximately \$525,000.

Eventually this deficit will be much greater because, to the present time, such abatements of 1946 assessments as have occurred have been entirely voluntary on the part of the assessors. None has been ordered by the State Appellate Tax Board though it is fair to state that to some extent settlement of old tax appeals before decision by the State Board was predicated on a more or less particular assessed valuation in 1946. There are, however, many more appeals from 1946 valuation awaiting adjudication either by the assessors themselves or by the Appellate Tax

Board which, as they are decided, will swell the present deficit in the overlay account. By the end of the current year the deficit in the 1946 overlay account is likely to be close to \$1,000,000.

This is positive evidence of the inadequacy of the 3.50 per cent overlay in the 1946 computation and indicates that the lowering of the percentage to 3.30 per cent in 1947 is not providing fully for the need which might be anticipated in the 1947 account. A review of the abatements by year and of each year's assessments for the past decade shows that the need in the overlay account has been more often 5 and 6 per cent than 3 per cent.

The Total Requirements of City and County Appropriations and State Warrants.

The obligations of the year 1947, in terms of city, county and school appropriations and in warrants from the state (the city's share of state net requirements), increased substantially over those of 1946. The part which is distinctly city requirements follows:

Total City and Schools.....	\$78,558,140 23	\$88,426,458 04

The school portion of the above total is interesting because of the general dissatisfaction in recent years with school policy (before and after the Strayer School Survey) and because of the decline in school membership (94,136 on December 31, 1946, as against 131,635 in 1937). In the above table, school needs as certified to the assessors are shown as requiring \$20,065,657.49, which is \$2,085,161.87 more than in 1946. This means that the cost of public education provided out of city taxes and revenues has risen to approximately \$213 per pupil. In 1937 it was approximately \$137.

The debt situation, as gleaned from the above table, is not a reliable portrayal of the debt condition at the present time. Because of the authority given the city to use any loan balances for any

purposes for which authority has been given to finance by the issuance of bonds, many capital expenditures have been started on projects the particular bonds for which have not yet been issued, or have been only recently issued. Hence, there is neither interest payment nor serial payment in the 1947 appropriation requirements for many purposes for which loans have been authorized and expense obligation actually incurred.

The overlay deficits provided for in the 1947 tax computations total more than twice the amount which had to be provided for in 1946. Yet it is only the accumulation developed during the 1946 calendar year of the deficits of the years 1937 to 1945 and a sum equal to that amount has, as previously stated, been taken from the "Surplus Revenue" account to offset it.

APPOINTMENTS BY THE TEMPORARY MAYOR.

Notice was received of the following appointments by the Temporary Mayor:

Earl McMann, 111 Deforest street, Hyde Park, member of Zoning Adjustment Board for term ending April 30, 1949.

Placed on file.

Appointment of Inspector of Housing and Sanitation.

The following was received:

City of Boston,
Health Department, July 23, 1947.

City Clerk,
City Hall, Boston, Mass.

Dear Sir,—This is to certify that Walter H. Dolan, 1792 Columbia road, South Boston, has been appointed as Inspector of Housing and Sanitation for a period of thirty days, at a salary of \$2,000 a year, effective July 23, 1947.

Very truly yours,
JOHN H. CAULEY, M. D., M. P. H.,
Health Commissioner.

Placed on file.

NOTICE OF HEARINGS.

Notice was received from the State Department of Public Works of hearing to be given Boston Waterways, Inc., on July 29, 1947, at 2.30 p. m., on petition of Boston Waterways for pier, and dredging at East Boston.

Notice was received from State Department of Public Works of hearing to be given Nathan I. Lipson on July 29, 1947, at 10.30 a. m., on license for underground tank for gasoline.

Severally placed on file.

WITHHOLDING TAX ON TEMPORARY EMPLOYEES.

Coun. KINSELLA offered the following:
Ordered, That his Honor the Mayor be requested to instruct the Law Department of the City of Boston to confer with the federal Internal Revenue officials as to the legality of withholding for income tax purposes certain amounts of money from the gross wages of temporary help employed by the City of Boston who earn less than \$500 per year. Passed under suspension of the rules.

REPAIRS TO OLD ENGINE HOUSE NO. 27.

Coun. KINSELLA offered the following:
Ordered, That his Honor the Mayor be requested to seek an opinion from the City of Boston Law Department as to the legality of the city undertaking repairs to the old Engine House No. 27 on Elm street, Charlestown, now under lease to the Disabled American Veterans Post, No. 71. Passed under suspension of the rules.

HOUSING UNDER SO-CALLED MCCARTHY BILL.

Coun. LINEHAN offered the following:
Whereas, The so-called McCarthy bill, which was signed by President Truman recently, provides that the federal government, through its Housing Agency, can guarantee a loan to the Boston Housing Authority up to the full amount authorized by Congress and, as a result of the excessive cost of building the South Boston and Cathedral sites, said amount of construction costs allowed by Congress can be added to a contribution made by the City of Boston of the amount which is in excess of that allowed by Congress to its Housing Agency; therefore be it

Ordered, That the sum of seven million dollars (\$7,000,000) be, and hereby is, appropriated, to be loaned to the Boston Housing Authority for the construction of low-income housing developments at the Cathedral and South Boston sites, pursuant to the authority granted cities and towns under section 26cc of chapter 574 of the Acts of 1946.

A motion by Councilor Cook to amend the order by striking out "at the Cathedral and South Boston sites," and inserting "on such projects as are acceptable under the so-called McCarthy bill," was carried.

The order as amended by Councilor Cook was given its first reading and passage, yeas 20, nays 0: Yeas—Councilors Bayley, Bryan, Cantwell, Carey, Chase, Coffey, Cook, Hannon, Hurley, Keenan, Kelly, Kinsella, Lane, Linehan, Madden, McCormick, Moriarty, Russo, Scannell, Sullivan—20.

Nays—0.
The order will take its second reading and passage in not less than 14 days.

On motion of Councilor Hannon, the Council referred this order to the Finance Committee for hearing to be held before next meeting.

LOAN OF \$8,000,000 FOR VETERANS' HOUSING.

Coun. LINEHAN called up No. 1 from the Calendar, viz.:

1. Order for loan of \$8,000,000 to provide housing for veterans of World War II.

On July 7, 1947, the foregoing order was read once and passed, yeas 16, nays 0.

The question came on giving the order its second reading and passage.

The order was given its second reading and passage, yeas 20, nays 0:

Yeas—Councilors Bayley, Bryan, Cantwell, Carey, Chase, Coffey, Cook, Hannon, Hurley, Keenan, Kelly, Kinsella, Lane, Linehan, Madden, McCormick, Moriarty, Russo, Scannell, Sullivan—20.

Nays—0.

\$2,000,000 LOAN, VETERANS' HOUSING.

On motion of Councilor Hannon, the Council voted to take the \$2,000,000 loan order (referred today) from the Committee on Finance, and, on further motion of Councilor Hannon, the order was read once and passed, yeas 20, nays 0:

Yeas—Councilors Bayley, Bryan, Cantwell, Carey, Chase, Coffey, Cook, Hannon, Hurley, Keenan, Kelly, Kinsella, Lane, Linehan, Madden, McCormick, Moriarty, Russo, Scannell, Sullivan—20.

Nays—0.

On motion of Councilor Hannon, the Council referred this order to Finance Committee for hearing to be held before next meeting.

PUBLIC HEARING ON MIDGET AUTO RACING PETITIONS.

A motion by Councilor Hurley that a public hearing be held was carried, yeas 18, nays 1, present 1:

Yeas—Councilors Bayley, Bryan, Cantwell, Carey, Chase, Cook, Hannon, Hurley, Kelly, Kinsella, Lane, Linehan, Madden, McCormick, Moriarty, Russo, Scannell, Sullivan—18.

Nays—Councilor Keenan—1.

Present—Councilor Coffey—1.

Coun. COFFEY announced that the committee would hold the public hearing at 11 o'clock, Thursday, August 7, in the Council Chamber.

CONSTRUCTION OF VETERANS' MEMORIAL AUDITORIUM.

Coun. LINEHAN, MORIARTY, LANE, COFFEY, COOK and MADDEN offered the following:

Ordered, That his Honor the Mayor request the Trustees of the George Robert White Fund to declare a public hearing for the purpose of considering a City Council order passed on March 24, 1947, and a similar order on June 2, 1947, relative to the construction of a veterans' memorial auditorium, which will provide a living memorial to the City of Boston's departed war heroes which can be kept alive by making provisions for housing war veteran organizations within the building housing the Auditorium.

Passed under suspension of the rules.

REPORT OF COMMITTEE ON LICENSES.

Coun. COFFEY, for the Committee on Licenses, submitted the following report:

On petition of Sutcliffe Transportation Company (referred today) for license to operate motor vehicles from General Logan International Airport to Porter street to Sumner Tunnel to Cross street to Haymarket square to Canal street to Causeway street to North Station, thence along Causeway street through Keany square to Sumner street (South Station) to Dorchester avenue to Congress street to Post Office square to Congress street to Dock square to North street to Sumner Tunnel, with the right to operate in either direction—recommending that license be granted.

The report was accepted.

A motion by Councilor Sullivan that the petition be referred to the Executive Committee and that a public hearing be held by that committee was lost—yeas 6, nays 13:

Yeas—Councilors Carey, Cook, Hannon, Madden, Russo, Sullivan—6.

Nays—Councilors Bryan, Cantwell, Coffey, Hurley, Keenan, Kelly, Kinsella, Lane, Linehan, McCormack, Moriarty, Muchnick, Scannell—13.

Present—Councilor Bayley—1.

The license was granted in accordance with the petition—yeas 15, nays 5:

Yeas—Councilors Bryan, Cantwell, Carey, Coffey, Hannon, Hurley, Keenan, Kelly, Kinsella, Lane, Linehan, McCormack, Moriarty, Muchnick, Scannell—15.

Nays—Councilors Bayley, Cook, Madden, Russo, Sullivan—5.

Present—Councilor Bayley—1.

REPORT OF FINANCE COMMISSION ON 1947 TAX RATE.—Continued.

(Continued from page 1000.)

In the foregoing comparison of total appropriations and warrants, an increase of \$565,258 in state warrants is in marked contrast with a decrease one year ago from the 1945 figure of \$336,500. The trend in the county situation is also upward, the 1947 need being \$417,870 greater

than a year ago. The city portion increased \$10,286,187. The above figures represent the expenditures proposed. There are, of course, revenues and receipts of various kinds from sources other than taxes which offset them to some extent.

Totals.....	\$22,415,810 16	\$25,457,656 96

The figures and items in the above table constitute the incomes and revenues from sources other than 1947 taxes. The total in 1947 is greater by approximately \$3,000,000 than in 1946, which was in turn approximately \$2,500,000 greater than in 1945. It contains no loan item in 1947. In past years that has been usually a substantial amount, borrowed or to be borrowed known as the municipal relief loan for which there was special authorization. It happens that the one responsibility in the tax rate determination assumed by the "Temporary Mayor" was this decision "to pay as we go" in this connection. While the elements which made up the tax rate were determined in advance of his taking office, the question as to whether the city would borrow

on account of relief expenditures was left open to him, and his decision was that the city would not borrow for such purposes in 1947.

This table reveals that the funds to be received from the state have helped materially in the tax rate determination. Under the items "Income Tax," "Corporation Tax," "State-Owned Lands," "Meals Tax," and "Gasoline Tax," it is estimated that the city will receive from the state a total of \$9,766,862.83, which is \$2,520,459.68 higher than the estimate in the 1946 computations. In contrast, the city pays state warrants, as shown in a preceding table, totaling \$2,509,496.05. The differential, being receipt from the state over payment to the state, is therefore \$7,257,366.78.

TAX RATE SUMMARY.

Assessed Valuation.....	\$1,536,385,600 00	\$1,558,610,900 00
Tax Rate.....	\$42 00	\$46 50

In the above table, the items of particular interest are (1) overlay; (2) assessed valuation. The decision with respect to the overlay has been discussed in an earlier part of this review, and the increase in total valuation has been commented upon also. A further analysis of the assessable valuations follows.

Valuations.

It has been apparent for some time past that the tax rate in 1947 would reach a new altitude unless some new wrinkle could be found to offset the heavily increasing expenditure. The first effort in anticipation of the larger requirements was a second attempt to obtain authority to borrow to raise funds for meeting normal tax requirements. In 1946, the city agents sought, unsuccessfully, authority for a loan of \$10,000,000 plainly marked for expenditure which otherwise would appear in the tax assessments. In 1947, the objective was the same (to keep a large part of the current requirements out of the tax levy temporarily), but the method was to obtain

authority to finance overlay deficits already established and others anticipated. The petition for authorizing legislation was denied consideration in the Legislature because of the general criticism of the assessors which followed Finance Commission revelation of questionable practices in the establishment of the tax rate. The result was that the city gave up the attempt to meet the oncoming tax load, in part, by borrowing. Then the "Surplus Revenue" account, "free cash" (already explained in this review), was discovered and it served to meet a substantial part of the load. However, it was not enough to keep the rate from reaching astronomical figures. The only recourse then was to lift again to a higher level the assessable valuations. As stated, 1946 valuations have been adjusted to a total of approximately \$70,000,000 lower than when the 1946 tax rate was determined. Nevertheless, the total assessable valuations in 1947 have been set, in tax rate figuring, approximately \$90,000,000 higher than this present level of 1946 valuations. Where this increase was determined, by wards, is shown in the following tables.

The above table of the assessable polls by wards gives indication that many families have left the city in the decentralization exodus. With the end of war and the return of residents from war activities it would normally be expected that the number of polls would show a substantial increase. On the contrary, although the table shows a larger number in every ward but one, the total increase is insignificant. Many families have left Boston voluntarily, and many have been forced by lack of housing to seek shelter elsewhere. Much old housing has been eliminated, notably in the South End, and no replacement made to date to affect the population figure. In respect to the population Boston is unlike most of the larger cities of the country, all of which have been affected by decentralization, but most of which have experienced substantial gains in population, and accordingly, in polls.

Borrowing for City Needs.

Acknowledged borrowing to hold down the tax rate has been blocked in the State Legislature, as mentioned previously. Nevertheless, substantial borrowing without new authority of law has been voted. It served the same purpose. On the plea that capital expenditure during the past five or six years was deferred because of the war, and claiming that the city plant was therefore in need of greater than normal replacement, the administration in 1946 borrowed \$1,500,000 for the purchase of equipment. It helped the taxpayers of 1946 because payment of the loan was spread over several years. Without the loan the funds needed would have been included in the tax levy. Now, in 1947, this method of financing equipment needs has continued, and on a greater scale. The loan in 1947 is \$2,000,000. Every conceivable opportunity to take items out of the tax budget and charge them to the loan appropriation has been availed of. The departure from the old practice of "paying as you go" is therefore now more emphatic than ever. Nevertheless, it has not appeared that the new practice has relieved the current taxpayers to any extent. The tax levy and the tax rate continue their upward trend; but it has served to keep the rate in the forty-dollar figures rather than in the fifties for the time being.

Summary.

The 1947 tax rate has been established at \$46.50, a new high level which is \$4.50 higher than the 1946 rate. To accomplish it, the assessors have

1. Increased valuations again to a higher level than the original 1946 total, despite the fact that their experience of the last twelve months has shown them that they could not maintain the 1946 total. That has been leveled off about \$70,000,000 already, with more abatements to come.

2. After many years of refusal, have finally been forced to use a part of a bookkeeping account labeled "Surplus Revenue" to reduce the portion of the city's 1947 obligations which normally would be levied.

3. Have reduced the percentage for overlay from 3.5 per cent to 3.3 per cent in the face of a greater need than ever in the overlay account.

The appropriating authorities, the Mayor and Council, have for the second year in succession, now authorized borrowing to meet a substantial part of what was formerly regarded as a tax item, the purchase of equipment used in municipal service maintenance. It means that a substantial portion of the expenditures by this administration for equipment replacement must be raised by taxation levied in succeeding administrations.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SHEET ASPHALT PAVEMENT IN FEDERAL STREET, WARD 3, FROM HIGH STREET TO PURCHASE STREET; HIGH STREET, WARD 3, FROM SUMMER STREET TO CONGRESS STREET; SUMMER STREET, WARD 3, FROM SOUTH STREET TO DEWEY SQUARE, AND SUMMER STREET, WARD 3, FROM ATLANTIC AVENUE TO BRIDGE OVER FORT POINT CHANNEL.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Federal Street, Ward 3, from High street to Purchase street; High street, Ward 3, from Summer street to Congress street; Summer street, Ward 3, from South street to Dewey square, and Summer street, Ward 3, from Atlantic avenue to Bridge over Fort Point Channel. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Federal Street, Ward 3, from High Street to Purchase Street; High Street, Ward 3, from Summer Street to Congress Street; Summer Street, Ward 3, from South Street to Dewey Square, and Summer Street, Ward 3, from Atlantic Avenue to Bridge over Fort Point Channel," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of TUESDAY, AUGUST 26, 1947, with a certified check for THIRTY-THREE HUNDRED (3,300) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,

(Aug. 23.) Commissioner of Public Works.

Note.—This invitation for proposals is identical with the invitation for proposals for "Sheet Asphalt Pavement in Federal Street, Ward 3, etc." appearing in the August 2 issue of the "City Record" except for the date set for the opening of proposals.

PROPOSALS FOR EXCAVATION, LOAMING, AND IMPROVEMENT OF ATHLETIC FIELD AT WORLD WAR MEMORIAL PARK, EAST BOSTON, MASS.

The Park Commissioners of the City of Boston, 33 Beacon street, invite proposals for excavation, loaming, and improvement of athletic field at World War Memorial Park, East Boston, Mass. Forms of proposals must be obtained at the engineer's office of the Park Department, 33 Beacon street. Each proposal should be signed by the bidder and inclosed in an envelope, sealed and marked "Proposal for Excavation, Loaming, and Improvement of Athletic Field at World War Memorial Park, East Boston Mass.," and left before 2 p. m., Thursday, August 23, 1947, at the office of the Park Department with a certified check for \$2,000, payable to and to be the property of the City of Boston if the proposal is not carried out, and will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. A bond will be required for doing the work in the sum of 100 per cent of the estimated contract price. The rate per hour of the wages to be paid to mechanics, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Park Commissioners. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits, under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The Commissioners reserve the right to reject any or all proposals.

"pull" or however else to get off easy, there are twenty, nay a hundred who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

The Supply Department of the City of Boston invites proposals for furnishing poultry feed, as specified in proposals which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for \$100, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. Envelopes containing bids to be sealed and plainly marked "Proposal for Poultry Feed." There will be a charge of twenty-five cents (\$0.25) for each set of proposals. The bids will be publicly opened and read Tuesday, September 2, 1947, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

WILLIAM I. ROSE,
(Aug. 23.) Superintendent of Supplies.

NOTICE OF CHANGE IN DATE OF OPENING.
PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SHEET ASPHALT PAVEMENT IN HIGH STREET, WARD 2, FROM PLEASANT STREET TO WALKER STREET.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in High street, Ward 2, from Pleasant street to Walker street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in High Street, Ward 2, from Pleasant Street to Walker Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of TUESDAY, AUGUST 26, 1947, with a certified check for TWELVE HUNDRED (1,200) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,
(Aug. 23.) Commissioner of Public Works.

Note.—This invitation for proposals is identical with the invitation for proposals for "Sheet Asphalt Pavement in High Street, Ward 2, etc." appearing in the August 2 issue of the "City Record" except for the date set for the opening of proposals.

AMERICA'S GREATNESS AS A WORLD POWER AND LEADER VERY LARGELY DUE TO POWER ENGINEERS, THEIR GENIUS AND THEIR CREATIONS, TEMPORARY MAYOR JOHN B. HYNES TELLS GROUP IN WELCOMING THEIR 64TH ANNUAL CONVENTION TO BOSTON—WELCOMES DELEGATES TO CITY AND BIDS THEM VIEW HISTORIC SHRINES AND RENEW DETERMINATION TO KEEP AMERICA IN FOREFRONT OF SCIENCE AND CIVILIZATION AS DUTY TO THOSE WHOSE PRINCIPLES AND EFFORTS GAVE US THIS LAND—BIDS THEM KEEP AMERICAN INDUSTRIAL EFFICIENCY THE BYWORD ALL OVER THE WORLD.

On Monday, August 25, Temporary Mayor John B. Hynes delivered the following address before the 64th Convention of the National Association of Power Engineers and Auxiliary:

It is a great pleasure to welcome to Boston this 64th Convention of the National Association of Power Engineers and the Auxiliary. I think you will find our old historic city very interesting and very hospitable. I was prepared to tell you all about Boston, but your past President, Mr. Tom Ray, did such a splendid job in that respect, perhaps even better than I could, there isn't much more for me to say about Boston. As a matter of fact, Mr. Kelleher, the President of the Chamber of Commerce, and I were just discussing whether he would hire Mr. Ray or I would hire Mr. Ray to be Boston's No. 1 salesman and booster.

I am glad to see so many ladies in the hall, because that indicates that the convention will be very decorous and orderly. You know, having your wife with you on a convention has its compensations, because otherwise when you get home and your wife says, "Where were you at 2.30 last Thursday morning, when I called your hotel room?" it can be very embarrassing.

You know, you power engineers are written up as a wonderful lot of men, and we all agree with it. In view of that reputation you have, I would like to lay a little problem in your laps. Here in Boston, we have an east wind which comes in from the sea, but, unfortunately, the wind will not come in when we want it. Now today is a hot day, and it would be nice if we could turn on the east wind and cool off, but the problem I am laying in your laps is this:

Can't you make some contraption, device or machine so that we can switch on the east wind when we want it? I think a problem like that is something for your engineers to solve without too much delay.

Not Snobbish or Cold.

You know, they say we here in Boston are a cold, snobbish lot of people with a sense of superiority, because we know that here the liberties and freedoms we enjoy were nurtured and born.

But we really are not a distant people. Of course, we realize that no section of our great country abounds in more reminders of the glorious past when Boston was the center and the focal point from which spread the principles that gave rise to the Declaration of Independence.

But we do not live in the past. Faneuil Hall, the Old State House, the Old North Church, Bunker Hill, Dorchester Heights, Concord and Lexington, are symbolic of what has made America great, and, though they constantly serve to recall the spirit of the patriots of yesterday, nevertheless, we hold ourselves out as a great modern-day city in a metropolitan area in which there are more per capita assets than in any other metropolitan area in the United States. In manufacturing, commercial, and financial importance, we rate near the top.

So you see, we must be forgiven if we sometimes appear a little too smug and self-satisfied. In fact, we rather take pride in our congested, crooked, and narrow streets. It makes us different from other cities of later vintage. We take pride in the beautiful New England countryside about us—in our multitude of recreational opportunities which make Boston and New England the mecca during the summer and fall months of vacationers from all over the country.

We are, therefore, most happy when a convention of this kind comes to our community. We are happy to have men and women from all over our nation come here and inspect us. We know there is much about us that calls for improvement, and it is when we must put our best foot forward—put on the dog a little, as it were—that we realize we have many faults and many shortcomings. We are, however, sincerely glad to have you with us even for a little time.

Much to Do.

The world today moves rapidly. There is so much to do, so much to see, and so little time at our disposal. How true it is that our stay on this mortal soil is all too brief—but how sad it would be if when we get to the pearly gates we would have to tell Saint Peter we had never seen Boston. I am inclined to think that the Good Guardian of the Doors of Heaven would banish you as not worthy of eternal happiness. (Continued on page 1012.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

SEVERAL PROJECTS ANNOUNCED BY TRUSTEES OF GEORGE ROBERT WHITE FUND TO BE ERECTED FOR BENEFIT OF BOSTON CITIZENS—AMONG THEM WILL BE NATURAL HISTORY MUSEUM TO BE LOCATED ON EMBANKMENT ROAD, A SCHOOLBOY STADIUM, AND A HEALTH UNIT IN WARD 15—STADIUM ESTIMATED TO COST ABOUT \$300,000, WITH HEALTH UNIT TO COST APPROXIMATELY \$250,000—OTHER PROJECTS TO BE GIVEN FURTHER CONSIDERATION.

Upon August 26, Temporary Mayor Hynes issued the following statement:

The Trustees of the George Robert White Fund announced preliminary approval of several projects. These include a natural history museum to be located on Embankment road, a schoolboy stadium to accommodate eight to ten thousand persons, whose location has not yet been decided, and a health unit to be erected at a site to be selected in Ward 15. The Trustees also voted further consideration of a civic forum and of a study and detention home for juvenile delinquents.

In connection with this statement the Trustees referred to their nonapproval of other desirable projects as caused by many reasons. The Trustees stated that some were not approved because of the limitations in Mr. White's will, the most important of which is that " . . . the net income only" of the fund may " . . . be used for creating works of public utility and beauty, for the use and enjoyment of the inhabitants of the City of Boston . . . no part of said income, however, shall be used for a religious, political, educational or any purpose which it shall be the duty of the City in the ordinary course of events to provide."

Other portions of the will give, as illustrations of the kind of works to which the income of the fund might be devoted, a "zoological garden and handsome buildings, therefor; an aquarium, a forum of substantial proportions for public gatherings, etc." The prohibition against the use of the fund for any purpose "which it shall be the duty of the City in the ordinary course of events to provide" obviously rules out buildings like a City Hall or an addition thereto.

SOME RULED OUT.

Other projects were ruled out because of the fact that Mr. White's will provides only for the construction of the works and not for their maintenance, since the will provides "the current expense of their care and maintenance shall be borne by the City." For this reason the Trustees stated that an enlarged modern zoo has been carefully considered and dismissed from further consideration at this time because the maintenance of a modern zoo would probably involve an annual expenditure by the city of not less than \$200,000 more than the city is now spending for the zoo in Franklin Park. Other desirable objects were excluded from immediate consideration because of their large initial cost, since the will restricts the expenditure to the income of the Trust, current or accumulated. The Trustees stated that the accumulated income not already allocated to pending approved projects is about \$1,750,000.

The principal project given preliminary approval for construction in the reasonably near future is that of the natural history museum. The museum would be located on land now owned by the Boston Society for Natural History (presently tax exempt), fronting on Embankment road and lying between Pinckney and Revere streets, with a total area of about 56,000 square feet. The proposed museum would be located on a portion of the lot, giving room for the erection of additional suitable buildings.

If legal details can be satisfactorily disposed of and proper arrangements made between the fund, the city and the society, the site would be acquired by the fund and a suitable modern museum erected thereon, and this would be turned over in accordance with the provisions of Mr. White's will to the City of Boston as a work of beauty and utility for the enjoyment of the inhabitants of the city. According to present indications the acquisition of the land and the erection of the building would involve an expenditure of slightly more than \$1,000,000.

While the fund is authorized to acquire the land and erect the building, it may not provide funds for equipment or maintenance, and accordingly the plan contemplates mutually satisfactory arrangements between the city and the society under the terms of which the operation of the museum, would be turned over to the society, which would equip the building with exhibits and a library at its own cost and would bear the expense of maintenance. It is estimated that the exhibits and library would represent about \$500,000 and that the annual maintenance cost would be in the vicinity of \$30,000.

NO EXPENSE TO CITY.

The plan if carried out would accordingly furnish to the city a suitable modern natural history museum at an attractive and accessible site and would enable the inhabitants of the city to enjoy the privileges of such a museum without involving the city in any expenditure of funds for acquisition, equipment, or maintenance. The experience of other cities shows that a museum of this kind thus managed will prove very attractive and beneficial to the city.

The proposed schoolboy stadium is expected to cost about \$300,000 and would accommodate between eight and ten thousand. It has long been thought desirable that there be such a stadium to accommodate moderately large audiences for attendance at schoolboy games and athletic contests. The city does not now have such a facility.

The addition of the proposed health unit in Ward 15, which is expected to cost about \$250,000, will round out the chain of health units which have been established by the fund and will give to the citizens of that district who do not now have ready access to a health unit such access, which will be to their great advantage.

The foregoing projects, and those to which the fund is already committed, bath house and solarium on the Charlesbank, health units in Hyde Park and

Dorchester, will use up nearly all of the accumulated income presently available for their erection. No part of the principal of the fund is available for this purpose.

For long-range planning—the project of a civic forum of a "substantial" size as recommended by Mr. White in his will has been one upon which the Trustees look with favor. However, it is apparent that under present building costs the erection of a suitable forum of this kind would probably cost in the vicinity of \$5,000,000.

Before such a project is definitely approved, it would be necessary that there be a thorough survey as to a desirable site, as to its effect upon existing meeting places, its cost and maintenance both direct and through the removal of tax-paying land of a substantial amount. If the project is finally approved, the Trustees believe that it will be appropriate to acquire the site and to earmark income of the fund thereafter to be accumulated until sufficient money has been accumulated for the erection of such an auditorium. It is likely that such an auditorium or forum would be most appropriately located in close proximity to a new civic center. This is likewise a long-range project, but there is no reason why the matters cannot be considered and carefully planned for together.

The Trustees are also giving further study to the proposal that the fund erect a suitable detention home for juvenile delinquents so that they may be subjected to proper study and supervision in surroundings which do not have the characteristics of a jail. It may well be that this is something which should be erected by the state or the county, but its desirability is worthy of further study, which is being given to the project by the fund.

The Trustees plan to give to the various veterans' organizations an opportunity to be heard on the question of whether any of the projects now in contemplation could themselves be adopted as war memorials, or joined to a suitable memorial.

TEMPORARY MAYOR JOHN B. HYNES COMMENTS ON MUNICIPAL BUREAU'S REPORT ON INCREASES IN CITY EMPLOYMENT PERSONNEL AND COSTS—POINTS OUT REASONS FOR SAME WHICH BUREAU FAILS TO EMPHASIZE, TO WIT, THAT MANY ADDED COSTS NOW BORNE BY CITY WERE PLACED BY LEGISLATURE WITH NO PROVISIONS FOR ABSORPTION OF SAME—ALSO CALLS ATTENTION TO FACT THAT SAME SOURCES WILL IMPOSE MORE BURDENS ON CITY IN 1948—WOULD LIKE TO SEE PERSONNEL SUPERVISOR IN CHARGE OF COMPENSATION AND CLASSIFICATION OF WORKERS.

On August 22, Temporary Mayor Hynes issued the following statement:

With respect to the recent report of the Boston Municipal Research Bureau, it is a fact that the pay roll requirements of the city have reached what might appear to be alarming heights. The tremendous increase in these requirements is partially attributable to the inauguration of the forty-eight-hour week for firemen, the six-day week for policemen, wage adjustments to all employees in the early part of 1947, increase of employees in institutions and other expanded post-war activities. It should also be mentioned with this report that many of the pay roll costs now assumed by the city were placed upon us through action of the Legislature.

The number of employees, while it has increased since January of 1946, particularly in the Fire, Police, and Hospital Departments, is not much greater than in 1938, but the tendency, unless checked, is for an increase rather than a decrease. The prospects for 1948 are not encouraging. There is already pending an act of the Legislature which will soon be effective, providing for a forty-hour week for all employees. If accepted by the City Council, a considerable number of new employees will be engaged in the Hospital and Institutions Departments and in other maintenance departments of the city.

Also in 1948, the full cost of the forty-eight-hour week for firemen will be borne for a full twelve-month period, and the salary adjustments made during 1947 will be borne for a full twelve-month period. In addition to these costs, there is a demand already afoot for further general increases to all employees to meet the constantly rising cost of living. All in all, the picture for 1948 is not encouraging, and it is one which is causing much concern to the financial officers of our city.

As Temporary Mayor of the city, with a very uncertain term, I have been reluctant to institute any long-range program. However, I am convinced that a survey of all city activities should be conducted by an impartial agency, part of which survey should include the establishment of a compensation and classification plan for employees. This is an imperative necessity, as is the employment of a personnel director, with tenure of office, who would have authority to pass

upon all appointments, changes in salaries, transfers or wage adjustments and other personnel matters. The adoption of such a plan and the employment of such a director would not only eliminate political preference to a great extent but would permit the Mayor to devote his time to other matters instead of personnel matters which now consume so much of his available time.

It is my purpose, while I am Mayor, to keep in check, as much as possible, pay roll costs, and in this respect I have, and will continue, to question the necessity for permanent and temporary appointments to the city service. Wherever possible, when vacancies occur they will not be filled.

Unquestionably, the Boston Municipal Research Bureau sounds a sober warning to the city government which will receive sober study by our public officers.

MAYOR JOHN B. HYNES,
Boston, Mass.

TEMPORARY MAYOR HYNES ADDRESS BEFORE POWER ENGINEERS' CONVENTION.

(Continued from page 1009.)

When I was told that the power engineers were coming here to Boston, I naturally visualized men of great brawn and strength—men who resemble Atlas. Well, you might not be men of mighty muscles—though I can see many of you are—but, certainly, no other group of men carry upon their shoulders a greater weight of responsibility to so many millions of our people.

I hesitate to think what modern-day America would do, geared up as we are to speed on every hand, were the power engineers to suddenly decide to get away from it all and take up farming, or horticulture, or even politics—and, believe me, the latter occupation has its hazards, as can be attested from the experience our city is now going through.

There is an old, old saying that the hand that rocks the cradle rules the world.

MASTERS OF MACHINERY.

That might well be true in a sense, and of course we don't want our ladies to think otherwise, but, in a practical sense, if there is any hand that rules

and shapes the course of the world, it is the hand behind the brain and the knowledge of you men who guide, direct and control the machinery of productivity.

To the uninitiated, modern-day machines are uncanny in their wealth of complexities, their intricacies and their almost human ability to do things which were not dreamed of twenty or even ten years ago.

But, as uncanny as they may be, man is still master of the machine, and, no matter how wonderfully put together a machine may be, man is still more wonderfully put together, because in man God has put a brain, with power to think and to reason.

The most perfect machine ever devised is worthless unless men like you, trained and educated, control that machine and make it do your bidding.

The industrial efficiency of America is a byword all over the world. In a large measure, the wheels that turn to make that efficiency possible are guided and controlled by you. In your hands, then, is a great responsibility to your country and to your fellowman. If the wheels fail to turn, and the power that is so necessary in our scheme of living is not generated, America is like a giant who has not learned to walk.

In the great advances that have come about to make our nation the greatest in the world, many individuals and many groups are entitled to undying praise, and your group of highly skilled, responsible-minded men are certainly entitled to share in that praise.

You have made no small contribution to the greatness of America. All power to you, now and in the future.

Once again, welcome. Glad you are here. Don't wait so long again to make our city your convention headquarters. I understand it has been forty-four years since you have been here. Don't let it happen again, and let me assure you, when you do come again, we will roll out the golden carpet for you.

PLANS FOR "SI" ROSENTHAL DAY, SEPTEMBER 13TH.

Temporary Mayor Hynes has accepted honorary committee appointment and has purchased tickets for "Si" Rosenthal Day at Fenway Park, Saturday, September 13, 1947.

A committee under the direction of Honorary Chairman Congressman John W. McCormack, Congressman John F. Kennedy, Mayor John B. Hynes, Attorney-General Clarence A. Barnes, State Auditor Thomas J. Buckley, Rabbi Herman Rabinowitz, Bishop Nash, aided by the United Veterans of America, Mattapan Post 302, JWV, the Jamaica Plain Post 76, American Legion,—launched their campaign for "Si" Rosenthal, formerly a player with the Red Sox, who was seriously wounded and paralyzed as a result of a torpedoing of his ship. He enlisted at the age of 39. "Si" lost his son in the service, and is now a patient at the Cushing General Hospital in Framingham, as a result of the injury received.

The purpose of the drive is to raise \$25,000 to purchase a specially built home with ramps so that he can leave the hospital and enjoy the last days of his life in comfort, with his wife and family.

The baseball game on that day will be between the Red Sox and the Cleveland Indians. There will be a raising of colors

and an attendance by notable sport celebrities throughout the country.

The committee consists of:

Chairman Leroy Davis, Co-Chairman Syd Gantman, Trustee State Auditor Honorable Thomas J. Buckley, William Costa, Executive Director, Variety Club of New England, Sol Gurvitz, Assistant Attorney-General of the Commonwealth, Treasurer Max Goldman, Financial Secretary Arthur Peterson, National Shawmut Bank of Boston.

Liaison Committee, Murray Kassler. Military Affairs Committee, George Hirsch.

Procurement Committee, D. F. Lamphier.

Executive Committee, Samuel Levine, Eddie Cutler, Nate Rosenberg, Arthur Fox, YMCU, Julius Ansel, Representative Daniel Rudsten, Secretary Pearl Gurvitz.

HOUSING AUTHORITY YIELDS TO FINANCE COMMISSION.

The following letter was on August 25 received by Temporary Mayor John B. Hynes from the Boston Housing Authority:

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MAYOR HYNES,—In regard to the contract for building homes in the Baker street area of West Roxbury, and on which the Allied Engineering Corporation was the low bidder, this Authority, following the suggestion of the Finance Commission, has taken the following action.

We have requested and received detailed statements of the organization and financial condition of the corporation, and also the experience and training of its executives.

It now appears that the performance bonds of the three contracts mentioned in the Finance Commission report are placed with three different high-grade companies, and that, although the Peerless Casualty Company is the smallest of the three companies, it has ample resources to meet this bond. Furthermore, in accordance with general bonding practice, a large portion of the bond has been reinsured with other companies.

The Allied Engineering Corporation states that if the use of a non-union sub-contractor causes delay or trouble in carrying out the contract it will substitute a union contractor acceptable to this Authority, if so desired.

This Authority has previously voted to amend this contract. On the basis of the above information, it has voted to proceed with the contract.

We sincerely trust this will meet with your approval.

Very truly yours,

BOSTON HOUSING AUTHORITY,
FRED A. DAKIN.

ASSURANCES ACCEPTED ON HOUSING CONTRACTOR'S ABILITY TO COMPLETE WORK.

The following letter was received on August 26 by Temporary Mayor John B. Hynes, from Robert E. Cunneiff, Secretary of the Finance Commission:

HONORABLE SIR,—The Finance Commission acknowledges the receipt of your letter of August 25, 1947, in regard to the award of a contract for veterans' housing on Baker street, West Roxbury.

The Commission notes that you have been assured by the Boston Housing Authority that the Authority has now called for and received "detailed statements of the organization and financial condition of the corporation, and also the experience and training of its executives." It notes also that the Authority has informed you that it has examined into the situation with respect to the performance bond on the contract and is satisfied that the bonding company has ample resources. Moreover, the Authority gives the assurance that "furthermore—a large portion of the bond has been reinsured with other companies."

With respect to the possibility of delay in prosecution of the contract, which might come from the fact that a sub-contractor under the Allied Engineering Corporation bid is a non-union concern, the Commission notes the following statement of the Authority:

"The Allied Engineering Corporation states that if the use of a non-union sub-contractor causes delay or trouble in carrying out the contract it will substitute a union contractor acceptable to this Authority if so desired."

It was due to the failure of the Housing Authority to obtain the foregoing assurances when the contract was originally awarded which led the Finance Commission to address you on the matter a fortnight ago. Accepting the assurances contained in your communication, it would appear that the impediments indicated by the Finance Commission which were the basis of your suspending action in the matter have now been removed.

Respectfully submitted,

EDWARD F. MULLEN, *Chairman*,
ALEXANDER WHEELER,
LEO J. DUNN,
FREDERICK DEANE,
FREDERICK W. ROCHE,
The Finance Commission.

ROBERT E. CUNNEIFF,
Secretary.

CIRCULAR LETTER NO. 17.

CITY OF BOSTON,
MAYOR'S OFFICE, August 21, 1947.

To Department Heads and Officials.

At the present time, the Attorney General of the United States is conducting a nation-wide investigation of price increases which have occurred in the past twelve months. A request has been received from Grant W. Kelleher, Special Assistant to the Attorney General in charge of the Boston office, that the city cooperate in this movement by furnishing information relating specifically to the purchase of food, clothing, housing, and building materials where material mark-ups in prices have occurred in recent months. In the belief that the city has a vital interest, not only on its own direct behalf but also on behalf of its citizens, in preventing unwarranted and unjustified increases in living costs, I have delegated Mr. Joseph A. Scolponeti, Corporation Counsel, to serve as liaison officer for the city and to head the cooperative effort with the Department of Justice. Naturally, Mr. Scolponeti will need the assistance and cooperation of the heads of the various departments. You are, therefore, directed to survey departmental purchases since the removal of price controls, roughly one year ago, and to submit to Mr. Scolponeti at your earliest convenience any marked increases in prices

of the commodities previously mentioned or which occur in the future. Because of the widespread benefits which may result from the current investigation, you are requested to give your immediate consideration and attention to this matter.

Respectfully,

JOHN B. HYNES,
Temporary Mayor of Boston.

NOTICE TO DEPARTMENT HEADS.

CITY OF BOSTON,
MAYOR'S OFFICE, August 25, 1947.
To All Department Heads.

A meeting of the committee to prepare for the observation of Rededication Week in Boston will be held on Thursday, August 28, at 10.30 a. m., in the Council Chamber, City Hall.

The enclosed folder which was sent out in connection with our first meeting is a general statement of the purpose of the program in which I am asking you to participate.

There will be no solicitation of funds in connection with this observance.

The central theme of Rededication Week will be dramatized by the arrival in Boston of the "Freedom Train" which will tour the entire country for the purpose of giving an opportunity to all citizens to see original historical documents including the "Bill of Rights" and other precious relics connected with the founding of our country which have been loaned by the government for this epoch-making tour.

Our observance in Boston is part of a great national program which will begin during the month of September. Your participation and that of the organization which you represent is essential if we are to acquaint all the people in Boston with the meaning of this event.

If you are unable to attend the meeting, I would appreciate your sending a representative and I would be grateful for your acceptance of a place on the general committee to promote Rededication Week in Boston.

Very truly yours,

JOHN B. HYNES,
Temporary Mayor.

CONSTRUCTION WORK.

The Temporary Mayor has approved the request of the Public Works Department for the following construction work:

A sanitary sewer of 12-inch pipe in Symphony road, between 200 feet west of Saint Stephen street and 232 feet west-erly, in the Roxbury district, at an estimated cost of \$6,900.

A surface drain of 4-foot 3-inch circular concrete or a 54-inch reinforced concrete pipe, one drop inlet, and five minor drains in Lewiston street and private land (Sumner Brook), between Frazer street and Edwardson street, in the Hyde Park district, at an estimated cost of \$15,000.

A surface drain of 10-inch pipe and one new manhole in Sherborn street, between Bay State road and 110 feet south-west-erly, in the Roxbury district, at an estimated cost of \$1,045.

A sanitary sewer 10-inch pipe, and one catch-basin and connection in Nearen row, between Ferrin street and Tremont street, in the Charlestown district, at an estimated cost of \$3,600.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon August 14 the Temporary Mayor approved a contract with Daniel Russell Boiler Works, Inc., for repairing and re-tubing boilers in various schools. Bids, opened Monday, August 11, were as follows:

Daniel Russell Boiler Works, Inc., \$6,415; The Hodge Boiler Works, \$10,700.

FIRE DEPARTMENT.

Upon July 30 the Temporary Mayor approved a contract as indicated in the following letter:

BOSTON, July 21, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—On Friday, July 11, 1947, proposals were received and opened at the office of the Fire Commissioner for doing the laundry work of the Fire Department for the last five months of 1947 in accordance with an advertisement in the *City Record* of July 12, 1947.

Only one eligible proposal was received in response to the advertisement, as follows:

Merchants Towel Supply and Laundry Company, Inc.: Sheets, 6 cents each; pillow slips, 3 cents each; towels, 2 cents each; bedspreads, 8 cents each; blankets, 25 cents each.

Based on the estimated quantity of laundry work for the five months

beginning August 1, 1947, the approximate total of the foregoing bid is as follows:

Merchants Towel Supply and Laundry Company, Inc., \$2,526.

The estimated work to be done for the Fire Department is as follows:

Sheets, 5,000 per month; pillow slips, 4,500 per month; towels, 1,900 per month; bedspreads, 90 per month; blankets, 100 per month.

The prices submitted by the Merchants Towel Supply and Laundry Company, Inc., are the same as those submitted by that company for doing the laundry work of the Fire Department during the year 1946.

During the past several years the only bid submitted for the performance of the foregoing work has been that of the Merchants Towel Supply and Laundry Company, Inc., which company has performed the work in a very satisfactory manner.

Subject to your Honor's approval the contract for doing the laundry work for the Fire Department for the last five months in 1947 will be awarded to the Merchants Towel Supply and Laundry Company, Inc., 59 Norfolk avenue, Roxbury, at the foregoing prices.

Respectfully yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

INSTITUTIONS DEPARTMENT.

Upon August 19 the Temporary Mayor approved a contract with Construction Units for the building of bituminous roads and drainage work at Long Island Hospital. Five contractors again took out specifications, and two filed bids, as follows:

Construction Units, \$62,140; J. A. Singarella, \$79,325.

OVERSEERS OF PUBLIC WELFARE.

Upon August 21 the Temporary Mayor approved a contract with Powers & Mehegan Company, Inc., for the installation of a new heating boiler and auxiliary equipment at the Wayfarers' Lodge, 30 Hawkins street, Boston. Bids, opened August 13, were as follows:

Powers & Mehegan Company, Inc., \$2,840; J. W. Praught & Co., \$3,158; Joseph F. Dwyer, \$3,555.

PUBLIC BUILDINGS DEPARTMENT.

Upon August 11 the Temporary Mayor approved a contract with the Consolidated Elevator Company for alterations to one passenger elevator in the J. J. Williams Municipal Building. Bids, opened August 6, were as follows:

Consolidated Elevator Company, Inc., \$5,518; P. S. Payne Company, \$5,932.

PUBLIC WORKS DEPARTMENT.

Upon July 28 the Temporary Mayor approved a contract with National Contractors Company, Inc., for surface treatment of existing bituminous macadam pavements at an estimated cost of \$41,350. The work to be done under this contract is to be completed on or before September 15, 1947. The following bids were received July 21:

National Contractors Company, Inc., \$41,350; S. J. Tomasello Corporation, \$45,700; Hancock Construction Company, \$57,100; John McCourt Company, \$60,050.

Upon July 28 the Temporary Mayor approved a contract with S. J. Tomasello Corporation for sheet asphalt pavement

in Emery road and Rugg road, Ward 22, at an estimated cost of \$17,886. The bids of James A. Susi and Dooley Brothers, Inc., were informal due to their neglect to bid on Item 14, calling for the setting or resetting of four street signposts, in the proposals submitted by them to the City Auditor and the Public Works Department. The work to be done under this contract is to be completed on or before December 31, 1947. The following bids were received July 21:

James A. Susi, \$16,455; Dooley Brothers, Inc., \$17,747.50; S. J. Tomasello Corporation, \$17,886; Caruso & Barone, Inc., \$17,967; Hancock Construction Company, \$19,275.50.

Upon August 19 the Temporary Mayor approved a contract with John Deveney Company for sheet asphalt pavement in Bellevue street, Bentham road, Corwin street, Mt. Ida road, Westville street, all in Ward 15, and School street, Ward 17, at an estimated cost of \$29,095. The work to be done under this contract is to be completed on or before December 31, 1947. The following bids were received August 8:

John Deveney Company, \$29,095; Edward M. Matz, Inc., \$29,609; S. J. Tomasello Corporation, \$29,796; Hancock Construction Company, \$29,970; Caruso & Barone, Inc., \$31,552; Dooley Brothers, Inc., \$32,094; Martin J. Kelly Company, Inc., \$32,536.50; A. Singarella and Son, \$32,729.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Temporary Mayor approved contracts with firms, contractors, etc., for furnishing supplies, labor, and the like. Communications from the heads of the several departments interested were as follows:

INSTITUTIONS DEPARTMENT.

BOSTON, August 4, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR MR. MAYOR.—Authority is requested to incur expenditures not exceeding \$2,000 for boat hire when the steamer "Stephen O'Meara" or motor vessel "James Michael Curley" is incapacitated.

This department has been accustomed to hire the "723," or equal, at \$30 per round trip, to allow the "O'Meara" crew time off,—one trip on Saturday, two trips Sunday, and as required on holidays. These trips are covered by service orders and charged to Item B-10 of the steamer budget. (See Service

Order No. 8 and such other orders as may be required.)

In addition to the regular trips, we are obliged to hire a substitute boat when either the "O'Meara" or "Curley" is out for repairs, and charge same to Item B-39. The department usually hires the "Corkum," a larger boat, at \$70 per day for this purpose although occasionally when the "Corkum" is not available the "723" is used.

The prices appear reasonable, and I believe nothing could be gained by advertising.

Respectfully,

G. FRANK McDONALD,
Commissioner.

PENAL INSTITUTIONS DEPARTMENT.

BOSTON, July 30, 1947.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR.—Your permission is respectfully requested to award a contract, without advertising, for making sixty-

five overcoats at \$32 per coat, total, \$2,080, to the Davis Clothing Company of 136 Harrison avenue, Boston.

The coats will be needed for the personnel of the House of Correction at Deer Island. The cloth was purchased at a War Assets sale, and is of U. S. Navy standard.

On May 20, 1947, letters were sent to various clothing manufacturers requesting a price on this order and only two sent us bids, of which the Davis Clothing Company was the lower. The said concern has made uniforms and caps for this institution previously, and their work was very satisfactory.

As delivery cannot be made before the end of September, I am submitting the request now in order that work can be started immediately.

Very truly yours,

MAXWELL B. GROSSMAN,
Penal Institutions Commissioner.

PUBLIC WORKS DEPARTMENT.

BOSTON, August 14, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR MR. MAYOR,—The purchase of new meters in all sizes has been restricted by the lack of materials being furnished the manufacturers to fabricate the new meters.

In order to maintain meters on the 100,000 services in operation in this city, it is necessary to do considerable repair work to put old meters in condition for installation on service pipes. The department does not have the necessary parts or sufficient men to repair old and worn-out meters.

After consultation with the Hersey Manufacturing Company of South Boston, a proposal has been received whereby the Hersey Manufacturing Company has agreed to furnish labor and material necessary to repair or rebuild 5/8-inch meters, 3/4-inch meters, and 1-inch meters at their shop in South Boston. No advantage could accrue to the city to advertise this work as the Hersey Manufacturing Company is the only company in a position to furnish the necessary parts for installation in Hersey meters.

I respectfully request, therefore, your approval to the awarding of a contract, without advertising for bids, to the Hersey Manufacturing Company of 381 E street, South Boston, for the repair of 1,000 5/8-inch Hersey meters at \$7.60 each; 100 3/4-inch Hersey meters at \$11.40 each and 100 1-inch meters at \$16.72 each.

The above-mentioned prices have been reached by agreement with representatives of the Hersey Company and, in our opinion, said prices are fair and reasonable; and I might also add that these meters, when delivered, will be the equivalent of new meters, and the price of repairing them is only about one-half the cost of new meters.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works,

SUPPLY DEPARTMENT.

BOSTON, July 9, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Your approval is requested to award a contract without public advertisement to Remington Rand, Inc., for the following:

1 Type 285 Tabulator—90 Col. Alphabetical equipped with: 1/25 Alpha Sector,

2/25 Numeric Sector, 1/10 Numeric Sector, ST & GT Accumulators in units 2, 3 and 4, 100 CPM. Accumulator Splits, foot treadle, two additional W/U, \$16,904.

1 Type 220 Sorter 420 CPM. \$2,400.

This equipment is recommended by the City Collector after a study of the volume of business in his department. Attached is a copy of his letter. Remington Rand, Inc., are the sole manufacturers and, in my opinion, no advantage would be gained by public advertisement.

Total amount of award is \$19,304.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, July 30, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Your approval is requested to issue an order, without public advertisement, to Bowers Motor Sales Company, the low bidder, for one (1) Ford truck chassis and cab to be delivered to the Boston City Hospital.

Total amount of order will be as follows:

One (1) Ford truck chassis and cab, \$1,617.24; less excise tax, \$52.39—\$1,564.85; less trade-in, \$255; total, \$1,309.85.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, August 4, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—This office is in receipt of a requisition from the Water Division of the Public Works Department for 2,000 feet of 2-inch copper tubing.

The Mueller Company, 1322 Empire State Building, New York, has submitted a price of \$1.11 per foot, less 28 per cent. The Division Engineer of the Water Division has been consulted and he recommends that this material be purchased as soon as possible owing to the emergency existing in his division at the present time; also the scarcity of copper tubing.

It is therefore respectfully requested that permission be granted me to award an order, without public advertisement, to the Mueller Company for the above-mentioned material. The total amount of the order will be \$1,598.40.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, August 7, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—This office is in receipt of a requisition from Long Island Hospital for 100,000 gallons of No. 6 fuel oil.

The Petroleum Heat and Power Company has quoted a price of \$2.365 per barrel of 42 gallons at their dock and will arrange delivery to Long Island at an additional cost of 8 cents per barrel, without overtime.

Since no other supplier can furnish this product and also owing to the fact that the price quoted by Petroleum Heat and Power Company is their basic dock price, it is respectfully requested that permission be granted me to award a contract, without public advertisement, to the above-mentioned company.

Approximate total amount of contract, \$6,000.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

TRANSIT DEPARTMENT.

BOSTON, August 13, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Your approval is respectfully requested to place an order, without public advertisement, with the Corcoran Motor Sales Company, of Wellesley, Mass., for furnishing one new 1947 Ford Super Deluxe Tudor sedan, fully equipped, at a net cost of \$1,405.

This department under date of July 7, 1947, received approval from your Honor for the purchase of one new 1947 Ford Deluxe Tudor, fully equipped, at a net cost of \$1,288.

The reason for requesting this approval is because the above is not obtainable. Due to labor conditions in the automobile industry the Corcoran Motor Sales Company are unable to deliver the Ford Deluxe Tudor but can substitute a Ford Super Deluxe Tudor for \$117 more than the amount of the original order.

The total amount of the order would be \$1,405.

We therefore request further approval for the new purchase.

Yours respectfully,

MALCOLM E. NICHOLS,
Chairman.

EXTENSION OF CONTRACTS.

PARK DEPARTMENT.

M. S. Kelliher Company has been granted an extension of time until September 15, 1947, for the completion of the contract for new field house, Ross Playground, Hyde Park, signed August 29, 1946.

Walter Reed Corporation has been granted an extension of time until September 10, 1947, for the completion of the contract for sheet asphalt pavement on roadways in Jamaicaaway, Riverway, Franklin Park, and Commonwealth avenue, signed May 9, 1947.

PUBLIC WORKS DEPARTMENT.

A. Singarella & Son have been granted an extension of time for completion of the contract for laying cement concrete pavement in Cushing avenue, Ward 13, from Columbia road to Windermere road, from August 1, 1947, to September 1, 1947. This extension is requested for the reason that the contractor has been delayed by weather conditions and slow delivery of materials necessary to carry on the work.

SUBSTITUTE WORK UNDER CONTRACT.

DEPARTMENT OF SCHOOL BUILDINGS.

John H. Pray & Sons Company have been ordered to substitute dark brown tile for red tile, making floor all one color, in the Administration Building, 15 Beacon street, and the amount of \$117 will be deducted therefor, making the account as follows: Contract price, \$1,495; total additions, none; total deductions, \$117; amount of contract, \$1,378.

EXTRA WORK UNDER CONTRACT.**PUBLIC WORKS DEPARTMENT.**

Baker & Co., Inc., have been directed to perform the following extra work under the contract for laying sheet asphalt pavement and sewerage and water works in Independence Drive, from Veterans of Foreign Wars Parkway to Brookline line, dated February 18, 1947. Items ordered: Remove from existing site and transplant two 12-inch trees, for the sum of \$500.

DEDUCTION FROM CONTRACT.**FIRE DEPARTMENT.**

Approval has been given for the following deduction in the contract of the Rossano Construction Company, Inc. dated April 8, 1947, for alterations to Fire Station, Engine 14, located at Eliot square, Roxbury:

Deduction No. 1, \$86.40. Five hundred dollars was allotted in the contract to cover furnishing and installation of finished hardware. In accordance with recommendations from Mr. Nicholson, Supervisor of Construction, we will install twelve screens and four screen doors in officers' rooms and bunkroom, new front door with hardware, etc., and new closet door complete with hardware, etc., at a cost of \$324. The general contractor has obtained a price for furnishing the necessary hardware in the amount of \$89.60. This will mean a deduction of \$410.40 from the contract sum; thus, there will be a net deduction of \$86.40. Total of original contract, \$21,804; total of additions of July 15, 1947, \$1,882.05; total of contract plus additions, \$23,686.05; deduction, \$86.40; total contract with foregoing deduction and additions of July 15, 1947, \$23,599.65.

ADDITIONS TO CONTRACT.**PARK DEPARTMENT.**

John Rugo has been allowed to perform additional work on the contract for the Columbus Park field house, South Boston, as follows:

1. For replacing present water closets in girls' toilet with new fixtures, add the sum of \$170.

2. For cutting new door into garage from exterior, the following work shall be done: Kalemien door and transom erected, \$105; hardware, not including door check, \$22; wire mesh grille, installed, \$12; angle-iron lintel, \$7; glass and glazing, \$8; painting, \$15; patching stucco, \$35; bronze threshold, \$15; cut and patch brick opening, \$41—\$260; insurance, overhead and profit, \$26; total, \$286.

Therefore, add the total sum of \$436 to your contract sum of \$31,285, making a new contract sum of \$31,741.

TRANSFERS OF APPROPRIATIONS.

The Temporary Mayor has approved the following requests for transfers of appropriations in accordance with the provisions of section 3B of the amended City Charter and for the reasons as below explained:

HOSPITAL DEPARTMENT.**General Division.**

From B-15, Motorless Vehicle Repairs, \$500, to D-11, Gas, Oil and Grease, \$500.

From B-3, Advertising and Posting, \$300, to D-11, Gas, Oil and Grease, \$300.

From E-10, Electrical, \$1,500, to E-13, Miscellaneous Materials, \$1,500.

The transfer to D-11 is needed to meet the cost of gasoline to be delivered from August 1 to December 31.

The transfer to E-13 is needed to release various items of yard goods needed in the Housekeeping Department, rubber-tired casters already ordered for various trucks, etc., and various miscellaneous supplies chargeable to this item.

It appears at this time that there may be a surplus in items from which amounts are being requested unless some unforeseen emergencies arise that cannot be anticipated at this time.

Sanatorium Division.

From B-18, Cleaning, \$750, to D-8, Laundry, Cleaning, Toilet, \$750.

From B-22, Medical, \$500, to C-12, Medical, Surgical and Laboratory, \$500.

From F-11, Workmen's Compensation, \$500, to E-13, Miscellaneous Materials, \$500.

The transfer is needed to D-8 to release orders for toilet paper, soap powder, and other cleaning materials now being held in the Auditor's office because of lack of funds. Increased costs of soap, paper towels, and toilet paper have depleted our D-8 appropriation.

The surplus in B-18 has come about because, in the interest of economy, we have refrained from letting our window cleaning contract for this year until the painters and waterproofer are through working on the various buildings. Consequently, we will not have the customary three cleanings this year.

The transfer to C-12 is being requested to release orders for supplies for our new operating room, which are now being held in the Auditor's office because of lack of funds.

The surplus in B-22 has come about through the delay in opening our new operating room.

The transfer to E-13 is needed to release an order for shroud cotton now being held in the Auditor's office.

A reduction in the number of Workmen's Compensation cases so far this year has caused the surplus in F-11.

INSTITUTIONS DEPARTMENT.

From Long Island Hospital, B-39, General Repairs, \$1,000, to Long Island Hospital, D-8, Laundry, Cleaning and Toilet, \$1,000.

To provide for purchase of soap, cleaners, paper towels, etc., for the remainder of the year. Requisitions Nos. 789, 878, 956 and 980 are being held on account of insufficient funds. Prices have advanced more than we anticipated and make necessary this transfer. There will be sufficient balance under B-39 to provide for transfer.

From Steamer "Stephen O'Meara," B-39, General Repairs, \$100, to Steamer "Stephen O'Meara," B-4, Transportation of Persons, \$100.

To provide for car fares of crew during period steamer was being repaired at the Quincy Drydock and Yacht Corporation, March 7 to May 4. Repairs outside of Boston could not be anticipated when budget was prepared. There is sufficient balance under B-39 to provide for this transfer.

PARK DEPARTMENT.

From B-6, Teams, \$20, to B-16, Care of Animals, \$20.

This transfer is needed in order that we may pay for veterinary services covering five visits and medicine for one of the horses in the department.

PUBLIC BUILDINGS DEPARTMENT.**Market Division.**

From D-3, Fuel, \$100, to D-8, Laundry, Cleaning, Toilet, \$100.

Due to the increased cost of cleaning supplies this amount is necessary.

PUBLIC WORKS DEPARTMENT.**Paving Division.**

From B-6, Hire of Trucks, \$1,500; B-14, Motor Vehicles, Repair and Care, \$2,000; B-42, Miscellaneous Services, \$10,000; C-17, Miscellaneous Equipment, \$1,000, to E-2, Highway Materials, \$14,500.

This transfer is necessary to provide money to purchase essential materials to repair roadways and sidewalks throughout the city for the remainder of the year. On account of the increased cost of all materials there is little or no money left in the budget to carry on this work. We estimate that the money can be spared at this time in the items we are transferring from.

Sanitary Division.

From B-14, Motor Vehicles Repair and Care, \$3,000, to E-13, Miscellaneous Materials, \$3,000.

To cover purchase of various automobile and sweeper parts, because of policy of the department to make such repairs in our own shops with our own labor forces.

Water Division.

From B-6, Hire of Teams and Auto Trucks, \$10,000; B-39, General Repairs, \$15,000, to B-42, Miscellaneous Services, \$25,000.

B-42. Money needed for replacing artificial stone sidewalks, sheet asphalt, granite block, macadam and reinforced concrete in streets over openings made by the Water Division.

B-6. Money is available because the hire of trucks has not been required to the extent that had been estimated.

B-39. Money is available because the remainder is estimated to be sufficient to the end of the year.

BUILDINGS RENDERED SAFE.

The Temporary Mayor has approved the request of the Building Commissioner to enter and make safe the following structures:

To enter the building or other structure, or the abutting land or buildings, at 1 Hull Street place, Ward 3, with such assistance as required, and make safe, vacate forthwith said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

To enter the building or other structure, or the abutting land or buildings, at 41 Chelsea street, East Boston, Ward 1, with such assistance as required, and make safe, vacate forthwith said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

To enter the building or other structure, or the abutting land or buildings, at 39 Chelsea street, Ward 1, with such assistance as required, and make safe, vacate forthwith said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

To enter the building or other structure, or the abutting land or buildings, at

28 to 40 Chelsea street, Ward 2, with such assistance as required, and make safe, vacate forthwith said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

To enter the building or other structure, or the abutting land or buildings, at 160 West Brookline street, Ward 4, with such assistance as required, and make safe, vacate forthwith said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

To enter the building or other structure, or the abutting land or buildings, at 158 West Brookline street, Ward 4, with such assistance as required, and make safe, vacate forthwith said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

By order of Fire Commissioner RUSSELL S. CODMAN, JR.

LOUIS C. STICKEL,
Acting Chief of Department.

LAND-TAKING IN DORCHESTER.

The Temporary Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston and are bounded as follows:

A parcel of land, supposed to belong to Henry J. Tamke, bounded:

Westerly by easement taken for sewerage purposes by the City of Boston, May, 1939, five and 10/100 feet; northwesterly by other land supposed to belong to said Tamke, twenty-two and 34/100 feet; easterly by easement taken for sewerage purposes by the City of Boston, January 25, 1893, eleven feet, and southerly by easement taken for sewerage purposes by the City of Boston, February 3, 1897, twenty and 41/100 feet, containing one hundred and sixty-one square feet, more or less.

The sewerage works to be constructed are as follows: 21 linear feet of 24-inch pipe surface drain.

Voted, That this Board determines that the undermentioned person sustains damages in his estate by the taking of an easement for sewerage purposes in private land (Freeport Street Extension), Dorchester district, under the order of the Board of August 11, 1947, in the amount hereinafter mentioned, and awards said amount therefor.

Henry J. Tamke, 161 square feet, \$1.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SHEET ASPHALT PAVEMENT IN ALMONT STREET, WARD 18, FROM SAVANNAH AVENUE TO ALABAMA STREET, AND RESERVATION ROAD, WARD 18, FROM RIVER STREET TO BRAINARD STREET.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Almont street, Ward 18, from Savannah avenue to Alabama street, and Reservation road, Ward 18, from River street to Brainard street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Almont Street, Ward 18, from Savannah Avenue to Alabama Street, and Reservation Road, Ward 18, from River Street to Brainard Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of WEDNESDAY, SEPTEMBER 10, 1947, with a certified check for FIFTEEN HUNDRED (1,500) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

PROPOSALS FOR SEWERAGE WORKS IN TOBIN ROAD, FLORIAN STREET, GOETHE STREET AND KERN ROAD, WEST ROXBURY; AND IN RIDGEMONT STREET, BRIGHTON, AND IN SHERBORN STREET, NEWBURY STREET, COMMONWEALTH AVENUE AND KENMORE STREET, ROXBURY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Tobin road, Florian street, Goethe street and Kerna road, West Roxbury; and in Ridgemont street, Brighton, and in Sherborn street, Newbury street, Commonwealth avenue and Kenmore street, Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Tobin Road, Florian Street, Goethe Street and Kerna Road, West Roxbury; and in Ridgemont Street, Brighton, and in Sherborn Street, Newbury Street, Commonwealth Avenue and Kenmore Street, Roxbury," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of THURSDAY, SEPTEMBER 11, 1947, with a certified check for FOUR HUNDRED (400) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

The Superintendent of Public Buildings of the City of Boston, hereinafter referred to as the Awarding Authority, invites sealed proposals for alterations and renovations to the South End Municipal Building, Shawmut avenue and West Brookline street, Boston, Mass.

Proposals will be received until 12 o'clock noon, Tuesday, September 9, 1947, at the office of the Awarding Authority, Room 1005, City Hall Annex, at which time and place they will be opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$500, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained on and after August 30, 1947, at the office of the Awarding Authority upon deposit of a certified check in the sum of \$25. This deposit will be refunded upon the return of the plans and specifications in good condition within ten days after the opening of bids.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All sub-bidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, September 5, 1947.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each sub-bidder, with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The Awarding Authority reserves the right to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all sub-bids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

LABOR IS THE STRONG RIGHT ARM OF INDUSTRIAL MIGHT IN AMERICA
TEMPORARY MAYOR JOHN B. HYNES REMINDS CITIZENS IN ADDRESS
ON BOSTON COMMON DURING EXERCISES COMMEMORATING LABOR
DAY—WARNS THAT SPIRIT OF COOPERATION AND MUTUAL RESPECT
BETWEEN LABOR AND CAPITAL NEEDED TO ACHIEVE AND SUCCESS-
FULLY ACCEPT OPPORTUNITIES NATION OFFERS TODAY AND WILL
CONTINUE TO OFFER IN THE FUTURE—WORKING MEN AND WOMEN
OF COUNTRY MUST REDEDICATE SELVES TO PRESERVING STRENGTH
OF REPUBLIC BY USING FORCE AND POWER AND INFLUENCE FOR
THE GOOD OF ALL THE PEOPLE.

The following were the remarks of Temporary Mayor John B. Hynes at the Labor Day exercises on September 1 at the Parkman Bandstand on Boston Common:

As the representative of the City of Boston I am grateful for the opportunity to participate in this radio program as part of the traditional Labor Day exercises.

Sixty-five years have passed since the first observance of this holiday, an observance suggested by one Peter J. McGuire of New York, a pioneer in the labor union movement. Two years later, in 1884, the Federation of Organized Trades and Labor Unions, the immediate predecessor of the American Federation of Labor, formally resolved that all of the working people of our nation should be honored annually by a holiday on the first Monday of September.

Today's ceremonies are an evidence that we of the present generation welcome the opportunity to pay tribute to labor for all that it has done to preserve and promote the American way of life. In peace and in war one of the greatest elements in the strength of our nation has been the energy, the loyalty, and the devotion of our working people. Their effort has made capital productive; their effort has built our cities and tilled our farm lands; their effort has extended our lines of communication and transportation; their effort, in brief, has been a vital factor in the development of the most powerful industrial nation in the world.

Responsibilities of the Present.

But labor cannot be satisfied with the recollection of what it has contributed to America in the past. Labor, like every other group of citizens, must be alert to the responsibilities of the present and the future. The working man and the capitalist alike must recognize that upon every one of us rests an obligation to make an earnest effort to maintain the greatness of this nation.

Equally entitled to the name of "Good Citizen" are, the worker who gives an honest day's effort and the employer who offers a fair day's pay. Equally deserving censure are, the worker who shirks on the job and the employer who denies to the working man or woman a fair share of the product of their common endeavor.

In other words, the continuing prosperity of America depends upon the practical recognition of the **duties** that are ours by virtue of our citizenship in this, the greatest democracy in the history of the world. The real strength of the labor movement is built upon just such a recognition of the duty that labor owes to capital, and the corresponding duty that capital owes to labor.

Cooperation and Respect.

Without such a spirit of cooperation and mutual respect neither labor nor capital could have achieved so magnificently in the past. Without such a spirit of cooperation neither labor nor capital can be worthy of the opportunities that our nation offers today and will continue to offer in the future.

On this Labor Day of 1947, a day that finds the world beset by so many distressful conditions at home and abroad, the working men and women of this country must rededicate themselves to the task of doing all that lies in their power to preserve the strength of this nation—a nation which in the past has prospered because of the productive efforts of labor, a nation which in the future shall likewise prosper so long as labor continues to contribute its immeasurable strength to the building of an ever greater America.

Labor is the strong right arm in the industrial might of America.

May your mighty force and influence always be used for the good of all our people.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

NATHAN HASKELL DOLE.

CONSTRUCTION OF NATURAL HISTORY MUSEUM, OUT OF WHITE FUND MONIES, DEFENDED AND EXPLAINED BY TEMPORARY MAYOR JOHN B. HYNES—ADVANTAGES ALL WITH CITY INCLUDING DEFINITE NEED FOR SUCH A STRUCTURE AND EXHIBITS IT WILL CONTAIN—WILL NOT INTERFERE WITH CONTEMPLATED PLANS FOR IMPROVEMENT OF ZOO AT FRANKLIN PARK WHICH WILL REQUIRE AN APPROXIMATED EXPENDITURE OF \$4,000,000.

Upon August 28 the Mayor issued the following statement:

After many months of study and discussion, the White Fund Trustees have recently voted to proceed, subject to the approval of the Probate Court, to the construction of a Natural History Museum in Boston. The Museum will be constructed on Embankment Road overlooking the Charles River, adjacent to the Shell, and in surroundings of natural beauty and available and easily accessible to the population of Boston.

It is estimated that the construction of this Museum Building will entail the expenditure, out of White Fund income, of approximately \$1,000,000. The Museum will be equipped, staffed and maintained by the New England Museum of Natural History on a lease arrangement with the City of Boston. It is to be noted that there will be no maintenance cost assumed by the taxpayers of Boston as is ordinarily the case when there is a large expenditure from the White Fund income.

It appears that there has been, from some quarters, mild criticism of the construction by the White Fund of a Natural History Museum rather than use of this income for the construction of a Zoo. Aside from the fact that the construction of a new Zoo in Boston would very likely call for the expenditure of \$4,000,000 at present costs, it must be remembered that the City of Boston now has a great investment in an existing Zoo at Franklin Park in delightful surroundings, which can be developed into one of the best Zoos in the United States.

As a matter of fact, the City of Boston has already, this year, started on a program of improvements to the present Zoo at Franklin Park by the expenditure of \$25,000 for a new lions house. Councilors Bayley and Bryan were, this year, enterprising enough to found a fund for the purpose of new animals for the Zoo. For some years it has been impossible to purchase the animals desired for the Zoo and it has also been impossible to obtain the materials necessary for the physical improvement of the Zoo. From this point forward, however, these impediments will no longer exist and there should be no ban now to a program of improvements, physical and otherwise, to bring the present Zoo at Franklin Park to a par with the large Zoos in our Country.

INTEREST IN MUSEUM.

Statements made that there is little if any interest in a Natural Museum seem to have been made in error. From figures furnished me, it is a fact that over 2,300,000 persons visit the National Museum in Washington annually, and over 2,000,000 persons visit the American Museum of Natural History in New York City. The Museum in Buffalo, New York, a city of 600,000, attracts visitors to the number of 350,000 annually.

There is not the slightest doubt in my mind of the value of a Museum of Natural History in Boston. It is the type of investment of income from the White Fund which the donor of the fund, George Robert White, intended. There will be no cost to the City of Boston for its maintenance and upkeep. It will add to the attractiveness of our city and will permit us to maintain our cultural standards. There is no intention on the part of the City of Boston to forego its duty with respect to the maintenance and operation of a modern Zoo. That can and will be done and it would be folly, in my opinion, to scrap our present Zoo with its natural surroundings.

I am most certain that the citizens of Boston will be extremely proud of a new building housing the Museum of Natural History. For a large city such as Boston with its cultural traditions to be without such a Museum does not add to the stature of our community. The school children of Boston, in addition to its adults, will be denied access to the most valuable evidences of nature's work unless such a Museum is provided. It must also be considered that when such a building is constructed by the White Fund Trustees, the New England Museum of Natural History have agreed to construct a planetarium in connection

therewith from funds which will be made available from private sources.

I am contented that the building of a Natural History Museum, out of the proceeds of the White Fund income in addition to the other program now under way by the White Fund, will be in conformity and in accordance with the desires and the will of the great philanthropist, George Robert White.

JOHN J. MURPHY NAMED PARK COMMISSION CHAIRMAN.

The Temporary Mayor on September 2 announced the appointment of John J. Murphy to be Chairman of the Board of Park Commissioners.

John J. Murphy of 67 Avalon road, West Roxbury, was born in Boston, 1893, graduated from Mechanic Arts High School, now the Boston Technical High School, and from Lowell Institute in 1917.

Mr. Murphy has been employed by the Park Department since 1912, first entering the city service as a rodman, and by graduated steps promoted to be chief engineer of the department in 1922. In 1941, Mr. Murphy was made Deputy Commissioner of the Park Department and has had, during this latter period, supervision over all the maintenance activities of the department.

Mr. Murphy is married, and resides with his wife, Cecelia B. Murphy, and four children. The eldest, Robert L., is a student at Massachusetts Institute of Technology and is nineteen years of age. Jean, seventeen years old, is a student at Girls' Latin School; John, fourteen years old, at Boys' Latin School; Gerald, ten years old, is entering Latin School this year.

Mr. Murphy states he will make every effort to improve the park system and the recreational activities of the Park Department and to recommend improvements in the park system which have not been possible to make because of the period of the war.

TEMPORARY MAYOR HYNES PRAISES PARK COMMISSIONER FOR LONG CAREER AS PUBLIC OFFICIAL.

His Honor, Temporary Mayor Hynes, on September 29 sent the following letter:

MR. WILLIAM P. LONG, *Chairman, Board of Park Commissioners.*

DEAR BILL,—May I, both officially and personally, extend to you on this, the eve of your retirement from the city service, my most sincere best wishes for your future health and happiness.

For over 50 years you have been an employee and official of the city government. Throughout all those years you have exemplified all that is good, dependable, and competent. During the score of years that you were head of one of the city's most important departments, you demonstrated, time after time, and constantly, an ability to handle the affairs of that department with a proficiency which has made that department one of the best in our country. In all these years of devotion to duty, not once has there been a suggestion of incompetency, and not once has there been a suggestion of wrong-doing. Your upright character, your wide knowledge of your department and of the city government generally, will forever be asso-

ciated with our Park System. Your retirement as a city official is a great loss to the city.

I admired you when I first knew you 25 years ago. I have never lost that admiration for you. On many occasions you have been my counselor, and at all times you have been my friend. I will miss you very much, and I think I speak for the citizens of our city when I say that you have been one of the best officials in the history of our city government.

Respectfully,

J. B. HYNES,
Temporary Mayor

SECRETARY FORRESTAL INVITED TO BE BOSTON'S GUEST AT OPENING OF REDEDICATION WEEK.

His Honor, Temporary Mayor John B. Hynes, on August 29 sent the following letter to the recently appointed Secretary of the Office of National Defense, Hon. James Forrestal:

DEAR MR. SECRETARY,—Rededication Week in Boston will begin on October 7. As you know, this celebration will be climaxed by the presence here of the "Freedom Train" on October 12. A luncheon of the business, industrial, and professional groups in the city will be tendered at the Hotel Statler on October 7 at 12.30 p. m., under the sponsorship of the Advertising Club of Boston.

The people of Boston would be very much honored if you could be present on that occasion to deliver an address which would sound the keynote for this week of events, and it will give great impetus to the whole program. As Mayor of the city I am pleased to extend an invitation to you, and I assure you that your acceptance would be greatly appreciated by all of us.

Respectfully yours,

JOHN B. HYNES,
Temporary Mayor.

Present plans for Rededication Week will bring into the celebration every civic, social, fraternal, and business organization in the city. The Mayor has expressed his desire to the committee handling Rededication Week that it be made one of the greatest events of its kind in the nation.

D'Amico for sewerage works in Sumner Brook in private land and Lewiston street; Lewiston street, Farrar avenue and Hyde Park avenue, Hyde Park, at an estimated cost of \$10,511.25, including reinforced concrete pipe surface drain. The work contemplated in the

contract is to be completed within ninety days after approval by the Temporary Mayor. The following bids were received August 7:

Including Circular Concrete Conduit.—J. D'Amico, \$12,581.25; Pacella Brothers, \$14,564; Anthony D'Alessandro Company, \$14,788; F. Susi & DeSantis Company, \$16,346; Joseph Civitarese & Co., \$16,850.50; N. Cibotti & J. Andreasse Company, \$22,013.10; Charles Struzziery Company, \$19,355; R. A. Buccella & Sons, \$17,496.

Including Reinforced Concrete Pipe Surface Drain.—J. D'Amico, \$10,511.25; Pacella Brothers, \$12,722; Anthony D'Alessandro Company, \$13,226; F. Susi & DeSantis Company, \$13,235; Joseph Civitarese & Co., \$14,293.50; N. Cibotti & J. Andreasse Company, \$14,593.10; Charles Struzziery Company, \$15,170; R. A. Buccella & Sons, \$15,658.

Upon August 27 the Temporary Mayor approved a contract with the Old Colony Construction Company for surface treatment of existing bituminous macadam pavements at an estimated cost of \$40,420. The work to be done under this contract is to be completed on or before October 15, 1947. The following bids were received August 18:

Old Colony Construction Company of Quincy, \$40,420; National Contractors Company, Incorporated, \$42,700; S. J. Tomasello Corporation, \$45,560.

SUPPLY DEPARTMENT.

Upon July 30 the Temporary Mayor approved a contract with the Noyes Buick Company in accordance with the request contained in the following letter:

BOSTON, July 29, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR:—On May 27, 1947, bids on proposals for furnishing motor vehicles were publicly opened and read. We received no response for one (1) Buick Model "51" or equal for the Child Welfare Division and one (1) Buick Model "71" or equal for the Boston Traffic Commission.

Proposals were again submitted to the Buick dealers, and one response was received from the Noyes Buick Company, Boston. In my opinion, no advantage would be gained from further public advertisement for bids.

It is requested that I be granted authority to award a contract to Noyes Buick Company for the following:

One (1) Buick Model "51" or equal, \$1,987, less trade-in, \$800—\$1,187; one (1) Buick Model "71" or equal, \$2,268.23, less trade-in, \$800—\$1,468.23. Total, \$2,655.23.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

Upon August 5 the Temporary Mayor approved a contract with McCarthy Brothers, the only bidder, for furnishing 50 wardrobes to the Boston City Hospital. Total amount of contract was \$3,945.

Bid, opened July 25, was as follows:
50 Only Wardrobes, as Per Specifications.—McCarthy Brothers, \$78.90 each; total, \$3,945; cash discount, none.

Upon August 7 the Temporary Mayor approved a contract with the General

Electric X-Ray Corporation, the only bidder, for furnishing one gas electro generator to the Health Department. Total amount of contract was \$4,157.

Bid, opened July 30, was as follows:

1 Only Gas Electro Generator, as Per Specifications.—General Electric X-Ray Corporation, \$4,157; total, \$4,157; best delivery date, within six months; cash discount, net.

TRANSIT DEPARTMENT.

Upon August 6 the Temporary Mayor approved a contract with Tractors, Incorporated, for air compressor, Rapid Transit Facilities, East Boston District. Bids, opened July 30, were as follows:

Air Cooled Direct Motor.—Clark-Wilcox, \$4,123, less discount, \$4,086.72, delivery in 12 weeks.

Air Cooled V-Belt.—Field Machine Company, \$3,632, less discount, \$3,559.36, delivery on January 1.

Water Cooled Direct Motor.—Hayes Pump and Machinery Company, \$5,550, delivery in 40 weeks; Ingersoll Rand Company, \$3,999, delivery in 26 weeks; Chicago Pneumatic Tool Company, \$3,906, delivery in one month; John S. Moore Company, \$3,802, delivery in February, 1948; Edson Corporation, \$3,690, less discount, \$3,616.20, delivery in three weeks; Tractors, Incorporated, \$3,621, less discount, \$3,548.58, delivery on August 15.

Water Cooled V-Belt.—Clark-Wilcox, \$4,316, less discount, \$4,272.84, delivery in seven to ten weeks; Hayes Pump and Machinery Company, \$3,611, delivery in 16 weeks; Ingersoll Rand Company, \$3,892, delivery in 22 weeks; Chicago Pneumatic Tool Company, \$3,709, delivery in one month; John S. Moore Company, \$3,769, delivery in December, 1947, \$3,942, delivery in January, 1948; Pennsylvania Pump and Compressor Company, \$3,838, delivery in thirty days; Edson Corporation, \$3,840, less discount, \$3,763.20, delivery in four weeks; Tractors, Incorporated, \$3,893, less discount, \$3,815.14, delivery on August 15.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Temporary Mayor approved contracts with firms, contractors, etc., for furnishing supplies, labor, and the like. Communications from the heads of the several departments interested were as follows:

HOSPITAL DEPARTMENT.

BOSTON, July 29, 1947.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR SIR:—Your approval is respectfully requested for the award of a contract, without advertising, to Commercial Refrigeration Company, for furnishing and installing Frigidaire Air-Conditioner, Bacteriological Laboratory, Boston City Hospital, in the sum of \$1,510.

Bids were invited from four companies but only two were received which were as follows: AirCon Service, Incorporated, \$1,864; Commercial Refrigeration Company, \$1,510.

The Trustees feel that nothing can be gained by advertising and therefore recommend the award of this contract to the Commercial Refrigeration Company, in the sum of \$1,510.

Respectfully yours,

M. J. ENGLISH,
President, Trustees.

EXTRA WORK UNDER CONTRACT.**PUBLIC WORKS DEPARTMENT.**

R. A. Buccella and Sons have been directed to perform the following extra work under the contract for rebuilding the Metropolitan Avenue Bridge over Stony Brook, dated August 5, 1947. Items ordered: Widen bridge on northerly side approximately 2.2 feet at west end and approximately 8 feet at east end as directed—additional area about 100 square feet. Estimated cost of extra work, \$600.

EXTENSION OF CONTRACTS.**DEPARTMENT OF SCHOOL BUILDINGS.**

S. M. Levin Company has been granted an extension of the time of completion of the contract for furnishing and delivering miscellaneous furniture to various schools. Completion date to be extended from May 15, 1947, to December 15, 1947. This extension is requested for the reason that, due to shortage of lumber, contractor was unable to obtain desired material for tables.

PUBLIC WORKS DEPARTMENT.

Baker & Co., Inc., has been granted an extension of the time of completion of the contract for sheet asphalt pavement in Independence Drive, from Veterans of Foreign Wars Parkway to Brookline Line, dated February 18, 1947, from September 1, 1947, to December 1, 1947. This extension is requested for the reason that the quantities in this contract have been substantially increased, and the contractor has been delayed by the operations of Public Service Corporations installing underground services.

CHANGES IN CONTRACTS.**BOSTON HOUSING AUTHORITY.**

The following changes have been ordered in the contract of the Matthew Cummings Company, for the general construction of 55 two-family houses at Captain John's Hill, West Roxbury:

Provide oil heating units in accordance with the attached specification, \$23,598.80; deduct for omitting gas connections, \$1,879.90—\$21,718.90; add electric connections to oil burning equipment, \$1,875—\$23,593.90; general contractor's profit, 7½ per cent, \$1,769.54—\$25,363.44; furnishing 30 (6-light) cellar sash, furnishing 55 (2-foot 6-inch by 5-foot 8-inch) basement doors, and changing basement stairs as directed, \$1,175; insurance, taxes, etc., \$180—\$1,355; deduct omitting water pipe in Mansfield street, \$768—\$587; overhead and profit, \$88.05—\$675. Amount of this proposal, \$26,038.49.

An equitable adjustment of the contract price and the contract time is established as follows:

The contract price is increased \$26,038.49. The contract time is not changed. The conditions hereinbefore referred to are as follows:

- (1) The aforementioned change, and work affected thereby, is subject to all the provisions of the foregoing contract;
- (2) the rights of the City of Boston are in no way prejudiced by this order;
- (3) all claims against the City of Boston which are incidental to or a consequence of the aforementioned change are satisfied.

Oil Heater Specification.

Oil Fired Boiler.—Furnish and install in basement for each suite one self-contained oil fired winter air conditioner

equal to "Sunbeam." This unit to be of the atomizing type listed and approved by the Underwriters Laboratories, Inc., to burn No. 2 fuel oil, and unit to be of mechanical draft construction. This unit is to have rated output capacity of 64,000 B.T.U. per hour, 600 c.f. per hour, air delivery at the register, complete automatic control system, air filters, and pan-type automatic humidifiers.

Oil Burning System.—Furnish and install for each boiler complete oil burning equipment as specified hereinafter and as necessary to fully carry out the intent of this specification.

Tanks.—For each oil burner the oil burning contractor shall furnish and install a standard 275-gallon steel fuel oil storage tank constructed of open hearth steel. The tank shall be shop fabricated and painted with two coats of rust-resistant paint before placing. Tanks shall be located in the basement, and the oil burning contractor shall do all excavation and all backfilling and regrading for the pipes for the tank. The following openings shall be furnished in the tank:

One 2-inch fill connection; one 1½-inch vent connection; one 1-inch suction connection; one 1-inch return connection; one 2-inch measuring device connection.

Measuring Device.—Furnish and install approved float-type measuring devices for each tank.

Piping.—Fill line shall be of 2-inch standard steel pipe and run from the openings in each tank to an accessible point at grade and fitted at this point with a suitable fill connection. Each vent line shall be of 1½-inch standard steel pipe and run from a point at the tank to the proper height above grade and fitted with a suitable type vent cap. Vent line shall be pitched back to the tank. The suction line shall be equipped with a fusible link near boiler and an automatic weighted shutoff valve designed to prevent the flow of oil in case of fire.

Draft Adjuster.—A suitable draft adjuster shall be installed in each smoke-pipe to maintain a constant draft on the boiler.

Combustion Chamber.—Build a combustion chamber inside boiler of the best grade of plastic firebrick, as specified by manufacturer.

Electrical Connections.—Starting at an outlet in the boiler room, furnish and install all electrical wiring in conduit, also all other devices, switches, relays, between oil burner, oil burner cutoff switch, and all controls, and also between thermostat and hot water circulating pump and devices.

Requirements.—The entire oil burning equipment shall be installed in accordance with all local and state requirements and those of the National Board of Fire Underwriters.

Testing.—Upon completion of the work, operate and test the system to the satisfaction of the city, and set all controls in their proper operating positions.

Guaranty.—The oil burner shall be guaranteed to carry the same heat load as required for the boiler under the boiler section. The contractor shall guarantee all work in accordance with Contract "Guarantee," pages 11-12, Items 11-17.

ADDITION TO CONTRACT.**FIRE DEPARTMENT.**

Approval has been given for the following additions to the contract of Rossano Construction Company, Incorporated,

for alterations and additions to Engine House 14, located at 27 Centre street, Roxbury:

Addition No. 5.—Furnish labor and material for replacing decayed sections of stair stringers and all stair risers and finish of main stairs from first to second floor. Also furnish and install metal bull-nosing with abrasive type treads on these stairs, \$549.

Addition No. 6.—Furnish and install two signs designating companies quartered in fire station, \$111.

Total of Additions Numbers 5 and 6, \$660; original contract, \$21,804; total of Additions Numbers 1, 2, 3, and 4, dated July 15, 1947, \$1,882.05; total contract with additions, \$24,346.05; deduction of August 5, 1947, \$86.40; total contract with additions and deduction, \$24,259.65.

After the contractor began tearing out the quarters of Engine 14 it was found that sections of the stringers and risers of main stair to second floor were decayed, making stairway unsafe. The work was not included in the original contract but must be done for the safety of persons using these stairs. Installation of the metal treads will continue the life of the stairway with greater degree than if the ordinary wood treads were exposed.

In order that the public may identify the fire companies occupying the station it is necessary to erect two single-faced signs on the station, one over each main door. This work was not included in the original contract.

Although the foregoing is in addition to the work contemplated in the original contract, it is incidental thereto.

TRANSFERS OF APPROPRIATIONS.

The Temporary Mayor has approved the following requests for transfers of appropriations in accordance with the provisions of section 3B of the amended City Charter and for the reasons as below explained:

BUILDING DEPARTMENT.

From A-1, Permanent Employees, \$12,946.65, to A-2, Temporary Employees, \$12,000, F-7, Special Items, \$946.65.

A-2. A pertinent section of chapter 143, General Laws, has been extended to March 1, 1948. Therefore the continued services of our present temporary employees is a necessity.

F-7. This transfer is required by the unexpected retirement of a veteran under section 56, chapter 32, General Laws.

A-1. This is the only available source from which the above can be transferred.

DEPARTMENT OF VETERANS' SERVICES.

From B-13, Communication, \$56, to B-10, Rent, Taxes and Water, \$56.

The above amount will be necessary for Item B-10 in order that sufficient funds will be available for the payment of the rental of two typewriters at the Buddies' Club, Boston Common. The present balance is already encumbered for the rental of water cooler machines and one Western Union time clock.

FIRE DEPARTMENT.

From C-13, Tools and Instruments, \$200, to C-12, Medical, Surgical, Laboratory, \$150, D-5, Medical, Surgical, Laboratory, \$50.

The transfer to C-12 is necessary inasmuch as funds were not allowed in that item and we desire to purchase 100 late

type Army stretchers for service with all companies in the Fire Department. At present many of our companies are without stretchers, and others now in service are in poor condition.

The Fire Department Requisition No. 1527 at present is being held in the Auditor's office. The requisition calls for bandages, compresses, iodine, burn ointment, etc., which supplies are carried in medical kits by all fire companies. The cost of the supplies in the requisition amounts to \$488.50, and there is a balance of only \$469 in Item D-5. The medical supplies are absolutely necessary, as many of the medical kits are empty at the present time. The balance of the \$50 transfer will be used to pay for small amounts of medical supplies which are needed from time to time.

There is sufficient money in Item C-13 to allow for the foregoing transfer.

HOSPITAL DEPARTMENT.

From B-16, Miscellaneous Supplies, \$400, to D-10, Agricultural, \$400.

The above amount is needed to meet the cost of outstanding bills covering loam, etc., delivered in the Spring to improve condition of the grounds. The cost of same exceeded the original amount requested in the 1947 budget estimate.

At this date of writing it appears that D-16 will have a surplus in the amount being requested.

INSTITUTIONS DEPARTMENT.

Long Island Hospital.

From B-39, General Repairs, \$250, to B-5, Express Charges, \$250.

To provide for express charges for the remainder of the year.

Early this year we were obliged to pay \$200 to have a bus transported to Long Island. This is the principal reason for the necessity of transfer at this time. There will be sufficient balance under B-39 to provide for this transfer.

PARK DEPARTMENT.

From E-13, Miscellaneous Materials, \$950, to D-10, Agricultural, \$700, D-8, Laundry, Cleaning, Toilet, \$150, D-13, Chemicals and Disinfectants, \$100.

This money is needed in D-10 at once so that we may purchase 1,000 gallons of Mistol, a D. D. T. spray, which is to be used on the trees and shrubs in the parks and on the street trees.

D-8. This money is needed for soap and cleaning materials for our laundry.

D-13. Money is needed in D-13 to pay for disinfectants for our bath houses.

From C-5, Motorless Vehicles, \$300, to C-9, Office, \$300.

From C-3, Electrical, \$230, to C-7, Furniture and Furnishings, \$230.

From E-13, Miscellaneous, \$1,125, to C-16, Wearing Apparel, \$1,125.

The money is needed in C-9 so that we may pay for one Burroughs adding machine, ordered last January, which will be delivered within the next few weeks. The order was issued by the Supply Department on January 8, and we have been carrying a deficit item in the C-9 account since the first of the year. This machine, with the turn-in allowance for the old machine, will cost approximately \$215.

We also desire to purchase one portable typewriter for use in connection with publicity work in the Recreation Division.

C-7. Needed to pay for metal trash baskets for Boston Common and Public Garden.

C-16. Needed to balance deficit existing on this account in Auditor's office, caused by increase in price of bathing

material which was estimated at \$2,000 but actually cost \$3,125. This is needed at once.

POLICE DEPARTMENT.

From E-10, Electrical Materials, \$300, to C-6, Stable Equipment, \$100, C-7, Furniture and Furnishings, \$100, E-1, Building Materials, \$100.

To adjust deficits. From information received from our Property Clerk it would appear that transfer from the item suggested may be made at this time.

C-6, Stable, allowance for 1947, \$200, expended through August 19, \$260.70; C-7, Furniture and Furnishings, allowance for 1947, \$750, expended through August 19, \$810; E-1, Building and Boat Materials, allowance for 1947, \$950, expended through August 19, \$980.

PUBLIC WORKS DEPARTMENT.

Paving Division.

From C-9, Office, \$1,000, to D-1, Office, \$1,000.

From C-17, Miscellaneous Equipment, \$200, to C-15, Tires, Tubes, etc., \$200.

From B-14, Motor Vehicle Repair, \$2,000, to E-13, Miscellaneous Materials, \$2,000.

Item 1. Money needed for forms, stationery, etc., for offices and yards.

Item 2. Money needed to purchase tires, chains, etc., for autotrucks.

Item 3. Money needed to purchase parts for repairing autotrucks.

From E-1, Building Materials, \$1,200, to B-4, Transportation of Persons, \$1,200.

This transfer is necessary to provide money for transportation of engineers on street work. This expense has heretofore been charged to "Public Ways, Construction of" but the City Auditor has disallowed any further charges of this character to the special appropriation.

Sanitary Division.

From B-6, Hire of Trucks, \$800, to D-16, Miscellaneous Supplies, \$800.

From B-14, Motor Vehicles, Repair and Care, \$1,500, to E-1, Building Materials, \$1,500.

D-16. Funds needed to cover present deficit in item of \$208.89, and estimated requirement to end of year.

E-1. Funds needed to cover present deficit in item of \$617.35, and estimated requirement to end of year.

From B-42, Miscellaneous Services, \$3,500, to B-39, General Repairs, \$3,500.

B-39. Funds needed as follows: \$1,700 to cover payment for repairs to Victory Road Station. Balance to take care of payments for repairs to Ward street and other installations.

TREASURY DEPARTMENT.

From Departmental Equipment Loan Reserve, \$56.75, to Departmental Equipment Loan, Treasury Department Office Equipment, \$56.75.

This reallocation is necessary to cover the increase in delivery price over list price of five typewriters ordered for this department in May, 1946.

SUFFOLK COUNTY.

MEDICAL EXAMINER, SOUTHERN DIVISION.

From C-12, \$15, to C-15, \$15.

To meet the cost of a battery for car, Registration No. 290. This battery was borrowed to replace battery which had failed in the old car and was not worthy of repair. The delay in purchasing a new car was so long that the rental charge was greater than the cost of the battery, which was new when placed in car. The battery was therefore purchased.

FIRE DEPARTMENT ORDERS.

General Order No. 57.

I. RETIREMENTS.

The following retirement which will become effective at 12 noon, August 30, 1947, is hereby announced:

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

SQUARE DEAL IN ASSESSMENTS FOR TAXATION.

Many cities are finding it greatly to their advantage to have their tax valuations periodically overhauled. The first criterion of any assessment is equity. For every citizen who wants through "pull" or however else to get off easy, there are twenty, nay a hundred who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

PROCEEDINGS OF CITY COUNCIL.

Monday, August 18, 1947

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 p. m. President KELLY in the chair. Absent, Councilors Bayley, Coffey and Seannell.

The meeting was opened with the salute to the Flag.

JURORS DRAWN.

Jurors were drawn, Councilor Chase presiding at the box, in the absence of the Mayor, viz.:

Four grand jurors, Superior Criminal Court, to appear September 3, 1947:

Irving Miller, Ward 12; Rubin Silverman, Ward 14; Richard A. Topham, Ward 18; Richard A. Towns, Ward 21.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments, viz.:

Constables, for the term ending April 30, 1948, authorized to serve civil process upon filing of bond: William C. Bowles, 63 Coleman street, Dorchester, Mass.; Philip Scarniel, 90 Homer street, East Boston, Mass.; John Andrew D'Arcy, 11 Adelaide street, West Roxbury, Mass.

Weighers of Goods, for the term ending April 30, 1948: Frederick A. Bigwood, 4386 Washington street, Roslindale, Mass.; Charles O. Boynton, 217 Washington street, Marblehead, Mass.

Severally referred to the Committee on Constables and Confirmations.

LANDING AT CHARLES RIVER BASIN.

The following was received:

City of Boston,

Office of the Mayor, August 5, 1947.

To the City Council.

Gentlemen.—I transmit herewith communication from the Metropolitan District Commission relative to your order of July 14, regarding roping off to make safe the landing at the foot of Dartmouth street at the Charles River Basin.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

Commonwealth of Massachusetts,
Metropolitan District Commission,
20 Somerset Street, Boston.

August 4, 1947.

Dear Mr. Mayor.—The Commission acknowledges receipt of your memorandum of July 22 with the accompanying copy of an order of your Honorable City Council asking that the landing on the Storrow Memorial Embankment at Dartmouth street be roped off or made safe.

The embankment is maintained by the Commission as a water front park, there are six other landings along it in addition to the one at Dartmouth street and no special hazards exist at Dartmouth street that could be particularly considered as uncommon to the other landings or that are not basically inherent in this kind of recreational development.

The end result in attempting to solve problems of this character, if carried to logical conclusions, would be a barricade at the water's edge the entire length of the embankment.

Very truly yours,

NELSON CURTIS, Secretary.

Placed on file.

INVESTIGATION OF BUILDING AT 141 MILK STREET, BOSTON.

The following was received:

City of Boston,

Office of the Mayor, August 11, 1947.

To the City Council.

Gentlemen.—I transmit herewith communication from the City of Boston Fire Commissioner and City of Boston Building Commissioner relative to your order of July 7, 1947, concerning the investigation by both the above departments concerning structural and fire egress conditions of the building located at 141 Milk street in the City of Boston.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,

Building Department, August 7, 1947.

Hon. John B. Hynes,

Temporary Mayor of Boston.

Dear Mayor Hynes.—Attached is the report of the examination made by our inspectors in response to a City Council order dated July 7, 1947, regarding the building at 141 Milk street, Ward 3.

With the exceptions noted in the report, conditions in the building appear to meet legal requirements.

I am enclosing also a report from the Fire Department concerning their examination of the premises.

Very truly yours,

JOHN J. MAHONEY,
Building Commissioner.

July 16, 1947.

August 4, 1947.

To John J. Mahoney, Commissioner, Building Department.

From James R. Cass, Inspector, Egress Division.
Nicholas D. Corsano, Inspector, Egress Division.

M. J. Caddigan, Inspector, Construction Division.

Subject: 141 Milk Street, Ward 3.

Dear Sir.—In accordance with your instructions we have examined the above premises and report as follows:

This is an eleven-story, Type I, building, occupied for office purposes. Five floors are used by the Federal Government and portions of two other floors.

The fire extinguishing apparatus consists of three standpipes and approximately 150 feet of 2½-inch hose on each floor; four SA extinguishers on each floor and sprinklers in the basement of the annex. Some of the hose is in poor condition.

Aggregate egress widths: stairways 9 feet 0 inches above first floor; fire escapes, 5 feet 0 inches.

There are exit and directional signs on each floor. (Painted.)

We make the following recommendations:

1. Main exit doors, Milk, Oliver and Batterymarch streets, must open in direction of exit travel and must have approved hardware.

2. Doors to front stairwell should be equipped with approved hardware and one door on second floor should be reversed.

3. Stairs over 36 inches in width should be railed on both sides.

4. Exit signs with lettering 5 inches in height required for doors to annex fire escape.

5. Cantilever should be put in proper condition.

6. Replace door in No. 3 opening in basement, annex.

7. Paint room in basement should be relocated, or, provided with proper fire resistance.

JAMES R. CASS, Inspector.

NICHOLAS D. CORSANO, Inspector.

I concur in the above report. From a structural standpoint, the building upon examination, reveals no defects.

M. J. CADDIGAN, Inspector.

Boston Fire Department.

July 21, 1947.

From Fire Prevention Division.

To the Fire Commissioner.

Subject: Inspection Report.

Re Collector of Internal Revenue,
United States Treasury Department,
141 Milk Street, Boston, Mass.

In accordance with instructions inspected the premises situated at the above location occupied by the Collector of Internal Revenue, United States Treasury Department.

The building in question is of Type I construction, eleven stories, owned by Amory Eliot Offices, 131 State street, Boston, Mass.

It appears that the first, second, third, fourth, fifth, sixth and seventh floors and basement are occupied wholly or in part by the Treasury Department.

Personnel varies from seven hundred and seventy to nine hundred employees.

Watchman service is provided by the owners of the building, period from 6 p. m. to 7 a. m. It was observed that no watchman time units were installed.

Entrance to the building may be made at 141-145 Milk street, 8 Oliver street and 35 and 37 Batterymarch street.

Elevators, five at 141 Milk street enclosed (at first floor only); two at Batterymarch street, unenclosed.

Stairways, three provided, one enclosed, two open construction.

Fire escapes, two, terminating to inner courtyard by means of cantilever ladder.

Source of heat, steam. Light, electric.

Fire appliances: Enclosed standpipes, three; gated valve outlet having 100 feet (approximately) 2-inch hose attached, straight and control nozzles attached. Three of such outlets in corridors of each floor. Hose in dilapidated condition at several locations. Fire extinguishers, three soda-acid type installed in corridors of each floor. Recharging date July 14, 1947.

Exit signs printed on exits and walls, red lettering on light background.

Building not equipped with an automatic alarm and sprinkler system. (Basement of annex provided with sprinklers.)

Various floors used for the storage of income tax forms and returns, same kept in wooden and metal cabinets.

It appears that the means of exit from restaurant in basement is inadequate.

It further appears that the three stairways now provided would not serve the purpose of hasty exit for the large number of employees in the event the elevators were out of commission.

It is advised that electric illuminated signs be installed at all exits and wall markings in large lettering as to the direction of such exits.

Recommend that the standpipe system and hose attached thereto be tested as to efficiency in case of fire.

It is further advised that paint storage room in basement be protected with fire door and glass window be wired glass.

In addition, installation of an automatic alarm and a sprinkler system is advisable.

Recommend that a diagram showing the approach and means of exit from the various floors be installed under glass in each room where personnel is employed.

Respectfully submitted,

WALTER F. REDDINGTON, Lieutenant.

SHADE TREES AND IMPROVEMENTS TO PARKS.

The following was received:

City of Boston,

Office of the Mayor, August 13, 1947.

To the City Council.

Gentlemen.—I transmit herewith communication from the Park Department relative to your order of August 4, 1947, regarding the planting of shade trees around the fringe of macadam parks and expedite the installation of swings, sandboxes, etc.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,

Park Department, August 12, 1947.

J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir.—The hard surfaced children's playground at Oak square, Brighton, was built near the end of the war. At that time materials for construction were very scarce. Trees planted at that time, without suitable tree guards, which at that time were unobtainable, would not have survived. A little better condition is now found in the wire and iron market.

Tree pits will be dug and filled with loam very shortly and the trees will be planted this fall. At other locations where there are hard surfaced playgrounds, where trees were not planted due to war conditions, or are in dire need of shade, immediate consideration will be given.

This department expects to receive a delivery of playground equipment very soon.

Respectfully yours,

JOHN J. MURPHY,
Deputy Commissioner.

CHILDREN'S PLAYGROUND, WARD 13.

The following was received:

City of Boston,

Office of the Mayor, August 13, 1947.

To the City Council.

Gentlemen.—I transmit herewith communication from the Park Department relative to your order of August 4, 1947, concerning the grading and construction of the old school property on Sumner street at Willis street, Ward 13, for use as a children's playground.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,

Park Department, August 12, 1947.

J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir.—The lot of land at Sumner and Willis streets, Dorchester, was formerly the location of the old Edward Everett School. It was turned over to the department on April 29, 1947. It is a three-level lot. It is in the heart of a residential district where a children's playground could be of much value.

The upper playground has an asphalt surface which is in fairly good condition. There is a swing shelter on this level. The shelter is in fair condition. The second level is of asphalt in fair condition. The lower level is in poor condition. The lower level should be surfaced with an asphalt pavement.

I estimate the cost of the reconstruction of the area and to make it into a children's playground, as follows:

Grading and excavating.....	\$500
Asphalt pavement.....	1,000
Repairs to steps.....	700
Repairs to shelter.....	600
New seats.....	600
New fencing and repairs to fences.....	2,000
Wall repairs.....	600
Trees and tree pits.....	400
Water supply, drainage and drinking fountain.....	800
Playground equipment.....	1,000
	\$8,200

The reconstruction of this area is one that would have to be undertaken by a construction contractor. There is no appropriation or nothing in the budget for this work.

Respectfully yours,

JOHN J. MURPHY,
Deputy Commissioner.

REPAINTING MEMORIAL PLAQUE, BRADLEE AND ALGONQUIN STREETS.

The following was received:

City of Boston,
Office of the Mayor, August 13, 1947.

To the City Council.

Gentlemen,—I transmit herewith communication from the Park Department relative to your order of August 4, 1947, regarding the repainting of the memorial plaque at Bradlee and Algonquin streets, Ward 17.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,

Park Department, August 11, 1947.

J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir,—The memorial plaque located on Park Department land at Bradlee street, Dorchester, was erected and paid for by private funds or donations from the residents and organizations in this area. It contains the names of all those who served in the armed forces of World War II who came from that section of Dorchester. It has been maintained by private parties or outside organizations. There are many such memorial boards in different sections of Boston, privately built, financed and maintained.

The only memorial board, or plaque, erected and maintained by the city is on Boston Common. Privately built and financed boards, or plaques, were erected during the war period by well-meaning citizens in local sections. They were never in any scheme of the city for permanent or even temporary recognition to those who served or died in the last war.

Under the circumstances, in my opinion, any city maintenance of such structures would have to be done to every one of them in almost every section of the city.

The present board needs to be repainted and relettered. Considering the precedent that would be established if the board on Bradlee street were singled out to be maintained by the city, I feel it might be unlawful, or at least unwise, to take over the maintenance of this or any other privately built memorial plaque.

Respectfully yours,

JOHN J. MURPHY,
Deputy Commissioner.

SIRENS, FIRE DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, August 18, 1947.

To the City Council.

Gentlemen,—I transmit herewith communication from the Fire Department relative to your order of August 4, 1947, concerning the prohibiting of the use of sirens on fire apparatus after 11 o'clock p. m.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,

Fire Department, August 15, 1947.

Mr. J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir,—Reference is made to your letter of August 6 with attached order from the City Council, dated August 4, 1947, which requests the Fire Commissioner to prohibit the use of sirens on fire apparatus after 11 p. m.

Attention is called to paragraph 3 of Special Order No. 95, copy attached, which covers changes in department regulations pertaining to the use of bells and sirens on apparatus.

Very truly yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

August 14, 1947.

From the Acting Chief of Department.

To the Deputy Chief.

Subject: Rules and Regulations of the Boston Fire Department Adjustments.

The following adjustments in Rules and Regulations are hereby announced:

I. Strike out Rule 161; substitute the following:

Rule 161. When fire apparatus approaches the intersection of streets, where traffic signal lights are located, the driver shall abide by the State statute, which, insofar as fire department apparatus is concerned, contains the following:

A driver of fire apparatus while going to a fire or responding to an alarm, may drive such apparatus through an intersection of ways contrary to any traffic signs or signals regulating traffic at such intersection if he first brings such apparatus to a full stop and then proceeds with

caution and due regard for the safety of persons and property, unless otherwise directed by a police officer regulating traffic at such intersection.

II. Strike out Rules 179 and 180; substitute the following:

Rule 179. Speed of apparatus, in responding to an alarm of fire must be consistent with safety, good judgment, and traffic conditions. Condition and type of apparatus must be considered. In covering other quarters on multiple alarms, and, in returning from fires, the rate of speed must conform with the speed limits prescribed by the State Registry of Motor Vehicles, which states that: (a) Speed shall not be greater than is reasonable and proper, having regard to traffic and the use of the way and the safety of the public. (b) Speed outside a thickly settled or business district shall not exceed thirty miles per hour for the distance of a quarter of a mile. (c) Speed inside a thickly settled or business district shall not exceed twenty miles per hour for the distance of one eighth of a mile. (d) Speed in any place where the operator's view of the road traffic is obstructed either upon approaching an intersecting way or in traversing a crossing or intersection of ways, or in going around a corner or a curve in a way, shall not exceed fifteen miles per hour. Company commanders shall be held responsible at all times for the enforcement of this rule.

III. Strike out Rule 187; substitute the following:

Rule 187. To guard against accidents, bells or sirens shall be sounded with a frequency compatible with conditions en route. These signals shall be dispensed with, when consistent with safety, in the immediate vicinity of hospitals, theatres, churches or places of a public character when people are likely to be assembled there. Discretion shall also be exercised when passing through hotel and residential sections late at night.

EXCHANGE OF LANDS WITH THE COMMONWEALTH OF MASSACHUSETTS.

The following was received:

City of Boston,

Office of the Mayor, August 12, 1947.

To the Honorable City Council.

Gentlemen,—In 1928 the City of Boston leased from the Commonwealth of Massachusetts a parcel of state-owned land and flats containing approximately 131 acres situated on the southwesterly shore of East Boston in Boston Harbor. Upon these shore acres was established the Boston municipal airport and the central and parent parcel of the present vast area now known as the General Edward Lawrence Logan Airport.

The City of Boston established, developed, enlarged, maintained and operated this municipal airport through the years 1928-1941 and in this latter year through enactment of legislation, chapter 695, Acts 1941, and by an order passed in City Council, October 27 and November 10, 1941, and approved by the Mayor, November 12, 1941, transferred to the Commonwealth of Massachusetts this airport, including the original leased acreage plus the additional areas acquired and developed by the city.

The Commonwealth of Massachusetts from 1941 to the present day has developed, operated and maintained this airport. In the process of its development the Commonwealth has acquired vast areas of upland and tidal lands adjacent to and surrounding our former municipal airport. Surrounded by the additional lands acquired for airport purposes, but not included therein by the state are situated two park and playground areas owned by the City of Boston, World War Memorial Park and William Amerena Playground. Both of these parcels of city-owned property are situated within the proposed enlargement of the airport.

In 1945 the Legislature through the enactment of chapter 383, Acts 1945, authorized the Department of Public Works of the Commonwealth of Massachusetts and the City of Boston to enter into an agreement whereby the City of Boston would agree to exchange the lands known as World War Memorial Park and the William Amerena Playground to the Commonwealth and the State Department of Public Works would agree to acquire lands and construct a recreation area or areas including grading, construction of suitable buildings, playgrounds and appurtenances thereon and would further agree to exchange such lands to the city.

In the same year 1945, the General Court by the passage of chapter 47, Resolves 1945, authorized and directed the State Planning Board to investigate and report on park, beach and recreational facilities in East Boston. The State Planning Board in its report to the General Court of Massachusetts dated March 1, 1946, reported in part, as follows:

"In accordance with said resolve and order the State Planning Board submits herewith its final report.

"The resolve directs attention to the subject matter of House Bill No. 395 of 1945, which called for acquisition of and development by the Metropolitan District Commission for park and

recreational purposes of certain property in the East Boston district. The project described by the bill would place the proposed park facilities along the former location of the Boston, Revere Beach and Lynn Railroad, between Maverick street and Orient Heights. For several reasons this location would not be feasible. First, the portion of the old right of way between Porter Street and Harbor View would be contained in areas being taken for the Logan International Airport development. Obviously no park and recreation area could be laid out traversing practically the entire width of the airport; second, the remaining right of way between Harbor View and Orient Heights is to be used for rapid transit purposes when the proposed extension from Maverick Square station is built. That portion of said extension between Maverick Square and Day Square was authorized by chapter 692 of the Acts of 1945.

"As a result of conferences with the State Planning Board and officials of other departments involved, the petitioner under House Bill No. 395 has agreed that the above objections are well founded. It is the Board's understanding that the petitioner's chief aim was toward the general improvement of recreational facilities for the district rather than strict adherence to the proposal for the development of a specific location as proposed by the bill. Accordingly the Board, acting under a broad interpretation of the intent of the resolve (chapter 47), has directed its attention to a study of the over-all requirements for the district, with particular attention to the replacement of World War Memorial Park and the Amerena Playground.

"Chapter 383 of the Acts of 1945 provides that if the Commonwealth takes for airport purposes the recreational area known as World War Memorial Park or any other existing playgrounds they shall be replaced by substitute areas by the State, subject to the approval of the City of Boston. It appears to be necessary to take two such areas for the development of the airport,—namely, World War Memorial Park and the Amerena Playground.

"World War Memorial Park, formerly known as Wood Island Park, is a promontory containing approximately 55.6 acres located on the present southerly shore of East Boston. Its topography is of a somewhat rolling character, partially wooded and with a beach approximately 2,000 feet in length. The park contains two baseball diamonds, a quarter-mile track, field house, bath house, and various open play areas. A considerable amount of the area is available for picnicking and other activities. The beach, however, has afforded bathing only at high tide, and is not available at other times because of exposed mud flats. For the duration of the war a considerable portion of the park has been used by military forces.

"Amerena Playground, located near the Jeffries Point section on Porter Street, contains approximately 3.6 acres and has a small field house. It is the largest playground in that part of East Boston. This area also will be taken by the State for airport purposes.

"An investigation of East Boston's population distribution indicates that neither World War Memorial Park nor Amerena Playground is so located as to best serve the people of the district. World War Memorial Park is located at the foot of Neptune Road, a parkway type roadway running from Day Square to the park. This area is, in fact, one of the most sparsely built-up sections in East Boston. The bulk of East Boston's population is located in the upper or westerly end of the district.

"From the standpoint of convenience to the people to be served, the substitute area to take the place of World War Memorial Park should be located west of Day Square. This, however, is not feasible because all of that section is solidly built up. There are several small playgrounds adjoining school yards scattered throughout the district, but these could not be enlarged without considerable takings of residential property. In like manner no opportunity for substitution for the Amerena Playground exists in the Jeffries Point section without resorting to property takings. The Planning Board is reluctant, particularly under present housing conditions, to propose any plan which would require the taking of residential property in order to provide for recreational areas.

"In the opinion of the Planning Board the solution rests not in attempting to duplicate World War Memorial Park, but in providing more recreational facilities in the western end of the district where they are most needed, and in providing a suitable beach as near as possible to the World War Memorial Park beach.

"Members of the Board's engineering staff have for some time been engaged in the study and design of the Logan International Airport surface approaches, both by highway and rapid transit, in cooperation with the State Department of Public Works, the Post-War Highway Commission, the Metropolitan Transit Recess Commission, the Boston Transit Department, and the City Planning Board. The proposed designs of these two facilities incorporate a traffic interchange and rapid transit station near the intersection of Porter and Orleans Streets within the airport limits. The approach roadway layout at this point is designed as a two-level

arrangement with long radius directional curves resulting in a space of several hundred feet in width between the inbound and the outbound airport roadways. This roadway spacing will provide an area of approximately thirteen acres which can be made available for recreational purposes. Within this area, which will be surrounded by the airport roadways and partly surmounted by the overhead highway, can be placed a play field of excellent layout and capacity. Preliminary plans have been drawn showing two full-size baseball diamonds, quarter-mile track, football field, soccer field, two softball diamonds, six tennis courts, field house, swimming or wading pool, and small children's game and play areas. There is also room for the erection of bleachers seating approximately 5,000 spectators. Such a field could be built for approximately \$350,000. It would provide ample play facilities for sections of East Boston where they are most needed.

"Several schemes for the World War Memorial Park substitution have been suggested. One of these, Scheme 'A' on the accompanying map, would be in effect a relocation and duplication of the park about 2,100 feet easterly of its present location, or 800 feet farther away from Day Square, with a boulevard approach to be provided by the extension of Neptune Road. The location suggested, however, for its major part would be located under the approach zones of one of the proposed airport runways. In the opinion of the Planning Board such an arrangement could not be entirely satisfactory, as the frequent passage of low-flying planes over a recreational area would not be conducive to full enjoyment of the facilities. Furthermore, this suggested layout could not be accomplished without a substantial taking of residential properties in the Harbor View section. It is estimated that this scheme would cost \$1,510,000.

"There is available, however, a stretch of water front which will lie entirely outside of all approach zones, and would at the same time be easily accessible from Bennington Street, the main highway through East Boston to Orient Heights. It is land being taken by the State for the airport, consisting mostly of flats and involves no improved property.

"It is indicated as Scheme 'B' on the map. Approximately twenty-three acres could be produced by filling, affording an opportunity for 2,600 feet of beach, a bath house, one baseball diamond, and small children's play areas. It could be built at a cost of approximately \$685,000.

"As a compromise between Scheme 'A' and Scheme 'B', it might be possible to devise a plan which would incorporate some of the features of both by adopting a layout similar to Scheme 'C' shown on the map. This layout, containing thirty-four acres, would embody the crescent-shaped beach of Scheme 'A', but would move the play area clear of the approach zone and at the same time provide a beach similar to Scheme 'B'. This layout could be further developed in the future if desired by extending the boulevard from Neptune Road past the beach to Bayswater Street, and thence along the water front, through the Belle Isle Inlet and across the lowlands to connect with Winthrop Avenue at Beachmont as shown by Scheme 'D'. It is estimated that Scheme 'C' would cost \$920,000.

"The beach provided by either of these schemes would front upon a bay which would be in part created by the dredging and filling of the airport. This area, as in the case of Wood Island Park, has not up to now provided healthful bathing conditions because of pollution caused by sewer discharges.

"The question of the pollution of the tidal waters about East Boston, and particularly those north of the airport, due to the overflow of sewage, is an important factor in the construction of any public bathing or recreational area in this region. The sewerage system of East Boston is constructed on the combined plan for the removal of domestic sewage and limited amounts of storm water, but at time of rainfall and when snow is melting rapidly sewage overflows at various points about East Boston. The present North Metropolitan main sewer extends from the East Boston pumping station of the Metropolitan District Commission at Chelsea Creek across Belle Isle Inlet, where it is in the form of an inverted siphon, through Winthrop to an outlet in deep water just south of Deer Island. At the present time the Metropolitan pumping station at Deer Island is not capable of removing all of the sewage which might be pumped to the sewer described at East Boston.

"The new North Metropolitan relief sewer which now leads to the East Boston pumping station is at a comparatively low elevation, and, while this sewer is used only as a relief sewer for the removal of storm water and sewage at times of storm, some of this sewage is pumped into the present North Metropolitan outfall sewer in greater quantities than the Deer Island pumping station is able to handle; hence, the sewage must overflow from this main sewer at such times. This overflow occurs at the Belle Isle Inlet crossing, which is at the easterly extremity of East Boston at the line between East Boston and Winthrop. Any sewage overflowing at this point would flow into the tidal waters inside and northeast of the airport and in the general vicinity of an otherwise favorable location for a recreational area for East Boston. In addition

sewage now overflows and must continue to overflow into Chelsea Creek until the North Metropolitan relief sewer is extended to Deer Island. There also are various overflows on the sewers in East Boston which discharge into the inner harbor; hence, the tidal waters in the vicinity of East Boston are now seriously polluted, not only with sewage but with oily and other wastes, especially at times of storm.

"Under special act of the Legislature, works are now being designed for more adequate pumping facilities at Deer Island and for the treatment of the sewage, and there are bills before the Legislature providing for an investigation for the extension of the new relief sewer between East Boston and Deer Island.

"Representatives of the Department of Public Health have stated that none of the tidal waters in the vicinity of East Boston are now satisfactory for public bathing purposes, and while these conditions will be corrected in due course, and while it is probably permissible to proceed with the construction of recreational facilities, it would seem inadvisable to actually construct bathing facilities in the tidal waters in this vicinity under present conditions.

"Consideration has been given to the construction of artificial bathing places in East Boston where water from the municipal supply would be used for bathing. Engineers of the Department of Public Health have reported that it is practicable to construct such bathing facilities and that they can be maintained in a satisfactory condition.

RECOMMENDATIONS.

"1. That the recreation area in the airport approach interchange near Porter Street be immediately built at an estimated cost of \$350,000.

"2. That the compromise plan 'C' be authorized at an estimated cost of \$920,000, construction to be contingent upon the proper sewerage construction to eliminate pollution.

"3. That while the recommendations of this report seem to fulfill the State's obligation regarding replacement of recreational facilities taken for the airport, there still exists considerable playground deficiencies in the upper section. This should be the subject of further study by the Boston City Planning Board and the Boston Park Department."

The Legislature after consideration of the State Planning Board report enacted chapter 516, Acts 1946, entitled "An Act Providing for the Construction by the Department of Public Works of Certain Recreation Areas in the East Boston District of the City of Boston." This statute authorizes and directs the State Department of Public Works, provided the City of Boston and the Commonwealth of Massachusetts enter into the agreement for the exchange of lands set forth in section 3, chapter 383, Acts 1945, to construct a recreation area in the so-called airport approach exchange near Porter street as recommended by the State Planning Board in its special report and further authorized and directed the State Department of Public Works to construct the said recreation area designated as "Scheme C" in the special report of the State Planning Board.

I have recently conferred with representatives of the State Department of Public Works who inform me that this department is ready to proceed under the authorization and direction of the legislative mandate for the construction of the two recreation areas described in the State Planning Board report but that as a necessary precedent to commencement of the proposed projects by their department is the agreement for the exchange of lands between the Commonwealth and the city as required by the provisions of chapter 383, Acts 1945, and chapter 516, Acts 1946. The representatives of the State Public Works Department further inform me that in the present expansion and development of the airport it is not intended to utilize World War Memorial Park and that until such time as this land is essential to the airport the city may continue to use World War Memorial Park for park and playground purposes.

I present to you herewith an order whereby your Honorable Body may grant the necessary authorization to enable and effectuate the exchange of lands by and between the Commonwealth of Massachusetts and the City of Boston and thereby permit the State Department of Public Works to proceed with the construction of the proposed recreational areas. I request your consideration and passage of the accompanying order.

Respectfully,
J. B. HYNES,
Temporary Mayor.

Whereas, In section 3, chapter 383, Acts 1945, "An Act Directing the Department of Public Works to Make Provision for the Continued Development of the General Edward Lawrence Logan Airport at East Boston," it is provided:

"Section 3. If the use of any lands owned by the City of Boston and held for any purpose specified in chapter forty-five of the General Laws is necessary for the purposes of said airport, the department and said city are hereby authorized to enter into an agreement exchanging such lands for other lands to be acquired by the department, on which the department shall construct a recreation area or areas to be approved by said city, and the department is further authorized to take by eminent domain

under chapter seventy-nine of the General Laws, or otherwise acquire, the necessary lands or rights therein for the construction of the recreation area or areas, and do the necessary grading and construct suitable buildings and playgrounds and appurtenances therefor"; and

Whereas, In chapter 516, Acts 1946, "An Act Providing for the Construction by the Department of Public Works of Certain Recreation Areas in the East Boston District of the City of Boston," it is provided:

"The department of public works, in carrying out the duties imposed upon it by section three of chapter three hundred eighty-three of the acts of nineteen hundred and forty-five and subject to the provisions of said section three relative to the making of an agreement by said department and the city of Boston, is hereby authorized and directed to construct a recreation area in the so-called airport approach exchange near Porter street in the East Boston district of the city of Boston, as recommended by the state planning board in its special report to the general court, printed as current house document numbered sixteen hundred and four, and is hereby further authorized and directed to construct in said East Boston district the recreation area recommended by said planning board in its said report and referred to therein as 'Scheme C.' For the purpose of carrying out the provisions of this act, said department may expend sums not exceeding in the aggregate, one million three hundred thousand dollars, which shall be paid from the funds provided by section four of said chapter three hundred and eighty-three. Said recreation areas shall, upon their completion, be maintained by the park department of the city of Boston"; and

Whereas, The City of Boston owns in fee approximately 55.6 acres of upland and 30.4 acres of flats situate on the southeasterly shore of East Boston adjacent to the General Edward Lawrence Logan Airport. This area of land and flats now known as World War Memorial Park was acquired by the City of Boston for public park purposes by purchase in accordance with the provisions of orders of the Board of Park Commissioners of the City of Boston passed November 21, 1882, and June 26, 1891; and

Whereas, The City of Boston owns in fee approximately 3.63 acres of land bounded by Porter, Wellington, Gove and Geneva streets, East Boston. This parcel of land, known as the William Amerena Playground, was taken for public playground purposes under an order of the Board of Street Commissioners passed May 22, 1925, and approved by the Mayor of the City of Boston May 25, 1925; and

Whereas, The Commonwealth of Massachusetts owns in fee approximately 13 acres of land within the limits of the General Edward Lawrence Logan Airport at the so-called airport approach exchange near Porter street, East Boston; and

Whereas, The Commonwealth of Massachusetts owns in fee approximately 34 acres of land and flats situated on the southerly side of Bennington street near Saratoga street, East Boston; and

Whereas, The State Planning Board of the Commonwealth of Massachusetts as authorized and directed by the provisions of chapter 47, Resolves 1946, prepared and filed with the General Court a report relative to recreational facilities in the East Boston district of Boston known as House Document No. 1604, 1946; and

Whereas, The Department of Public Works of the Commonwealth of Massachusetts was authorized and directed by the provisions of chapter 516, Acts 1946, hereinbefore referred to, and subject to the provisions of section 3, chapter 383, Acts 1945, hereinbefore referred to, to construct a recreation area on that area of land at the airport approach exchange near Porter street as recommended in the report of the State Planning Board hereinbefore referred to; and

Whereas, The Department of Public Works of the Commonwealth of Massachusetts was further authorized and directed by the provisions of chapter 516, Acts 1946, hereinbefore referred to, to construct the recreation area recommended and referred to as "Scheme C" in the report of the State Planning Board, hereinbefore referred to; and

Whereas, It is the intent of the Commonwealth of Massachusetts and of the City of Boston that the legal requirements necessary to enable and to effectuate the exchange of lands by and between the Commonwealth of Massachusetts and the City of Boston be complied with in order that the recreation area to be located at the airport approach exchange near Porter street and the recreation area to be located near Bennington street designated as "Scheme C" as described in the State Planning Board report hereinbefore referred to, may be constructed by the Commonwealth of Massachusetts as soon as practicable; now, therefore, it is hereby

Ordered, That his Honor the Mayor or the Temporary Mayor of the City of Boston be, and he hereby is, authorized and directed to enter into, to execute, to deliver, to receive and to receipt for in the name and behalf of the City of Boston any instrument or instruments which may be necessary to enable and to effectuate the construction by the Commonwealth of Massachusetts of the recreation area to be located at the airport approach exchange near Porter street and of the

recreation area designated as "Scheme C," heretofore referred to, to be located near Bennington street, and his Honor the Mayor or the Temporary Mayor of the City of Boston, be and he hereby is, authorized and directed to enter into, to execute, to deliver, to receive and to receipt for in the name and behalf of the City of Boston any instrument or instruments which may be necessary to enable and to effectuate the exchange of the following described parcels of land by and between the Commonwealth of Massachusetts and the City of Boston in accordance with the provisions of section 3, chapter 383, Acts 1945, and chapter 516, Acts 1946:

A. Lands to be exchanged by the Commonwealth of Massachusetts:

1. Approximately 13 acres of land, together with the recreation area, buildings, playgrounds and appurtenances therefor, constructed thereon within the limits of the General Edward Lawrence Logan Airport, airport approach exchange, near Porter street, East Boston; and
2. Approximately 34 acres of land and flats together with the recreation area, buildings, playgrounds and appurtenances therefor, constructed thereon, situated on the southerly side of Bennington street near Saratoga street, East Boston.

B. Lands to be exchanged by the City of Boston:

1. World War Memorial Park, East Boston, containing approximately 55.6 acres of upland and 30.4 acres of flats.
2. William Amerena Playground, Geneva street, East Boston, containing approximately 3.63 acres of land.

Referred to Committee on Public Lands.

TRANSFERS OF APPROPRIATIONS.

The following was received:

City of Boston,
Office of the Mayor, August 18, 1947.
To the City Council.

Gentlemen,—The enclosed requests for transfers of appropriations, together with the accompanying orders, are forwarded for consideration and adoption by your Honorable Body.

Respectfully,
JOHN B. HYNES,
Temporary Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

SUNDAY BAND CONCERTS.

The following was received:

City of Boston,
Office of the Mayor, August 18, 1947.
To the City Council.

Gentlemen,—I submit herewith an order providing for the appropriation of eighteen hundred dollars (\$1,800) from the Contingent Fund to cover the city's share of the cost of a series of four band concerts now being held on Sunday afternoons at Jamaica Pond, Franklin Park, Marine Park in South Boston, and World War Memorial Park in East Boston. These four locations are the only park areas where permanent bandstands are available. Under an arrangement with the Musicians' Union, the first two concerts in the series are to be paid for by the city and the final concerts are to be donated by the union. I am informed that it is fifteen years or more since Sunday public band concerts have been conducted as a Park Department activity. It should be possible to determine from the attendance at the concerts now being provided whether this type of public enter-

tainment and recreation still retains an appeal to the public sufficiently strong to warrant its continuance in subsequent years. I respectfully recommend adoption of the accompanying order by your Honorable Body.

Respectfully,
JOHN B. HYNES,
Temporary Mayor.

Ordered, That a sum not in excess of eighteen hundred dollars (\$1,800) be authorized to be expended from the Contingent Fund to meet the city's share of conducting public band concerts on Sunday afternoons.

Referred to Executive Committee.

REPORT OF BOSTON FINANCE COMMISSION ON HOUSING CONTRACTS.

The following was received:

City of Boston,
Finance Commission, August 12, 1947.
Hon. John B. Hynes,
Mayor of Boston.

Honorable Sir,—Since its request to you made Wednesday, August 6, that execution of three contracts awarded by the Boston Housing Authority for veterans' housing be deferred until the Commission could make inquiry, the Finance Commission has made inquiry concerning the subject and reports that in these awards there are some possibilities of future difficulties which might defeat the effort speedily to provide more housing for veterans.

The work to be performed under these contracts is:

1. The construction of 8 one-family and 30 two-family units on a site on Baker street, West Roxbury. The award in this case is to a concern incorporated as the Allied Engineering Corporation, the amount of the bid being \$634,800.

2. The construction of 19 two-family units on a site on River street, Mattapan. The award in this case is to a concern incorporated as Construction Units, Inc., the amount of the bid being \$335,449.

3. The construction of roads and public utilities in the River street site. The award in this case is to a concern incorporated as Gil Wyner Company, Inc., the amount of the bid being \$356,600. The award in each case is to the lowest bidder.

The Finance Commission believes that there are three important requisites to the making of any contract at any time by any public authority. These are that the contracting firm to whom an award is to be given must have satisfied the awarding authority that:

1. It is able to finance the job.
2. It is capable of performing the work to be contracted for.
3. Its reputation is such as to warrant the confidence that it will perform reasonably well the requirements of the contracts.

It appears from conference with some members of the Housing Authority that although some members made individual inquiry on some of these points, the Housing Authority did not obtain information which is of paramount importance in its award of contracts of this size. One member, for instance, stated on the record that he knew nothing about one of the concerns to whom an award was given. Another member stated that he had talked with various people of his acquaintance about one of the concerns, but had received no information on certain points either from the Board or otherwise. Another member stated he conferred with a representative of each concern in the office of the Housing Authority, and had been assured of each concern's standing, but had not asked for nor received any detailed financial statement either from the concern itself or any independent source.

The fact of the matter is that the Housing Authority never had before it a complete and checkable financial statement of any one of the three concerns mentioned.

The Finance Commission's conclusion is, therefore, that the Housing Authority neglected to inform itself satisfactorily on the important point as to whether or not the company to which the award is made has a financial standing which gives assurance of its being able to complete the contract awarded. Since each of these contracts requires payments of hundreds of thousands of dollars, a careful inquiry into the financial standing of each contractor is a primary requisite.

On the capability of the firm involved, the Commission has found that in each there are persons who have had experience in construction work, and have good reputations in that field. However, the degree of influence in these companies of these persons has not been ascertained.

With respect to integrity of performance, there is little experience on which to rely. One was incorporated in April, 1946, but its charter was sold to a new owner, presumably, in January, 1947. One member of the Housing Authority has stated on the record that he knows nothing about it. (The Commission believes he meant he knows nothing of its finances or capability.) This member stated he was and is opposed to this award to this company. This company was given an \$82,000 contract by the Housing Authority soon after the ownership of the corporation changed hands.

Another of the corporations came into existence as such in February, 1947, and soon after obtained a \$172,000 contract from the Fire Department. One of the leading members of this firm has done business under his own name for some time past, but in this instance he formed a new corporation

for this city work. Apparently officially, nothing more is known of it by the Housing Authority.

The third company was incorporated in January, 1940. It appears that the Housing Authority has had nothing to do with it officially in regard to the contracts, although the members present seemed to have information obtained informally or individually which satisfied them.

It was stressed by the members of the Housing Authority appearing before the Finance Commission that the contract in each of these instances under question has furnished a one hundred per cent performance bond. The performance bond company is guaranteed in bonding orders as a stock company. The Federal Government has fixed a limit in the amount of a bond which it will accept from this company at a rate which is considerably less than the amount involved in any one of the three contracts under discussion.

The Finance Commission believes a performance bond is a substantial amount which is a part of the contract. Nevertheless, while a performance bond might be made a guarantee of good performance in the absence of serious work and that may not be because of any fault of the bonding company, but because of the unwillingness of the city in most cases to place the bonded company on account of the unwillingness of the contractor. In that event, the city would then stand as approving the standing of a contractor with the bonding company by failing the bonding company to obtain performance on the contract required when the contract is based in that respect.

In the case of these contracts, time is of the essence more than in ordinary contracts. Housing is needed extremely for tenants. In any case, it is often stated that bonds take care of litigation, but this is not always the case.

Besides the question of the financial stability and performance ability of the contractor, the Finance Commission has found another consideration which has possibility of causing delay in construction. The law requires to whom the contract is awarded in the instance has among the subcontractors a non-union concern. This involves the housing construction. The Chairman of the Housing Authority, who has had an organization of his own, stated on the record that there is a possibility of a strike by the union contractors with the housing agency. The Commission has been informed by members of the Housing Authority that this particular point has provoked considerable discussion and feeling in the Housing Authority.

The Commission is bringing these questions to your attention because you have full authority in the execution of the contract. It suggests that you, as a committee, consider the question of the subcontractors, innuendoes, and valid criticisms by conference with the Housing Authority before you give the contracts your approval. Not only should this be done speedily in the interest of getting this construction work under way at the earliest possible date, but also because the Commission has been informed that one of the contractors has his equipment already on the job and has started work without waiting execution of the contract.

It is a matter of common knowledge that various subdivisions prominent in the setting of the water corporations are connected with other firms or corporations which are engaged in the same line of endeavor, nevertheless, in each instance, the contracting corporation is a new concern with no previous financial record.

Respectfully submitted,

EDWARD F. MULLEN, Chairman,
ALEXANDER WHEELER,
LEO J. DUNN,
FREDERICK S. DEANE,
FREDERICK W. ROOPE,
The Finance Commission.

ROBERT E. CONNOR,
Secretary.

Be it ordained by the City Council of Boston.

Section 1. The Health Department of the City of Boston, subject to the approval of the Department of Health of the Commonwealth of Massachusetts in accordance with chapter 94, section 146 of the General Laws, shall make and enforce reasonable rules and regulations as to the conditions under which all articles of food and drink may be kept and exposed for public sale and consumption in order to prevent contamination thereof and injury to public health.

Section 2. The Health Department shall periodically inspect, under such rules and regulations, each place of business holding a license issued by the City of Boston pertaining to the sale of food and/or drink no less than once in every six-month period, and no less than twice per year.

Section 3. The Health Department shall rate each such place of business in accordance with the reasonable rules and regulations as to quality of cleanliness, wholesomeness, and fitness of the food and drink, equipment, and condition of the premises as specified by the Health Department. The Health Department shall establish the following ratings pursuant to the above inspection: Excellent, Good, Fair, Poor. Such ratings shall be posted by the license holder in clear public view as close as is reasonably possible to the entrance of said inspected establishments within forty-eight hours of the time such ratings are presented to the license holder.

Section 4. Any place of business inspected may abstain from posting such notice if within forty-eight hours after presentation of such rating a written notice of appeal is filed with the Health Department asking for a hearing and reinspection of the premises. Such hearing and reinspection shall be held by a board of three inspectors of the Health Department appointed by the chairman of the Health Department provided that such board shall not include the inspector who rated the premises then under appeal. The decision of the three-man board shall be made within seven days of the original presentation of the rating as given by the original inspector. The rating as determined by the board shall be posted immediately by the place of business upon notice of said board's decision.

Section 5. The fee for each inspection by an inspector of the Health Department of the City of Boston shall be five dollars. The fee for each reinspection by the three-man board of the Health Department of the City of Boston shall be fifteen dollars.

Section 6. (a) Any person, firm or corporation violating the above section concerning the posting of its rating shall upon conviction before an appropriate court be fined up to twenty dollars for each day, the total fine not to exceed one hundred dollars.

(b) Upon the conviction of any person, firm or corporation for violation of section 6 (a), the Health Commissioner for the City of Boston shall institute proceedings before the appropriate

board for the cancellation of all licenses pertaining to the sale of food and/or drink held by said person from the City of Boston.

HOSPITAL DEPARTMENT.

INVITATION FOR PROPOSALS FOR PAINTING IN PEABODY BUILDING, SURGICAL BUILDING, MATERNITY AND GYN BUILDING, THORNDIKE BUILDING, MEDICAL BUILDING, AND WARD 1 OF PAVILION 3.

The Trustees of the Boston City Hospital, hereinafter referred to as the Awarding Authority, invite sealed proposals for painting in Peabody Building, Surgical Building, Maternity and GYN Building, Thorndike Building, Medical Building, and Ward 1 of Pavilion 3, of the Boston City Hospital, 318 Harrison avenue, Boston, Mass.

Proposals will be received until Friday, September 19, 1947, at 12 o'clock noon, Eastern Daylight Saving Time, at the office of the Superintendent of the Boston City Hospital, 818 Harrison avenue, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the architect, the John M. Gray Company, 175 High street, Boston, Mass. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Superintendent of the Boston City Hospital, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the bidder and a surety company in the amount of 5 per cent of the base proposal shall be submitted with each bid, filed with the Superintendent of the Boston City Hospital.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, laborers, etc., in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, a copy of which schedule is attached to the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract. Specifications may be obtained at the office of the architect, the John M. Gray Company, 175 High street, Boston, Mass. A deposit of \$25 in cash or a certified check will be required for each set of specifications, and this deposit will be returned to the bidders upon receipt of said specifications in good condition by the architect.

A performance bond, issued by a surety company satisfactory to the Awarding Authority in the full amount of the contract, will be required of the successful general contractor.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it be in the public interest to do so.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Awarding Authority, and no bid of a sub-bidder shall be withdrawn prior to thirty (30) days from the opening of bids, without the consent of the Awarding Authority.

PUBLIC BUILDINGS DEPARTMENT.

INVITATION FOR PROPOSALS FOR FURNISHING AND INSTALLING OF 126 SINGLE-TIER STEEL LOCKERS AT SOUTH BOSTON MUNICIPAL BUILDING AND NEW GYMNASIUM.

The Superintendent of Public Buildings of the City of Boston, hereinafter referred to as the Awarding Authority, invites sealed proposals for furnishing and installing of 126 single-tier steel lockers at South Boston Municipal Building and new gymnasium.

Proposals will be received until 12 o'clock noon, Friday, September 12, 1947, at the office of the Awarding Authority, Room 1005, City Hall Annex, at which time and place they will be opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

No bidder may withdraw his bid within thirty days after the actual opening thereof.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$400, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Specifications may be obtained on and after Saturday, September 6, 1947, at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to reject any and all bids if it be in the public interest so to do.

JAMES E. SULLIVAN,
Superintendent of Public Buildings.

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 39

SATURDAY, SEPTEMBER 13, 1947.

NO. 37

TEMPORARY MAYOR JOHN B. HYNES ADVOCATES BRIDGE LINKING BOSTON AND EAST BOSTON RATHER THAN CONSTRUCTION OF ANOTHER TUNNEL AS MEANS OF RELIEVING SOME OF BOSTON'S TRAFFIC PROBLEMS — ADDRESSES SPECIAL LEGISLATIVE RECESS COMMISSION ON TRAFFIC, HOUSING, LIGHTING AND RECREATION — CALLS ATTENTION OF SESSION TO VEXATIOUS DIFFICULTIES NEEDING SOLUTION TO GIVE BOSTON BUSINESS AND COMMERCIAL ADVANTAGES THAT SHOULD BE CITY'S — SCORNS PARKING HOGS WHO SELFISHLY ADD TO BURDENS.

The following is the statement by Temporary Mayor John B. Hynes before Special Commission on Traffic, Housing, Lighting and Recreation in Boston, at State House hearing at 11 a.m., Tuesday, September 9:

At the outset may I say that you members of this legislative commission have been vested with the responsibility of studying two of Boston's most important and pressing problems, traffic and housing. I understand, however, that this hearing is to deal only with traffic, and that housing will be considered at a later hearing.

May I suggest, first, that your commission make a study of our present parking laws with a view to determining whether you should recommend to the Legislature the establishment of stiffer penalties for motorists who violate Boston's parking regulation.

When the suggestion is offered that more teeth be placed in the parking laws, it is sometimes misconstrued as an attempt to stop parking and to keep business out of Boston.

As Temporary Mayor of Boston my objective is just the reverse, and I am certain the members of your commission have the same objective. I want to attract more business to Boston. I want traffic to come here. I want it to be a busy, thriving city. I want to make the most of our parking facilities and to capitalize on them to the fullest possible extent.

Some motorists, I suspect, are under the impression that traffic regulations and restrictions are enacted through a spirit of sheer venom and meanness. Actually, of course, they are established, after scientific study by experts, to meet the necessity of conditions and circumstances.

Like All Large Cities.

As you know, Boston is an old city. Many of its streets, particularly in the downtown district, are narrow, and were not laid out for the automobile age as we know it today. It is impossible to widen them, and we have to make the best of the conditions that exist. That problem is not unique to Boston. It faces the officials in almost every large city in the nation.

Some of our streets in the downtown area are so narrow that to permit parking on them would be to create traffic bottlenecks, cause congestion, and slow up travel.

On other streets in the vicinity of the shopping district we limit parking to a two-hour period. We do that because we simply do not have the facilities to allow unlimited parking. It would be nice if we had enough parking facilities to permit motorists to park on those streets as long as they pleased. But we don't have such facilities, and it hurts the city if we don't make the fullest use of those we do have.

We want the spaces on those streets to be used by persons who come to Boston to shop and do business. That's why the two-hour limit is fixed. Those persons who see fit to drive their automobiles to work, or those who find it necessary to park their cars for periods of more than two hours, should put them in garages or the open air parking spaces.

The motorist who leaves his automobile on a restricted street for five or six hours is depriving three or more persons of the use of that space. He is trespassing on the rights of the public and usurping privileges that cannot be granted to him without penalizing the rest of the people.

One of the things that bothers me is that too many motorists knowingly violate the parking regulations because they feel that, even if they are given a tag, the penalty is not stiff enough to worry about.

The police in Boston, I feel, do a good job in their attempts to discourage illegal parking. But in the final analysis all they can do is prosecute the motorists for violating the law. They can't prevent them from violating it, and when they do prosecute an offending motorist, the penalty is so mild that he frequently laughs it off.

TEMPORARY MAYOR JOHN B. HYNES ADDRESSES LEGISLATIVE RECESS COMMISSION ON TRAFFIC, HOUSING, LIGHTING, AND RECREATION IN BOSTON.

(Continued from page 1045.)

PUNISH PARKING HOGS.

Let me say to you before I pass on to another phase of the problem that Boston spends a tremendous sum of money annually to cope with its parking and traffic problems. The great mass of people respect and obey our regulations and restrictions. We can't afford to have our efforts nullified by a few parking hogs, and if the members of this commission conclude that more drastic penalties for parking violations will improve the situation then I hope you will recommend a change in the law.

It is the purpose of your commission to recommend for the consideration of the Legislature a specific program of proposed traffic improvements in Boston. It is highly important that that be done and that such improvements be undertaken at the earliest possible date. We cannot afford to lose any more time than is absolutely necessary by arguments and disagreements.

For your consideration I want to offer my ideas and views on the subject, and many recognized experts are due to testify before your commission. As I have stated, this problem is of vital consequence to Boston, and as Mayor I simply ask that in the final analysis you recommend the program that in your judgment would be best for Boston.

I am serving as the interim or the temporary mayor on a sort of a day-to-day basis. Some of the other witnesses you are to hear have had far greater experience with the traffic problem than I have had. But I do consider that traffic and housing are Boston's most urgent problems, and it is my hope that during my service as Mayor I will have made some contribution toward meeting them.

FREIGHT TRUCK TERMINALS.

In any over-all study of traffic conditions, we cannot disregard the problem created when trucks as big as freight cars park in the downtown area. Many of these trucks load and unload their merchandise at various points in the city, adding to the already serious congestion. It would seem to me that much consideration should be given to the construction of north and south truck terminals. I am sure that such terminals would contribute materially to the relief of our traffic situation. Perhaps they might be undertaken under the auspices of an authority similar to the Housing or Bridge Authority.

The Boston City Planning Board has made rather complete studies of this phase of our traffic problem, and I am sure it can furnish your commission with its report and recommendations.

The city is now in the process of spending \$5,000,000 to provide needed off-street parking facilities in the downtown area. It is my hope that before the snow flies construction work will have begun on cage garages in the shopping, leather, and financial districts. I mention this to show that the city on its own is doing its utmost to master this problem, but, after all, the city is limited as to the amount of money it can spend in one field of municipal activity. We can tackle intermediate traffic problems, but the major traffic

problems should be and must be met at the state level, for the automobiles which create that problem come from all parts of Massachusetts.

In conjunction with added parking facilities, we hope to install this year about 1,800 parking meters, and more next year, to a total of about 5,000. These meters will not only serve as a control in the parking situation, but should, in combination with off-street parking facilities and stiffer parking regulations, have a very decided effect upon the promiscuous parking which now exists in our city.

During the short time I have been Mayor I have attempted to make some progress toward improving our traffic conditions. In that respect I have received assurance that the state and federal governments will eliminate, by the construction of an underpass and overhead circle, the worse bottleneck in the city at Sullivan square.

BANISHING BOTTLENECKS.

I have also given authority to our Street Department engineers to proceed with the elimination of the bad bottleneck at Dorchester avenue and Broadway, South Boston, and I am confident that this latter work, which will be done entirely by the city, will be completed before the cold weather.

One of the questions which your commission will decide is whether it should recommend to the Legislature the construction of a bridge or a second tunnel to handle the travel between East Boston and the City Proper.

May I state that, on the basis of all the information and expert advice I have been able to secure, it appears to me that the construction of a bridge would be the wiser and sounder undertaking.

Robert Moses, New York's famous Park Commissioner, and one of the nation's foremost experts on matters of this kind, last fall was engaged by the City of New Orleans to submit a plan for meeting certain of its traffic and transportation problems. One of the matters he was asked to consider was whether a bridge should be built over a portion of the Mississippi River or a tunnel constructed beneath it.

He referred to an old engineering adage which says: "Never build a tunnel if you can build anything else." He went on to state that a two-lane tunnel would cost more to build than a four-lane bridge; that the two-lane tunnel would have less than half the capacity of a four-lane bridge; that the tunnel would take twice as long to build and would be more expensive to maintain.

I am informed by experts with whom I have conferred that essentially the same principle applies to Boston—that we can build a four-lane, high-level bridge for less than what a two-lane tunnel would cost, and that such a bridge would accommodate twice as much traffic as such a tunnel.

There may well be some strong arguments in favor of building a tunnel. But it seems to me, on the basis of all the information I have been able to obtain, that the bridge would be the more practical and less expensive project of the two, and that it would be of greater help in meeting our traffic problem in that end of the city.

If you find that the facts as I have presented them are essentially correct, and unless some strong reason is offered to show why the bridge is not the preferable project, I would respectfully urge that you recommend the construction of a bridge.

Entirely apart from the merits of a bridge and a tunnel, and whichever you may ultimately decide upon, it should be so planned that its traffic will not empty into the bottlenecks at the Boston and East Boston ends of the present tunnel. The Haymarket square and market districts cannot stand any more traffic than at the present time.

Conditions would be worsened by additional outlets into the market, Haymarket square or Porter street areas. I am inclined to believe that a southern outlet is needed from East Boston. Exactly where a bridge or tunnel should be located is an engineering problem, but its outlets and approaches should be removed from those of the present tunnel.

THE ARTERY PROBLEM.

Another of the questions you will decide is whether the so-called Central Artery or the suggested Atlantic Avenue Motorway should be approved.

At this point may I say that during the discussions earlier this year there was an apparent tendency to link the East Boston Bridge and the Atlantic Avenue Motorway into one plan and to combine the East Boston Tunnel and the Central Artery into a second plan.

I would suggest, and I assume, that your commission will consider each of these proposed projects on its individual merits. In other words, if you consider the bridge is preferable to a tunnel but that the Central Artery should be chosen over the so-called Motorway, then it seems to me you should recommend the bridge and Central Artery. In other words, I personally cannot see why the tunnel and Central Artery should necessarily go hand in hand, or why a bridge is tied up closely with the Atlantic Avenue Motorway.

Now I know that some extremely able men and some outstanding business and civic leaders, as well as such organizations as the Greater Boston Development Committee, favor the construction of a two-level Central Artery across the city. I am inclined to agree with them that the Central Artery would do more to relieve our traffic congestion than would the Atlantic Avenue Overhead Highway.

But there is also an aspect to the situation which a Mayor of Boston must consider and to which your commission should give great weight.

Boston simply cannot afford any staggering loss of taxable property. One of the jobs of the Mayor of Boston, in addition to directing the affairs of the city, as you know, is to try to attract new business and industry here and to encourage the construction of a tax-yielding property.

I realize that any artery we build across the city is going to involve some property loss. But in the case of the Central Artery I am extremely apprehensive over the property loss that would be involved, the loss of taxable property that would result, and the damage suits that might be incurred by the erection of the overhead roadway in front of business places.

There are phases of this complicated and complex problem which I will leave to the state and city traffic experts, but, if a Central Artery is to be constructed across Boston, it should be laid out in such a way that the destruction of property, the loss of tax-producing property, and the damage suits will be kept at the lowest possible level.

You cannot consider this problem merely from an engineering standpoint. I have given this matter as much study

as possible since I have received the notice of your hearing, and I have requested a report from the City Planning Board as to the losses in property the city would incur from the construction of the Central Artery, how much the city would be likely to be assessed for damages, and whether the proposed route of the artery could be revised to lessen that financial loss. When I receive that report I will forward a copy to your commission for consideration. But I understand the loss in taxable property would run to a staggering sum under the present plan.

I do not want my remarks to be construed as meaning that I am opposed to the Central Artery as a traffic improvement or that I am opposed to necessary advances to meet our traffic problem. That is not the case. But I do object very strenuously to any financial losses which the city cannot afford, and I would ask your commission to explore that phase of the problem when you are considering the advisability of these projects.

HIGHWAY JURISDICTION.

There is one other matter on which I would like to speak briefly, and which your commission might incorporate in the report it makes to the Legislature. There are some highways in Boston which should properly be under the jurisdiction of either the State Department of Public Works or the Metropolitan District Commission.

To cite just one, there is the Veterans of Foreign Wars Parkway in West Roxbury, with which Senator Bowker and Representative Burr are familiar. That is a comparatively short highway, starting from Centre street in Roslindale and running to the Charles River, where it becomes Route 1, the Providence Turnpike.

One strip of that roadway belongs to the city, one to the Metropolitan District Commission, and one to the State Public Works Department. All three agencies maintain their portions of the roadway. When there is a snowstorm the city plows clear one strip, the state plows a second section, and the Metropolitan District Commission a third portion. That is neither sensible nor intelligent.

I would suggest that your commission recommend to the Legislature that this highway and others like it, which are used essentially by traffic going in and out of Boston, be transferred to either the state or the Metropolitan District Commission.

Associate State Public Works Commissioner Hyland, Chairman Morrissey of the Metropolitan District Commission, or Public Works Commissioner Curley can supply you with a list of streets that should properly be maintained by the state, and I think that might well be the subject of a separate bill by your commission.

I want to thank you for inviting me here and for the courtesy and attention you have given me. When I receive the reports I have requested from the City Planning Board and other city agencies, I would like the further privilege of either submitting a written statement to your commission or appearing before you again.

MAYOR'S FIELD DAY FUND DISTRIBUTED.

Temporary Mayor John B. Hynes on September 4 announced the allocation of funds received from the Mayor's Annual Charity Field Day, held July 24. The

allocations were made to the various departments and agencies listed below:

Public Welfare Department, City of Boston, \$2,000.
Social Service Division, Boston City Hospital, \$2,000.
Welfare Division, Boston Sanatorium, \$2,000.
Welfare Division, Penal Institutions Department, \$2,000.
Institutions Department, City of Boston, \$2,000.
Department of Veterans' Services, City of Boston, \$1,000.
Archbishop Cushing Charity Fund, \$2,000.
Catholic Guild for the Blind, \$1,000.
Volunteers of America, Inc., \$500.
Home for Italian Children, \$500.
Salvation Army of Massachusetts, Inc., \$500.

TECH EXPERTS TO FIND PARKING METER BEST SUITED TO BOSTON.

On September 8 the Temporary Mayor made public the following:

BOSTON TRAFFIC COMMISSION.

September 8, 1947.

HON. JOHN B. HYNES.

Mayor of Boston.

DEAR SIR,—On September 5, in company with the engineers of this department, a visit was made to the office of the President of the Massachusetts Institute of Technology, at which time a proposal was made to have the Institute determine which of the many types of parking meters would be most adaptable to the needs of Boston traffic. Several factors to be determined were suggested by this department. (See attached letter which we feel is germane to this proposal.)

Please be advised that M.I.T. not only agreed to carry out the test in accordance with the procedure set by us but further made the magnanimous gesture of doing so without cost to the City of Boston on the ground that they were contributing to a public service.

In order to expedite the entire project, we have notified manufacturers of parking meters that September 15 will be the dead line for the submission of meters for testing purposes.

Sincerely yours,

LEO F. CURLEY,
Commissioner.

BOSTON TRAFFIC COMMISSION.

September 5, 1947.

MR. R. M. KIMBALL, Assistant to the President, Massachusetts Institute of Technology.

DEAR SIR,—The City of Boston is contemplating the installation of parking meters to assist in the promotion of orderly vehicular traffic control.

The legislation authorizing cities and towns to install these devices (chapter 442 of the Acts of 1947) designates, in the case of the City of Boston, the Boston Traffic Commission as the agency to have charge of the installation and maintenance of meters.

This commission is, naturally, anxious to secure the best meter available, and is desirous of obtaining the best disinterested advice in making its determination. For this reason, the commission has directed me to request that you use your research facilities to study and test several parking meters which have been submitted to us by the manufacturers. It is not intended that your analysis be restricted to the
